

SOIL & AMENDMENTS

Mulch

Ameriscape® 100% Pure Black Northern Cedar Mulch

Ground covers from the great north. Quality cedar mulch that is 100% cedar bark and wood (no fillers) and rot and insect resistant. Because it's shredded, it serves as an effective weed barrier. It has a neutral pH and breaks down very slowly, so it doesn't rob the soil of nitrogen. Colored Black with non-toxic dyes.

Soil Amendments

Down To Earth™ Calcium 96

Ultra fine and highly reactive, Calcium 96 is a natural limestone powder that provides immediate availability of this valuable nutrient for plants and microflora. With a high neutralizing value, this solution grade powder can be applied at rates lower than typical Ag lime for fast soil pH changes. High quality calcium provides a myriad of benefits to plants, soils and soil biology. Designed for efficient delivery and immediate uptake, this 325 mesh powder can be used in drip irrigation or spray applications.

FoxFarm® Bush Doctor® Coco Loco® Coconut Coir Potting Mix

Plants growing in Coco Loco® will not require water as often as your usual potting mix. Whether you're growing in hanging baskets, vertical gardens, containers, or seedling trays, extend your watering schedule. In most climates, every two to three days will be enough. Always adjust your watering schedule as needed.

Hull

Mulch

The Hull Farm® 100% Natural Cocoa Shell Mulch

Slow; natural decomposition of this natural material adds rather than draws nutrients from the soil, unlike wood mulch. N-P-K ratio of 2.5:1:3. Naturally suppresses weed growth as organic material binds from decay. Brings in good critters to help with natural pollination and aerate soil. Natural plant insulator; reduces water loss and aids in water retention.

Great Lawns Start Here

Soil Amendments

Jonathan Green® Love Your Soil® Soil Food

Love Your Soil is a soil amendment used primarily on lawns. It loosens hard soil, stimulates soil microbes, and creates a biologically healthy foundation for ideal turf growth. Use on existing lawns, newly seeded lawns, and any type of turfgrass. Allows water, air, and grass roots to penetrate deeper into the soil, and increases the lawn's resistance to drought and heat stress.

Jonathan Green® MAG-I-CAL Plus® for Lawns in Acidic + Hard Soil

MAG-I-CAL PLUS® for Lawns in Acidic + Hard Soil is a unique, soil-enhancing food that rapidly raises soil pH, loosens hard soil, and stimulates soil microbes. Contains fast-acting calcium which raises soil pH to enhance nutrient availability from lawn foods. It is also fortified with a patented, quick-releasing gypsum to help break up clay and compacted soil for better air, water, and root penetration into the soil.

Jonathan Green® MAG-I-CAL® Soil Food for Lawns in Acidic Soils

A highly soluble form of calcium that helps to rapidly raise your soil's pH. Low soil pH causes weeds and moss to grow, while soil pH ranging between 6.2 to 7 will increase microbial activity, boost lawn color, reduce stress, and aid in water uptake. Can be applied anytime during the growing season. Safe for use around pets and kids. 5M bag equals 5 bags of lime; 15M bag equals 15 bags of lime.

18lb - Covers up to 5,000sq ft

Lambert

At the root of your success

Soil

Lambert® African Violet Mix

Lambert's African Violet Mix is formulated for plants that typically grow under large canopies of shaded vegetation such as African violets but also other plants from the Gesneriads family. Under these canopies, one can expect to find rich organic matter from decayed plants. With this product, we tried to emulate a media similar to their habitat, which allows for excellent and rapid root development.

Lime, Limestone, Gypsum

Soil Doctor™ Pelletized Gypsum Soil Repair

A naturally occurring mineral made up of mostly calcium and sulfur. Incorporate it into your lawn to counter the damaging effects of salt, animal waste and to break up heavy clay soil. It helps improve drainage and encourages deep, healthy root growth. Gypsum does not alter soil pH, so it is safe to use around evergreens and other plants that require acidic soil to grow. OMRI Listed®.

Soil Amendments

Sol Soils Bonsai Gritty Mix™

Bonsai Gritty Mix is our fastest draining and least water-retentive product, ensuring that the hardiest of dry-weather plants stay happy and healthy. Containing pine bark as it's only organic component, the minimalist nature of Bonsai Gritty Mix is perfect for those who prefer a traditional bonsai mix or need a starting point for custom mixes of their own.

