HISTORY

Based near the mountain bearing its name, a name in ancient times that meant a place of protection, Canik has been a significant player in the aerospace defense industry for twenty years and 2019 marks its 10th year as a world-leading firearm manufacturer. The company's aerospace manufacturing expertise led to partnerships with Lockheed Martin, Airbus and Boeing, which in turn enabled the development of a high quality polymer pistol and the beginning of the TP series and adoption by Turkish Law Enforcement. In 2012 Canik partnered with Century Arms to introduce Canik TP pistols to the U.S. market. The company has quickly risen to the forefront of firearm conversations, including being named the 2018 Editor's Choice for Versatile/Value Pistol by Ballistic Magazine. The pursuit of excellence continues in 2019 with the new TP9 Elite Combat that comes standard with performance upgrades by Salient Arms International. Shoot a Canik and experience true handgun superiority.

CONTENT

PROVIDING SECURITY REQUIRES PROFESSIONALITY

As CANIK, our goal is to design and manufacture high quality and innovative products that meet the needs and desires of our military and law enforcement clients. We consider it an honor to provide outstanding firearms for sports and protective and professional use to our clients. We thank you for placing your trust in CANIK.

- Speed Funnel Mag Well

TP9 ELITE COMBAT

The TP9 Elite Combat is a versatile compact pistol with performance parts designed by Salient Arms International in an industry-first collaboration, including a fluted and nitride-coated match-grade barrel, thread protector, fiber optic sights and mag well. The compact pistol has a polymer frame, is striker-fired and has an optics-ready slide with four different interfaces to accept the market's most popular reflex sights. An included cocking lever can be mounted to either side of the slide for fast loading. Extensions for the magazine release catch and alternate backstraps are included to enable an ideal fit. The pistol includes one 15-round magazine and one 18-round magazine with a +3 aluminum extension. Available in 9x19mm, the pistol has a Cerakote-over-Tenifer finish on the slide for long-lasting corrosion resistance. The internal firing control components are nickel plated for smooth operation and high performance. A patented holster, magazine loader and cleaning kit is standard in the package.

Corrosion Resistant Internal Coating
Mec-Gar® Magazines

TP9 SF ELITE

TP9 SF Elite model is a medium-sized model of TP series bearing the magazine capacity of 15 rounds. The model is entitled to have the title of 'Elite' due to its ambidextrous slide stop, brand new design trigger safety mechanism, Warren type fiber optic sighting and closed striker cover mechanism as well as its shortened grip size. Its frame design is modified as compared with previous TP series thus ensures flawless shooting comfort experience. Besides its comfortable carry attribute thanks to its size, trigger reach distance is shortened with improved design of trigger safety and therefore shooting comfort of women shooters are considered accordingly. The equipped Scott Warren design standard fiber optic fore-sight and blackened rear sight enables shooters changing targets from one to another in the fastest way possible. Just like in entire TP series guns; the case comes with a holster, a bigger backstop and speed loader as well as 2 Mac-Gar branded magazines as standard accessories.

TP9 DA

TP9 DA is the solid choice for law enforcement agencies or any shooter who wants a gun in full size with both single and double action trigger mechanism that delivers performance in the harshest conditions. You can customize the ergonomic grip using interchangeable backstraps to fit your hand for greater control, comfort and natural point of aim. TP Series Pistols are the first polymer frame pistol of Turkish Police Force in service and have been tested with 50.000 rounds several times without changing any components.

TP9 SA Mod.2

The smooth-shooting TP9 SA Mod.2 is a breakthrough in ergonomics for self-defense handguns. A smooth single action trigger delivers accuracy and fast follow-up shots. Interchangeable backstraps and aggressive serrations ensure that the sculpted grip meshes comfortably in your hand for greater control. With its loaded chamber, striker status indicator and manual decocker/safety lever, TP9 SA Mod.2 is everything you desire in a self-defense hand gun. By the help of its manual decocker/safety lever mechanism it is not needed to pull the trigger prior to disassembly.

TP9 SF Mod.2

The smooth-shooting TP9 SF Mod.2 is a breakthrough in ergonomics for special operations use. A smooth single action trigger delivers accuracy and fast follow-up shots. Interchangeable backstraps and aggressive serrations ensure that the sculpted grip meshes comfortably in your hand for greater control. TP9 SF Mod.2 model designed for simplicity, without decocker, manual safety or loaded chamber indicator. The TP9SFT is a purpose built model of the classic TP9SF, intended for use with suppressors. The TP9SFT includes a threaded 13.5x1mm left-hand twist barrel and Warren Tactical suppressor-friendly sights. Enjoy the accuracy and superior performance of the TP9SFT with the benefits of a suppressor. The TP9SFL is a military-grade, long-slide pistol that sports a 5.2 inch barrel and weight-reducing serrations on the slide to provide proper balance and function. The long sight radius, combined with Warren Tactical sights, enables greater accuracy, making the TP9SFL an excellent choice for tactical units, competition, or home defense.

TP9 SFX Mod.2

TP9 SFX Mod.2 is developed to serve as the Premium version of TP Series Pistols with its 5.20 inch barrel. SFX Mod.2 comes with many new features as modular for the shooter to enjoy more in target shooting. Equipped with front serrations, extended magazine catch and ambidextrous slide stop, the shooter's control of the pistol is enhanced and sighting is improved thanks to the fiber-optic front sight. The tolerances are tightened; the trigger stroke is shortened therefore allowing for quicker firing rates with integrated trigger safety, an optic mount slot is introduced to facilitate the mounting of popular Red-Dot optical sights by installing interfaces that also enables cocking lever for smooth loading. Thanks to the weight reducing cuts on the slide, the weight of SFX Mod.2 is similar to the standard size TP Series Pistols.

- 1 Warren® Design Black out, Metal Target Rear Sight
- 2 Warren® Design Fiber-Optic Front Sight
- 3 Lightening Cuts on The Slide
- 4 Modular Magazine Catch with 3 different size extensions
- 5 Interchangeable Mag-Well Ready Backstrap in 2 sizes
- 6 Ambidextrous Slide Stop
- 7 Red-Dot Interface with Cocking Lever Screw
- 8 Striker Status Indicator
- 9 Front Serrations
