Forward search via colour

1. Access to the product group via the registers (for ex. Laminates & Elements)
2. Select the decor group and the colour area in the decor survey (for ex. uni, white-grey)
3. Find the appropriate decor reference (for ex. A 402)
4. Find the decor line(s) (A 402 light grey Bril, C, Pe) via the alphabetic sorting in the spreadsheet.
5. Getting information regarding available sizes and order numbers from the column-line combination.

Example

A 402 Bril available in:
4100 x 1300 x 0,8 mm
order number 594 647

A 402 C available in:
2960 x 1300 x 0,7 mm
order number 030 718
4100 x 1300 x 0,7 mm
order number 018 686

A 402 Pe available in:
2140 x 1050 x 0,8 mm
order number 547 266
2960 x 1300 x 0,7 mm
order number 054 757
4100 x 1300 x 0,7 mm
order number 082 751

Backward search via product group/decors reference

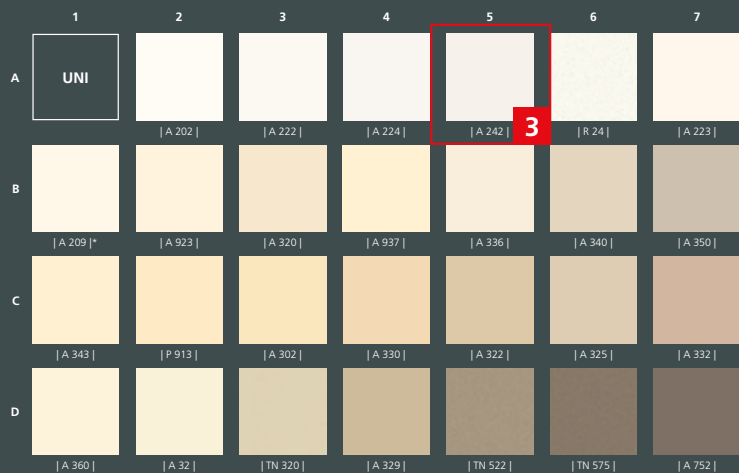

1. Take information from the area „co-ordinate, page“ in the spreadsheet (for ex. decors A 242 uni white: co-ordinate A5, page 6)

Laminates				Dimensions / Order numbers							
Decor	Co-ordinate page	Price-group	Type	2140 mm		2960 mm		4100 mm		5200 mm	
				1050 mm	1300 mm	1300 mm	1300 mm	1300 mm	1300 mm		
				0,8 mm	0,7 mm	0,8 mm	0,7 mm	0,8 mm	0,7 mm	0,8 mm	0,7 mm

2. Turn to the decors survey of the respective brand

3. Identify the decors via the co-ordinate (A5, page 6)

Those spreadsheet fields containing an order number have a production time of 3–5 working days.

Products/sizes/decors/surfaces which are not enlisted, might be available in the Special Range. Additional information can be taken from the Basic Price List and the Cut-and-Edge Price Lists.

Errors and technical alterations for products in this catalogue excepted.

GetaLit®

LAMINATES

GetaLit-HPL laminates are sheets consisting of layers of synthetic resin saturated kraft papers and a top layer of printed or plain colour decor paper which is protected by a crystal clear melamine overlay. With the appropriate machinery, GetaLit Type HGP can be postformed. Due to its outstanding duroplastic properties, GetaLit-HPL laminates are especially resistant to impact and abrasion and superior to standard melamine faced chipboard or similar substrates.

COMPOUND ELEMENTS

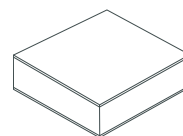

■ Type Standard

Laminate faced chipboard type P2 to DIN EN 312, both sides with high-pressure laminate GetaLit (HPL) according to EN 438 (A/A grade). On request HPL-balancer reverse side (A/C grade), decor to our option. Edges untrimmed. Adhesive quality D3 to DIN EN 204/205.

