Micro-USB Extension Cable - M/F - 0.5m (20in)

StarTech ID: USBUBEXT50CM

This male-to-female cable extends the reach of the Micro-USB port on your tablet or phone by 20 inches and is compatible with both OTG (USB On-The-Go) and MHL (Mobile High-Definition Link) adapters.

Plus, the cable offers an easy way for you to connect your tablet to an Android™ docking station which means you can listen to music and charge your tablet using your phone dock.

Position your USB 2.0 peripherals the way you want

The extra length the cable enables you to position USB 2.0 peripheral devices as needed. Simply connect the extension cable to your phone or tablet and plug your OTG or MHL adapter into the cable.

With an additional 20 inches, you have extra room for placing your USB OTG capable devices in a way that best suits your needs. You can place your thumb drive out of the way, or position devices such as your keyboard or mouse more comfortably.

When connecting an MHL adapter or a Micro-USB charge-and-sync cable it can provide the extra length you need for connecting to an HDMI or Micro-USB cable that's just out of reach.

Connect your tablet to an Android dock

This 20 in. extension cable also enables you to connect your Micro USB-enabled tablet to an Android dock. By connecting the female connector to the dock and the male connector to your tablet, you can play music and charge your tablet using a phone docking station that your tablet wouldn't normally be able to connect to.

The USBUBEXT50CM Micro-USB extension cable is backed by StarTech.com's lifetime warranty for guaranteed reliability.

Applications

- Extend the reach of your mobile device's Micro-USB port by 20 inches
- Connect your Micro-USB tablet to an Android dock

Features

- Provide extra room for connecting your USB OTG devices to your mobile devices
- Guaranteed reliability with our lifetime warranty
