JTouch

## Engage students with touchscreen displays

Most of us learn by doing. A big, bright, multi-touch display engages students, encourages interaction, collaboration and teamwork, and increases information retention.

You'll see increased participation and attention spans in your classroom with JTouch's multi-touch technology that students know and want to use. And it's fun!

An interactive 65-inch touchscreen display from InFocus costs a fraction of an interactive whiteboard. You can even use your interactive software.

Benefits for Schools

- Engage students with touchscreen technology that they know and love
- Content is bright and clear for everyone to see
- Low cost and high value with special pricing only for schools
- Compatible with curriculum software, including SMART Notebook, ActivInspire and WizTeach
- Easily connect your document camera, voting or feedback systems, or USB thumb drive
- HD resolution matches your notebook and HD content
- Add whiteboarding with BigNote software (optional) on your PC

Key Features

- 1080p resolution, LED-lit LCD display
- Fast response time
- USB hub with four ports on the front of the display
- Long USB cable for easy connection
- PC and Mac compatible
- HDMI and VGA inputs
- Wireless-capable with InFocus LiteShow adapter (optional)
- Integrated 20-watt stereo speakers
- Mount on the wall or on a mobile cart (optional)

JTouch is also available in 55-inch (Part #:INF5520A-NOPC) and 80-inch (Part #:INF8001) sizes.
