STATISTICAL TABLES

RECEIPTS FROM INTERNAL-REVENUE TAXES

Table	Page
1. Receipts from specific sources of internal revenue, 1926, by collection districts.....	50
2. Receipts from specific sources of internal revenue, 1926, by States comprising two or more districts; from the State of Maryland and the District of Columbia, which constitute the district of Maryland; and from the State of Washington and the Territory of Alaska, which constitute the district of Washington.....	72
3. Summary of internal-revenue receipts, 1925 and 1926, by sources.....	83
4. Summary of internal-revenue receipts, 1925 and 1926, by collection districts.....	84
5. Summary of internal-revenue receipts, 1926, by States.....	86
6. Summary of income-tax receipts from corporations and individuals, 1926, by States.....	87
7. Summary of receipts from income tax, 1924, 1925, and 1926, by States; with per cent of increase or decrease in 1926, compared with 1925.....	88
8. Total internal-revenue receipts, 1863-1926.....	89
9. Internal-revenue tax on products from Philippine Islands, 1925 and 1926, by articles taxed.....	89
10. Internal-revenue tax on products from Porto Rico, 1925 and 1926, by articles taxed.....	80
11. Number of each class of special-tax payers, 1926, by collection districts.....	90

TOBACCO, CIGARS, CIGARETTES, ETC.

12. Tobacco factories operated and leaf tobacco and other materials used in manufacturing tobacco, calendar year 1925, by collection districts and by States.....	94
13. Tobacco manufactured, quantity on hand at commencement and close of year, quantity to be accounted for, quantity removed in bond for export, total sales reported, and taxes paid, calendar year 1925, by collection districts and by States.....	97
14. Cigar factories operated, tobacco used, and cigars weighing more than 3 pounds per thousand manufactured, etc., calendar year 1925, by collection districts and by States.....	100
15. Cigars weighing more than 3 pounds per thousand removed tax paid, calendar year 1925, by collection districts and by States.....	103
16. Tobacco used, and cigars weighing not more than 3 pounds per thousand manufactured, etc., calendar year 1925, by collection districts and by States.....	106
17. Tobacco used, and cigarettes weighing not more than 3 pounds per thousand manufactured, etc., calendar year 1925, by collection districts and by States.....	107
18. Tobacco used, and cigarettes weighing more than 3 pounds per thousand manufactured, etc., calendar year 1925, by collection districts and by States.....	109
19. Leaf tobacco used in manufacturing cigars, cigarettes, and tobacco and snuff, calendar years 1916-1925.....	110
20. Production of manufactured tobacco, snuff, cigars, and cigarettes, and the number of manufacturers of tobacco products and dealers in leaf tobacco in business at close of year, calendar years 1916-1925.....	110
21. Summary of operations of manufacturers of tobacco and cigars, calendar year 1925.....	111

BRANDY, CHAMPAGNE, AND WINE

Table	Page
74. Still wines deposited in, withdrawn from, and remaining in bonded wineries and bonded storerooms, 1926, by collection districts.....	162
75. Summary of operations relating to still wines at bonded wineries and bonded storerooms, 1926.....	166
76. Bonded wineries and bonded storerooms operated during the fiscal year 1926, by collection districts.....	166
77. Champagne, sparkling wines, and artificially carbonated wines deposited in, withdrawn from, and remaining in bonded wineries and bonded storerooms, 1926, by collection districts.....	167
78. Summary of operations relating to champagne, sparkling wines, and artificially carbonated wines at bonded wineries and bonded storerooms, 1926.....	168
79. Sweet wines fortified with grape brandy, under the act of February 24, 1919, and brandy withdrawn from distilleries and bonded warehouses and used for this purpose, 1926, by collection districts and by kinds.....	169
80. Brandy withdrawn from bonded warehouses and removed direct from fruit distilleries to wineries for the fortification of sweet wine, 1926, by collection districts.....	170
81. Wine shipped or delivered for sacramental purposes, 1926, by States.....	170
82. Wine shipped or delivered for sacramental purposes, 10-month period ended June 30, 1926, by administrative districts.....	171

