PREFACE

THIS part of the *Catalog of Copyright Entries* contains a list of the dramas and works prepared for oral delivery which were registered in the Copyright Office in Classes C and D from January 1, 1952, through June 30, 1952. The following types of published and unpublished works are covered by the entries included in the catalog: dramas; dramatico-musical compositions; lectures; sermons; monologues and narrations; scripts for radio and television programs; auditions; and various other works designed for oral presentation. Selected published dramas registered in Class A during the same period are also listed. Renewal registrations of dramas and works prepared for oral delivery are listed separately in the second section of this catalog.

Arrangement.—In the first section of this catalog complete entries for works currently registered are listed in one alphabet under the author of the work, except that radio and television programs are listed under title. Included in the same alphabetical sequence are cross-references from other contributing authors, as well as from titles, editors, translators, claimants, and, in the case of dramatic works based upon works by other authors, references from the authors and titles of the original works. The second section consists of a list, similarly arranged, of dramas and works for oral delivery for which renewal copyrights were registered during the period covered by this catalog.

Bibliographic Data.—In the complete entry for each published monographic work, the authoring is followed, as applicable, by 1) the title; 2) the names of joint authors; 3) the names of other persons associated with the work; 4) the edition of the work described; 5) the place of publication,

publisher, and date of publication; 6) the pagination or number of volumes, and the abbreviation "illus." to indicate illustrations; 7) the series of which the work is a part; and 8), for compilations, a statement of the contents of the work. The complete entry for unpublished monographic works consists, as applicable, of 1) the author; 2) the title; 3) a descriptive phrase indicating the character of the work (e. g., a play in three acts, monologue, film script, lecture, recording script, etc.); 4) the names of joint authors; and 5) the names of other persons associated with the work.

Radio and television programs are listed under title, which is followed by 1) a descriptive phrase indicating the type of program and 2), when available, a statement of authorship. Issue dates and program numbers, together with information relating to the authorship of specific issues, are given when available.

Renewal main entries include, as applicable, the following data: 1) the author; 2) the title; 3) the names of authors of renewable matter; and 4) the series.

The names of any authors listed in the application which do not appear elsewhere in the entry are given immediately preceding the copyright data after the statement, "Appl. author(s)." When an employer in the case of works made for hire is named in the application, his name is included in the entry, together with the names of the employees when given.

Copyright Data.—The portion of the entry giving the facts of copyright registration begins with the copyright symbol ©. For works currently registered the symbol is followed by 1) a brief description of the new matter on which copyright

is claimed when such a statement is made in the application; 2) the name of the copyright claimant; and 3) the date. (For unpublished works, the date given is the day, month, and year on which the last of all the items required to complete registration—i. e., each of the following: copy, application, and fee—was received in the Copyright Office. For published works, the date given is the day, month, and year of publication as given in the copyright application, the year being the same as that given in the copyright notice in the work. The statement, “in notice,” following the date indicates that the year given in the notice is different from the year of publication as given in the application); and 4) the copyright registration number.

For renewals, the copyright symbol is followed by 1) the original copyright date; 2) the original registration number; 3) the renewal registration number; 4) the date of receipt of the renewal application; 5) the name of the renewal claimant; and 6) an abbreviation in parentheses representing the applicant's statement of the basis of his renewal claim—e. g., John Doe (NK) indicates that renewal of copyright is claimed by John Doe as next of kin of the deceased author. Information contained in the copyright application or in the copy of the work itself which relates to the registration of an earlier version of the work is given in brief form at the end of the entry.

In the case of each entry the name of the copyright claimant is that given at the time of registration. Information relating to subsequent changes of ownership recorded in the Copyright Office can be ascertained upon request and upon payment of the statutory search fee to the Register of Copyrights.

Deposit of Copies.—In the case of every copyright entry listed in this part of the *Catalog of Copyright Entries*, except for renewal copyrights, the deposit of copies (or copy) as required by sections 12, 13 or 215 of Title 17 of the United States Code has been made.

