Caulk Accessories

Caulk Tool - 3-In-1

3-in-1 Caulk Tool helps remove and re-apply caulk quickly and neatly. The stainless steel caulk remover pulls out the old caulk bead with either a push or pull motion. The triangular rubber blade is adjustable, providing three different profiles for smoothing the freshly applied caulk bead. The scraper end helps keep surfaces clean, while the soft grip handle enhances comfort during use.

6022 Tradesman Angle Sash

Ideally suited for a full range of industrial and commercial applications of high-end coatings where excellent performance at an affordable price point is the primary objective. The DIY homeowner who is seeking best-quality products will surely recognize the value in selecting a Tradesman brush to complete their painting projects. Brushes are manufactured using 100% solid round tapered polyester filaments producing a brush that is easy to clean, long lasting and durable. Brush filaments are tapered and tipped. The brushes are designed for excellent load and release of today's latex coatings and require no break-in period for optimum performance.

Tough2-Strip

An industrial strength remover that safely strips the toughest paint coatings. Where speed of removal is critical, a lighter coat of Tough2-Strip will remove 1 to 4 layers in 15 minutes to 4 hours. For tougher jobs or coatings, a heavier application will remove the paint in one application. This product is environmentally safe, biodegradable, non-flammable, and contains no methylene chloride or caustic. It is odor-free and can be easily cleaned up with water. For application, it can be brushed, rolled or sprayed. It requires no neutralization (neutral pH).

Buckets, Trays & Grids

Bucket Grids

Paint Grid

Innovative design makes it the next generation paint grid, replacing the old hard-to-clean metal grid. Provides a uniform load of paint without pulling fabric from the roller like metal grids to. It fits tightly into the bucket, leaving more room for the roller. This is the perfect solution for those large projects that require lots of paint. And best of all, it's reusable, environmentally friendly and won't rust like metal paint grids.

Australian Timber Oil

Cabot Australian Timber Oil for Decks, Siding, Railings and Outdoor Furniture is a unique blend of oils originally formulated to protect dense tallow wood, cambara and merbau from the extreme Australian exposures. Australian Timber Oil penetrates deep into the dense, resin-rich woods to accentuate natural wood depth and patina. Containing a precise blend of superb-grade linseed oil for maximum penetration, long-oil alkyds for durability and pure South American tung oil for color depth and water repellency, Australian Timber Oil delivers three-way oil protection. In addition, complex translucent iron oxide pigments are added to ensure a lasting UV-absorbing surface rich with color and dimension. The result after years of development is an advanced-technology treatment of unrivaled performance designed to protect your exotic wood surfaces like never before.

Semi-Solid Acrylic Stain

Richly pigmented, deep penetrating linseed oil-based stains that provide long lasting beauty and wood protection. These unique stains provide greater hiding power than semi-transparent stains, yet their attractive flat finish highlights the natural beauty of the wood's texture. With the extra pigmentation, the stains are extremely durable and help protect wood against the sun's damaging ultraviolet rays.

Teak Oil Finish

Restores and maintains teak wood with its premium blend of natural ingredients. Provides a rich oiled appearance while preventing graying and staining. This deep-penetrating formula extends the life of teak by replacing the natural oils taken away by exposure to the elements. This clear finish resists cracking or peeling and accentuates the natural beauty of teak. Ideal for marine environments. Do not apply over varnish, as it cannot penetrate the wood properly. This product is superior protection for hardwoods - ideal for teak, mahogany and rosewood.

Wood Toned Deck & Siding Stain

Cabot Wood Toned Deck & Siding Stain is specially formulated with a unique blend of resin and oil to provide a superior natural finish for bare wood. This distinctive product comes in five natural tones that not only sustains the natural beauty of exterior wood, it also provides excellent wood penetrating protection against the sun and all damaging weather elements. It's water-repellent, to keep moisture out and guard against warping and checking, plus it's mildew resistant. Easy to apply requiring just one coat, Cabot Wood Toned Deck & Siding Stain slightly darkens wood when first applied leaving a flat and translucent finish.

Denatured Alcohol

Shellac cut with this solvent will give a smooth film of high gloss and good color. Good primer for floors, wood, furniture, and plaster. Can be used to clean shellac brushes after use. Cleans typewriters, printing ink rubber rolls, metal parts, glass, etc. As a fuel, produces a hot, clean, smokeless, and odorless flame, providing a maximum amount of heat. Use in marine alcohol stove or other wick-type alcohol stove as instructed by manufacturer. Do not use in any stove unless it is specified as an alcohol fuel stove.

SpiderWeb II Uncoupling Mat

Waterproof, vapor-proof uncoupling membrane that can be used for crack-suppression in most tile, porcelain or natural stone installations. Can be applied over challenging substrates such as installation over green (young) concrete and single ply 19.2" (49 cm) wood framed floors. Designed differently than bonded membranes, with sacrificial layer of fleece-reinforced fabric that shears away, or uncouples, when exposed to excessive substrate movement, absorbing stress and preserving surface and integrity of tile. Bonding layers have reinforced fleece which locks mortar into mat, ensuring strong, reliable installations.

Patching & Repair

Tile Products

Sanded Tile Grout

Polyblend sanded grout produces hard, dense joints that resist shrinking, cracking and wear. Formulated for durability, color consistency and quick curing. Can be used with the following tile types: Ceramic, mosaic, quarry, cement body tiles, impervious porcelain, glass tile, brick, precast terrazzo, and natural stone tile. Accommodates 1/8" - 1/2" (3-13mm) joints for interior or exterior installations, including floors, countertops, walls, ceilings, showers, fountains and pools.

Solvents, Cleaners, Removers & Chemicals

Cleaners

Grout Haze Clean-Up

Safe and effective concentrated cleaner that is added to grout cleanup water for removal of cementitious grout haze. Also removes latex additive film from tile during grout cleanup process. Will remove light grout residue within first 10 days after grouting if used full-strength. Simplifies installation and grout cleanup process. Non-acidic formula. Recommended for use on ceramic, porcelain, quarry, terra cotta, Saltillo, unpolished natural stone and masonry surfaces.

Patching & Repair

Spackling, Putty & Wood Fillers

Plastic Wood - Latex

High-quality latex-based wood filler formulated to create a surface and body that looks and acts like real wood and provides a repair that is 3X stronger than the wood itself. It can be used to repair cracks, gouges, holes and other surface defects on furniture, molding cabinets, plywood and other wood surfaces. This easy-to-use filler can be troweled and molded for structural repairs and dries fast and hard to a smooth finish that can be sanded, cut, planed, drilled, nailed or screwed. It provides strong nail and screw anchoring. Cleans up easily with soap and water when wet. Interior/exterior use.

Primers

Exterior

P-3 Peeling Paint Primer

100% acrylic exterior elastomeric stabilizing primer with advanced adhesive technology specifically designed to lock down old peeling paint. Glue-like adhesive properties acts as a super bonding agent for all top coat solid color paints and stains. Unique elastomeric technology is capable of expanding up to 300% in hot temperatures and contracts when it is cold, remaining permanently flexible and breathable in all temperature and humidity conditions. Stops most rust and tannin bleeding problems. Water based, low in VOC, and environmentally friendly. Solution to old weathered peeling decks and siding surfaces, reducing the cost of painting by significantly extending the life of all latex paints and solid color stains. P-3 Primer may be applied to wood, metal, concrete, and stucco, and should only be top coated with high quality 100% acrylic latex paint or solid color stain such as Superdeck Acrylic Solid Color Stain.