MISCELLANEOUS STATISTICS

84. Statement of number of arrests, seizures, etc., by Federal prohibition directors, general prohibition agents, and prohibition administrators, 1926.....	173
85. Number of new permits issued, 1926.....	184
86. Number of permits renewed, 1926.....	186
87. Number of permits revoked, 1926.....	188
88. Number of permits canceled or surrendered, 1926.....	189
89. Number of permits in force June 30, 1926.....	191
90. Number of permits issued, revoked, canceled, surrendered, and expired, 1926, by classes.....	193
91. Number of alcohol, denatured alcohol, and wine permits in force June 30, 1926.....	194
92. Moneys paid to collectors as proceeds of in rem actions, judgments recovered in civil suits, fines and penalties imposed in criminal actions, and costs, as reported by clerks of United States courts, 1926.....	196
93. Expenses of the Internal Revenue Service, 1926.....	197
94. Summary of internal-revenue stamps issued to collectors of internal revenue and the Postmaster General, 1926.....	204
95. Cost of printing and binding for the Internal Revenue Bureau and Service, 1925 and 1926.....	204

ANNUAL REPORT

OF THE

COMMISSIONER OF INTERNAL REVENUE

TREASURY DEPARTMENT,
OFFICE OF COMMISSIONER OF INTERNAL REVENUE,
Washington, September 27, 1926.

SIR: I have the honor to submit the following report of the work of the Bureau of Internal Revenue for the fiscal year ended June 30, 1926:

COLLECTIONS¹

The operations of the Internal Revenue Bureau during the fiscal year 1926 under the revenue acts of 1924 and 1926 and other internal revenue tax legislation resulted in the collection of \$2,835,999,892.19, compared with \$2,584,140,268.24 during the fiscal year 1925, an increase of \$251,859,623.95, or 9.7 per cent.

The income tax collections for the fiscal year 1926 amounted to \$1,974,104,141.33, compared with \$1,761,659,049.51 tax collected from income for the fiscal year 1925, an increase of \$212,445,091.82, or 12.1 per cent. During the first six months of the fiscal year 1926 the collections embraced payments of the third and fourth installments of the tax due on incomes in the calendar year 1924, together with additional collections on assessments made for prior years, which amounted to \$844,649,733.47, compared with \$780,604,647.05, representing payments of income tax for the corresponding period of the fiscal year 1925, an increase of \$64,045,086.42, or 8.2 per cent. During the last six months of the fiscal year 1926 the collections embraced payments of the first and second installments of the tax due on incomes in the calendar year 1925, together with additional collections on assessments made for prior years, which amounted to \$1,129,454,407.86, compared with \$981,054,402.46, representing payments of income tax for the corresponding period of the fiscal year 1925, an increase of \$148,400,005.40, or 15.1 per cent. The tax on the returns of net incomes of individuals and corporations filed for the year 1924 was at the rates provided for in the revenue act of 1924, while the tax on the returns of net incomes of individuals and corporations filed for the year 1925 was at the rates provided for in the revenue act of 1926.

The miscellaneous collections arising from objects of taxation other than income taxes amounted to \$861,895,750.86 for the fiscal year 1926, compared with \$822,481,218.73 for the fiscal year 1925, an increase of \$39,414,532.13, or 4.8 per cent. The principal increase in the miscellaneous taxes for 1926 was from the tax on tobacco

¹ Refunds of taxes illegally collected made during the fiscal year 1926 are shown in a statement on p. 205 of this report.

