

Powerful, flexible, easy, innovative!

HP t5630w Thin Client

The HP t5630w Thin Client delivers great value with a familiar Windows experience at the right performance level. Windows® Embedded Standard operating system combined with a full-featured browser, HP Remote Graphics Software, HP Remote Desktop Protocol Enhancements Software, Enhanced Write Filter, Symantec Endpoint Protection, terminal emulations, native dual monitor and widescreen support make the HP t5630w the optimum choice for business environments requiring a cost-effective thin client with flexibility and power.

Easy to deploy and manage

Reduce the cost and complexity of managing your thin client deployments. Choose from a portfolio of industry standard management solutions from SMB to Enterprise.

More secure

Store critical user data and applications more securely on a centralized server. Enhanced Write Filter and Symantec Endpoint Protection provide multilayered security. Add smart cards for more secure access to your network. Two USB ports inside a secure compartment help safeguard USB devices.

Performance and features at a great price

You will appreciate the full, rich multimedia and USB redirection capabilities of the HP t5630w. It supports industry-leading brokers for quick and easy access to a variety of VDI solutions. Enjoy years of reliable use with solid-state design and industry-standard architecture.

Designed with the environment in mind

Designed for energy efficiency, HP thin clients help save you money. HP's hardware return and recycling

program, Planet Partners™ operates in more than 40 countries, regions and territories worldwide. Specialized bulk packaging has 24-packs of thin clients bundled together to reduce the amount of packaging.

Global sales and support

HP thin clients are backed by HP global service and support through our network of 50,000 IT pros in over 100 countries.