Duckback

Solvents, Cleaners, Removers & Chemicals

Concrete Cleaner

Masons Select Concrete Etcher

Waterborne solution of non-corrosive, low PH organic salts specially formulated to clean and roughen or etch concrete surfaces. Replaces extremely corrosive and hazardous concrete etching products such as muriatic acid and phosphoric acid. Non-corrosive to skin, low-fuming, low odor, biodegradable and has zero VOC. Slightly bodied to cling to non-level surfaces. Removes ground-in dirt, mud and clay. Removes mortar deposits.

UPC	Mfg#	Size	DC	Pk
740755655048	DB-6550-4	1 Gal.	CJKST	4

Deck Cleaners

Composite Deck Cleaner

Removes unsightly stains such as grease, water stains, BBQ stains, mildew stains, mold and algae from all types of composite decking, vinyl fences, siding and other synthetic composite surfaces. A unique oxygen bleach technology combined with active cleaning ingredients which when mixed with water releases oxygen, attacking and breaking down organic stains and dirt. 1 full 2.5 lb. container will make 5 gallons of cleaning solution. 1 gallon of solution will clean approximately 150-200 square feet.

UPC	Mfg#	Size	DC	Pk
740755421049	DB-4210	2.5 Lb.	CJKS	6

Wood Cleaner

Superdeck Wood Cleaner is a biodegradable cleaner that is safe and effective for cleaning exterior wood surfaces such as decks, fences, outdoor furniture, siding, log homes, and hardwoods. The concentrated liquid formula will make up to 4 gallons of cleaning solution that will clean stains caused by dirt, mold or mildew. Used in its concentrated form, it can also remove failed, oxidized transparent and semi-transparent finishes. By cleaning wood and removing surface contaminants, it allows for better penetration of a subsequent wood coating. Wood Cleaner is non-flammable, fast-acting, biodegradable and easy to use.

Log Home Oil Finish

Naturally protects and enhances the characteristics of your wood with a penetrating oil finish, unlike the typical, tacky finish of traditional log oils. High quality, professional grade wood finish developed to give superior protection and beautiful color to your log home. A highly effective mildewcide inhibits growth of mildew on the stained surface. Offers additional benefits of being resistant to foot traffic patterns on horizontal surfaces such as decking and can be tinted to semi-transparent wood tones.

Paint & Varnish Remover

Catch N Cover

Strong, breathable, specially-treated filter material that allows air and water to easily pass through it while still catching jobsite debris and overspray. Remains strong and durable, and lightweight while wet due to its low-absorbent fabric. Reduces clean-up time & expense. Catches paint chips, stain flakes, and more. When a job is done, simply fold or roll it up for reuse or disposal.

Peel Away 1

Environmentally safe method of removing up to 32 layers of paint in a single application from most surfaces and there are no fumes and no flammable solvents. System includes a paste that is spread or sprayed over the surface to be stripped and then covered with a fibrous laminated paper with controls evaporation, and is left on until all of the paint is dissolved for easy collection of the waste. The laminated paper is then removed with the bulk of the paste and paint adhering to it and the stripped surface is washed clean and neutralized. Works best when oil/lead based paint is the prime coating on the surface. Coverage is 15-20 sq. feet per gallon.

Dustless Products

Cleaning Tools & Supplies

Vacuums & Accessories

Dustie Shroud

The Dustie dust shroud fits most hand grinders. The attachment collar is a FlexFlange which spreads and contracts to fit the hand grinder. Simply slide the Dustie onto the collar of the grinder and then tighten the band clamp around the flange. You may need to trim the tips of the Flex-Flange to adjust the height to fit your specific grinder. The Dustie dust shroud is an ideal tool for renovation contractors who have to use point-of-origin dust collection tools to comply with EPA regulations covering lead paint removal. Renovation contractors seeking to get certified by the EPA to perform renovation work on projects that involve lead paint removal are required to use "point-of-origin" a dust control shroud on hand grinders like the Dustie.

Solvents, Cleaners, Removers & Chemicals

Metal & Wood Polishes

Rottenstone Metal & Wood Polish

An extremely fine abrasive powder which when mixed with oil can be used to create a hand rubbed, polished finish for dull, scratched wood surfaces. It is used as a follow up polishing agent after a rainbow pumice stone rubdown to achieve a higher sheen than would be possible by using just pumice stone. Rotten stone can be used as a fine polishing agent for finishing painted, lacquered or varnished surfaces to a uniform high gloss, non-glare appearance. Other uses include removing tarnish and polishing pewter and other luster metal surfaces.

ETI

Stains & Finishes

Interior Epoxy

Crystal Sheen

Preserves and beautifies precious photos, wall plaques, decorative trays, table surfaces, burl clocks, bar tops, figurines, etc. The sparkling, glossy clear film enriches color, enhances wood grain and lasts for years. The two-part liquid mix is easy to apply and cures with the look of liquid glass. Heat and alcohol resistant. Waterproof. No polishing required. Pour-On Plastic, 2-part. Covers 35 sq. ft. per gallon. Cures in 48 hours.

UPC	Mfg#	Size	Finish	DC	Pk
033331022281	2228	1 Gal.	Hi Gloss	All	2

Enviro - Tex Lite

One thick coat equals up to 50 coats of varnish. Cures to a thick glossy coating in about 8 hours at 70°F and reaches full strength and toughness in about 48 hours. This durable, resilient material requires no polishing to produce a high gloss. One coat is all that is usually required for deep attractive finish; however, two or more coats may be applied one over the other by simply wiping the surface with a clean cloth and alcohol prior to recoating. Covers 32 sq. ft. per gallon.

EZ Pro Texture

Patching & Repair

Joint Compound & Texture

Texture Gun

Perfect for small drywall patches or even jobs up to a few hundred square feet. Easiest and most consistent way to apply orange peel and knockdown textures. Takes just a few seconds to attach a bag of pre-mixed texture and you are ready to spray. Cleanup time takes just seconds. Connects to a compressor and air hose with a minimum pressure of 100 PSI. Utilizes a Venturi effect to create a vacuum; slight pressure on the bag draws the material out.

UPC	Mfg#	DC	Pk
804879292180	2180	All	10

Texture in a Bag

Each bag is made out of polymer plastic and measures 5" x 7". Holds approximately 20 ounces of material. This is enough for 50 square feet of lighter orange peel texture or 25 square feet of knockdown texture. All bags have a spout on the end that connects to a barb fitting on the gun. Texture contains a preservative that extends the shelf life of the product to over one year.

UPC	Mfg#	Size	DC	Pk

Franklin International Adhesives

Construction Adhesives

FRP - GREENchoice Fast Grab

A high-quality, VOC-compliant, adhesive specifically formulated for the installation of FRP (fiber-reinforced plastic) panels. Its fast grab and bonding power greatly reduce the need for extended bracing. Environmentally superior containing no ozone-depleting chemicals. Unlike solvent-based adhesives, it is nonflammable, emits no harmful fumes and cleans up with water.

