Terms and Conditions

- The Intel® Standard Warranty still applies. The on-site services is an optional value-add service which customer can purchase. For more details on Intel® Standard Warranty, visit <https://www.intel.com/content/www/us/en/support/articles/000005886/services.html>
- Service occasioned by the following events is NOT COVERED under this agreement. If service is required, this will be charged at the current "time and material" rates.
 - a. Damage caused by courier services, water, fire, lightning, earthquake, riot or war.
 - b. Malicious damage, equipment misuse, negligence or lack of environmental control.
 - c. Damage caused by a fault in telecommunication lines, modem, electricity supply or authority, local power supply or any external line for which Computergate is not responsible.

- d. Extended travel costs beyond 50km from a major city GPO or a registered service partner of Computergate.
- f. Configuration of operating system software, backup service or application software.
- g. Housekeeping activities, in particular those relating to maintenance of demonstrable back-ups, recovery, archiving, media formatting and data management.
- h. Any freight shipments to the Computergate service centre.
- i. Warranty may be voided if seals have been tampered with.
- j. Rectification of the items listed above will be charged at the current prevailing charges.
- e. Damage or loss of software programs or data due to equipment, unlicensed software, software failure or viruses.
