# Care & Maintenance

## Comfortext and Acrylic, Comfortext, Polyester Blends and Sensation

Comfortext stripes and solid patterns are open weave fabrics constructed of thermal bonded vinyl coated polyester threads. These fabrics offer strength and durability, easy cleanability and quick drying times. UV stabilizers and mildew inhibitors are added to minimize the effects of prolonged outdoor exposure.

Acrylic, Comfortext, Polyester Blends incorporate acrylic threads to produce an intricate pattern with all the above advantages, plus they offer a softer feel and more color intensity.

**Cleaning Instructions:** Address stains promptly. Use warm water with a mixture of strong liquid detergent and chlorine bleach (one cup to three gallons of water). Always rinse thoroughly. Pat to remove excess water and allow to air dry.

## Acrylics, Acrylic Blends and Olefin Blends

This category includes solid colors, stripes and standard jacquard patterns. By using solution-dyed threads, which are then woven into a pattern, the results are the look and the feel of fine indoor fabrics that are recommended for outdoor and indoor use. UV stabilizers and a protective coating are applied to produce a fabric that is very durable. Another advantage is the easy cleanability.

**Cleaning Instructions:** Address stains promptly. Add ½ cup of chlorine bleach per three gallons of mild soap solution. Always rinse thoroughly. Pat to remove excess water and allow to air dry.

## Acrylic Prints and Polyester Prints

Printed fabrics offer an infinite variety of color and pattern options. The design is printed on the base cloth of either 100% acrylic or 100% polyester. We specify only the highest quality UV stable inks. Printed fabrics are recommended for outdoor and indoor use but must be cared for more vigilantly. The use of a breathable furniture cover on printed fabrics will help reduce fading and extend the life of your fabric.

**Cleaning Instructions:** Address stains promptly. Use a solution of lukewarm dishwashing liquid. Sponge thoroughly with clear water. Pat to remove excess water and allow to air dry. Do not use harsh cleaners or bleach on printed fabrics.

# Sunbrella Fabrics

# Seating Options & Fabric Selection Guide

- A Sensation - Airo2 & Sling** | Our patented Airo2 seating collection utilizes a single layer sling giving it the look of a Cushion in a Sling. Airo2 is a cushionless design using our Sensation fabrics for unmatched comfort and support.
- S Sling** | The Homecrest pioneered Sling is constructed of double layers for unmatched comfort and support. Our durable outdoor Sling is available in a variety of outdoor fabrics and is easily replaceable. Minimal maintenance and comfortable design continues to make the Homecrest Sling a #1 choice from coast to coast. When selecting a Homecrest Sling seating option, you will also have to select a welt or binding color. Welting will match the frame finish unless an alternate is selected. Slings utilize the same fabric on the front and back for an attractive look.
- PS Padded Sling** | Our Padded Sling seating option features a triple layer sling with slight padding for added comfort. This attractive chair with distinctive horizontal lines or bordered stitching (depending on the collection) gives you not only a comfortable fit, but is a stylish addition to your backyard or patio. The Padded Sling seating option expands your fabric options to include cushion or acrylic fabrics in addition to our slingable fabrics. Like the Sling seating option, when selecting the Padded Sling seating option, you will also have to select a welt or binding color. Welting will match the frame finish unless an alternate is selected. Padded Slings will be same front same back if selecting a fabric that is available in both Sling and Padded Sling. However, if you select a fabric that is available as a Padded Sling and NOT a Sling, you will need to select a Sling fabric for the back. Pick a fabric for the back that says it is available as a Sling seating option.
- C Cushion** | Our durable cushions provide additional comfort in a fast paced world. (The Cushion seating option includes Deep Seating, Removable Cushions and Padded Seats.) Homecrest removable cushions are extremely comfortable, water resistant and made for the outdoors. Most of our cushion designs feature a clean simple seam with no welting.

Many consumers have had Homecrest furniture that is over 30 years old, and are still using it with great satisfaction. Replacement slings and cushions are also available to extend the life of your Homecrest furniture. **3 years:** Solid surface tabletops (excluding glass and acrylic) are warranted against structural failures, finish cracks, and blisters for 3 years when used in a residential setting. Failure to properly maintain the table top, or store it properly during inclement weather, will void the warranty. If the table top (other than glass or acrylic) fails, or the finish cracks or blisters during the warranty period, we will repair, refinish or replace the top. Homecrest Outdoor Living will pay the warranty freight the first year in the Continental U.S. Return of product will not be accepted without prior approval.

In the event replacement is required, Homecrest Outdoor Living will replace the cushion, sling or umbrella canopy with the same, if available, or comparable fabric based on manufacturers discretion (installation labor not included). Homecrest Outdoor Living will pay the warranty freight the first year in the Continental U.S. Return of product will not be accepted without prior approval.

**1 year:** The warranty of the finish on coiled steel spring rocker mechanisms, plastic parts, flex plates, glides, swivel inserts, metal umbrellas, cord and umbrella base for 1 year from the date of purchase when maintained per the recommended care and maintenance instructions.
