YEAR TO DATE UNIT RESPONSES

PARTNERING DEPARTMENT/AGENCY RESPONSES

AFR UNITS ABOVE 110% CFAI THRESHOLD

911 calls that do not require AFR services are dispatched to the following agencies in an effort to send the appropriate resources to each call for better patient care and ensure AFR crews are available for true emergency responses.

The Commission on Fire Accreditation International (CFAI) identifies 3,850 annual calls for a single fire apparatus as the 110% threshold value and indicates immediate need for additional resource support.

These events are activated by the AFR Dispatch Center as a "Significant Event" based on specific criteria and emailed to media and specific AFR members but does not include all responses by AFR to emergency calls.

1/2 - Residential Fire: *At approximately 9:10 pm, AFR was dispatched to a residential fire at 7308 Trumbull SE in fire district 5. Within minutes, Rescue 11 was first on scene to discover an outside fire impinging on the structure. The fire was quickly extinguished. There was one patient who was treated for minor smoke inhalation but refused transport. No reports of injuries to firefighters.*

1/3 - Commercial Fire: *At approximately 6:16 am, AFR responded to a commercial structure fire at 201 Eubank NE in fire district 12. Engine 5 arrived to find smoke and flames coming from the roof. With the help of a coordinated attack, they found the seat of the fire in a small electrical room and were able to bring the fire under control. There were no reported injuries to civilians or firefighters.*

1/9 - Residential Fire: *AFR units were dispatched to a home on Sepulveda St. NE in fire district 20 for reports of a structure fire. Engine 19 was first on scene finding flames showing from the home. AFR crews were able to keep the fire in the area of origin. No injuries were reported.*

1/10 - Residential Fire: *At 6:15 am, AFR units responded to reports of a fire at 925 Ram Trail in fire district 12. Engine 12 arrived on scene and declared a working fire with smoke showing from a mobile home. E5 and R12 performed a primary search and found 1 person that was removed from the structure but unfortunately did not survive. The fire was declared under control within 10 minutes of arrival. The fire is being investigated and no other injuries were reported.*

1/10 - Commercial Fire: *AFR crews were dispatched to 5029 Edith NE in fire district 6 at approximately 10 pm for reports of a fire. Engine 6 was first on scene to find smoke and flames coming from the building. AFR crews were able to quickly extinguish the fire which was coming from one of the facility trash compactor machines. There were no injuries reported.*

1/17 - Commercial Fire: *At approximately 1:00 am this morning, AFR crews were dispatched to a commercial building located at 2626 Central SW in fire district 7. Engine 7 was first on scene to find smoke and flames coming from the structure. Just as firefighters were about to make entry, heavy flames broke through the roof in multiple places and the strategy was changed to defensive. It appears that the building had no occupants inside during the fire. Firefighters worked diligently to extinguish the fire. While performing salvage and overhaul, fire crews located a deceased victim inside of the affected fire building. Due to the intense fire conditions, the severely comprised integrity of the building, and emanate roof collapse, firefighters were unable to perform a primary and secondary search of the affected fire building during their initial fire operations. After locating the fire victim, AFR Fire Investigators were called to perform their investigation along with APD.*

1/21 - Residential Fire: *At approximately 7:10 pm, AFR units responded to a possible structure fire at 4508 15th Ct. NW in fire district 6. Engine 6 arrived to find flames coming from a single family dwelling at this address. Engine 6 made a quick attack containing the fire to one bedroom. Engine 6 had the fire under control within 10 minutes of arrival. One occupant had a small burn to the hand but was not transported. There were no injuries to firefighters.*

1/21 - Residential Fire: *At approximately 7:25 pm, AFR units responded to a possible structure fire at 6128 Flor de Mayo PI NW in fire district 18. Engine 18 arrived to find heavy smoke and flames coming from a two story single family dwelling at this address. Engine 18 made a quick offensive attack on the fire which was coming from the front of this residence. The fire was contained to the kitchen and a living room. Engine 18 had the fire under control within 20 minutes. One occupant was transported to UNMH for minor smoke inhalation. There were three dogs and two cats that perished in the fire. No other injuries were reported.*

1/24 - Residential Fire: *At approximately 7:08 am, AFR was dispatched to 201 Utah St NE in fire district 5 for reports of a possible structure fire. Units from Fire Station 5 arrived on scene and reported a working structure fire with smoke and flames coming from the back of a single story residential home. Fire control was achieved and an interior search of the structure was completed to ensure all occupants were safely out of the structure. A total of 10 fire apparatus were on scene to assist with fire operations, no injuries were reported.*

1/24 - Residential Fire: At approximately 3:05 pm, while responding back to their fire station from another fire call, Engine 5 came upon a single story residential structure fire at 737 Louisiana Blvd SE in fire district 5. Engine 5 reported a single story residential structure with smoke showing from the back of the house and called for the balance of a 1st alarm. As additional units began to arrive on scene, Engine 5 and Ladder 5 were able to perform fire attack and simultaneous primary search of the structure. The fire was located in a back bedroom and firefighters were able to get the fire under control quickly, no injuries were reported by civilians or firefighters.

