CORPORATE MISSION STATEMENT

Since 1985 its has been a steadfast mission of QFX's senior leadership to create a world class global entity that establishes new parameters and benchmarks for the electronics industry. Part of that process will be to successfully develop exclusive & unique professional sound systems, personal portable electronics, and related accessories that meet and exceed the highest industry performance standards and with added value feature content that are and will be demanded by consumers.

To enable the long-term growth objectives of QFX the management team has made a significant investment into a new 130,000 square foot corporate headquarters in Vernon, California, SAP ERP operating system and the internal teams that are a prerequisite to attain the long term sales goals and objectives of the company. In 2011 QFX opened a sales and distribution center in Metropolitan New York - New Jersey area to better serve the needs of their domestic customers.

To assist the sales efforts of our partner retailers and distributors the company has made a substantial investment into the development of award winning packaging that are destined to increase the sell through of our customers and generate positive word of mouth by consumers. These packaging transformations and updates will be part of a constant never ending corporate improvement process to keep our fresh and appealing to the consuming public.

The company's customer service will be split into two separate entities; Customer service and customer care. This provides a desirable more focused methodology to meet servicing the needs of wholesale customers and consumers. In addition, the company will be improving the "out of box" experience of consumers to further increase positive word of mouth and reduce expensive avoidable product returns and most importantly facilitate our customers to preserve appropriate profit margins.

We sincerely appreciate and thank all our loyal customers for making our past and future success possible.

SPEAKERS WITH APP CONTROL

SPEAKER PRO

TWS

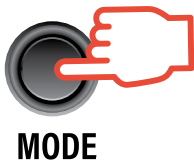

TRUE WIRELESS STEREO

CONNECT 2

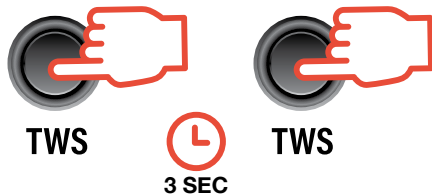

PAIR 2 SPEAKERS

STEP 1

Push the Mode Button on both speakers until speakers are in Bluetooth Mode. Screen will display the word "Blue"

STEP 2

When both speakers are in Bluetooth mode, push and hold the TWS button for 3 seconds. You will hear a beep. Next time you put both speakers in Bluetooth mode at the same time, speakers will connect automatically.

STEP 3

On your device, turn your Bluetooth settings "ON", you will then select "SPEAKER CHOICE". Enjoy TWS (True Wireless Stereo) sound from your phone via Bluetooth!