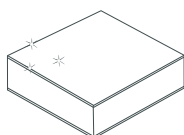

■ Type Chipboard (Seta)

Laminate faced chipboard type P2 to DIN EN 312, both sides with high-pressure laminate GetaLit (HPL) following EN 438 (A/A grade). Surface foil-protected. On request HPL-balancer reverse side (A/C grade), decor to our option. Edges untrimmed. Adhesive quality D3 to DIN EN 204/205.

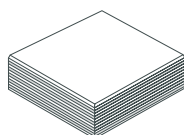

■ Type Chipboard (Metallica)

Laminate faced chipboard type P2 to DIN EN 312, both sides with high-pressure laminate GetaLit (HPL) with aluminium surface following EN 438-8 (A/A grade) for vertical applications. On request HPL-balancer with aluminium surface reverse side (A/C grade), decor to our option. Edges untrimmed. Adhesive quality D3 to DIN EN 204/205.

■ Type Brilliant

Laminate faced chipboard type P2 to DIN EN 312, both sides with high-pressure laminate GetaLit (HPL) according to EN 438 (A/A grade). On request HPL-balancer reverse side (A/C grade), decor to our option. Edges untrimmed, adhesive quality D3 to DIN EN 204/205. Surface foil-protected.

■ Type Birch plywood

Birch plywood compound element, adhesive quality BFU 100, with high-pressure laminate GetaLit (HPL) on both sides to DIN EN 438 (A/A-grade). Edges untrimmed.

Additional support versions are available from our Special Range (also refer to page 85).

GetaLit decor EIR 373 matt

DIRECTLY COATED ELEMENTS (MFC)

Directly coated panels are genuinely universal materials for furniture making and interior finishing. The material can be used in a wide variety of light to normal-duty applications: partition walls, shelves or back panels. Optionally, these are available in Brilliant Gloss optics. Both lucidity and the fresh design turn the GetaLit elements melamine Brilliant Gloss panel into a versatile element in interior design in private and in public areas.

GetaLit decor EiV 971 Lt
PEFC-certified worktop decors are available upon request.

Differences in quality are hardly to be recognized at a glance. GetaLit worktops distinguish themselves via their ambitious quality features. GetaLit is a top-quality High Pressure Laminate (HPL) with outstanding properties. The GetaLit surfaces which are produced under heat and high pressure are especially resistant to stains and scratches, hence withstanding every day's wear and tear in a kitchen and offering security on a very high level.

marble st. laurent

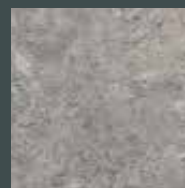

Stone is a material with features like durability, resistance and great stability – just like the GetaLit® worktops. The cool stone appearance combined with modern Uni decors as well as warm wood tones is particularly attractive.

Wood tones introduce warmth and richness into your kitchen. Precious woods with various grains and colour nuances are the basis for the diverse range of wood decors. At first glance scarcely distinguishable from the real thing, the worktops enhance the quality of your kitchen.

ACCESSORIES

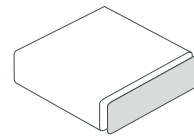

■ PP-/Effect-Edges

1,5/2 mm decor matching PP-edges for an individual style of the worktop.

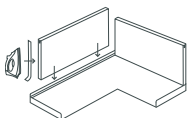

■ GetaLit Flex edges

Two layer polyester based continuous laminate (colour co-ordinated).
Type SB = Reverse with hot-melt adhesive.

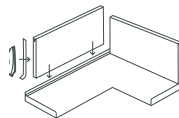

■ GetaLit edges

High-pressure decorative laminate edges according to DIN EN 438.

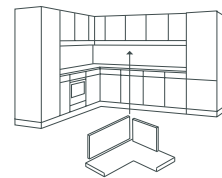

■ Wallback Panel MFC Set

13 mm melamine faced chipboard according to EN 14322, melamine-resin faced both sides, reverse side to our option, including hard PVC moulding with coloured soft lip to fix wall back panel and GetaLit Flex lateral edge (length 650 mm, width 44 mm).