Table	Page
22. Receipts from internal-revenue taxes on tobacco and per capita tax based on estimated population, 1917-1926	113
23. Exportation in bond of manufactured tobacco, snuff, cigars, and cigarettes, 1926, by collection districts	114
24. Drawback of internal-revenue taxes allowed on tobacco, cigars, and cigarettes exported, 1926, by ports	115
25. Withdrawals of tobacco products based on sales of stamps, 1926	115
26. Leaf tobacco imported by cigar manufacturers, tobacco manufacturers, and dealers in leaf tobacco, calendar year 1925, by collection districts and by States	116
27. Dealers in leaf tobacco in business, leaf tobacco exported and received from farmers, calendar year 1925, by collection districts and States	118
28. Tobacco material held or owned by dealers in leaf tobacco, cigar and tobacco manufacturers on January 1, 1926	121
OLEOMARGARINE, RENOVATED BUTTER, AND MIXED FLOUR	
29. Production and withdrawals of colored oleomargarine, 1926, by collection districts	124
30. Production and withdrawals of uncolored oleomargarine, 1926, by collection districts	124
31. Production and withdrawals of oleomargarine (colored and uncolored), 1926, by months	125
32. Summary of production and withdrawals of oleomargarine (colored and uncolored), 1917-1926	125
33. Materials used in the manufacture of oleomargarine, 1926	125
34. Production and withdrawals of renovated butter, 1926, by collection districts	126
35. Summary of production and tax-paid withdrawals of renovated butter, 1917-1926	126
36. Production and withdrawals of mixed flour, 1926, by collection districts	126
37. Production, importation, and withdrawals of playing cards, by months, 1926	127
NARCOTIC DRUGS	
38. Registrations under the Harrison narcotic law, as amended, 1926, by States and by classes	127
39. General statement of imports, bonded stock, and manufacturers' stock of taxable narcotic drugs, and dispositions made thereof, 1926	128
40. Comparative statement of imports, exports, and domestic sales of taxable narcotic drugs, 1921-1926	128
41. Taxable narcotic drugs imported into the United States, 1926, by countries	129
42. Taxable narcotic drugs and preparations exported from the United States, 1926, by countries	130
43. Taxable narcotic drugs and preparations sold within the United States by manufacturers, 1926, by States	131
44. Narcotic drugs and preparations seized by narcotic officers of the Bureau of Internal Revenue in the enforcement of the internal revenue narcotic laws, 1926, by States	133
45. Violations of the Harrison narcotic law, as amended, and disposition of cases thereunder, 1926, by States	135
46. Fiscal results of the enforcement of the narcotic laws and aggregate sentences imposed, 1926, by States	137
DISTILLED SPIRITS	
48. Distilled spirits produced (except alcohol produced at industrial alcohol plants), 1916-1926	139
49. Production, tax-paid withdrawals, leakage allowed, exportation and balances in warehouses of distilled spirits (other than alcohol produced at industrial alcohol plants), 1916-1926	139
50. Distilled spirits withdrawn, tax paid, from distillery, general, and special bonded warehouses and brandy distilleries, 1926, by collection districts	140

Table	Page
51. Distilled spirits, tax paid by stamp, 1925 and 1926	140
52. Distilled spirits bottled in bond before tax payment in distillery, general, and special bonded warehouses, 1926, by collection districts	140
53. Distilled spirits withdrawn for export from distillery, general, and special bonded warehouses, 1926, by collection districts	141
54. Distilled spirits withdrawn for export from distillery, general, and special bonded warehouses, 1926, by countries to which exported	141
56. Drawback of internal-revenue taxes allowed on tax-paid alcohol used in the manufacture of flavoring extracts, medicinal and toilet preparations exported, 1926, by ports	141
57. Distilled spirits lost by leakage or evaporation from packages withdrawn from distillery, general, and special bonded warehouses, 1926, by collection districts	142
58. Distilled spirits lost by theft, errors in gauge, etc., 1926, by collection districts	142
59. Nature of losses in distillery, general, and special bonded warehouses, 1926, by collection districts	142
60. Distilled spirits gauged, 1926, by collection districts	143
61. Distilled spirits, by kinds, remaining in distillery, general, and special bonded warehouses, 1926, by collection districts	144
62. Distilled spirits withdrawn from distillery, general, and special bonded warehouses, including rum removed from cistern rooms of distilleries for denaturation, 1926, by years and seasons of production	145
63. Distilled spirits remaining in distillery, general, and special bonded warehouses, 1926, by collection districts and by seasons of production, 1911-1926	145
64. Summary of operations relating to alcohol at industrial alcohol bonded warehouses, 1926	147
65. Summary of distilled spirits, by kinds, produced, withdrawn from, and remaining in distillery, general, and special bonded warehouses, 1926	148
66. Summary of operations at distillery, general, and special bonded warehouses, 1926	149
71. Grain and other materials used in production of distilled spirits, 1926, by collection districts	150
ALCOHOL	
47. Alcohol deposited in, withdrawn from, and remaining in industrial alcohol bonded warehouses, 1926, by collection districts	138
55. Alcohol withdrawn for export from industrial alcohol bonded warehouses by countries to which exported, 1926	141
67. Formulas prescribed for denaturation of alcohol, the industrial purposes for which the alcohol is used, and quantities withdrawn from denaturing plants, 1926	140
68. Denatured alcohol produced at and removed from denaturing plants, 1926, by States	158
69. Specially denatured alcohol received and disposed of by bonded dealers, 1926, by States	157
70. Specially denatured alcohol received and used by manufacturers, 1926, by States	158
83. Industrial alcohol plants, bonded warehouses, and denaturing plants under Title III of the National Prohibition Act, operated 1926, by collection districts	172
LIQUIDS AND CEREAL BEVERAGES	
72. Grain and other materials used in the production of cereal beverages containing less than one-half of 1 per cent of alcohol by volume, 1926, by collection districts	160
73. Cereal beverages containing less than one-half of 1 per cent of alcohol by volume produced and disposed of and number of dealcoholizing plants operated, 1926, by collection districts	161

