

Eurotech Rackmount for IBM TS11xx Enterprise Tape Drives

We have designed this drive enclosure to meet the specific needs of our customers. When providing manual load **IBM Magstar 3592** drives TS1120, TS1130 & TS1140, we believe this enclosure is a perfect fit and it's **free** with all TS1140 drive orders!

The rackmount is based on an industry standard 19" fixed shelf capable of taking 250lbs/114kg.

The IBM FC 4812 power cradle is removable from the tray making horizontal installation simple.

The drives fit into a standard library sled design, with no drive modification necessary.

Features of our rackmount kit include;

- 5U Design
- Holds two IBM Magstar 3592 drives
- Redundant Hotswap Power
- Individual Detachable service panels
- Easy fit rugged drive tray
- Access to rear Fibre channel ports
- Provided at **no cost** with all TS1140 drive orders.

About the TS1140 Tape Drive

The IBM®SystemStorage®TS1140 Tape Drive (3592-E07 tape drive) features storage capabilities to help you establish easy, rapid access to data. The TS1140 features the 3592 JC Advanced data tape cartridge providing up to 4.0TB native capacity. TS1140 has the ability to read tapes in all formats including IBM Magstar 3592-J1A, TS1120 (3952-E05), and TS1130 (3592-E06) formats, as well as the ability to downward write TS1130 formats on JB media. The drive supports a native data transfer rate of up to 250MB/s to deliver information at the speed your business demands.