Leak Stopper - Roof Patch

Crystal Clear Rubberized Roof Patch This advanced clear sealant has outstanding adhesion to a variety of surfaces, and provides a long lasting rubberized seal for almost any application. Great for sealing around decorative or visible areas where a noticeable patch is not desirable. This premium formula has outstanding UV resistance, stays clear and will not "yellow or cloud" over time like other products. It is ideal for repairing cracks in exterior or interior applications where clear elastic seal is desired. Product is water based, and will have a cloudy white appearance when applied, but dries clear. Can be painted if needed. - See more at: <http://www.gardner-gibson.com/products/asphalt-roof-repair-new-construction/asphalt-roof-patch-repair/leak-stopper-0338-ga#sthash.HJQ0YRn9.dpuf>

TWP - 350 VOC

EPA-registered wood preservative which prevents structural damage and wood decay on exterior above ground wood surfaces such as untreated or previously treated fencing, decking, wood siding, log homes and roofing. Resists water absorption that causes warping, cracking and splitting as well as preventing freeze damage in colder climates. Low VOC preservative with special U.V. absorbing pigments that prevent unsightly wood graying, darkening and fading. The selected mildewcides inhibit the growth of mold and mildew which assist in preventing premature discoloration.

Ultra - Seal Precat Sealer

Gemini's Precatalyzed Lacquer is a furniture and kitchen cabinet grade system formulated with high-quality, imported nitrocellulose and resins. Formulated to meet or exceed federal 680 VOC regulations. This system represents the intermediate step between a conventional lacquer and conversion varnish. This is a preferred system for light or natural stains where color retention and stability are critical.

Rubber Based OTC Compliant

A new generation of synthetic rubber pool paint which can be applied over all types of pool coatings in good condition, as well as bare concrete or plaster surfaces. They dry quickly for re-coating, and withstands continuous submersion in fresh and salt water. They provide a durable fade resistant finish that protects the pool surface while providing a sparkling decorative pool color. Insl-x RP Series Pool Paints are specially designed to replace traditional chlorinated rubber based pool paints in VOC regulated areas like "OTC states" in the Northeast and "LAADCO states" in the Great Lakes area. The RP2700Series Pool Paints are low VOC and compliant in all areas except California.

Primers

Bonders - Water Based

Stix Water Based Bonding Primer

Premium quality, acrylic/urethane primer-sealer designed with unique "Step Change Technology" that delivers unparalleled adhesion to most challenging surfaces, such as PVC, vinyl, plastic, glass, tile, glazed block, glossy paints, pre-coated siding, fiberglass & galvanized metals. Also ideal for use on plaster, drywall, wood & non-ferrous metals, where low ambient or surface temperatures present problems for conventional primers. Cures in temperatures as low as 35 degrees F & offers extremely hard film when cured. Low VOC primer which levels to smooth surface & cleans up with soap & water. Use on interior/exterior surfaces & topcoat with almost any type of coating including alkyd, acrylic latex, urethane, epoxy & lacquer finishes.

Metal Primer

Shop Coat Primer

Designed for industrial use in mild to moderate atmospheric exposures where quick turn-around economical primer is desired. Provides barrier protection on properly prepared surfaces and may be top-coated with variety of finishes. Ideal as temporary transport coat on fabricated pieces that will be blasted at job site and re-coated or an economical barrier primer or even left un-top coated in interior non-corrosive environments. Not for immersion service. Do not topcoat with products as epoxies or urethanes containing aromatic or oxygenated solvents. Designed for general metal finishing and fabrication market, as well as industrial maintenance market. Not intended for severe chemically corrosive environments, immersion service or non-ferrous metals.

Krud Kutter

Solvents, Cleaners, Removers & Chemicals

Rust Removers

Rustex

Rust-inhibiting coating which converts rusted metal overnight into a rust retarding, paintable surface. When applied to a rusted surface, the rust is chemically changed to iron phosphate, an inert, hard substance that turns the metal black. This increases the paint adhesion, and durability of the coating. Easy to use; can be applied by brush, roller, mop, or low pressure sprayer. Environmentally friendly; biodegradable, water-based formula is compatible with any paint system. Can be used to etch new galvanized metal. Treats approximately 600 sq. ft. per gallon.

Rusty Metal Primer

Alkyd enamels provide direct to metal corrosion protection and dry in minutes to a tough finish that really lasts. Faster dry time ensures quality finish, keeping dust, dirt, grass, and bugs from ruining the surface. Smooth, durable, rust fighting finish and superior corrosion protection - with or without primer. Use on: Wood, metal, wicker, glass, plaster, ceramic, concrete, and masonry. Use ordinary household detergent or mineral spirits to make sure surface is clean, dull, and dry.

M

3M**Abrasives****Sanding Sponges / Blocks****Ultra Flexible**

Use sanding sponge for bare surface sanding to remove flaws or blemishes before applying initial coating. Best used on paint, wood, metal and drywall. Unique sponge channels dust away from the sanding surface. Use the pattern side for detail sanding and superior conformability. Use regular side for flat sanding. Lasts 5X Longer than 3M conventional sanding sheets. Made of premium aluminum oxide mineral. Clog resistant for longer sponge life. Washable and reusable. Use wet or dry. For best results, sand with grain of surface and work through sequence of grits, from coarse to very fine, skipping no more than 1 grit between each sanding step.

M

3M**Abrasives****Sandpaper - Precision Rolls****Ultra Flexible**

Features innovative film backing, so you can fold, roll or shape into any form you need to get the job done. Ultra-flexible roll lasts 15X longer than conventional paper-backed sandpaper, is clog resistant and can be used wet or dry. Tough backing resists puncture, tear and creases, helping the sheet keep its original shape. Anti-load coating for long life. Great for interior and exterior projects. Rolls can be cut to size for use in hand sanding, drywall sanding or non-rotary power tool sanding. Can be used on all surfaces. For best results, sand with grain of surface and work through a sequence of grits, from coarse to very fine, skipping no more than 1 grit between each sanding step.

Sandpaper - Precision Sheets**Precision Sanding Sheets**

Ideal for paint, wood and metal surfaces. Rinse and reuse. Lasts 10X longer than 3M conventional sanding sheets of comparable grit. Anti-load coating for long life. 66% less effort when compared to 3M conventional abrasive of comparable grit. Use wet or dry. Less hand fatigue. Backing won't slip or slide. Red color will not discolor the surface your sanding. For best results, sand with grain of surface and work through sequence of grits, from coarse to very fine, skipping no more than 1 grit between each sanding step.

Ultra Flexible

Block sanding sponge for bare surface sanding to remove flaws or blemishes before applying initial coating. Best used on paint, wood, metal and drywall. This unique sponge channels dust away from the sanding surface and is clog resistant. Use the pattern side for detail sanding and superior conformability. Lasts 5X longer than 3M conventional sanding sheets. Use pattern side for detail/contour sanding. Use regular side for flat sanding. Made of premium aluminum oxide mineral. Washable and reusable. Use wet or dry. For best results, sand with grain of surface and work through sequence of grits, from coarse to very fine, skipping no more than 1 grit between each sanding step.

