# HPE AP767B Datasheet

HPE 41B 4GB 1-PORT PCIE X4 FIBRE CHANNEL HOST BUS ADAPTER, 571518-002

AP767B

The HP PCIe 4Gb FC Host Bus Adapters (HBAs) support customers using HP ProLiant servers with PCIe I/O slots running a broad range of operating systems. These Fibre Channel HBAs are second generation products that support this new higher speed I/O bus architecture and provide customers the ability to use it to connect to their HP storage arrays.

Specifications

- Number of Ports: 1 Port
- Model: 571518-002
- Compatible Port: PCI Express x4, PCI Express
- Data transfer rate (max): 4 Gbit/s

Compatible operating systems

- Microsoft Windows 2003
- Microsoft Windows 2008
- VMware
- Red Hat Linux
- SUSE Linux

- Oracle Solaris
