Samsung Colour Multifunction Printer
ProXpress C2670 SERIES

Professional output that delivers quality, speed and efficiency

Businesses today need to know that they can produce a high level of printing quickly, and in a cost-effective way.

Samsung's new A4 colour multifunction printer ProXpress C2670FW not only delivers brilliant colour quality, but can scan, copy and fax for extra convenience.

Plus, a fast dual-core CPU, gigabit network support and instant fusing technology ensure enhanced speed and less waiting time.

Yet what sets it apart is the range of cost effective and innovative features, such as high-yield toner, low energy consumption and eco-friendly settings. It makes this medium workgroup printer as cost-conscious as they come."

ProXpress C2670 SERIES FEATURES

Higher-quality print output

Samsung's unique Rendering Engine for Clean Page (ReCP) technology and up to 9,600 x 600 dpi effective output improve the overall quality and vibrancy of your colour printing, ensuring every printout looks perfect. It automatically sharpens the focus of both graphics and text, while solid objects are overlapped to eliminate white gaps.

Polymerised toner

Our newly developed polymerised toner has smaller and more uniform particles than conventional toner. Your printouts will have crisper lines and more vivid colors, in addition to eliminating paper curling. Also, its higher wax content improves the image gloss and enhances the durability, preventing unwanted fading.

Samsung NFC Tap Print: Tap, print and go

Workers can simply tap their smart devices to print, scan or fax to this multifunction printer with the Samsung MobilePrint app on their mobile devices thanks to Samsung NFC Print.

Samsung MobilePrint app: Advanced mobile printing with more options

Print with powerful features, including N-up printing, image size adjustment and support for mobile scan and mobile fax. You can also print various formats and types of documents, such as gallery images, Microsoft® Office® documents, Adobe® PDFs, web pages, e-mail and Google Docs, along with Facebook® content. Moreover, fix print errors from your smartphone using visual troubleshooting. Just tap when a print error occurs and a video clip guides you through fixing jams, empty toner and more.

Comfortably sized touchscreen GUI

A wide, 4.3-inch touch panel provides a smart user interface (UI) and convenient access to both preinstalled and custom print solutions.

USB Direct Printing

If you have jobs stored on a memory stick that you need to be print you can send them directly through our special USB dock, located just below the operating panel.

A wide range of media handling for professional documents

The printers' multipurpose tray supports media of up to 220 gsm (grams per square meter) in weight, which offers more printing choices for professional documents. Numerous labels, cards and envelopes can be printed using the multipurpose tray with ease. This ability virtually eliminates the time it takes to feed sheets one at a time.

Diverse web-connected solutions that raise productivity

XOA web platform supports an array of server-based productivity solutions to meet specific business needs. From the UI, users can tap into a robust lineup of web-connected solutions to increase their business performance. From the server, printer network managers can easily install and manage custom solutions to improve efficiency and workflow.

Save money the Eco way

Every business sees the need to cut costs wherever it can.

With the one-touch Eco button and the smart Eco Driver it's easier than ever. Print more on each page with N-up and duplex functionality, change to Toner Save mode, skip blank pages or print in greyscale instead of full color. With the Results Simulator you can even see how much CO_2, power and paper you've saved.

Cut costs with duplex printing

With the integrated duplex feature, saving paper has never been easier. That's because the paper is turned automatically so that you can print on both sides. It could mean an amazing saving of up to 50% on your paper consumption.

Low power consumption

Despite its impressive list of features and functions, the C2670FW consumes less energy than most other models. Its innovative polymerised toner requires lower fusing temperatures, the instant fusing technology saves warm up time before first print, and our new dual-core CPU makes it one of the greenest devices around today.

	C2670FW
Functions	Print, Scan, Copy, Fax
Print Speed	Up to 26ppm in A4
FPOT	Less than 17 seconds
Print Resolution	Up to 9,600 x 600 dpi
Emulation	PCL5Ce / PCL6C / PS3 / PDF V1.7 / SPL-C
Processor	Dual-Core CPU (Main: 533 MHz / Sub: 150 MHz)
Memory Std/Max	512MB/1GB
Interface	High-Speed USB 2.0 / USB Host / Ethernet 10/1000 Base-TX /802.11 b/g/n Wireless Network
Input Capacity	250 Sheets
Output Capacity	150 - Sheet Face Down
Dimensions (W x D x H)	469 x 452.5 x 504.3 mm
Weight	26.62 kg
Max. Monthly Duty	60,000 pages
Open Platform	XOA-web

PROFESSIONAL COLOUR PRINTING AT THE SPEED OF BUSINESS