Frames & Poles

Paint Brush & Tool Extender

MT5 Reacher - Flexible Extension Arm

Adjusts to any angle for fast and precise painting. Extra-strong flex handle holds firm to the working forces of painting. Designed with a tightly woven stainless steel flex tubing that sheds caked-on paint, and features a rust-resistant construction so you can soak it in water. Accepts any pole-threaded tool. Mini-roller frame fits on all threaded extension poles, broom and other tool handles. Standard 1/4" spindle accepts all 1/4" mini roller covers; all brands, types and any length 4" and longer. Brush clamp mounts directly on any threaded extension pole or broom handle and you have a fixed pole-end vice. Reinforced nylon construction allows for rugged work. Three embedded, galvanized machine nuts accommodate any paint brush and many hand tools, scrapers, putty knives, 5-in-1 tools, paint brushes and other tools. Tighten down hard for a secure hold. Brush not included.

Primer

The revolutionary Acid Blocking Primer is a unique water base, acrylic primer designed to block the Metal Effects Patina Aging Solutions & Activators from reaching the metal or wood surface chosen as a substrate. Other primers cannot be used because they allow the Patina Aging Solutions & Activators to penetrate through to the substrate. This will disrupt the desired patina color and damage the finish by bringing either rust or tannic acids to the surface. Can be applied using a brush, roller or spray equipment and is suitable for interior/exterior surfaces.

Texture Effects

A multi-purpose, water based, acrylic, plaster-like medium that is ideal for raised relief, heavy distressed textures, stenciling, and for correcting wall imperfections. It is highly durable, water resistant, and will adhere to most surfaces. Will not shrink or crack while drying, and once cured, is hard. This versatile product can be tinted using Modern Masters' ShimmerStone Color Concentrates, SkimStone ColorPaks, or universal colorants and exhibits no color loss once dry. This eliminates the need for over painting. One of the most unique and time saving features of this product is the ability to self-seal. This gives the decorative painter the option of glazing or painting the textured surface directly, without the added time and expense of priming or varnishing. Water-based and non-hazardous. Contains no lead, mercury, or other toxic ingredients. Easy and safe to use.

Exterior Dead Flat Varnish - Low VOC

Premium quality, non-yellowing, water-based varnish. 100% acrylic. Formulated to have the optimum level of clarity. Water-resistant and abrasion-resistant. Offers protection for faux finishes and decorative painted surfaces. Removes undesirable variations in sheen created by using semi-gloss base coats with decorative glazes. Not recommended for use over Modern Masters Metallic Paint Collection or Metal Effects Metallic Paints.

Interior Finishes

Interior Dead Flat Varnish - Low VOC

Premium quality, non-yellowing, water-based varnish. 100% acrylic. Formulated to have the optimum level of clarity. Water-resistant and abrasion-resistant. Offers protection for faux finishes and decorative painted surfaces. Removes undesirable variations in sheen created by using semi-gloss base coats with decorative glazes. Not recommended for use over Modern Masters Metallic Paint Collection or Metal Effects Metallic Paints.

Black Moisture Block

Moisture block is a convenient and effective vapor barrier designed specifically for small to medium-sized flooring jobs. Moisture block totally eliminates the hassle of dealing with a giant sheet of folded plastic. Easily rolls out and lays flat. Self-sealing seams make it simple to connect and form a continuous 6 mil vapor barrier. Designed for use over most types of sub floors. Can help protect your wood or laminate floor from harmful subsurface moisture. Helps create moisture resistance. Roll the film out and tape all seams for easy installation.

Cleaning Tools & Supplies

Deck Brush

Woodmates Telewash

Telewash attaches to a standard garden hose and has an on/off valve to adjust the water flow and help conserve water. It has an ergonomic rubber nonslip grip and is made of anodized aluminum which won't rust. Its handle easily adjusts from 3 to 5 feet in length. The ergonomic brush design cleans under deck rails, gets into corners and helps push debris out of the way. The brush is chemical resistant so it can be used with many types of cleaners.

Frames & Poles

Extension Poles

Alumiglass Pole

The aluminum slider and fiberglass handle combination ensures that extension poles are better balanced and more rigid when telescoped. Smooth round fiberglass handle and large rubber handgrip. Aluminum slider is anodized which prevents rust and provides a smoother extension. Die cast metal universal threaded end fits most standard threaded tools. Lok-Thread on threaded end prevents roller frames and tools from loosening during use.

Sanding Discs

Rapid Strip

Sanding discs for small areas. Highly portable, versatile tool most commonly used with sanding disc pads on bare wood, metal and fiberglass. Unique, semi-flexible open web design. Runs quietly and safely. Extra course abrasive uniformly distributed and bonded throughout the wheel. They are also used with rotary action stripping tools like RapidStrip wheels and brushes to remove paint, rust and corrosion. Also good for removing light edge burns, parting lines or flashing. Conforms to edges, contours and uneven surfaces without gouging. For metal and masonry applications. - See more at: <http://www.hardwareandtools.com/Norton-01217-Rapid-Strip-4-X-1-2-Rapid-Strip-1970920.html#sthash.IUAUQKf.dpuf>.

Old Masters

Solvents, Cleaners, Removers & Chemicals

Furniture Polish & Cleaners

Lemon Oil

Restores beauty to interior surfaces such as paneling, cabinets, doors, ranges, refrigerators, marble, tile and fine furniture. It moisturizes as it cleans, eliminating the need for waxes or polish and helps the wood resist cracking, peeling and discoloring.

UPC	Mfg#	Size	DC	Pk
086348504080	50408	Pt.	JK	6

Paint & Varnish Remover

Furniture Refinisher

Formulated to be fast-acting liquid remover that is excellent for dissolving and removing thin layer of varnish, lacquer or shellac. Will not destroy patina, stained color or beauty of natural wood. Also will not raise woodgrain or loosen glue joints, veneers, inlays, wood fillers or laminated woods.

UPC	Mfg#	Size	DC	Pk
086348006041	00604	Qt.	JK	6

TM1 Paint Remover

Liquid paint remover, formulated for both dipping and brush applications. TM-1 has been primarily designed to use as an economical and practical commercial "soak" remover, able to remove many layers of coating. When brushing it on, we recommend use only on horizontal surfaces, and it will remove only one to two layers in one application because of its fast evaporation.

UPC	Mfg#	Size	DC	Pk
086348001046	00104	Qt.	KS	6

TM3 Full Bodied Paint Remover

A premium grade remover in the water wash category. We recommend a brush application for both horizontal and vertical surfaces. TM-3 is the economical alternative in full-bodied removers, with up to a three-hour "open time." Its long open time makes it ideal to remove three to four layers of finish in one application.

UPC	Mfg#	Size	DC	Pk
086348003040	00304	Qt.	KS	6

TM4 Heavy Bodied Paint Remover

Formulated as our ultimate, premium grade remover in the water wash category. We recommend a brush application for horizontal, vertical and overhead surfaces. TM-4 removes the same types of coatings as our other removers; in addition, it removes dual epoxies and other synthetic finishes. It removes five to eight or more layers of finish in one application because of its extended open time.

UPC	Mfg#	Size	DC	Pk
086348004016	00401	1 Gal.	JKS	4
086348004047	00404	Qt.	JKS	6

Wax Remover

Cleaner & Wax Remover

Use on interior wood surfaces to remove wax and polish buildup which creates a film that darkens and softens the finish on furniture and other surfaces. Dissolves buildup and helps restore the wood's finish and natural beauty.