manufactures, amounting to \$25,419,227.91, although substantial reduction in the rates of tax on all classes of cigars was made in the revenue act of 1926, which, however, did not become effective until March 29, 1926. The collections from passenger automobiles and motor cycles upon which the tax was reduced from 5 to 3 per cent in the revenue act of 1926, also show an increase for 1926 amounting to \$18,990,978.14. Decreases for 1926 are shown in the collections from all other excise taxes which were repealed by the revenue act of 1926, effective February 26, 1926.

The collection of internal revenue taxes for the fiscal year 1926 and the last seven preceding years are summarized in the following table:

Source	1926	1925	1924	1923
Distilled spirits, including wines, etc.	\$26,436,334.44	\$25,902,820.28	\$27,580,380.64	\$30,354,006.88
Fermented liquors	15,694.10	1,954.44	5,327.75	4,078.75
Tobacco manufactures	370,666,438.87	345,247,210.99	325,638,931.14	309,015,492.98
Oleomargarine	3,070,216.26	3,038,927.84	2,814,104.14	2,254,531.23
Capital stock tax, including other special taxes	101,932,733.82	95,814,152.60	95,286,105.44	89,603,322.81
Miscellaneous, including war excise taxes, etc., since 1919	1,351,803,624.24	344,738,257.14	490,076,910.89	487,580,856.72
Sales of internal revenue stamps by postmasters	7,880,707.04	7,737,695.47	12,418,180.28	11,843,403.64
Total receipts from other than income and profits taxes	861,895,750.86	822,481,218.73	954,419,940.26	930,655,003.01
Income and profits taxes	2,197,104,141.33	1,791,650,046.51	1,841,769,216.80	1,691,089,534.59
Total receipts	\$2,835,999,892.19	2,584,140,268.24	2,796,179,237.06	2,621,745,227.57

Source	1921	1920	1919
Distilled spirits, including wines, etc.	\$45,563,350.47	\$32,598,065.01	\$97,905,275.71
Fermented liquors	46,086.00	25,363.82	41,955,874.09
Tobacco manufactures	270,759,384.44	255,219,385.49	265,806,355.44
Oleomargarine	2,121,079.68	2,086,465.36	3,728,276.05
Capital stock tax, including other special taxes	90,544,038.69	91,281,484.31	102,933,701.35
Miscellaneous, including war excise taxes, etc., since 1919	686,861,719.92	914,227,755.36	883,863,871.82
Sales of internal revenue stamps by postmasters	14,616,958.05	20,380,868.86	24,437,893.75
Total receipts from other than income and profits taxes	1,110,532,618.15	1,367,219,388.20	1,450,644,248.21
Income and profits taxes	2,086,918,484.85	3,229,137,673.75	3,956,986,003.60
Total receipts	\$3,197,451,083.00	4,596,357,061.95	5,407,580,251.81

¹ Includes \$119,216,374.82 from estate and gift tax; \$40,133,532.32 from certain stamp taxes; \$150,198,765.88 from excise taxes; \$34,054,515.05 from the tax on admissions to theaters, etc., and club dues; \$416,197.63 from prohibition enforcement; \$981,739.07 from narcotics; and \$893,093.47 from delinquent taxes collected under repealed laws and other miscellaneous taxes.

² Includes \$1,004,979,734.17 from corporations and \$879,124,407.16 from individuals as compared with \$916,232,897.02 from corporations and \$345,426,352.49 from individuals for 1925.