■ Wallback Panel GetaLit Set

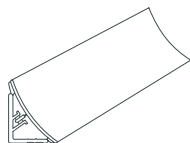

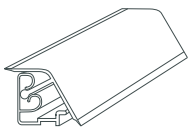

Compound element made of chipboard type P2 to DIN EN 312, faced both sides with high-pressure laminate GetaLit (HPL). Reverse side to our option 13.4 mm and 13,6 mm respectively, including hard PVC moulding with coloured soft lip to fix the wall back panel and GetaLit Flex lateral edge (length 650 mm, width 44 mm).

■ Wallback Panel Standard GetaLit

Compound element made of chipboard type P2 to DIN EN 312, substrate 12 mm, faced both sides with GetaLit (HPL). Reverse side to our option. Edges trimmed.

GetaLit window sill decor EG 234 Cr

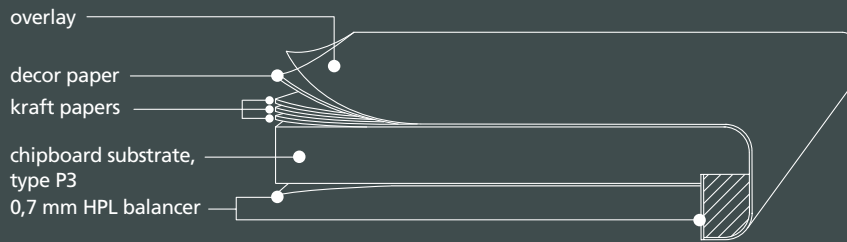

GetaLit®

WINDOW SILLS & FRONTS

The right window sill for every window. Both in new and refurbished houses. The vast range of window sills includes the right window sill for every application.

Whether as front, drawer or wall back panel, the front element can be used in a whole variety of areas. Modern decorative finishes and highly contrasting edges permit individual designs. Simple processing and high quality are convincing arguments in favour of the GetaLit kitchen fronts.

SPECIAL PRODUCTS

In addition to the Basic Range Westag & Getalit AG offers a large variety of special products, support versions and services. A selection of these products is listed on the following pages. Further information as to special products can be obtained from the Basic Price List under the heading "Special Range".

Laminates & Elements

Direct coating

Worktops & Accessories

Window sills & Fronts

Special products

GETALIT® LAMINATES

■ Type HGS/HGP

High-pressure laminate to DIN EN 438. Decors of the current Basic Range in different decor/surface combinations and individual sizes.

■ Type HGS-MAG (magnetic adherent)

High-pressure laminate in magnetic adherent version. Available sizes: 2960/4100 x 1300 x 1,0 mm in all decors of the current Basic Range with the exception of the decors A 10, A 202, A 209, A 350, A 407, A 455, A 471, A 840, A 937, ALU 273 and ALU 423 and the surface finishes Cera, Gebürstet (brushed), Listrado, Sentira and Seta. The surface structure is influenced by the magnetic adherent insert. GetaLit HPL in Brilliant Gloss version can be lettered and wiped dry by non-permanent board markers. Individual digital print and cut-to-size upon request.

■ Type HGF (B1/fire retardant)

High-pressure laminate in fire retardant version to DIN 4102 B1. Available sizes: 2960/4100 x 1300 x 1,2/0,8 mm in all decors of the current Basic Range with the exception of the decors A 10, A 202, A 209, A 350, A 407, A 455, A 471, A 840, A 937, ALU 273, ALU 423 and surface finishes Cera, Gebürstet (brushed), Listrado, Sentira and Seta. Digital Print decors and cut-to-size upon request.

■ Type HGF-IMO (interior ship construction)

High-pressure laminate in fire-retardant version for shipbuilding to IMO classification (Surface material with low fire propagation ability according to MED/US Coast Guard). Available sizes: 2960/4100 x 1300 x 0,5/0,8/1,2 mm in all decors of the current Basic Range with the exception of the decors A 10, A 202, A 209, A 350, A 407, A 455, A 471, A 840, A 937, ALU 273, ALU 423 and surface finishes Cera, Gebürstet (brushed), Listrado, Sentira and Seta. Digital print decors and cut-to-size upon request.

