

DISPLAY SOLUTIONS from Tripp Lite

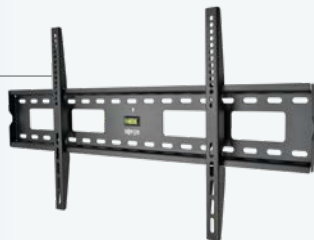

Optimise viewing angles, deter theft of HDTVs, add mobility to displays and enhance ergonomics in home, office, commercial, industrial, education and healthcare environments. As a market leader in display solutions, Tripp Lite offers not only a wide range of wall mounts, but also new mobile floor stands and desktop solutions that provide unparalleled monitor, HDTV and display placement versatility.

DISPLAY MOUNTS

Save space and optimise viewing angles for flat-panel displays, monitors, TVs, laptops, tablets, smartphones and projectors. With models for wall, desk, ceiling and mobile mounting and options for swivel, tilt and full-motion adjustment, there's a mount for every display.

Wall Mounts

Free up floor space and increase available desk/table space. Options include fixed, tilting and full-motion mounts.

Security Wall Mounts

Feature a heavy-duty security bar and combination lock to deter theft of displays.

Desk Mounts & Clamps

Maximise desk/table space and offer easy one-touch adjustment for varied tasks.

Ceiling Mounts

Free up wall and floor space for displays and projectors.

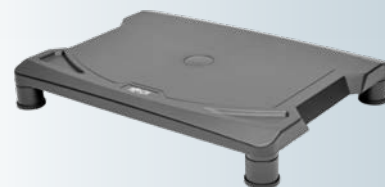

Mobile Floor Stands

Provide the convenience and simple mobility of an A/V stand on wheels.

MONITOR RISERS

Reduce neck and eye strain by raising monitors to the desired level. Most models include adjustable legs for incremental height adjustment, and select models feature built-in storage for additional desk decluttering.

WORKSTATIONS

Desktop workstations convert a fixed-height desk or other flat work surface into an adjustable-height setup, allowing users to alternate between sitting and standing. Wall-mounted models create a versatile workstation without the need for a desk.