³ The figures concerning internal revenue receipts as given in this statement differ from such figures carried in other Treasury statements showing the financial condition of the Government, because the former represent collections by internal revenue officers throughout the country, including deposits by postmasters of amounts received from sale of internal revenue stamps and deposits of internal revenue collected through customs offices, while the latter represent the deposits of these collections in the Treasury or depositories during the fiscal year concerned, the differences being due to the fact that some of the collections in the latter part of the fiscal year can not be deposited or are not reported to the Treasury as deposited until after June 30, thus carrying them into the following fiscal year as recorded in the statements showing the condition of the Treasury.

COST OF ADMINISTRATION

The expenditures in administering the internal revenue tax laws for the fiscal year 1926 were \$34,948,483.37, not including expenditures for refunding internal revenue collections and taxes illegally collected, which in no sense are administrative expenses. The aggregate receipts of internal revenue were \$2,835,999,892.19 which makes the cost of operation for the fiscal year 1926 \$1.23 for each \$100 collected, compared with \$1.44 for each \$100 collected for the fiscal year 1925, or a reduction of 14.6 per cent.

There was also expended \$9,573,791.64 for the enforcement of the prohibitory law and \$1,233,136.73 for the enforcement of the narcotic law from appropriations provided for that purpose.

HOUSING OF THE BUREAU

The unsatisfactory conditions under which the bureau has been forced to operate because of inadequate housing facilities continued practically unchanged during the fiscal year 1926. However, under the act passed by the Sixty-ninth Congress, to enable the Secretary of the Treasury to provide suitable accommodations in the District of Columbia for the executive departments, plans are being prepared by the supervising architect, Treasury Department, for the construction of a modern office building, suitable for the housing of the personnel and records of the bureau.

The bureau, on June 30, 1926, was housed in nine buildings. The Income Tax Unit operated in five buildings, viz: Annex No. 1, Pennsylvania Avenue and Madison Place NW.; Annex No. 2, Fourteenth and B Streets NW.; Building No. 5, Twentieth and B Streets NW.; Building C, Sixth and B Streets SW.; and Building No. 462, Louisiana Avenue NW.

The Prohibition Unit occupied portions of Building C, Sixth and B Streets SW., of the building No. 1418-1422 Pennsylvania Avenue NW., of the Graham Building, Fourteenth and E Streets NW., and the Treasury Building, Fifteenth Street and Pennsylvania Avenue NW. The Miscellaneous Tax Unit, comprising the estate tax, capital stock tax, tobacco, and miscellaneous tax divisions, was located in Building C. The Accounts and Collections Unit was housed in Building No. 5, Twentieth and B Streets NW. The office of the General Counsel was located in the Interior Building, Nineteenth and E Streets NW., and later was removed to the Walker-Johnson Building, No. 1734 New York Avenue NW. The office of the Commissioner and Assistant to the Commissioner, the Intelligence Unit, administrative division, appointment division, and information division were located in the Treasury Building.

INCOME TAX UNIT

The fiscal year 1926 was the most productive in the history of the Income Tax Unit. Marked progress was made in bringing the work to a current basis.

The number of income and excess profits tax returns audited during the year was 2,155,933 (977,043 individual and 1,178,890 corporation), compared with 1,751,613 (1,222,868 individual and partnership and 528,745 corporation) for the previous fiscal year.

The production was the second largest in the history of the Income Tax Unit, being exceeded only in the fiscal year 1924, when 2,329,191 returns were audited. However, the 1924 audit included an accumulation of returns for a three-year period—1921 to 1923, inclusive—by far the larger number of which were closed at the files. In 1926 the great majority of cases was closed only after intensive audit, the files audit covering 1924 returns alone.

The number of returns audited in 1926 exceeded the number of new returns filed and those reopened on claims, revenue agents' reports, etc., by 1,268,344. The number of returns unaudited at the close of the year was 742,740, compared with 2,011,084 at the close of the fiscal year 1925.

During the year the unit audited approximately twice as many returns as were filed, which demonstrates that the audit is fast being brought to a current basis.