■ Type HGS-AC4/ESD (abrasion-resistant/dissipative)

High-pressure laminate in highly abrasion-resistant and dissipative version (ESD to DIN IEC 61340-4-1). Available sizes: 4100 x 1300 x 0,8 mm in all decors of the current Basic Range in Colin P surface finish with the exception of the decors A 10, A 202, A 209, A 350, A 407, A 455, A 471, A 840, A 937, ALU 273, ALU 423 and digital print decors (colour deviations due to different surface finishes might occur). Cut-to-size version upon request.

GETALIT® COMPACT SHEETS

■ Type CGS (Compact sheet)

Compact high-pressure laminate to DIN EN 438. Available sizes: 2060 x 880/2140 x 1050 x 2,0 – 20,0 mm (brown core), 2960/4100 x 1300 x 2,0 – 20,0 mm (black core) in all decors of the current Basic Range with the exception of the decors A 10, A 202, A 209, A 350, A 407, A 455, A 471, A 840, A 937, ALU 273, ALU 423 and the surfaces Cera, Gebürstet (brushed), Listrado, Sentira and Seta. Digital Print decors and cut-to-size upon request.

■ Type CGS-MAG (magnetic adherent)

Compact high-pressure laminate in magnetic adherent version. Available sizes: 2960/4100 x 1300 x 2,0 - 20,0 mm in all decors of the current Basic Range with the exception of the decors A 10, A 202, A 209, A 350, A 407, A 455, A 471, A 840, A 937, ALU 273, ALU 423 and surface finishes Cera, Gebürstet (brushed), Listrado, Sentira and Seta. Digital Print decors and cut-to-size upon request.

■ Type CGF (B1/fire retardant)

Compact high-pressure laminate in highly fire retardant version to DIN 4102 B1. Available sizes: 2960/4100 x 1300 x 2,0 - 20,0 mm in all decors of the current Basic Range with the exception of the decors A 10, A 202, A 209, A 350, A 407, A 455, A 471, A 840, A 937, ALU 273, ALU 423 and surface finishes Cera, Gebürstet (brushed), Listrado, Sentira and Seta as well as digital print decors. Cut-to-size upon request.

■ Type BCS (wall protection)

Compact high-pressure laminate with black-white core (wall protection). Available sizes: 2960 x 150 - 300 x 10,6 mm or full size 2960/4100 x 1300 x 10,6 mm in all decors of the current Basic Range with the exception of the decors A 10, A 202, A 209, A 350, A 407, A 455, A 471, A 840, A 937, ALU 273, ALU 423 and surface finishes Cera, Gebürstet (brushed), Listrado, Sentira and Seta. Digital Print decors available upon request.

GETALIT® COMPOUND ELEMENTS

■ Type chipboard

Compound element with P2 chipboard substrate.
Available sizes: 2960/4100 x 1310 x 13/18/22/28/38 mm (support thickness) in all decors of the current Basic Range with the exception of the decors A 209 and A 471.
Cut-to-size and other support thicknesses upon request.

■ Type birch plywood

Compound element with birch plywood support (BFU 100).
Available sizes: 2500 x 1250 x 12/15/18/21 mm (support thickness) in all decors of the current Basic Range.

GETALIT® DIREKT BESCHICHTUNG

■ Type Standard (MFC)

Melamine-faced decorative chipboard to EN 14322, both sides melamine-impregnated surfaces.
Available sizes: 3100 x 1310 x 8/13/16/18/19 mm, 4100 x 1310 x 8/13/16/18/19/22 mm in all decors of the current Basic Range in surface finishes Colin, Pergament, Feinbütten, Pore EB, Pore D, Pore F, Crystal² and Matt^{2 3} (² one side only, ³ not in decors A 1, A 14, A 411) with the exception of the decors A 10, A 202, A 209, A 32, A 350, A 407, A 41, A 411, A 421, A 455, A 471, A 623, A 828, A 840, A 937, P 111, ALU 273, ALU 423.

