Trademarks Journal

Vol. 66 No. 3374

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

apparatus and instruments for the conduct, switching, transformation, accumulation, regulation and control of electricity, namely electrical connectors for current converters, current converters, power bars, electric cables and wires, electric transformers, electrical fuses, current rectifiers, switches, semiconductors, surge suppressors, namely voltage surge protectors and voltage surge suppressors, photovoltaic cells, photovoltaic modules, solar panels for the generation of electricity, solar thermal collectors, and apparatus and instruments for home automation, building automation and industrial automation; short circuit breakers; surge protectors, namely voltage surge protectors and voltage surge suppressors; photovoltaic cells, photovoltaic modules; solar panels for the generation of electricity; batteries, namely fuel cells, galvanic batteries, solar batteries, and electric accumulators and batteries, namely electrical storage batteries, cellular telephone batteries, flashlight batteries and all-purpose batteries; electric capacitors; electric transformers, autotransformers and inverters, fuses for power supply panels; computer apparatus and devices and computer software associated therewith, for checking, management, measurement, local or remote monitoring, and security, namely computers and computer peripherals, namely digital cameras, scanners, modems and remote control switches; measuring apparatus and instruments, namely voltmeters; ammeters for checking, managing, measuring and securing photovoltaic cells and photovoltaic modules; solar panels for the generation of electricity, solar thermal collectors, apparatus and instruments for home automation, building automation and industrial automation; electrical plugs and sockets; electric circuit closers and power switches; electric control, testing and monitoring apparatus, namely electrical control panels, power switches, switch plates, electronic industrial controls for digital timers, cameras, personal security alarms, security and fire alarms, sirens, alarm buttons and alarms; heat control apparatus, namely thermostats; boiler control instruments, namely boiler thermostats electrical control systems for heating and air conditioning systems; electrical control panels; electrical and electronic control apparatus and instruments for electric apparatus, lighting apparatus and heating and air conditioning apparatus, namely power switches, light switches and electric circuit closers; electric installations for the remote control of industrial operations; thermostats; electric control panels; alarms, namely burglar alarms, electric and electronic burglar alarms, personal security alarms, fire alarms and alarms for the detection of inflammable gases; smoke alarms; gas leak alarms; speakers.

Class 11

(2) Apparatus for lighting, namely lanterns, chandeliers, residential and industrial electric lamps, residential and industrial lighting lamps and residential and industrial floor lamps; protective lighting devices, namely emergency warning lights and emergency lighting in case of a power outage; protective lighting devices, namely stage lighting regulators, lighting control panels, lighting system regulators, electrical lighting control systems and light dimmers; lanterns; chandeliers; electric lamps; lighting lamps, namely floor lamps, desk lamps, flash bulbs, flashlights, headlamps and electric lamps; electric lights for Christmas trees and aquariums; floor lamps; laboratory and safety lamps, namely headlamps; filaments for lamps, namely light conducting filaments and filaments for electric light bulbs; electric heating filaments, namely light conducting filaments and filaments for electric light bulbs; arc lamps; muffs, light globes and lamp glasses; hangings for lamps, namely overhead lamps; lamp reflectors and lampshades; ceiling lights; luminous tubes for lighting; electric lamp sockets; electric flashlights; flashlights; lighting diffusers and electric discharge tubes for lighting; diving lights; lamps for projection apparatus, namely video projectors; lighting apparatus and installations, namely lamps for cosmetic use; lighting apparatus for vehicles, namely vehicle parking lights, reflectors, lights for vehicles, vehicle dynamo lamps and vehicle reflectors; luminous tubes and light bulbs for lighting as well as electric light bulbs; drying apparatus and installations, air dryers, namely hand dryers, electric clothes drying machines for household purposes and rotary kilns for industrial purposes; heating apparatus, namely coils (parts

