Scheme Classification and Objectives: TFHF–X is a closed end income fund that seeks to generate returns and reduce interest rate volatility, through a portfolio of fixed income securities with a maturity profile generally in line with the fund's duration. **Asset Allocation:** Debt securities (including Government Securities and Securitised Debts) and Money Market Instruments – 100%. **Load Structure - Entry:** Nil; **Exit:** 2% on redemptions/switch-out before maturity (please refer to the Stipulated Dates for Redemption mentioned above). **Terms of issue:** During the NFO, the Units are offered at Rs.10 each. The Plan will remain open for redemption only on the Stipulated Dates for Redemption as mentioned above. The Plan will mature and come to an end upon completion of its tenure as mentioned above. NAV will be normally calculated for all business days and released at least once a week. **Risk Factors:** All investments in mutual funds and securities are subject to market risks and the NAV of the scheme/plan may go up or down depending upon the factors and forces affecting the securities market including the fluctuations in the interest rates. There can be no assurance that the scheme's investment objectives will be achieved. The past performance of the mutual funds managed by the Franklin Templeton Group and its affiliates is not necessarily indicative of future performance of the scheme/plan. The above is only the name of the scheme/plan and does not in any manner indicate the quality of the scheme/plan, its future prospects or returns. The Mutual Fund is not guaranteeing or assuring any dividend under the scheme/plan and the same is subject to availability and adequacy of distributable surplus. The investments made by the scheme are subject to external risks. **Please read the Scheme Information Document carefully before investing.