The following table shows the total number of cases, including those reopened as a consequence of claims filed and pending before the Income Tax Unit at the close of the fiscal year, compared with the number on hand at the close of the three previous fiscal years:

Return year	On hand June 30, 1923	On hand June 30, 1924	On hand June 30, 1925	On hand June 30, 1926	Total audited to date
1917	28,916	5,773	3,417	1,372	1,900,864
1918	34,323	19,364	6,002	1,877	1,268,770
1919	103,198	81,327	12,155	2,828	1,489,170
1920	458,205	166,494	90,746	7,121	1,620,296
1921	1,190,602	953,781	171,221	8,192	1,442,228
1922	1,167,000	719,002	390,945	141,034	1,319,830
1923		1,100,624	372,200	154,320	1,019,265
1924			975,298	170,786	873,982
1925				263,402	165,813
1926				1,949	1,296
Total	3,032,544	2,430,055	2,011,064	742,740	10,510,494

The tabulation does not include returns in the 60-day file on which the unit has completed its audit work.

REVENUE AGENTS' REPORTS

The number of reports of field examinations submitted was 574,246, compared with 290,241 for 1925, an increase of 98 per cent. The number of returns sent to the field for examination was 830,498, compared with 223,284 transcripts of returns for the previous fiscal year. The increases are due to the bureau's decentralization plan, which is the transference to the field of many of its functions formerly performed in Washington.

ADJUSTMENT OF CLAIMS

The number of claims scheduled was 103,319. In addition, 53,848 certificates of overassessment in cases in which no claims were filed were scheduled. Of the claims scheduled, 54,473 were allowed. The total amount involved, including overassessments in cases against which no claims were filed, was \$424,072,181.86, of which amount \$116,623,311.92 was refunded and \$307,448,869.94 abated or credited. The amount of interest paid on amounts refunded or credited under section 1324 (a), revenue act of 1921; section 1019,

revenue act of 1924, and section 1116 (b), revenue act of 1926, was \$40,883,726.53. The number of claims received was 72,195, involving \$1,008,290,704.43, compared with 65,613 involving \$1,147,707,744.54 for the previous fiscal year. The number of claims rejected was 48,846, involving \$503,429,020.78. The number of claims on hand at the close of the fiscal year was 29,234, compared with 73,441 at the close of the previous fiscal year, a decrease of 44,207.

The balance of claims on hand at the close of the year was the smallest in recent years, and results from improved procedure, elimination of duplication, and constant surveillance over this phase of the work. The number of certificates of overassessment scheduled in cases in which no claims were filed—53,848—is worthy of attention. The result of this was to relieve the taxpayer of the necessity of filing and proving claims for taxes overassessed or overpaid. Under the old procedure, claims would have been invited and filed before certificates of overassessment could issue.

During the year the Income Tax Unit directed particular attention to the adjustment of claims filed against assessments made in 1920 and prior years, effecting a net reduction of 4,827 in the number of such cases, as shown by the following table:

Amounts of claims	On hand June 30		Net reduction
	1925	1926	
Less than \$1,000	2,463	346	2,117
Between \$1,000 and \$40,000	3,245	589	2,656
In excess of \$40,000	308	234	74
Total	6,016	1,169	4,847

ADDITIONAL REVENUE

A total of \$372,243,866.56 in additional taxes was assessed. In order that the collection would not be jeopardized, it was necessary to assess \$148,867,165.26 without giving the taxpayers the benefit of appeal. Of this amount \$142,628,459.23 was assessed under the revenue act of 1924 and, in cases where the claims were not adjusted prior to the enactment of the revenue act of 1926, is subject to claims in abatement and appeal to the United States Board of Tax Appeals. The balance of \$6,238,706.03, assessed under the revenue act of 1926, is subject to appeal to the United States Board of Tax Appeals, and abatement claims are not required. Further revenue amounting to \$61,981,464.02 was made available and subject to immediate collection through the rejection of claims in abatement and claims for credit.

Provisions are contained in the revenue act of 1926 which will permit a great decrease in the number, and consequently the amount of jeopardy assessments made. These provisions are embodied in sections 274, 277, and 278 and allow the extension of the statute of limitations by the mailing of a 60-day letter to the taxpayer within the statutory period to (1) 120 days from the date of the 60-day letter if no appeal is filed with the United States Board of Tax Appeals or (2) within 60 days after the final decision of the board where an appeal has been filed.

