USB-C to DVI Adapter Cable - 1m (3 ft.) - 1920x1200

Product ID: CDP2DVIMM1MB

This USB-C™ to DVI adapter cable offers a convenient solution for directly connecting your DisplayPort over USB Type-C™ device to your DVI-I monitor, television or projector.

The adapter supports a connection distance of up to 1 m (3 ft.) and works with USB-C devices that support DP alt mode, such as the MacBook, ChromeBook Pixel™ and Dell™ XPS™ models 15 and 13. It's also compatible with Thunderbolt™ 3 ports.

Clutter-free installation

At 1 m (3 ft.) in length, the adapter cable delivers a direct connection between your USB-C device and your DVI monitor. This means you don't have to use additional adapters or cabling, which helps ensure a tidy and professional installation. For longer installations, we also offer a 2 m (6 ft.) USB-C to DVI cable, enabling you to choose the right cable length for your custom installation needs.

Hassle-free connection with USB Type-C

The USB-C to DVI adapter cable is easy to connect, through the versatility and convenience of the USB Type-C port on your device. USB-C is a reversible connector, so it doesn't matter which way you plug it in, the adapter will always connect. This saves you the frustration of trying to insert it correctly when you're docking your computer to your workstation or office hot desk.

Crystal-clear picture quality

The adapter harnesses the video capabilities that are built into your USB Type-C connector to deliver video resolutions up to 1920x1200, providing support for your high-resolution DVI monitors - great for multitasking on high-resolution DVI displays. The adapter is backward compatible with 1080p displays, which makes it a great accessory for home, office or other HD work environments.

The CDP2DVIMM1MB is backed by a 2-year StarTech.com warranty and free lifetime technical support.

Note:

Your USB-C equipped device must support video (DP alt mode) to work with this adapter.