Authority.—The *Catalog of Copyright Entries* is published by authority of sections 210 and 211 of Title 17 of the United States Code. Section 210 provides in part: “The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration.”

Organization of the Catalog.—This issue of the *Catalog of Copyright Entries* is part of Volume 6 of the Third Series. The parts are numbered according to the alphabetical sequence of classes as listed in section 5 of Title 17 of the United States Code. Letters are added to the part numbers to indicate subdivisions.

The classes of material principally contained in each part are listed, together with their respective symbols, under the title of the part in the “Table of Organization,” which faces the title page in this catalog. In each case, the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for purposes of statistical analysis of registrations. Foreign works for which two copies have been deposited under section 215 of Title 17 of the United States Code are distinguished by a zero immediately following the symbol. The symbol R does not represent a class designated in the copyright law, but has been adopted by the Copyright Office to distinguish renewal copyright registrations. Some parts also contain registrations made under symbols other than those listed for the particular part if the subject matter or type of material of these registrations is similar to that generally included.

Orders.—Orders for all parts of the *Catalog of Copyright Entries* should be sent directly to the Register of Copyrights, Library of Congress, Washington 25, D. C. Orders may be placed as follows: (1) as a subscription for a single year or to continue until further notice, or (2) as an order for individual issues. All orders should state clearly the title of the *Catalog* part and the inclusive dates of the issues wanted. Checks or money orders should be made payable to the Register of Copyrights.

The price of each individual number of the *Catalog* is given in the “Table of Organization.” The annual subscription rate for each part is twice the price of a single number, since all parts are issued semiannually. The complete *Catalog of Copyright Entries* may be secured on a subscription basis for \$20 a year.

Inquiries.—The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Please address communications of this nature to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.

PREFACE

THIS part of the *Catalog of Copyright Entries* contains a list of the dramas and works prepared for oral delivery which were registered in the Copyright Office in Classes C and D from July 1, 1952, through December 31, 1952. The following types of published and unpublished works are covered by the entries included in the catalog: dramas; dramatic-musical compositions; lectures; sermons; monologues and narrations; scripts for radio and television programs, auditions; and various other works designed for oral presentation. Selected published dramas registered in Class A during the same period are also listed. Renewal registrations of dramas and works prepared for oral delivery are listed separately in the second section of this catalog.

Arrangement.—In the first section of this catalog complete entries for works currently registered are listed in one alphabet under the author of the work, except that radio and television programs are listed under title. Included in the same alphabetical sequence are cross-references from other contributing authors, as well as from titles, editors, translators, claimants, and, in the case of dramatic works based upon works by other authors, references from the authors and titles of the original works. The second section consists of a list, similarly arranged, of dramas and works for oral delivery for which renewal copyrights were registered during the period covered by this catalog.

Bibliographic Data.—In the complete entry for each published monographic work, the author heading is followed, as applicable, by 1) the title; 2) the names of joint authors; 3) the names of other persons associated with the work; 4) the edition of the work described; 5) the place of publication, publisher, and date of publication; 6) the pagination or number of volumes, and the abbreviation “illus.” to indicate illustrations; 7) the series of which the

work is a part; and 8), for compilations, a statement of the contents of the work. The complete entry for unpublished monographic works consists, as applicable, of 1) the author; 2) the title; 3) a descriptive phrase indicating the character of the work (e. g., a play in three acts, monologue, film script, lecture, recording script, etc.); 4) the names of joint authors; and 5) the names of other persons associated with the work.

Radio and television programs are listed under title, which is followed by 1) a descriptive phrase indicating the type of program and 2), when available, a statement of authorship. Issue dates and program numbers, together with information relating to the authorship of specific issues, are given when available.

Renewal main entries include, as applicable, the following data: 1) the author; 2) the title; 3) the names of authors of renewable matter; and 4) the series.

