

CMN / EA International Provider Network

HOSPITALS/CLINICS

As of March 2010

The following document is a list of current providers. The CMN/EA International Provider Network spans approximately 200 countries and territories worldwide with over 2000 hospitals and clinics and over 6000 physicians.

*Please note that the physician network is comprised of private practices, as well as physicians affiliated with our network of hospitals and clinics.

Prior to seeking treatment, Members must call HCCMIS at 1-800-605-2282 or 1-317-262-2132. A designated member of the Case Management team will coordinate all healthcare services and ensure that direct billing arrangements are in place. Please note that although a Provider may not appear on this list, it does not necessarily mean that direct billing cannot be arranged. In case of uncertainty, it is advised Members call HCCMIS.

CMN/EA reserves the right, without notice, to update the International Provider Network