ORGANIZATION CHANGES

Reorganizations made were predicated upon three main considerations: (a) Avoidance of duplication of activities; (b) better coordination of effort, and elimination of divided responsibility, with a corresponding improvement in the flow of work from one branch of the Income Tax Unit to another; (c) concentration of activities with accompanying reduction of overhead cost of administration and personnel.

1. On July 1, 1925, the staff division was abolished and its work and responsibilities distributed to the various other units. An efficiency-record section and field-procedure section, employing a lessened personnel, were created to handle that part of the work formerly performed by the staff division. These duties and responsibilities now attach to the office of the assistant deputy commissioner.

2. On July 11, 1925, section No. 5 of the personal audit division was abolished.

3. On July 27, 1925, section C, of the consolidated returns audit division was abolished.

4. On October 7, 1925, the affiliations section, which was operating as an independent section attached to the office of the deputy commissioner, was transferred to the consolidated returns audit division. The purpose of this change was to coordinate all the work with respect to the audit of consolidated returns under the supervision of one responsible head.

5. On November 1, 1925, the headquarters of supervisory field district No. 3 were moved from Baltimore to Philadelphia. This change was advisable, due to the fact, that this is the largest and most important division of the third supervisory district and is centrally located with respect to the other divisions.

6. On November 21, 1925, section 24 of the corporation audit division was abolished and the majority of its personnel distributed among other sections of the unit. This resulted in placing eight supervisory technical employees on productive work and the transfer of seven clerical employees to other divisions of the unit, lessening the cost of operation.

7. On November 23, 1925, coal valuation and the metals and non-metals sections of the engineering division were combined and designated as the mining section. This change represented a further step toward economy and centralization of responsibility. A controlling circumstance with respect to this particular change was the desire to avoid divided responsibility, and to secure greater uniformity of decisions on matters affecting the mining industry.

8. On November 30, 1925, sections 3 and 4 of the personal audit division were abolished, effecting an immediate reduction in personnel. Nineteen supervisory employees were placed on productive work and 65 transferred to other divisions, 40 being reduced to clerical grades.

9. On November 30, 1925, the training subsection of the field-procedure section was abolished as such, and its functions transferred to the training section of the appointment division. To obtain the most advantage from the training section, it was considered that its benefits should be accessible to all employees of the bureau and not limited to the personnel of the Income Tax Unit.

10. On December 1, 1925, the Pittsburgh division was withdrawn from supervisory field district No. 3 and was established as the headquarters of supervisory field district No. 2.

11. On December 1, 1925, the State of Florida was withdrawn from the boundaries of the Atlanta division and a new division with headquarters at Jacksonville was created. This action was taken because of the unusual conditions existing in Florida as a result of the rapid increase in land values.

12. On January 2, 1926, there was created within the personal audit division a prior year audit section, charged with the responsibility of auditing all open returns for the taxable years 1917, 1918, and 1919. This change resulted in an increased production not only in these cases but also in those of later years, due to specialization secured through the division of labor, and afforded a much better control over the work.

13. On January 15, 1926, the affiliations section and the production committee of the consolidated returns audit division were abolished as such and their functions combined with the administrative section of the same division.

14. On January 15, 1926, the headquarters of supervisory field district No. 7 was changed from Atlanta, Ga., to Louisville, Ky.

15. On March 1, 1926, section A, of the consolidated returns audit division, was abolished, and its work and personnel distributed throughout the other sections of the division. This change reduced the cost of operating the division.

16. On March 27, 1926, a prior year audit section was established in corporation audit division, for the purpose of auditing all open excess-profits year returns. As a consequence of this move, more expeditious closing was accomplished.

17. On April 30, 1926, the records division was abolished as previously organized, and the statistical division designated as the statistical section. Two new divisions were created and designated as the clearing and records divisions.

As established, the clearing division was composed of statistical, preliminary audit, registration, proving, and claims control sections. In accomplishing this change, the personal files audit and corporation files audit section were combined and designated the preliminary audit section.

The basic principles underlying the creation of the clearing division were: (1) The centralization of responsibility for the conduct of work in Washington on current-year returns, preliminary to their transfer to the field for intensive investigation; (2) the securing of more expeditious closing of cases on which agreements had been reached between the taxpayer's and the field forces of the unit; (3) the accomplishment of a more speedy adjustment of claims.