Quick Dry Varnish

A high-quality alkyd varnish combining high build with beauty and endurance. Its fast drying, self-sealing formulation allows same day multiple coat application. The tough clear finish is resistant to abrasion, alcohol and most household chemicals, and will retain a beautiful gloss for years. It is compatible with most finishes and may be used on new or previously finished interior wood surfaces such as furniture, doors, trim and cabinets. Non-toxic when dry.

Stains & Finishes

Interior Finishes

Tung Oil

For use by professionals and do-it-yourselfers alike. Hand rubbing this natural topcoat onto wood projects will achieve the hand-finished results of a master craftsman. Because 100% Tung Oil is absorbed into the wood, it will not crack, chip or peel.

Tung Oil Varnish

Formulated by blending tung oil with fine varnishes to produce a durable, non-oily finish for fine furniture and wood projects and is water and alcohol resistant. Has more build than 100% Pure Tung Oil, and it also penetrates the wood to protect and enhance the natural beauty and richness of the woodgrain.

Interior Stains

Fast Dry Wood Stain

A high-caliber alkyd stain designed for the professional craftsman who values speed, versatility and performance. This stain's heavy consistency provides ease of application and achieves warm, rich colors in one coat. It's formulation allows the color to flow easily onto the surface and penetrate deep into the wood's natural grain. Within minutes of the stain's application, you can apply virtually any finish. Ideal on all interior wood surfaces, such as cabinets, doors, furniture, floors and woodwork.

Wiping Stain

A rich, heavy-bodied, controllable masking stain that does not blotch on softwood or difficult to stain wood species. This easy to use stain, which allows 30 minutes of open time, is the best choice for staining over previously finished surfaces, wood graining, faux finishing or antiquing over painted surfaces.

Interior Wood Pre-Treatment

Wood Conditioner

Formulated to be a pre-stain sealer during the staining process. Also commonly referred to as a wood conditioner, our stain controller will control blotchiness in soft woods such as fir, pine or hemlock, allowing them to accept stains in an even manner for a more uniform appearance. Excellent for projects where soft woods and hardwoods are being stained together. For interior use.

Wood Conditioner - Low VOC

Pre-stain conditioner that enables uniform stain application on soft woods. Using this product helps to avoid the appearance of uneven, blotchy staining. Recommended for use on soft woods such as pine, fir, maple or poplar. Can be applied under oil or water-based stains, but using water-based stains allow the Low VOC Wood Conditioner to dry 24 hours before use. For best results when using oil-based stains, allow product to dry 8 hours before applying stain.

Paint Scentsations

Paint Additives

Odor Additive

Kabosh Paint Odor Eliminator

Kabosh is not a mask or cover-up. It chemically neutralizes paint odors when it is activated by oxygen. Nothing happens until the treated paint is applied to the surface by brush, roller or spray exposing the paint to the air. Kabosh molecules attach themselves to paint vapors causing them to fall away undetected.

Contractor Angle Cut / Sash Handle

The contractor paintbrush series incorporates high performance filaments, knot and ferrule construction. Will work with all coatings including oils, stains, enamels, varnishes and latex paint. PBT, polybutyleneterephthalate, is a nylon quality filament, solid, round and easily tapered. This shape is the best for wicking or allowing paint to travel quickly down the filament to the surface. An acid dipping process provides flagging at the tip for the best coverage and transfer of paint to the surface.

Professional Straight Cut

The contractor paintbrush series incorporates high performance filaments, knot and ferrule construction. Will work with all coatings including oils, stains, enamels, varnishes and latex paint. PBT, polybutyleneterephthalate, is a nylon quality filament, solid, round and easily tapered. This shape is the best for wicking or allowing paint to travel quickly down the filament to the surface. An acid dipping process provides flagging at the tip for the best coverage and transfer of paint to the surface.

Project Fire Safety

Paint

Specialty

Fire Retardant Spray

A clear, water-based, non-toxic treatment for both natural fiber and synthetic blend fabrics, numerous paper products, and unfinished leather. The powerful fire retardant works by raising the ignition temperature of these combustible items, making them harder to burn and reducing their fuel load potential.

UPC	Mfg#	Size	DC	Pk
734697720322	702/032	32 Oz.	FS	12

Paint Additives

Fire Retardant

Fire Retardant

Specially formulated to easily mix with standard water-based acrylic latex paint. Designed to raise the ignition temperature of the paint to provide a Class A flame spread rating. The original color or other characteristics of the paint will not be affected by FR-1. Clear coatings can also be mixed with FR-1. Mixture will appear to be milky in the can, but will dry clear.

Syntox Sprig

Syntox has all the benefits of Ox hair brushes without any of the negatives. It is 20% softer than our Ox with the durability of DuPont's SRT synthetic filaments for a superior finish. Syntox is totally shed resistant and will last at least 5 times longer than Ox Hair brushes. Even more importantly, the new Syntox can be used in water or solvent based clear finishes.

XL Elite Sprig

Purdy's most popular brushes .. highly recommended for both interior and exterior painting projects and with all paints. The stiffness of the brushes makes them ideal for outdoor projects with different temperatures and humidity. A blend of Satin-Edge Nylon (Tynex) and Orel Polyester are used and our special tipping and flagging process simulates the ragged ends of natural bristle, so the brush holds more paint and releases it without brush marks. Each XL brush has a unique hand-chiseled formulation for maximum paint lift and smooth "no drag" application.

Colossus

Features high capacity roller covers that load and release an exceptional amount of paint. Made of an exclusive formulation of 100% polyamide, Colossus roller covers lay paint off very smoothly and carry a remarkable amount of material to the surface without dripping or splattering. Rolls one-third farther than traditional lambskin roller covers and backrolls over 10,000 square feet. Perfect for rolling a great deal of new drywall quickly. Colossus roller covers hold and release more paint than any other Purdy roller fabric. Designed for heavy-duty painting projects. Also great for stucco, T1-11 siding, brick or rough-textured walls.

Wallpaper Paste & Accessories

Wallpaper Paste

PRO-505 Pre-Pasted Activator

The first adhesive/activator for pre-pasted wallcoverings. It makes hanging wallpaper easier by eliminating water tray mess, increasing slip and extending open time to allow pattern matching. It also minimizes split and open seams. Coverage: 360 sq. ft. per gallon.

UPC	Mfg#	Size	DC	Pk
017104093012	PRO-505	1 Gal.	FJKS	4

PRO-543 Universal Border Adhesive

Makes hanging wallpaper easy. This adhesive may be used on all surfaces, except for poor quality latex paint, and with all types of wallpaper. When used with non-woven wallpapers, PRO-543 allows dry strippability in complete sheets. For all wallpaper surfaces. For all wallpapers. Longer open time to match patterns. Maximum adhesion. Coverage: Approx. 180 sq. ft./gal. 16 oz., bottle will hang 60 linear feet of 6" border.

UPC	Mfg#	Size	DC	Pk
017104099144	PRO-543	Qt.	All	6

PRO-555 Vinyl Over Vinyl

The industry's first and favorite vinyl-over-vinyl adhesive. It is a high-tack, low-moisture adhesive for applying new vinyl wallcovering over existing wallcovering. It applies easily with brush or roller. Coverage: 160 sq. ft. per gallon.

