1

Atornillar la base al suelo.
Screw the base to the ground.
Visser la base au sol.

2

Colocar los paneles de laminado dejando un margen que permita la dilatación.
Place the laminate panels maintaining a margin with the profile to allow expansion.
Placez le sol stratifié et maintenir une marge avec le profil pour permettre l'expansion.

3

También se puede fijar la base al suelo mediante adhesivo.
The base can also be fixed with adhesive.
La base peut également être fixée avec adhésif.

4

Si se desea mayor sujeción entre las partes se puede ensanchar la guía del perfil superior.
The guide of the superior profile can be widened in order to obtain greater fixation.
Pour une plus grande fixation le guide du profil supérieur peut être élargi.

5

Colocar la parte superior sobre la base y presionar.
Place the superior profile on top of the base and press.
Placez le profil supérieur sur la base et serrez.

6

Vista del perfil terminado el proceso de montaje.
View of the profile once installation ended.
Vue du profil fini l'assemblage.

Consejos de instalación

- En pasillos y habitaciones con una longitud o anchura superior a 10 m deben dejarse espacios de dilatación que irán cubiertos con el correspondiente perfil.
- Es obligatoria la instalación de elementos de dilatación en todos los pasos de puerta.

Installation tips

- Corridors and rooms wider or longer than 10 metres, must have dilatation spaces covered with profiles.
- It is compulsory the installation of dilatation elements in all the doors or thresholds, covered with its relevant profile.

Conseils d'installation

- On doit laisser des espaces de dilatation dans les chambres et couloirs d'une longueur/largeur supérieur à 10 mètres, couverts avec le profil correspondant.
- C'est obligatoire l'installation d'éléments de dilatation dans tous les seuils de porte.

Ventajas de los perfiles estriados

Los perfiles de aluminio están tratados contra la corrosión por medio de un anodizado electrolítico.

Los perfiles en acabado aluminio del sistema multifijación, se encuentran disponibles en tres terminaciones: plata mate, oro mate y bronce mate.

Gracias a su acabado estriado, el color perdura en el tiempo a pesar del desgaste, impidiendo a su vez la acumulación de suciedad en las irregularidades, que cuentan con una altura de tan sólo 0,5 mm.

The advantages of the ribbed top profiles

The aluminium profiles are treated by an electrolytic anodized process against the corrosion.

The multifix system profiles are available in silver, gold and bronze matt finishing.

The colour has a long life as the profiles are fluted. This ribbed top is only 0,5 mm high, to prevent the accumulation of dirt.

Les avantages des profils striés

Les profils d'aluminium sont traités contre les agents corrosifs avec un éloxal électrolytique.

Les profils du système à clipser, achevé aluminium, sont disponibles en trois finitions: argent mat, or mat et bronze mat.

Grâce à sa finition striée, seulement de 0,5 mm d'hauteur, la couleur se maintient tout au long du temps malgré l'usure. C'est pour cela que s'empêche aussi, l'accumulation de saleté dans les irrégularités.
