Trane is pleased to announce the launch of 4 new models of horizontal dehumidifiers with capacities from 98 pints per day up to 205 pints per day.

Model Numbers:

- EDHUM0981H1MDAA
- EDHUM1051H1MDAA
- EDHUM1551H1MDAA
- EDHUM2051H1MDAA

This product is targeted for the RNC and OOR market segments and offers a preferred solution for:

- *High Performance homes with foamed in insulation or above code “tight” construction where non-variable/non-staged AC equipment is selected and high indoor humidity is a possible concern*
- *Code driven ventilation required in humid regions, especially Climate Zones 1-4*
- *Existing Homes where AC Systems are not providing desired comfort due to high indoor RH%*

Product Features and Specifications Include:

- Exclusive XT coil technology means higher efficiency humidity removal rates than standard units
- All Units are Energy Star rated
- All units come with optional ventilation capability to meet ASHRAE 62.2 Ventilation requirements
- Units can be ducted to and wired to operate with HVAC system or can used independently of HVAC system with internal blower and wired control
- Units come standard with MERV 11 filter for improved indoor air quality

NOTE: *These products will be launched under the Envirowise product label. This is a single sku product offering with no brand specific badging. This opens up new sales channels, reduces inventory requirements, and offers the same quality product and brand standards as all Trane products.*