1000+ Stain Remover

Solvents, Cleaners, Removers & Chemicals

Cleaners

Stain Remover

Unique stain-fighting multi-cleaner; strong as a solvent, gentle as soap. Known as the "World's Most Versatile Cleaning Solution" for a reason! Reach for it first against paint and coating messes, degreasing equipment and machinery, stain removal of all sorts - from hard surfaces or soft like carpets and laundry (food, beverages, pet messes, blood, etc.). Even converts oil-based messes into a simple clean-up with water. Contactors and trades have discovered 1000+ to be an extremely effective hand cleaner with no harsh effects to their skin when removing grime like roof sealant, gorilla glue, caulking, creosol and tree sap. Pro-strength formula that can be used full-strength or diluted as needed. Ideal in industrial, commercial, household and recreational settings, indoors and out. Low VOC, biodegradable and non-flammable. No bleaches, enzymes, whitening agents phosphates or NPE. Regular size (30.7 oz.) or handy 4 oz. for pockets, glove compartment, tool box or drawer. Just one bottle, a thousand solutions.

Stains & Finishes

Interior Stains

Water Based Stain

Going green is popular, For SamaN It's Natural. SamaN's Odorless Stain is unparalleled in the market. Over the years, demands were made in the wood coating industry (cabinet makers, furniture mfrs, DIY) to introduce odorless interior wood stain capable of measuring itself to the performance of well established oil-based products. SamaN's objective was to create synergy between the benefits & properties of oil-based products and water-based stains. Unique revolutionary coalescents were developed so when blended properly, deliver the highest degree of performance in the industry. By mixing any of 40 pre-mixed colors an almost endless array of colors are available.

Filler Rope

Backer rod is a foam-like material used to properly configure expansion/contraction joints and to provide a surface that either the sealant will not adhere to or will be so flexible in its own right that, even though the sealant adheres to it, does not hinder the needed movement capability of the sealant itself. Backer rod comes in long lengths of a circular profile and is pressed into the joint just before the sealant is applied.

Solvents, Cleaners, Removers & Chemicals

Concrete Cleaner

Clean 'N Etch

Neutralizes new concrete and removes new/light rust stains from concrete, steel, and other masonry surfaces. Suitable for interior/exterior use. Biodegradable and safe to use near grass and plants. Use on bare concrete, garage floors, basements, driveways, carports, patios, walkways and pool decks.

Seal Krete

Stains & Finishes

Exterior Stains & Sealers

Clear Seal

Clear, urethane-fortified acrylic sealer developed to provide premium finish to painted, stained or bare concrete. It's durable, long-wearing, scratch-resistant, stain-resistant, oil and gas resistant, and it extends paint life. Also protects against moisture damage and enhances the natural color of brick, slate, stone, exposed aggregate, Saltillo, clay pavers, and stamped concrete.

Heavy-Duty Waterproofer

Rated for both residential and commercial use. Paintable, long-lasting, environmentally safe, and tintable. Conforms to ASE-514 and other tests for wind-driven rain.

UPC	Mfg#	Size	DC	Pk
015944700053	700005	5 Gal.	KST	1

Lock Down

Self cross-linking epoxy floor bonding primer for concrete surfaces. Its nanotechnology improves adhesion with ultra-fine nano-sized particles that penetrate deeply into concrete while locking down chalk and providing clean, sound substrate for topcoat of paint. Using will significantly reduce potential for peeling, cracking, blister or chipping. Great primer for any concrete substrate to lock down paint and preferred primer for Seal-krete Epoxy Seal, Floortex and Granitex textured coatings. Covers approximately 150-250 sq. ft. per gallon. Dries to touch in 2-4 hours and topcoated in 8 hours.

Waterproofing Sealer

Clear, waterborne, acrylic sealer, primer and binder for vertical concrete, brick, adobe, limestone, masonry and stucco surfaces. Recommended for use on painted aluminum siding, vinyl siding and galvanized metal. It seals and binds chalky surfaces, improving the adhesion of a topcoat. Can be used to help prevent efflorescence, erosion, spalling, rotting and other effects of water penetration. It has low odor, low VOC and is non-hazardous, non-staining and non-flammable. Cleans up with soap and water.

Patching & Repair

Spackling, Putty & Wood Fillers

Epoxy Wood Rebuilder

The strongest compound available to rebuild and replace rotted and broken woodwork. Stronger than most wood for use on posts, beams, sills, etc. Will not shrink or deteriorate in exterior weather conditions. Can be sanded, tooled, painted, and stained to match color of surrounding woodwork. Stainable. Easy to mix.

UPC	Mfg#	Size	DC	Pk
027046004038	403	16 Oz.	FKS	6

Miracle Wood

Made of real wood to accept stain readily and uniformly, eliminating the need to stock several colors or to pre-mix with stain. Dries hard and does not shrink. Extra durability makes it the preferred filler for both interior and exterior jobs.

UPC	Mfg#	Size	DC	Pk

StraitFlex

Tape & Masking Products

Drywall Tape

Arch Flex Tape

First arch product that comes on a roll. Ideal for barrel curves, L-groin curved ceiling applications, free-form curves and arched windows and doors. Use on arch windows and doors, curved soffits, circular stair cases and dome ceilings. Special applications where both legs of products must conform to curved walls such as inside or outside tangent of barrel ceiling. Continuous roll for seamless installation. Second coat immediately. Only light fill coat needed to finish product using standard compound. No special tools or fasteners. No spray glue. No nail pops. Patented tear strips allow for easy straight to curve transitions. Material will not fuzz-up during sanding. Save an average of 50% on installation time over other products.

UPC	Mfg#	Size	DC	Pk
656690125532	AF-50	3-3/8" x 50'	JKST	12

Composite Tape - Medium

Slightly thinner than Original. Medium straightens small framing irregularities for vertical off angles. Holes promote quick drying and easier detection of voids.

System Three Resins

Patching & Repair

Spackling, Putty & Wood Fillers

Borate Powder

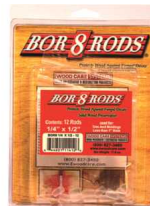

Borate powder. Insecticide, termiticide and fungicide. Controls wood destroying insects and prevents rot. Powder concentrate.

UPC	Mfg#	Size	DC	Pk
646601123012	1510S16	1 Lb.	CFJKT	12

Borate Rods

Easy, low-cost and EPA approved as a decay protection and prevention system for wood. They have an appearance similar to glass rods and are available in a variety of sizes for a wide range of applications. Borate Rods are molded from fused; water-diffusible borates which are internationally recognized as an effective and well established wood preservative. Borates also effectively control termites, carpenter ants, a variety of beetles, and many other wood boring insects. They are user friendly and environmentally acceptable. Borates are highly toxic to fungal decay and many insects at concentrations that are not poisonous to humans or other mammals.

UPC	Mfg#	Size	DC	Pk
64460114126	1514S99	1/4" x 1/2"	CFJKT	12

Endrot

Preservative and epoxy wood restoration system. Permanently repairs architectural wood components damaged by rot, insects, weather and abuse. Safe to use with low odor and solvent free. Stops rot and insects from coming back. Restores windows, doors, fascia, siding, decks, beams and log homes. Can be used on damp wood. Repaired area will hold fasteners, nails and screws. Interior/exterior use.

