

7-Port Charging Station for USB Devices

Product ID: ST7CU35122

This USB charging station lets you set up an external, multiport dedicated station for charging tablets, smartphones and other mobile devices.

One charger for all of your mobile devices

This station is a standalone device that provides 5 x 1A and 2 x 2A USB charging ports, enabling you to charge multiple devices. The charging station can deliver the fastest possible power output required for each connected device. Note that some devices do not draw the full 1A or 2A of power, which enables more devices to be connected and charging at one time.

The charger also supports USB Battery Charging Specification 1.2, which ensures compatibility with a broad range of mobile devices, including the Apple iPhone and iPad, the Microsoft® Surface™ tablet, the Samsung Galaxy Tab™, Android™ devices and more.

Dedicated Charging

The charge station is an ideal solution for charging your mobile devices during meetings in boardrooms, conference rooms, or lobbies. It gives you and your colleagues vital charging access when it's needed most. Plus, consolidating your USB devices onto a single multiport USB charger offers a more energy-efficient solution and avoids the need for multiple wall outlets or power bars, saving valuable space.

The compact, metal enclosure is extremely durable and offers simple operation using an integrated on/off power button that turns all ports on and off.

Enjoy mounted or desktop convenience

This hub is the perfect accessory for a laptop or desktop workstation, with a rugged metal housing that can withstand the wear and tear of daily use.

With the included wall-mount bracket, you can attach the hub to a surface such as a desktop or wall, to better suit your needs.

The StarTech.com ST7CU35122 is backed by a 2-year warranty and free lifetime technical support.

Certifications, Reports and Compatibility

Applications

- Use in IT helpdesk or tech bench environments to charge multiple tablets, smartphones or other USB devices
- Setup a USB charging station at home for the whole family
- Installation in locations where USB-A ports need to be securely mounted to a surface, such as a wall or on a desk

Features

- Charge multiple devices with dedicated charging ports - 5 x 1A, 2 x 2A
- Save space and wall outlets using a consolidated charging station
- Supports USB Battery Charging Specification 1.2, including Apple® and Samsung Galaxy™ devices
- Includes universal power adapter
- Compact, metal enclosure
- Integrated physical On/Off power button
- No PC connection required
- Includes bracket for surface or wall-mount installation

Hardware	Warranty	2 Years
	Industry Standards	USB Battery Charging Specification Rev. 1.2
	Ports	7
Connector(s)	Connector Type(s)	7 - USB Type-A (4 pin) USB 2.0 Female