of distilling, heating or cooling installations), heating radiators and electric radiant heaters for household purposes; electric heaters; water heaters; heating boilers, electric boilers and industrial boilers; heat reclaimers, namely heat exchangers; thermal exchangers, namely heat exchangers, bath heaters and heating plates; heating plates; solar collectors; heat accumulators and reclaimers, namely heat exchangers; ionization apparatus for air treatment and air purification apparatus and machines, namely air purifying units and air purifiers (industrial); air cooling apparatus, namely evaporative air coolers and evaporators for air conditioners; air conditioning apparatus, namely air conditioners; ventilation apparatus, fans (air conditioning), namely electric fans for household purposes, smart fans, portable electric fans, non-electric fans for personal use and kitchen exhaust fans; ventilation apparatus, namely ducts of metal for ventilating and air conditioning installations; air filters for air conditioning units; air conditioning installations, namely air conditioners, air sanitizers and air diffusers; air heaters; humidifiers for central heating radiators; heating radiators; ventilation hoods and exhaust hoods for kitchens, namely exhaust hoods for household use and range hoods; electric ranges, gas stoves; freezers; ice making machines; refrigerators, refrigerated cabinets, microwave ovens.

Services

Class 35

(1) Wholesale, retail, and sale over telecommunications and computer networks of apparatus and instruments for conducting, switching, connecting, transforming, accumulating, regulating, measuring, checking and controlling electricity, electric circuits and cables, circuit breakers, surge suppressors, photovoltaic cells, photovoltaic modules, solar panels for the generation of electricity, solar thermal collectors, batteries, lighting, heating, air conditioning and air cooling apparatus and products, household appliances, electronically operated and hand-operated tools and instruments for cutting, slicing, drilling, measuring, tightening, unwinding, stripping and pulling wires, sheaths and cables, for soldering, crimping, filing and building, screw and bolt products, nut and bolt products, and mechanical or chemical fastening products, namely metal and non-metal screws, screwdrivers, metal and non-metal bolts, bolt-cutting pliers, combination pliers, and track wrenches, dusting, cleaning, wiping, galvanizing, lubricating, penetrating, greasing, varnishing, dehumidifying, moisture-protecting and precision-cooling products, flexible pipes, insulation and insulating products and materials, apparatus and instruments for the security and monitoring of people, goods, entry points and sites, apparatus and instruments for home automation, building automation and industrial automation, apparatus for the recording, transmission or reproduction of sound, images and data, including communication apparatus and instruments, namely computers and computer peripherals, namely digital cameras, scanners and modems, computer peripherals, and connection cables and plugs for computer hardware and installations; wholesale, retail, and sale over telecommunications and computer networks of downloadable electronic publications; wholesale, retail, and sale over telecommunications and computer networks of computer software and hardware, computer apparatus and devices and software associated therewith for checking, managing, measuring, locally or remotely monitoring, and securing equipment; presentation of computer software and products on all means of communication for retail purposes, namely via the Internet, via telephone, mobile telephone, television, radio, magazines, newspapers, text message and electronic mail; collection and systematization of data in a central file; computer file management, updating and operation services; data entry, formatting, compilation and processing services, namely for the transcription, transmission and systematization of written communications and audio and video recordings; subscription services to a multimedia and database server centre for the publications of others; business management assistance and business organization and management advice in the field of energy; business organization and management advice, namely consulting and information concerning business management; business strategy consulting and