1/27 - Residential Fire: At approximately 5:00 am, AFR was dispatched to a residential structure fire at 9608 Arvada Ave NE in fire district 9. Fire crews reported smoke and flames coming from the structure and were forced to fight the fire defensively. The fire was declared under control after two hours. One fire fighter reported having a minor injury. This home was determined to be vacant.

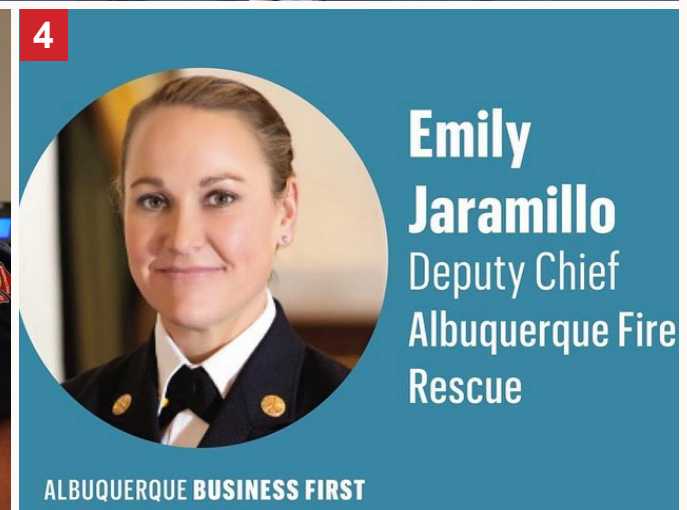

1/29 - Residential Fire: AFR crews were dispatched to 249 Texas St. NE in fire district 5 for a reported structure fire. Ladder 5 arrived on scene and reported smoke and flames from a single story multi-family vacant residential structure. The fire attack and search was simultaneously coordinated. The fire was declared under control within 20 minutes. No civilians or firefighters were injured.

1/31 - Residential Fire: AFR crews were dispatched to 201 Utah NE in fire district 5 for a single story structure fire. Crews found flames coming from the vacant structure and were able to get the fire under control within 22 minutes. There were no injuries to firefighters or civilians.

1/31 - Apartment Fire: At 8:50am, Engine 12 reported a single story residential structure fire in a four-plex near the intersection of Glorieta and Beuna Ventura NE in fire district 12. Engine 12 called for a full dispatch due to heavy smoke and flames coming from the front door and window of the apartment. As other units were arriving on scene, Engine 12 deployed a hose line to the front of the structure for simultaneous fire attack and search of the apartment. After making entry into the structure and while performing their search, Engine 12 located one victim by the use of their Thermal Imaging Camera. Engine 12 removed that adult female from the structure and she was then attended to by AFR Rescue 5 personnel. Engine 12 then proceeded back into the structure to complete fire attack and search, at that time they were able to locate a second victim, an adult male, inside of the structure and safely removed him as well to AFR personnel located outside of the apartment. Engine 12 and Engine 11 then proceeded to complete fire attack, successfully extinguishing the fire and ensuring that no other victims were inside of the structure. Both of the victims were treated on scene for smoke inhalation and burn injuries and were transported to UNM for further treatment. Both of the victims were listed in critical condition as a result of their injuries sustained in the fire. AFR's Fire Investigation Division is working to determine the cause and origin of the fire and working closely with APD while gathering information. The investigation is ongoing, the condition of the victims and determination of the fire will be updated as soon as information becomes available.

- 1. Albuquerque Fire Rescue stations 13 and 18 took delivery of brand new rescue trucks to replace the aging apparatus that was at the end of their life cycle. These new rescues offer modern technology and reliability that will better serve our communities.
- 2. AFR Station 16 took delivery of new Brush 16, a 2021 Ferrara Type 6 on a Ford F550 Crew Cab chassis. This apparatus was purchased with NM capital outlay funds as well as set aside funding from district 8 City Councilor Trudy Jones. Thank you Rep. Melanie Stansbury, Governor Michelle Lujan Grisham and Councilor Jones for your support as well as our AFR Fleet and Spec Committee for your work throughout this process.
- 3. The AFR Safety Division began the annual VO2 Max testing that documents baseline fitness metrics as well as face piece and N95 fit testing. These tests ensure that fire fighters stay safe and healthy throughout their career.
- 4. AFR would to recognize and congratulate Deputy Chief Emily Jaramillo on her nomination for Albuquerque Business First 2022 Women of Influence! This year, Deputy Chief Jaramillo is one of 24 women nominated that have made a significant difference in our community through their professional achievements, leadership and community involvement. Congratulations Deputy Chief Jaramillo!