■ Type FR (fire retardant)

Melamine-faced decorative chipboard, both sides melamine-impregnated surfaces (according to EN 14322) in fire-retardant version (classification B-s2, d0).
Available sizes: 3100 x 1310 x 16/19 mm, 4100 x 1310 x 16 mm in all decors of the current Basic Range in surface finishes Colin, Pergament, Feinbütten Pore EB, Pore D, Pore F, Crystal² and Matt^{2 3} (² one side only, ³ not in decors A 1, A 14, A 411) with the exception of the decors A 10, A 202, A 209, A 32, A 350, A 407, A 41, A 411, A 421, A 455, A 471, A 609, A 623, A 650, A 665, A 828, A 840, A 937, ALU 273, ALU 423, P 111, P 699, TN 680.

Sampling

Samples for the decors of the Getalit® Basic Range are available in sizes A6, A5 or A4 in a determined surface finish. Any deviating decor/surface combinations can be made as laboratory samples. These samples in size 600 x 600 mm are invoiced with 150,- € net. Lead time: ca. 10 working days.

GETALIT®/GETASTYLE® DIRECT PRINTING

■ Type Chipboard/Chipboard MFC

Directly imprinted decorative compound element for application in vertical interior areas with individually printed image motifs.
Available sizes: 3050 x 1300 x 13 mm, 3100/4100 x 1300 x 13/16/19 mm. Cut-to-size and other support thicknesses upon request.

■ Type ALU

Directly imprinted aluminium support for application in vertical interior areas with individually printed image motifs.
Available sizes: 3050 x 1500 x 5 mm. Cut-to-size and other support thicknesses upon request.

■ Type Foam

Directly imprinted foam support for application in vertical interior areas with individually printed image motifs.
Available sizes: 3050 x 1560/2010 x 3/5 mm. Cut-to-size and other support thicknesses upon request.

■ Type Glass (ESG)

Directly imprinted break-proof toughened safety glass individually cut-to-size (see also brochure "Glass wallback panels" / art. no. 711 041).

■ Type Three-layer panel

Directly imprinted Three-layer wood support for application in vertical interior areas (see also brochure "Naturally pure" / art. no. 385 032).
Available size: 5000 x 1250 x 20 mm

GETACORE® SOLID SURFACE MATERIAL

For further information as to GetaCore Solid Surface Material, please kindly refer to our brochure "GetaCore® Basic Range" (art.no. 649 181).

ABS is the abbreviation for acrylonitrile-butadiene-styrene and is the synthetic material which is used for edges.

BASIC RANGE is the new title for the Stock Range catalogue. The Basic Range comprises the products with a short-term lead-time as compared to the Special Range with a 2–3 weeks' delivery period.

BFU = BAUFURNIERPLATTE = veneer plywood

BIRCH PLYWOOD (Multiplex) consists of minimum five wood layers and the fibre course/orientation is glued in an angle of 90°. By this, those material properties depending upon direction, as for example swelling and shrinking behaviour, are homogenized over the sheet. The sheet structure and the specific resistance properties result from the kind, quantity and configuration of the wood layers. The raw density is ca. 650–700 kg/m³.

BTS/BCS = bicoloured-compact-standard, DIN term Unicolor

CAPS / MOULDED PARTS These are interior edges, exterior edges or end cap sets in uni colours or in decors suitable for wall splashback systems.

CGS = Compact General Standard, DIN term compact sheet

CHIPBOARD SUBSTRATES often also named flat press sheets (P1 to P7) represent the largest and best-known sub-group of wooden chip materials. They consist of glued wooden chips of different size which are pressed to multi-layer panels in three up to five layers. The exterior layers mainly consist of the fine chip-board material, especially when they are coated for decorative purposes (as for example for furniture). As the massive character of wood compound does not exist, these panels have nearly the same moisture expansion and shrinking properties of the panel layers direction-wise (i. e. panel's length and width) but at the same time a considerably minor stability than solid wood.