UPC	Mfg#	DC	Pk
646697001380	4005K99	All	12

RotFix

Ultra-low viscosity, penetrating epoxy used to seal and toughen rot damaged wood. RotFix is 100% epoxy solids and contains no solvent or harmful VOC's. Restores water and rot damaged wood to better hold paint or prepare the surface for additional repairs. Ideal for use on new wood, particularly as sealer for end grain to keep water from wicking and allowing rot fungus to form.

Paint

Floor & Porch Paint

Gripper Textured Coating

Very durable, textured, water-reducible, slip-resistant deck enamel for use on concrete and asphalt driveways, garage floors, tennis courts, walkways, patios, pool decks, etc. It combines the durability of oil-based paints with the ease and safety of water-based paints. Slippery, old, stained, dirty surfaces are easily transformed into very attractive, safe, slip-resistant, sure-footed areas. Florida formulated to be resistant to ultraviolet rays, pool chemicals, oil and grease, driving rains, and hydrostatic pressure. Hot tires will not lift -- guaranteed.

Paint Additives

Texture Products

Rhino Hide - Coarse Grade

Unique polymer texturing agent designed for use in most paints and stains. Will stir easily into most paints and stains with minimal effect on coating viscosity. Low density allows it to stay suspended in coating rather than sinking like sand type additives. Allows for more even application with less stirring. Due to its spherical shape, it's not highly abrasive and is easy to clean due to its lack of sharp edges.

Stains & Finishes

Exterior Stains & Sealers

Chattahoochee Sealer

Very durable, deep penetrating, solvent-based water repellent sealer for use on concrete driveways, garages, walkways, pool decks, patios, vertical and split face block, masonry walls, and any concrete surface that needs protection and beautification. Very unique formulation allows for deep penetration into concrete to give very long lasting color and protection. Old, stained, unsightly are easily transformed into very attractive areas to be resistant to ultraviolet rays, oil, grease, driving rains and hot tire pickup. Because of it's water repellent qualities, it will also prevent spalling / cracking as well as inhibiting mold and milew growth.

Wet Look High Gloss Sealer

Clear, non-yellowing, water-based acrylic coating formulated for use on interior or exterior masonry surfaces. Provides superior hardness and durability. Protects against efflorescence (white, powdery, salt-like deposits) visible on the masonry. Built in flash rust resistance prevents orange staining of surface when applied to masonry containing natural metals. Excellent chemical resistance to de-icing salts, gasoline, oil and weathering. Blush resistant formula will not turn white or haze when exposed to moisture after full cure. Ideal for horizontal and vertical surfaces such as walkways, driveways, pavers, brick, poured concrete, Chattahoochee stone, and artificial stone. Not recommended for use on wood, metal, granite, marble, pool decks or areas immediately adjacent to pools or areas subject to hydrostatic pressure.

Zar Exterior Polyurethane - Water Based

ZAR Exterior Water-Based Polyurethane is a rich amber colored, environmentally safe finish formulated to protect and beautify exterior wood surfaces. Containing ultraviolet radiation absorbers and antioxidants, ZAR is the ultimate in protection. ZAR's full-bodied formula brushes on like a conventional polyurethane for maximum durability and beauty. Goes on milky but dries to a rich, amber color. Ideal for exterior wooden surfaces, marine bright work surfaces (above water-line), stained exterior doors- including fiberglass and steel doors, natural wood siding, patio furniture, fences, gables and other wood surfaces exposed to direct sunlight and the harsh extremes of weather.

Joint Compound - All Purpose

Used for embedding joint tape, finishing gypsum panel joints and hand-applying simple texturing. Combines single-package convenience with good taping and topping performance. Also recommended for laminating and repairing cracks in interior plaster and masonry not subject to moisture. Its formulation delivers excellent slip and bond and easy workability. It can be used directly from the container and requires only minimal mixing, thinning, and re-tempering. Joint finishing is fast, easy, and smooth, reducing labor costs and improving appearance and quality of the job. Meets ASC475.

Patching & Repair

Joint Compound & Texture

Structolite

Mill mixed perlite aggregate. Lightest weight gypsum plaster. Ideal for areas where it is not desirable to mix aggregate with plaster on the job. Apply on gypsum or metal lath, clay tile, concrete or cinder blocks. Excellent for areas requiring highly insulated plaster. Provides "K" factor of 1.74. Use where high thermal conductivity plaster applications are needed. Meets ASC28, Fed Spec S S-P-00402B, Type 1.

UPC	Mfg#	Size	DC	Pk
081099020698	163841040	50 Lb.	JST	1

Wall & Ceiling Texture - Unaggregated

Ideal for use over properly prepared interior surfaces, including gypsum panels, concrete, and plaster substrates. The textures provide lower shrinkage than joint compounds, resulting in less cracking and a more durable finish. In addition to enhancing aesthetics, they conceal minor surface defects in walls and ceilings. They apply quickly and easily, drying to a hard, white finish that allows for next-day decorating.

Valspar Paint Colorant

Novocolor II

NovoColor II colorants are the next generation of No VOC universal pigment dispersions manufactured by Color Corporation of America. NovoColor II universal colorants are specifically engineered for use in decorative waterborne and solventborne coating systems that will help customers meet stringent VOC restrictions in place today and the pending regulations we face in the future.

Stains & Finishes

Exterior Finishes

Exterior Oil

Unique penetrating oil that hardens in the wood, not on the wood. New, old, or pressure treated wood becomes water repellent, provides UV and mildew protection, and resists warping and swelling caused by changes in weather. Durable and easy to use. Great for decks, siding, fences and more.

UPC	Mfg#	Size	Color	VOC Content	DC	Pk

Surface Prep

Deckstrip Acrylic Stain Remover

Removes relatively new or weathered acrylic coatings. Removes solid or semi-solid deck and siding stains. Easier to use than paint strippers - spray on, rinse off, no scraping or sanding. Strips multiple layers in one application. Fast-acting - remover dissolves most coatings in 15 minutes. Clings to vertical surfaces to ensure effective stripping of posts, spindles, fencing and siding. Will not etch glass or leave hard-to-remove residue. Easy soap and water clean-up. 100% biodegradable - so remover won't harm grass, plants or shrubs.

RR323 Jumbo Koter Flip Frame

Spring-loaded 1/4" chrome-plated shank adjusts four ways to reach different faces of a surface. Solvent-resistant plastic cage. Extra smooth rolling action. Quickly change the direction of the frame anytime during painting. Full-size grip with reinforced threads, Sherlock GT compatible. Works with both 4-1/2" and 6-1/2" Jumbo Koter rollers.

UPC	Mfg#	DC	Pk
071497146076	RR323	All	12

Shergrip Jumbo Koter

The Jumbo-Koter Shergrip handle has a smaller diameter, making it easier to hold. It weighs less than the Wooster professional grip, and therefore causes less fatigue. The two-part construction incorporates durable "Sherlock green" polypropylene and black elastomeric material for better grip. Sherlock GT pole compatible. The new Shergrip frame works with both 4 1/2" and 6 1/2" Jumbo-Koter minirollers.