consulting related to business management and development; market studies; organization of trade shows, exhibitions, fairs and professional marketplaces for commercial or advertising purposes in the fields of electrical equipment, cables and material for fastening, equipment used for lighting, heating and cooling, home automation, building automation, the protection of property and people, solar energy, photovoltaic solar energy, solar panels for the generation of electricity and solar thermal collectors, and in the fields of heating and air conditioning; organization of trade shows, exhibitions, fairs, and professional marketplaces for commercial or advertising purposes in the field of telecommunications, namely bundled telecommunications services enabling the use of cellular telephones, voice mail, and call forwarding between wired and wireless services, telecommunications routing and junction services, and operation of a wide area network (WAN) for telecommunications; promotion of goods for others through online advertising on Internet communication networks, by means of telecommunications and computer networks, and through advertising (for others) using display panels for products that function on all types of energy, namely lanterns, chandeliers, residential or industrial electric lamps, residential or industrial lighting lamps, electric lights for Christmas trees and aquariums, residential or industrial floor lamps, electric flashlights, video projectors, heating radiators, heating boilers, electric boilers, and air cooling apparatus, namely evaporative air coolers, air conditioners, air diffusers, electric ranges and gas stoves; screening, namely commercial product analysis for others and business advice for choosing electrical and industrial equipment likely to meet the technical needs defined in a technical project specification; distribution of advertising mail, namely distribution of advertisements and commercials for others; dissemination of advertisements for others; publication of advertising copy; business information services for others via electronic means, namely via global communications networks (Internet) or private-access networks (intranet), namely provision of others' business and marketing information; services for the online dissemination of advertising for others on a computer network by electronic means, namely through global communications networks (Internet) and private-access networks (intranet); marketing services, namely development of marketing strategies and concepts for others, marketing studies, strategic evaluations of marketing data, business marketing consulting services, marketing analysis services and telemarketing; price comparison services; promotion of the goods and services of others through the provision of a website offering coupons, rebates, price comparisons, product comments, links to the retail websites of others, and information related to discounts; business information and consulting for consumers, namely consulting and advisory services related to energy management and energy efficiency; consulting related to the commercial management of relationships with others, with institutions, with the public or with business partners; business and marketing research and analysis services related to consumer behaviour to facilitate the dissemination of advertisements adapted to their needs; networking of business and professional contacts to encourage commercial trading and respond to calls for tenders; commercial services related to professional networking between consumers and professionals in the energy sector for the purpose of holding sales conferences; qualitative and quantitative surveying services for commercial and marketing purposes aimed at gathering data relating to the performance and efficiency of promotional and marketing communications; study and statistical processing of data related to the performance and efficiency of promotional and marketing communications; marketing and business consulting services aimed at improving the performance and efficiency of promotional and marketing communications; personnel recruitment and placement; personnel management; personnel management assistance services; personnel recruitment and management consultant services; assessment services for personnel needs; administration of business payroll for others.

Class 36

(2) Financial affairs, namely financial analyses, financial research, financial securities brokerage and financial estimates; consulting and advisory services related to financial matters, namely consulting related to financial investment, expert consulting in financial analysis, financial planning and investment consulting services, consulting services in the fields of credit and debit control, investment, grants and financing of loans, consulting related to financial investment, and financial analyses; financial information, investigations, predictions and assessments, namely financial analyses, dissemination of financial information, namely financial information provided online, namely consulting related to financial investment, expert consulting in financial analysis, financial planning and investment consulting services, and consulting services in the fields of credit and debit control, investment, grants and financing of loans; consulting and advisory services related to financing, namely consulting related to energy project financing in the fields of energy and financing packages; capital build-up and investment, namely management of a capital investment fund, mutual funds and capital investment, and investment of funds for others; business financing services, namely financing of loans and discounting of bills, financially guaranteed financing, financing of purchases, financing of industrial activities, lease-purchase financing and project financing; real estate leasing services; leasing of land vehicles and computer installations; business advice related to business mergers and listings; consulting related to financial matters, namely business advice related to company acquisitions; acquisition of financial interests in commercial companies and businesses, namely financial investment of private equity funds for others; wealth and real estate management; financial sponsorship; insurance; insurance brokerage; surety services, namely financial guarantee and surety services and indemnity bond services; insurance premium financing; issuing, compensation and reimbursement of vouchers, securities, cheques, tickets, coupons, stubs, prepaid cards and debit cards, and all other means of payment via a computer network; issuing of discount cards and coupons, gift certificates, payment vouchers, requisitions, loyalty cards, bonus points and similar economic credentials via the Internet, the distribution of flyers; management of financial benefits related to the use of loyalty cards; financial services for loyalty cards, other than for advertising purposes, enabling the accumulation of benefits, namely promotion of the sale of goods and services through a customer loyalty program; financial services enabling price reimbursement and financial compensation.

