

The Perfect Mobile Upgrade

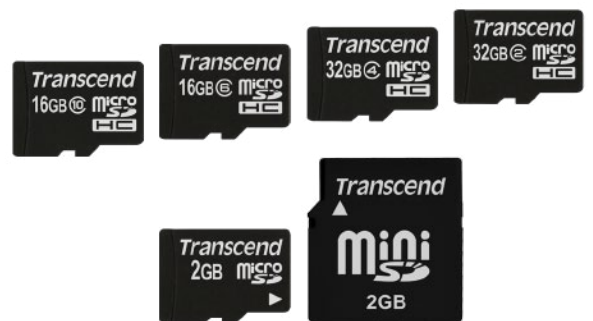

microSD™ & microSDHC™ miniSD™

Ultra-Compact Flash Memory Cards

Mobile devices are playing an increasingly important role in our daily lives. Aimed at heavy mobile users of cell phones, eBooks, tablet PCs or portable gaming consoles, Transcend's microSD/microSDHC cards are the most economical memory-expanding solution to increase the amount of built-in memory for expandable mobile devices.

No bigger than a thumb nail, Transcend's miniSD and microSD memory cards offer sufficient space for keeping hundreds of thousands of pictures, movies, music and other files on your portable device—with storage capacity of up to an incredible 32GB!

World-Class **Compatibility**
and **Performance**

microSD™ & microSDHC™ miniSD™

Ultra-Compact Flash Memory Cards

Features

- Tiny, convenient form factor
- Available in 80x Ultra speed

Weight	microSD / microSDHC: 0.4g miniSD: 1.0g
Operating Voltage	2.7V ~ 3.6V
Operating Temperature	-25°C (-13°F) to 85°C (185°F)
Connector Durability	10,000 insertions / removals
Certificates	CE, FCC, BSMI

What is the SD Speed Class Rating?

The SD Association has defined four speed classes to help users identify the speed and performance of SDHC cards.

The speed class depends on a guaranteed minimum sustained Read/Write performance under specific operating conditions.

CLASS 2

A speed of 2MB/s or higher is guaranteed

CLASS 4

A speed of 4MB/s or higher is guaranteed

CLASS 6

A speed of 6MB/s or higher is guaranteed

CLASS 10

A speed of 10MB/s or higher is guaranteed
