

NETGEAR® 48-port Gigabit Ethernet Rackmount Unmanaged Switch (GS348) Product Setup Sheet

Category Name*

Unmanaged Switches / 300 Series

Product Name*

NETGEAR® 48-port Gigabit Ethernet Rackmount Unmanaged Switch (GS348)

Ecom Product Names (4 different lengths)*

NETGEAR® 48-port Gigabit Ethernet Rackmount Unmanaged Switch (GS348)

NETGEAR® 48-port 10/100/1000 Rackmount Unmanaged Switch (GS348)

NETGEAR® 48-port Gigabit Switch (GS348)

NETGEAR® 48-Port Gigabit Ethernet Unmanaged Switch | Rackmount | Fanless | Metal | Cost-effective | Low-power consumption | 3-Year warranty and chat support (GS348)

Ecom Bullets (6 bullets; shortened)

1. 48-port auto-sensing Rackmount Gigabit Ethernet Switch
2. 96Gbps non-blocking switching architecture
3. Plug-and-play Unmanaged Switch, no configuration needed
4. Top quality components that allow the switch to work in challenging environments with a 0-50C maximum operating temperature
5. Pre-configured QoS 802.1p to automatically prioritizes voice, video-over-data.
6. Durable and rugged metal case with fanless design for silent operation

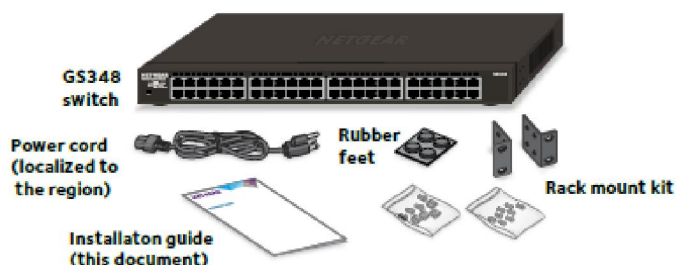

NETGEAR® 48-port Gigabit Ethernet Rackmount Unmanaged Switch (GS348) Product Setup Sheet

Key Features (10 first)*

- **Most cost-effective 48-port Gigabit Unmanaged Switch** – Connect multiple power demanding devices to your network with a single wire for power AND connectivity
- **Rackmount form factor with fanless design for quiet operation** – Adapts to your needs and configuration in any environment, even noise-sensitive (in a classroom, in a conference room, in a doctor's office...)
- **Maximum throughput at wire speed with 96Gbps non-blocking switching architecture** – Get all the connectivity you need to your devices without congestion
- **50C maximum operating temperature** – Built with top quality components that allow the switch to work in small IT closet cabinets
- **LED to indicate activity on each port and energy-efficient technology for power savings** – Check port activity directly on the switch for network activity status
- **Plug-and-play, automatic connectivity to your router or modem of 48 additional wired connections** – No need for an IT expert or a complicated user manual, just plug and play!
- **Pre-configured QoS 802.1p** : Priorities automatically latency sensitive applications like voip or video using pre-configured 802.1p
- **Sturdy metal case for reliable and quality installation** – Get the NETGEAR quality and reliability for your entry-level switch with ease-of-use and placement
- **Auto-negotiation for automatic connection at the highest common speed between switch and an end device** – Get the best of your device connectivity automatically thanks to your switch performance
- **48 10/100/1000 Mbps Gigabit Ethernet ports, up to 10x faster than Fast Ethernet for maximum performance** – Wire up for the fastest connection for your devices

Package Contents

- GS348 switch (internal PSU)
- Regional power cord(s)
- Rack mounting kit
- Rubber footpads for tabletop installation
- Quick installation guide