4157 Ultra Pro Sable - Extra Firm

For jobs that require extra strength, the newest and toughest of the Ultra/Pro line is Extra/Firm. NylonPlus filament, exclusive to Wooster, allows for superior stiffness and cut-in control. Able to maintain sharp edge even in hot, humid conditions. Made from 100% nylon. Very durable; cleans much more easily than brushes that use polyester to achieve extra stiffness. Square steel ferrule, chisel trim.

Working Concepts

Safety & Workwear

Knee Pads

Knee Pads

Made of long-lasting hypoallergenic material often used in prosthetics. For all workers wearing garments with double layers of fabric on knees. For workers who frequently kneel for short periods of time. Sturdy, lightweight molded pad is barely noticeable to worker when standing and walking, unlike heavy cumbersome strap-on pad. Simply roll into tight roll and insert into opening in bottom of double knee of most double knee workwear.

Cover Stain - High Hide

High-performance, all-surface oil-base primer-sealer that offers outstanding adhesion and stain killing power and dries to recoat in 2 hours. May be tinted toward the color of the finish coat to help the topcoat hide in one coat. All-surface low-VOC primer-sealer can be used over or under any oil or latex architectural paint and is ideal for water damage, fire damage and smoke damaged (including nicotine) surfaces. Seals surfaces with one coat offering excellent hold-out for enamels of any sheen. Offers excellent flexibility and penetration making it ideal for exterior application to wood siding and trim. Use for interior and exterior walls, ceilings, doors, trim, paneling, siding, window frames and shutters - any surface where a high-hiding, high-adhesion primer is desired. Meets stringent SCAQMD Air Quality Standards for Specialty Primers, Sealers and Undercoaters.

Primers

High Performance Primers & Sealers

Peel Stop Triple Thick

Water-based acrylic binding primer designed to penetrate and stop previous coatings from peeling. 3X thicker than regular primers when applied properly. Fills and seals cracked, weathered, and peeling surfaces, creating a smoother, more uniform surface for finishing. Dries to a white finish to provide contrast for application of finish coats. May either be applied lightly for basic priming and sealing, or follow with several thick coats to bridge and fill cracked and uneven surfaces. 50-200 sq. ft. / gal. depending on surface porosity. Apply with brush and/or roller or airless sprayer. Back brush or roll to work into cracks and edges of old paint. Satin finish. Topcoat with any latex or alkyd paint. Excellent flexibility to allow for natural expansion and contraction on wood and other exterior surfaces. Use on interior and exterior surfaces such as previously painted wood, wood siding, windows, baseboards, doors, fences, walls, foundations, laminated wood, trim, PVC, plastic, plywood, brick, stucco, masonry, concrete, plaster, aluminum siding, metal gutters and downspouts, galvanized steel, and fiberglass.

Drop Cloths

Drop Cloths

The ZipRunner Ultimate Floor Protection is better than drop cloths, traditional runners and carpet films because it's absorbent, yet spills won't soak through. Backed with a leak-proof plastic barrier, also resists minor impacts. Use to protect flooring, furnishings, counter tops and more. When used with ZipWall double-sided tape, can even be used on stairs.

HDAZ1 Zippers

Create doorway where you want it. Ideal when barrier will be up for a while, if there will be lots of traffic in and out, or if worksite will go below freezing. Single-piece design improves reliability by eliminating stitching that could pull apart under heavy traffic or with rough usage. Easy to install. Single piece backing paper cuts installation time in half. Use one zipper for simple doorway or place two zippers side by side to create wide roll-up doorway. Has two-sided pull plus smooth glide action making it easy to open.

HDAZ2 Zippers

The ZipWall Heavy-Duty Zipper works as well for permanent access through plastic barriers as it does for temporary access. Each box of two zippers come with the exclusive ZipWall Zipper Knife. It cuts a swath of plastic away from the zipper teeth preventing jams. Works in temperatures below freezing. This adhesive zipper features 2-sided pulls, a very smooth glide action and easy press-on application.

Heavy Duty Zippers

The ZipWall HDAZ12 bulk pack is the smart way to make sure you always have zippers on hand. Best of all, you get our best zipper for less. Each heavy-duty zipper 12-pack contains 12 self-adhesive Heavy Duty Zippers, 1 ZipWallZipper Knife and 12 sets of Door Hooks. This special knife has two blades that cut a 3/4-Inch channel from the sheeting to prevent the zipper teeth from jamming while opening and closing. Use the Heavy Duty Zipper when your barrier will be up for a while, if there will be a lot of traffic in and out, or if the worksite will go below freezing. Use one zipper for a simple door way or place 2 zippers side by side to create a wide roll-up doorway.

Zipdoor Commercial

The ZipWall ZDC ZipDoor Commercial Doorway Dust Containment Kit is a great way to create a dust barrier when all you need to seal is the doorway. Installs in under a minute and is ideal for commercial renovations, hotels, hospitals, etc. Will increase profitability on every job by dramatically cutting labor costs. Designed for commercial doors (up to 4-Feet by 8-Feet). It also makes it easy to meet the EPA's RRP requirement for a covered doorway. To attach the ZipDoor, ZipWall invented a very special double-sided tape. One side of the ZipWall tape is gentle on painted surfaces like traditional painter's tape. The other side was designed to hold plastic sheeting and lets you reposition the ZipDoor for up to an hour before fully bonding to the plastic. Made from 4 mil flame-retardant plastic sheeting, the ZipDoor kit has two heavy-duty zippers pre-installed to allow easy access through the doorway. The zippers are glued-on for maximum strength and durability. A stitched-on zipper can fail if pulled sharply or tugged because the stitching creates a perforation. Barrier system sets up in minutes and adds a professional touch to the job site. No tape, no ladders, no damage. Use in commercial and residential remodeling settings, as well as in flood restoration, mold remediation, and many other applications.

Zipdoor Standard

The ZipWall ZDS ZipDoor Standard Doorway Dust Containment Kit is a great way to create a dust barrier when all you need to seal is the doorway. This kit only takes a minute to install and is ideal for jobs where doorways measure up to 3 ft. x 7 ft. Will increase profitability on every job by dramatically cutting labor costs. This includes commercial jobs as well as residential kitchen remodeling, bath remodeling or renovations that will disturb lead paint. Kit makes it easy to meet the EPA's RRP requirement for a covered doorway. To attach the ZipDoor, ZipWall invented a very special double-sided tape. One side of the ZipWall tape is gentle on painted surfaces like traditional painter's tape. The other side was designed to hold plastic sheeting and lets you reposition the ZipDoor for up to an hour before fully bonding to the plastic. Made from 4 mil plastic sheeting and includes 2 pre-installed heavy-duty zippers that allow easy access through the doorway. ZipDoor zippers are glued-on for maximum strength and durability. Zipwall Tape

ZipWall tape is forgiving. The adhesive on side 2 (plastic-side) gives you about an hour to adjust or reposition the plastic sheeting. After that, the adhesive sets up and holds the sheeting until the job is done. ZipWall tape is rated for 14 days and like all tapes, we recommend testing it before using.

- Side 1 is like painters tape
- Side 2 holds plastic tight
- Lets you reposition plastic for up to 1 hour
- 14 day rating
- Easy-tear, made of paper.