(3) Provision of discount coupons and cards.

Class 37

(4) Installation, maintenance and repair of electric apparatus and installations, photovoltaic cells, photovoltaic modules, solar panels for the generation of electricity, solar thermal collectors and batteries; installation, maintenance and repair of lighting, heating, air conditioning and air cooling apparatus and products and household appliances; installation, maintenance and repair of alarm apparatus and installations, access control and surveillance apparatus and installations, and apparatus and installations for home automation, building automation and industrial automation; rental of electronically operated and hand-operated tools and instruments for cutting, slicing, drilling, measuring, tightening, crimping, unwinding, stripping and pulling wires, sheaths and cables for soldering, filing and building; rental of apparatus and instruments for conducting, transforming, accumulating, regulating or controlling electric current; consulting, advice and information related to the construction, maintenance and renovation of buildings; maintenance and repair of buildings, electrical installations, air conditioning apparatus, plumbing installations, heating apparatus, refrigeration apparatus, dust removing apparatus, communication equipment, namely computers and computer hardware, portable telephones, electronic tablets, electronic cables and power cables for computers and computer hardware, and office equipment; vehicle washing and

cleaning; assistance in case of vehicle breakdown, namely roadside assistance; vehicle maintenance and repair; interior design of motor vehicles, trucks and light trucks; custom installation of motor vehicles, trucks and light trucks.

Class 38

(5) Telecommunications, namely telecommunication routing and junction services, videoconferencing services, radio broadcasting services and provision of multiple-user access to a computer network; development of Internet discussion forums; provision of access to electronic databases containing financial management information, real estate and financial information, and technical information related to home automation, building automation, electrical installations and equipment, security, surveillance, solar energy, photovoltaic solar energy, solar panels for the generation of electricity, and solar thermal collectors via a computer network; provision of telecommunications channels for teleshopping services; database management and sharing of computerized data, recorded on computer media, relating to financial, real estate and technical information regarding home automation, building automation, electrical installations and equipment, security, surveillance, solar energy, photovoltaic solar energy, solar panels for the generation of electricity and solar thermal collectors; provision of multiple-user access to global computer information networks for the transfer and dissemination of a wide range of information; provision of user access to search engines, namely provision of access to the Internet; provision of user access to Internet platforms, namely provision of access to the Internet and web hosting; provision of user access to Internet portals, namely provision of access to the Internet; provision of user access to a global computer network, provision of user access to online sites featuring information on various topics, namely provision of access to the Internet; data transfer services, namely data transfer from one computer format to another and data transfer and conversion from one medium to another; data transmission services via a computer network, Internet sites and electronic mail, namely in relation to electrical equipment, apparatus and installations, in relation to equipment, apparatus and installations used for lighting, electrical control, heating and air conditioning, signalling, surveillance, alarms, access control, home automation, building automation, and automation, in relation to security, monitoring, solar energy, photovoltaic solar energy, solar panels for the generation of electricity, and solar thermal collectors.

(6) Provision, management and operation of Internet discussion forums.

Class 39

(7) Transport of goods by airplane, boat, truck and train; packaging, storage and warehousing of goods, data carrier storage and storage (surveillance) of electronically stored documents or data; energy storage, namely energy storage and warehousing services; vehicle rental; vehicle monitoring services using a global positioning system (GPS) and computer software, telecommunication apparatus, transmitters and receivers; newspaper delivery.