Type P2 (former name V20) for general applications for furniture and interior design

Type P3 (moisture-repellent) for general applications for furniture and interior design

GETALIT® HPL laminates are sheets consisting of layers of synthetic resin saturated kraft papers and a top layer of printed or plain colour decor paper which is protected by a crystal clear melamine overlay. Under certain conditions and with the appropriate machinery, GetaLit can be postformed. Due to its outstanding duroplastic properties, GetaLit-HPL laminates are especially resistant to impact and abrasion and superior to standard melamine faced chipboard or similar substrates.

GETALIT® COMPACT SHEETS GetaLit HPL with a minimum thickness of 2 mm are named "compact high-pressure laminates". GetaLit compact sheets can be covered on both faces with decorative surfaces. With a minimum thickness of 5 mm they have self-supporting properties. GetaLit compact sheets are especially moisture-resistant and have a low degree of electrostatic charge. They are break-proof and easy to instal. Supporting materials and edging materials are not necessary.

GETALIT® ELEMENTS (GT-e) Compound elements (kitchen worktops) meet especially high quality requirements by means of their robust and resistant GetaLit (HPL) surfaces. These compound elements covered with HPL are therefore mainly applied in areas of daily wear and tear – as for example for shop fitting, in schools and kindergardens – and last but not least as kitchen worktops.

GETALIT® ELEMENTS MELAMINE (GT-e-M) are directly covered materials (MFB/MFC) for the application as partition walls, shelves and back panels. They are offered as Standard type or as Brilliant type.

GETALIT® FLEX The polyester-resin based decorative laminate is especially used for narrow radii. When combined with hot-melt adhesive this material is mainly applied as edging material for GetaLit kitchen worktops.

GETALIT® UNICOLOR Coloured decorative laminates to DIN EN 438. Decor core papers are melamine-resin-impregnated.

HGS = Horizontal General Purpose Standard Laminate

HPL = High Pressure Laminate consist of of layers of synthetic resin saturated kraft papers and a top layer of printed or plain colour decor paper which is impregnated with high-quality pure melamine resins (see also under GetaLit).

MFB = Melamine Faced Board

MFC = Melamine Faced Chipboard

MTS = metall-thin (laminate)-standard

PP EDGES Polypropylene (short PP) is a semi-crystalline thermoplast and belongs to the group of polyolefins. Polypropylene is produced by polymerisation of the propene monomer by means of catalysts.

PRICE GROUPS GETALIT

Laminates & Compound Elements

- A 242 Price group for laminates and elements of the Basic Range, Decor A 242 in combination with the surfaces C, Pe, Pma, PeB
- BRIL Price group for laminates and elements of the Basic Range, decors in Brilliant Gloss surface finish
- DIG Price group for laminates and elements of the Basic Range, decor group Digital Print
- FSH Price group for laminates and elements of the Basic Range, decor groups Abstract Designs, Stone and Wood Reproductions
- I-UNI Price group for laminates and elements of the Basic Range, decor group Intensive uni
- MET Price group for laminates and elements of the Basic Range, decor group Metallica
- R24 Price group for laminates and elements of the Basic Range, decor R 24 in combination with the surfaces Pe and Pma
- SETA Price group for laminates and elements of the Basic Range, decors with Seta surface
- UNI Price group for laminates and elements of the Basic Range, decor group Uni (exceptions A 242, R 24 and intensive uni decors)
- UC1/UC2 Price groups for Unicolor

Direct coating

- GL1/2/4 Decor-dependent price groups Getalit-e-melamine type BRIL

Worktops

- AFSTD Price group for worktops in standard decors (without BRIL and DIG)
- AFSETA Price group for worktops in Seta surface
- AFBRIL Price group for worktops in Brilliant Gloss surface
- AFDIG Price group for worktops in digitally printed decors

Accessories

- DEKOR Price group for printed caps/moulded parts
- UNI Price group for Uni caps/moulded parts