1gal (4qt)
SOS0100103
UPC 850040662191
Min Buy 6 EA

Sol Soils Cactus Gritty Mix™

Cactus Gritty Mix is the mix that started it all. This puts a more eco-friendly spin on the traditional gritty cactus soil by utilizing coconut chips and coir, an otherwise wasted byproduct of the coconut industry.

1gal (4qt)
SOS0100203
UPC 850040662221
Min Buy 6 EA

Sol Soils Calcined Clay™

Calcined Clay has become a popular soil amendment for all categories of indoor plants. Its purpose is to meter moisture in the adjacent soil to keep it from getting soggy or bone dry. Fired at super-high temps it clocks in at 74% porosity, which drains & aerates much more effectively than sand.

32oz (1qt)
SOS0300101
UPC 850040662320
Min Buy 16 EA

Sol Soils Chunky Perlite™

Chunky Perlite is a large and super lightweight, naturally occurring volcanic glass. When heated to the appropriate temperature during processing, it expands like popcorn. As a soil amendment perlite keeps mixes lighter and allows water to flow through. Popular with many leafy plants and orchids especially.

1gal (4qt)
SOS0300403
UPC 850040662313
Min Buy 6 EA

Sol Soils Houseplant Chunky Mix™

Houseplant Chunky Mix contains the most organic matter of all our products to ensure that your houseplants get all the moisture and nutrients they need to thrive. This mix utilizes recycled coconut chips and coir, an otherwise wasted byproduct of the coconut industry.

1gal (4qt)
SOS0100403
UPC 850040662139
Min Buy 6 EA

Sol Soils Leca Balls™

LECA (Lightweight Expanded Clay Aggregate) is becoming one of the most popular and versatile substances in horticulture. As a soil component or medium, it retains moisture while providing excellent drainage for excess water. Use as a soil topper for a unique desert or Martian theme.

1gal (4qt)
SOS0300203
UPC 850040662023
Min Buy 6 EA

Sol Soils Orchid Chunky Mix™

Orchid Chunky Mix is designed to be extra light and avoid compaction to provide maximum oxygen to the root system, a must for these unique plants. As orchids typically are not found in the ground, they obtain water and nutrients from the air, rain, and debris that collects in the crevices in which they grow.

1gal (4qt)
SOS0100503
UPC 850040662252
Min Buy 6 EA

Sol Soils Pumice™

Pumice (filtered 3/8in to 1/4in in size) is relatively lightweight volcanic rock used as an amendment in all types of soil. Its porous composition allows it to retain moisture and nutrients during watering, and release them slowly over time as the root system requires. Think of these components as little batteries for your plants.

1gal (4qt)
SOS0300303
UPC 850040662283
Min Buy 6 EA

Sol Soils Succulent Gritty Mix™

Succulent Gritty Mix is ideal for a wide variety of succulents and other dry-weather plants. It contains more organic matter and retains more moisture/nutrients than our cactus soil. This mix utilizes recycled coconut chips and coir, an otherwise wasted byproduct of the coconut industry.

**SuperMoss® Spanish Moss Preserved**

Spanish Moss grows in a swirly, spaghetti-like fashion and is excellent for use in floral displays, creative projects, and the garden. It is ideal for covering soil or dressing container plants, bulbs, and orchids. Spanish Moss is also a great natural fill for gift baskets. This moss has been sieved before packaging to remove small particles.

Soil

SuperMoss® Orchid Potting Medium

SuperMoss Orchid Bark is natural Douglas Fir tree bark. Its pH makes it an ideal potting medium for orchids. It allows for great oxygenation and drainage of water so that the orchid's roots have constant access to both water and oxygen. This mimics an orchid's natural environment and helps them grow to their full potential.

**SuperMoss® Horticultural Activated Charcoal**

SuperMoss Horticultural Charcoal is made from North American hardwoods. Super Charcoal's highly porous horticultural charcoal helps absorb and retain water and fertilizers. As a result, horticultural charcoal increases the nutrient retention capacity of your garden soil. Additionally, horticultural charcoal promotes drainage and defends against root rot if over watered.

Soil Amendments

Wiggle Worm Soil Builder™ Pure Worm Castings Organic Fertilizer

100% Organic. Wiggle Worm Soil Builder™ controls all aspects of the worm's environment 24 hours a day, 7 days a week and 365 days a year which eliminates all variables that could affect pureness. This level of control produces a pure, consistent product that can be used as a soil amendment and as a fertilizer. The nutrients and microbial activity of worm castings produce a "living soil" for plants to thrive in.
