Pricing

Pricing

In order to assist you we are pleased to include SSP's (suggested selling prices). The majority of SSP's shown have been provided by the product manufacturer and are effective from 1st January 2023. Where no manufacturers pricing is available the SSP may be estimated.*

*SSP's shown may not reflect the pricing at which products would normally be sold. It is your individual responsibility to ensure pricing is checked against your cost prices, please contact your local Decco branch for details. These SSP's are in no way binding. E & OE 2023: At the time of printing to the best of our knowledge all details including pricing contained within the catalogue are correct. We cannot be held liable for any errors and or omissions.

SAFETY STANDARDS EXPLAINED

Ladder standards in the UK have changed to a single British and European standard covering all types of portable ladders. Our Werner ladders have changed to the latest EN131 standard, where applicable, with ladders having a load capacity of 150kg. There is one standard with two classifications:

- EN131 Professional
- EN131 Non-Professional

Products were independently tested and certified for compliance and labelled with the latest EN131 standard. Safety bodies such as Trading Standards and the HSE expect manufacturers to comply and recommend that as users replace their ladders, they should comply with the latest standard.

There are separate requirements for stepstools (EN14183), loft ladders (EN14975), telescopic ladders (EN131-6) and single or multiple joint ladders (EN131-4).

TELESCOPIC EXTENSION LADDERS

- Telescopic design for easy transportation and storage
- Extra rung spacing to prevent finger trapping
- Automatic locking mechanism for convenience and security
- Single handed unlocking system for easy closure
- Wide stabiliser for added safety during use (product code 8703220 only)
- Maximum safe working load 150kg
- Certification: EN131-6 Professional and Non Professional use