Class 41

(8) Editing and publication, on Internet-type global telecommunications networks and intranet-type private- and reserved-access networks, of any media containing information, namely texts, illustrations, books, journals, newspapers, periodicals, magazines and catalogues; services for the publishing, recording, filming and editing of video tapes and for the publication of art pictures; organization of competitions related to education or entertainment to enable participants to perfect their knowledge with respect to electrical equipment, equipment and installations used for lighting, heating, air conditioning, home automation, building automation, signalling, monitoring, people and goods protection, photovoltaic cells, photovoltaic modules, solar panels for the generation of electricity, and solar thermal collectors; organization and conduct of colloquia, conferences and conventions in the fields of electrical equipment, equipment and installations used for lighting,

heating, air conditioning, home automation, building automation, signalling, monitoring, people and goods protection, photovoltaic cells, photovoltaic modules, solar panels for the generation of electricity and solar thermal collectors; organization of exhibitions, trade shows, competitions and festivities for cultural and educational purposes relating to electrical equipment, equipment and installations used for lighting, heating, air conditioning, home automation, building automation, signalling, monitoring, people and goods protection, photovoltaic cells, photovoltaic modules, solar panels for the generation of electricity and solar thermal collectors; education and training services in the field of energy; production, projection and lending of audiovisual and digital documents and films.

Class 42

(9) Technical research, consulting and advice provided by engineers in the field of equipment and installations for conducting, switching, transforming, accumulating, regulating, measuring, checking or controlling electricity; technical research, consulting, and advice provided by engineers in the field of apparatus, equipment and installations used for lighting, ventilation, heating or cooling air; technical advice, consultation and research in the fields of energy conservation and energy efficiency; technical research, consulting and advice provided by engineers in the fields of home automation, building automation and industrial automation; technical research in the fields of security and remote monitoring of people and goods, industrial installations or support operations and private residences; technical project studies in the evaluation of needs (technical diagnosis) related to electrical equipment and installations, including cables, heating and cooling air, home automation, building automation, industrial automation, security and surveillance; technical advice and studies performed by engineers for evaluating the technical performance and analyzing the integration prospects and compatibility of electrical equipment in complex electrical installations; technical concepts for new goods and services in the fields of electrical equipment and installations and tools; technical studies, analysis and diagnosis for the implementation and commissioning of electrical apparatus and installations; screening, namely technical analysis of goods for others and technical advice for choosing electrical and industrial equipment likely to meet the technical needs defined in a technical project specification; technical information provided by engineers, namely online, related to electrical equipment, apparatus and installations, equipment, apparatus and installations used for lighting, electrical control, heating and air conditioning, signalling, surveillance, alarms, access control, home automation, building automation and industrial automation; technical consulting, advice and information provided by engineers related to building design; architectural and engineering services, namely robot architecture and mechanical engineering; consulting, advice and information related to computers, namely consulting related to computer programming, computer security consulting, computer training, and training in the use and operation of computer equipment; design and development of computer hardware for the manufacturing industries and monitoring software for electrical equipment and installations, in the fields of tools and security alarm monitoring; computer engineering; reconstitution of computer databases; development, design, namely creation, configuration, installation, failure diagnosis, repair, updating, development, rental and maintenance, namely of computer systems, computer software and websites, as well as software associated therewith, for checking, managing, measuring, locally or remotely monitoring, and securing of equipment; computer programming; duplication of computer programs; integration and implementation, namely design of information systems, namely computer software, hardware and networks for others; hosting of servers and Internet sites for others; hosting of databases for others; technical advice related to computers, computer software and information technology; conversion of computer programs and data, other than physical conversion; conversion of data or documents from physical to electronic media; provision of Internet search engines, namely

provision of access to the Internet; computer data recovery for others; remote monitoring of computer systems; computer virus protection services; services for creating computer data banks in the field of community social events and in the energy, energy storage and computer sectors.

(10) Technical information, namely online, related to photovoltaic cells, photovoltaic modules, solar panels for the generation of electricity, and solar thermal collectors; development, design, namely management of computer apparatus and devices for checking, managing, measuring, locally or remotely monitoring, and securing of equipment.