Albuquerque Fire Rescue has recently made the final decisions in officially promoting three members to Deputy Chief positions that had been vacant due to retirements. Congratulations to Deputy Chiefs Santos Garcia, Kevin Ferando and Jimmy Melek! Each of these members bring talents and skills that are specific to their respective positions and are already working incredibly well together in an effort to streamline the efficiency and effectiveness of AFR.

Pictured from left are: DC and Fire Marshal Kris Romero, DC Santos Garcia, DC Nathaniel Meisner, Fire Chief Gene Gallegos, DC Kevin Ferando, DC Jimmy Melek and DC Emily Jaramillo.

FIRE MARSHAL'S OFFICE

INSPECTIONS DIVISION

- With the beginning of the new year, FMO has begun conducting all 145 annual inspections of schools. Working closely with APS's maintenance and operations division, FMO inspectors will ensure all life safety systems are maintained and in good working order.
- FMO has begun the adoption process of the 2021 International Fire Code and the construction of the City Ordinance. We are developing relationships with the Small Business Regulatory Advisory Commission to receive input from the business community and create a well balanced ordinance. We are also working closely with City Council and City Legal to ensure the process goes smoothly.
- The inspections office is happy to announce the return of inspector Luis Saavedra. Inspector Saavedra spent the last 2 ½ years with ADAPT where he was instrumental in starting and creating a successful division of FMO. He has already completed his Inspector I and II certifications and was immediately able to start conducting inspections in his own district. Inspector Saavedra is a welcomed addition to our team.

ADAPT

- ADAPT has 76 properties that have been formally brought into the program, 41 have been cleared from the program and 35 are still in the program at different stages. ADAPT continuously monitors the properties that are in the program to track their compliance with the Nuisance Abatement Agreement.
- There are 78 properties on the Unsafe Buildings list. Five new properties were added to the list this month. One property was repaired and removed from the list. The properties are labeled on the First Due application with a white "X" on a red background. In the field these properties are marked with a red spray painted "X" and the letters "AFR" under it.
- Inspector Horner identifying 9608 Snow Heights as an Unsafe Building.
- Six properties cleared the ADAPT program with the following reduction in crime averages:
 - * 1701 University Blvd NE was cleared with a 10% reduction in reported crime.
 - * 1331 Wyoming Blvd NE was cleared with a 100% reduction in reported crime.
 - * 3901 Lafayette Dr NE was cleared with a 13% reduction in reported crime.
 - * 900 Eubank Blvd NE was cleared with a 100% reduction in reported crime.
 - * 5201 Central Ave NE was cleared with a 100% reduction in reported crime.
 - * 11825 Lomas Blvd NE was cleared with a 68% reduction in reported crime.
- Arioso Apartments located at 7303 Montgomery Blvd NE was recently entered into the ADAPT Program.

PLANS CHECKING

- The new International District Library at 7605 Central Ave NE passed their Fire Final inspection and has obtained their certificate of occupancy. The new 27,000 sq. ft. facility will have an early literacy center, children’s activity room and a plaza for outdoor gatherings, among other amenities.
- The fire ordinance committee has been established and meetings have commenced to adopt the 2021 International Fire code and repeal the City Fire Ordinance.
- Plans Checking would like to congratulate Deputy Chief Fire Marshal Kris Romero on his new promotion.

FIRE INVESTIGATIONS DIVISION

- Fire Investigations Division had a busy month and were met with many obstacles that stem from locating and identifying suspects/witnesses from the homeless community. This community is reluctant to speak with us as law enforcement officers and typically provides very little when they do choose to speak. Please keep your eyes and ears open as you’re on scene of these fires. If you catch any chatter that may be helpful to investigators please pass that along, also please include the best description of the individual who made the statement as well. (ie. A green backpack, long dreadlocks with no shoes, female on a yellow bike) The more specific the detail the better. Thank you!

TRAINING ACADEMY

Suppression Training Division

- 96th Cadet Class completion of probationary period!
 - 97th Cadet Class Group 2 completion of accelerated EMT-B course with preparation for transfer to the field after national testing the week of January 17th.
 - 98th Cadet Class preparation continue with 18 incoming cadets.
- Professional Development**
- Fire Officer II: January 3rd – 8th
 - Fire Inspector I: January 10th – 14th
 - EMT-B Course graduation January 14th
 - EMT-B Accelerated Course 86% pass rate for national test out with remainder of student retesting in late January/early February

EMERGENCY SERVICES

MEDICAL DIRECTOR

- Continuing to gather CPOX data for the research project.
- Reviewing airway/breathing charts and focusing on airway for training for this quarter.
- Case studies should start to be published this month.
- Credentialed 2 new CNM paramedics.
- Meeting with ACS regularly for QA and optimizing interactions/responses.
- Beginning to examine and develop rough drafts for alternative response plans.
- Reviewing run string to reduce redundancy.
- Meeting with HEART regularly for stroke follow ups and high utilizers.
- Teaching EMS corps weekly.
- Teaching EMSA paramedic students weekly.
- Signed a lot of licenses for renewal.
- Met with RMS for publishing guideline updates.
- Recorded guideline update overview and coordinated the etoh w/d training with AAS educators.
- Managed to get some scene response and station visits in this month, and hope to continue on Fridays.

