Meet the designer

Cas Moor

★
SOURCE

Cas Moor knew he wanted to become an inventor from an early age. His curiosity about the way products come together led him to the field of design. His unique perspective on practical design is fuelled by his knowledge of materials and production.

With his strong education and distinctive design philosophy, Cas has established himself as an independent designer. He collaborates with companies globally and brings a personal touch as well as intersectoral expertise to each project.

His design process is based on the firm belief that it is not just about creating a product. It's about the materials, the making of and understanding the end users. The details make all the difference. For Cas, the material and craftsmanship serve the form and tell a story in doing so. This results in products that are truly meaningful.

“The true measure of a design’s success is its ability to remain impactful even when distilled to its purest form.”

Elisa Elias

The robust Elisa collection marries comfort with durability. The shapes of this collection with its bevelled corners are a real match for outdoor spaces. The counter table and matching chairs are very popular at the moment! Logical, right?

A higher table adds a nice dynamic to an outdoor space by stimulating conversation and spontaneity. Just what you need for a successful dinner.

Naomi

Comfortable seating, beautiful teak frames and natural weaving all characterise the Naomi collection. Different yarns are combined to weave this collection, creating subtle shades and making each piece unique. The hand-woven shell is very sleek but with a slight undulation. The frame comes in grey or natural coloured teak.
