

Crosscall **SHARK-X3**

GORUGGED

Whether you're an ocean-going professional or a water sports enthusiast, the SHARK-X3 is the waterproof mobile phone that's suitable for all your activities. Onshore, offshore or in your demanding daily job routine, it goes with you in all types of weather.

Thanks to the Air Capsule concept, the SHARK-X3 floats to the surface in the event of immersion. It is one of the only floating mobile phones in the world. If you fall into the water with your phone, the Keep Alive technology automatically activates and sends flashes and a warning message. Your safety is further enhanced by its built-in whistle.

The SHARK-X3's features have been specifically designed for your ocean-going needs. Its powerful torch provides you better visibility at night with its red LED, and is perfectly suited to consulting your ocean data and information in low light conditions without your eyes having to get re-accustomed to the dark. The SHARK-X3 is your life line between the shore and the wide open sea.

WATERPROOF & RESISTANT

With its PMMA reinforced PC window, the SHARK-X3 is IP68-certified. It is thus waterproof and dust-proof and withstands temporary immersions of up to 60 minutes at depths of 2 metres.

5 MP + FLASH

Its 5MP camera with flash lets you immortalize your best memories and share them.

TORCH

The Shark-X3 combines a powerful torch and a red LED suitable for night vision so that your eyes don't need to get re-accustomed to darkness after reading a map for example.

FLOATS

Floats due to the "Air Capsule" concept: A large volume of air is trapped between the screen and the glass and floats the phone.

NETWORK

Enjoy the power of the 3G+ network with your SHARK-X3. And connect your computer or tablet to the internet from anywhere with connection sharing.

KEEP ALIVE

Thanks to a special sensor: "Keep Alive", the phone flashes a light or can send an automatic emergency SMS in case of immersion.

SAFETY WHISTLE

If assistance is needed, you can be easily located with the built-in safety whistle. It can transmit a signal up to 100 db.

TECHNICAL FEATURES

INCLUDED IN THE BOX

SPECIFICATION

Outdoor Specifications

Floats	Yes
IP standard	IP68
Waterproof	2 metres / 60 min.
Dust-proof	Total
Usage temperature	-10°C/ + 50°C
Red LED Night reading	Yes
Keep Alive	Yes
Whistle	100db

Technical Characteristics

Dimensions	134x61x24 mm
Weight	141 g
Colour	Black/Blue
Operating system	Owner
Processor	MTK MT6276A
SAR Head	0.800 W/kg
SAR Body	0.730 W/kg
Languages	FR, EN, ES, DE, IT, PT, NL, HR, DA, FI, NO, SL, SV

Screen

Size	2.4"
Type	TFT
Resolution	QVGA, 240 x 320 pixels 256,000 colours

Battery

Type	Li-Ion Polymer
Capacity	950 mAh
Talk time	10 h
Standby time	264 h

Memory

ROM	64 MB
RAM	128 MB
External (Micro SD)	up to 32 GB

Network & Connectivity

SIM	Double SIM
Type	WCDMA
2G (GPRS/EDGE)	850 / 900 / 1800 / 1900 MHz
3G (HSPA+)	900 /2100 MHz
Bluetooth®	2.1
Supported formats	SDP/GAP/A2DP/AVRCP
USB	2.0
USB Connection	Yes
Sharing	

Messaging

SMS	Yes
MMS	Yes

Photos

Resolution	5 megapixels
Type	CMOS
Zoom	Digital x8
