Section 1 – Introduction

This directory provides a list of FHCP Medicare Rx's, FHCP Medicare Rx Plus', FHCP Medicare Rx Savings', FHCP Medicare Premier Plus', and FHCP Medicare Flagler Advantage's network providers. To get detailed information about your health care coverage, please see your Evidence of Coverage (EOC).

You will have to choose one of our network providers listed in this directory to be your **Primary Care Provider** (PCP). Generally, you must get your health care services from your PCP. Family Practice, Internal Medicine, General Medicine and Pediatric physicians serve as PCP's for FHCP Medicare members.

You will need a referral from your Primary Care Physician to see most specialty providers listed in this directory. However, there are certain specialists and services listed in the directory under the category of "Direct Access" that do not require a referral from your PCP. There are also certain services that you can access without a referral from your PCP. The providers of these services are also listed in the "Direct Access" section of the directory.

The network providers listed in this directory have agreed to provide you with your health care services. You may go to any of our network providers listed in this directory; however, some services may require a referral.

If you have been going to one network provider, you are not required to continue to go to that same provider. In some cases, you may get covered services from non-network providers. For example, if you need a specialty service or care that cannot be rendered by a FHCP Medicare network provider, FHCP Medicare will make arrangements for you to be seen by a provider that is not in our network. Also, emergency or urgent care inside or outside of our service area can be provided by providers that are not in our network. If you have any questions about whether we will pay for any medical service or care that you are considering, you have the right to ask us whether we will cover it before you get the service or care.

If you are enrolled in **FHCP Medicare Rx Plus POS**, then you may choose to see any contracted HMO provider OR Medicare participating provider or facility, without a referral.

If you receive a bill from a non-plan provider, please do not pay the bill. You should forward the bill to Claims for processing at the address listed below:

FHCP Medicare
Attn: Claims Department
P.O. Box 10348
Daytona Beach, FL 32120-0348

Emergency care and post-stabilization services can always be obtained in or out of the service area from the nearest available provider. You do not have to obtain emergency or post-stabilization care from a FHCP Medicare network provider. When inside the service area you must use plan providers for urgent care. When out of the service area urgent care may be obtained from the first available provider. In addition, when out of the service area you can obtain dialysis treatment from any qualified dialysis provider. Our emergency and post-stabilization services can be obtained from any hospital, urgent care center, or physician's office. Our network hospitals that provide emergency services inside our service area are listed in this directory.

It is important to understand that unless you are enrolled in FHCP Medicare Rx Plus POS, if you obtain routine care from out-of-network providers neither Medicare nor FHCP Medicare will be responsible for the costs. If you are enrolled in FHCP Medicare Rx Plus POS, with the exception of emergencies or urgent care, it may cost more to get care from out-of-network providers.

You must use network providers except in emergency or urgent care situations or for out-of-area renal dialysis or other services. If you obtain routine care from out-of-network providers, neither Medicare nor FHCP Medicare will be responsible for the costs.

Contracted Hospital & Emergency Facilities (18)

"Emergency Medical Condition" is defined as a condition manifesting itself by acute symptoms of sufficient severity (including severe pain), such that a prudent layperson, with an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in serious jeopardy to the health of the individual (or in the case of a pregnant woman, the health of the woman or her unborn child), impairment of bodily functions, or dysfunction of any bodily organ or part. FHCP contracts with the listed hospital and emergency facilities, however, for those members requiring emergency services where the time to reach a FHCP contracted facility would mean the risk of jeopardizing the member's health, the member should seek medical care and treatment at the nearest appropriate facility or hospital even if FHCP does not contract with same.

FHCP contracts with the following hospitals for inpatient, outpatient and twenty-four (24) hour emergency services; however, Pediatric admissions are only available at Halifax Health Medical Center, Daytona.

Provider Networks

FHCP Medicare provider networks include hospitals, primary care physicians, specialists, urgent care centers, imaging centers, laboratories, home health agencies, and many other service and health care providers. Our directories, both online and paper, are important resources to help you find any type of health care provider who participates in your specific FHCP Medicare plan.

FHCP Medicare considers a number of factors when selecting providers to participate in our provider networks:

Availability of Provider

FHCP Medicare works to ensure we have the right number of network health care providers in the right locations for our members. FHCP Medicare monitors its network continuously throughout the year to ensure network adequacy. Special efforts are made at least once per year to review the networks by looking at the location of our network health care providers compared to where our members live. We also look at the number of health care providers compared to the number of members to ensure we have enough providers available. Primary care physicians, hospitals, urgent care centers, and the most commonly used specialists, including behavioral health specialists, are included in this review.

Access to Provider

FHCP Medicare also meets standards and guidelines for access to care that are issued by the Centers for Medicare & Medicaid Service (CMS) related to health care provider networks. Standards relate to timeliness of appointments and other factors. In addition to monitoring member complaints regarding access to providers, FHCP also reviews access to primary care physicians and behavioral health specialists on an annual basis. If we determine that members do not have appropriate access to health care providers to meet our members' needs in a timely manner, we work to add more providers to the network. Doctors and other health care practitioners selected for FHCP Medicare's network go through a thorough credentialing process. The credentialing process is a way to verify the qualifications of doctors and other health care providers. The process includes checking education and training, licensure, board certification, malpractice claims history, and other background information that applies to a provider's specialty. Doctors are reevaluated at least every three years. Providers in our FHCP Medicare Directory must also be participating in good standing with Medicare.

Quality

FHCP Medicare may consider other efficiency, effectiveness, and outcomes measurements when enough information is available. For example, how primary care physicians perform on nationally recognized measurements such as Healthcare Effectiveness Data Information Set (HEDIS) standards and whether patients receive appropriate health screenings for breast cancer, colorectal cancer, cervical cancer, etc. FHCP currently does not utilize any quality measures other than credentialing standards to evaluate hospitals participating in our networks.

Cost

In order to participate in FHCP Medicare's network, health care providers and hospitals must be willing to agree to a negotiated rate. In some cases, FHCP looks for health care providers who are willing to agree to reimbursement arrangements that reward them for meeting certain performance standards or outcome metrics for their patients. FHCP currently does not utilize any cost measures other than contract status to evaluate hospitals participating in our networks.

Patient Experience

FHCP Medicare makes a priority of contracting with doctors who have admitting privileges at our participating network hospitals. This means the doctor has a relationship with the hospital and is allowed to admit patients there. This helps members go to a hospital that is in their network when hospitalization is needed. If you use a hospital for non-emergency/non-urgent care that is not in FHCP Medicare's network, we may pay less or may not pay for the services you receive. FHCP also considers member complaints received about specific doctors, hospitals, and other health care providers when deciding whether to continue a provider's contract with our network.

FHCP Medicare is an HMO Plan with a Medicare contract. Enrollment in FHCP Medicare depends on contract renewal.