The names of any authors listed in the application which do not appear elsewhere in the entry are given immediately preceding the copyright data after the statement, “Appl. author(s).” When an employer in the case of works made for hire is named in the application, his name is included in the entry, together with the names of the employees when given.

Copyright Data.—The portion of the entry giving the facts of copyright registration begins with the copyright symbol ©. For works currently registered the symbol is followed by 1) a brief description of the new matter on which copyright is claimed when such a statement is made in the application; 2) the name of the copyright claimant; 3) the date (For unpublished works, the date given is the day, month, and year on which the last of all the items required to complete registra-

tion—i. e., each of the following: copy, application, and fee—was received in the Copyright Office. For published works, the date given is the day, month, and year of publication as given in the copyright application, the year being the same as that given in the copyright notice in the work. The statement, “in notice,” following the date indicates that the year given in the notice is different from the year of publication as given in the application); and 4) the copyright registration number.

For renewals, the copyright symbol is followed by 1) the original copyright date; 2) the original registration number; 3) the renewal registration number; 4) the date of receipt of the renewal application; 5) the name of the renewal claimant; and 6) an abbreviation in parentheses representing the applicant's statement of the basis of his renewal claim—e. g., John Doe (NK) indicates that renewal of copyright is claimed by John Doe as next of kin of the deceased author.

Information contained in the copyright application or in the copy of the work itself which relates to the registration of an earlier version of the work is given in brief form at the end of the entry.

In the case of each entry the name of the copyright claimant is that given at the time of registration. Information relating to subsequent changes of ownership recorded in the Copyright Office can be ascertained upon request and upon payment of the statutory search fee to the Register of Copyrights.

Deposit of Copies.—In the case of every copyright entry listed in this part of the *Catalog of Copyright Entries*, except for renewal copyrights, the deposit of copies (or copy) as required by sections 12, 13 or 215 of Title 17 of the United States Code has been made.

Authority.—The *Catalog of Copyright Entries* is published by authority of sections 210 and 211 of Title 17 of the United States Code. Section 210 provides in part: “The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration.”

Organization of the Catalog.—This issue of the *Catalog of Copyright Entries* is part of Volume 6 of the Third Series. The parts are numbered

according to the alphabetical sequence of classes as listed in section 5 of Title 17 of the United States Code. Letters are added to the part numbers to indicate subdivisions.

The classes of material principally contained in each part are listed, together with their respective symbols, under the title of the part in the “Table of Organization,” which faces the title page in this catalog. In each case, the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for purposes of statistical analysis of registrations. Foreign works for which two copies have been deposited under section 215 of Title 17 of the United States Code are distinguished by a zero immediately following the symbol. The symbol R does not represent a class designated in the copyright law, but has been adopted by the Copyright Office to distinguish renewal copyright registrations. Some parts also contain registrations made under symbols other than those listed for the particular part if the subject matter or type of material of these registrations is similar to that generally included.

Orders.—Orders for all parts of the *Catalog of Copyright Entries* should be sent directly to the *Register of Copyrights, Library of Congress, Washington 25, D. C.* Orders may be placed as follows: (1) as a subscription for a single year or to continue until further notice, or (2) as an order for individual issues. All orders should state clearly the title of the *Catalog* part and the inclusive dates of the issues wanted. *Checks or money orders should be made payable to the Register of Copyrights.*

The price of each individual number of the *Catalog* is given in the “Table of Organization.” The annual subscription rate for each part is twice the price of a single number, since all parts are issued semiannually. The complete *Catalog of Copyright Entries* may be secured on a subscription basis for \$20 a year.

Inquiries.—The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Please address communications of this nature to the *Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.*

DRAMAS AND WORKS PREPARED FOR ORAL DELIVERY

In addition to the dramas registered during the period covered by this catalog, the list includes lectures; sermons; and scripts for radio programs, television productions, motion pictures, and phonograph records. Works are listed under author, except that radio and television programs are entered under the title of the program. Cross-references from titles, claimants, editors, translators, etc., are included.
