# MasterMouse Lite S

## Ambidextrous Gaming Mouse with white LED illumination.

The MasterMouse Lite S delivers a satisfying grip that just won't quit. With its special contoured design and advanced surface finish, you can take pleasure in knowing that your weapon of choice won't fail you during even the toughest battles. Beneath the high quality exterior shell, you will find a gaming grade PixArt sensor with up to 2000 DPI. Choose between three distinct DPI levels that can be easily switched in real time. DPI levels are indicated by corresponding LED patterns. The white LEDs illuminate the mouse for a sharp, clean appearance.

### Features

**Ergonomic Design** - Ambidextrous shape and UV coating offer professional and comfortable grip to fit even the most demanding gamers.

**Gaming Grade Outfit** - Precise optical PixArt sensor offers up to 2000 DPI in three distinct DPI levels.

**White LED Illumination** - Two illumination zones serve as a DPI indicator and give the mouse a sharp, refined appearance.

**Build to Last** -Durable Omron switches, reinforced strain relief and UV surface coating ensure a long lasting mouse that looks good even after intensive and long term use.