PHARMACY

- Vector solutions updates to include the narcbox are still ongoing.
- Multiple back ordered items and finding replacement items so far is working.
- EMS Gloves are in short supply, including the City Warehouse. Attempting to acquire non EMS gloves to test at stations for house duties and other non EMS needs.
- Epi 1:10 still back ordered. Filter straws (flexible) are now on back order. I was able to order some "Blunt" filter straws, they will work fine.

RECORDS MANAGEMENT

- Monthly Training: AFR Transport/Billing Documentation Guidance
- Implemented the CIWA worksheet into the Field Form to assist providers with calculating, treating and documenting CIWA scores.
- Image Trend updates
- Reimplemented the "Patient Address Same as Incident Address" button (suggestion from Lt. Lucero).
- Set time restrictions around "Hospital Drop Time" to more accurately capture the time crews are spending at the ED's (suggestion from Lt. Sears).
- Assisted with AFR Daily Leave data to determine staffing needs.
- Compiled of the EMS 2021 Statistics. (Available on Vector Solutions File Center→ Emergency Services→ RMS→ Monthly Reports)
- Continuing to assist with providing data to the Response Resiliency Committee to help identify areas for opportunity to better match resources to needs.
- Provided APD with data revolving around Naloxone Administration to assist with the 2021 Citywide Drug Environment Report.
- Updated the EMS Protocol app with Community Resources and the updated the following protocols:
 - * Synchronized Cardioversion
 - * Formulary Naloxone
 - * Pediatric Cardiac Arrest
 - * Adult Medical Drug Overdose
 - * Adult Convulsive Seizures
 - * Status Epilepticus
 - * Medical Hypothermia
 - * Adult Medical
 - * Hyperkalemia
 - * VAD
 - * Adult Pain Management
 - * Alcohol/Benzo Withdrawal
 - * Neonatal Resuscitation

HEART

- In the month of January, HEART provided 53 rides with its "Rides with HEART" rideshare service.
- The HEART Home Modification Program provided 35 home installation services. These home installations included grab bar installations and ramp building in order to prevent falls.
- HEART received and processed 31 referrals for service. The patients were processed and moved into one of our many programs.
- In a partnership with the Office of Substance Abuse Prevention HEART provided all AFR Stations with "Leave Behind Narcan Kits" to provide to community members in need. For the months of December 2021 and January 2022 approximately 70 kits were given out by our EMS crews.
- To date, the HEART BEATS stroke discharge program has received over 151 referrals for service. HEART is currently working with 37 patients in the program.
- Due to paramedic staffing concerns caused by the COVID-19 omicron variant surge, HEART members completed 180 hours of support fill-in during the month of January. For support fill-in, on some days HEART staff members were used to staff frontline EMS units in an attempt to avoid atypical staffing of our 9-1-1 response units.

SPECIAL OPERATIONS**WILDLAND**

- For the month of January, the Wildland Division took delivery of our new Type 6 Brush Truck. This truck is the Division's first full-size crew cab truck, and will replace the old Type 6 located at Fire Station 16. A special thanks goes out to Councilor Trudy Jones for her help in procuring this apparatus.
- The Division is currently working on the Spring training and testing schedule in preparation for the upcoming fire season.

HAZMAT

TRAINING:

- Hazmat training with State DOH on future hazmat scenarios for AFR hazmat team.

EQUIPMENT:

- CO monitor calibration for all vehicles.

DESCRIPTION:

- Randy Hooper works for State DOH. He helps AFR with hazmat scenarios so AFR can get proper training with monitors and simulated real world emergencies.
- Quarterly calibration of the new CO monitors will help sustain the life of the monitors.

HEAVY TECHNICAL RESCUE

- AFR Heavy Technical Rescue program will be spinning up the spring training. This Spring AFR members will train in a selection of these rescues to include Flood channel, swift water, and wilderness rescue. This training will include a hybrid of online via target solutions and practical scenarios utilizing your operational equipment. Thank you to the field crews for reviewing our department SOG's and front-loading technical incidents when needed. If you have any questions on a response or in between responses, please don't hesitate to reach out to the HTR program.