The new records division, as established, comprised the files, distribution, and sorting sections, the files section being a combination of the unaudited returns and correspondence sections of the former records division.

This new division was created for the purpose of recording returns and controlling their movement through the several field and basic audit divisions.

18. On April 30, 1926, section 22 of the corporation audit division was abolished and its work and personnel distributed to the other sections of the division, thereby reducing the administrative overhead.

19. On June 16, 1926, the registration section of the clearing division was abolished as such and consolidated with the statistical section. The duties of the two sections were considered to overlap. As a consequence of the change the cost of supervision was reduced.

20. During the last quarter of the year, the rules and regulations and registration sections were moved from temporary Building No. 5 to Treasury Annex No. 1 and the correspondence section and mail section from Treasury Annex No. 1 to Treasury Annex No. 2. These changes were made in order to establish a closer contact between the head of the unit and his legal advisers and to centralize as far as possible, under the same roof, the several sections which comprise the divisions.

As a result of the concentration and coordination of activities and reduction of overhead, the number of sections in the personal audit division was reduced from 6 to 3; in the corporation audit division, from 6 to 4; in the consolidated returns audit division from 8 to 6; and in the engineering division from 5 to 4.

DECENTRALIZATION

The decentralization program—transference to the field of functions prior to August, 1923, performed in Washington—was amplified with advantage to both the Government and taxpayer. Important changes in the procedure and organization were made with a view to placing in the jurisdiction of field offices the largest measure of duty and responsibility consistent with uniform procedure. The result of these changes is to simplify the handling of returns, to expedite the final closing of the audit, and to effect valuable economies, consequent to prompt settlement of income tax differences in a manner agreeable to the Government and taxpayer. Under the decentralization program, the taxpayer is more conveniently served. Usually he is able to adjust his income tax differences with the Government's representative in the taxpayer's home district, thus avoiding an expensive trip to Washington. Uncertainty as to whether a case should be submitted to the field for verification also is eliminated.

An important change made during the year was the installation of a preliminary system of audit by the field forces. All returns not closed by revenue agents on preliminary inspection are returned to the several field divisions for audit on the basis of office inquiry or field examination, after being controlled and tabulated by the Income Tax Unit in Washington.

Arrangements were made whereby returns in collector's offices are segregated by revenue agents into three classes, viz—returns accepted as filed, returns requiring field investigation, and returns requiring office audit only.

All fiduciary and partnership returns now are retained in the field offices. This step was determined upon by reason of the fact that the major portion of such returns report distributive income of individuals, whose returns ordinarily are retained in the offices of collectors and there audited.

In the discussion of disputed points between taxpayers and revenue agents results have been most satisfactory. Agreements were reached in more than 50 per cent of the cases in which change in tax liability was recommended by revenue agents.

The function of verifying calculations on returns by comptometer process, heretofore performed in the proving section, Income Tax Unit, in Washington, was transferred to collectors' offices. Collectors were enabled, after such verification, to list the correct amount of tax, and to notify the taxpayer, in accordance with section 274 (f) of the revenue act of 1926.

Reports of results of preliminary audit mentioned above, to June 30, 1926, indicate increases of tax upon the basis of corrections made upon returns filed by individuals and corporations where mathematical errors were ascertained in the sum of approximately \$5,250,000 and reductions in the sum of \$975,000, a net increase in tax of \$4,275,000. The benefits of this preliminary audit work in the field before the tax lists are prepared and assessments made are apparent, since many thousands of cases are at once closed without the necessity of going through the lengthy and expensive process of accomplishing deficiency assessments.

POLICY AND PROCEDURE CHANGES

Seven important changes in policy and procedure were perfected and placed in operation during the year. These changes, based on the desire to hasten the final closing of returns without sacrificing accuracy, were as follows:

1. All cases which are investigated in the field and which are received in Washington with signed agreements by taxpayers are closed by the preliminary audit section of the clearing division, thereby eliminating the necessity of routing such cases to the basic audit sections. This results in a large saving in clerical effort and in a much quicker statement by assessment or by scheduling of over-assessment of the tax responsibility as agreed to by the taxpayer and the representative of the bureau stationed in the field.

2. The determination of depletion on returns filed by individuals reporting gross income of \$25,000 or less, all or part of which was derived from oil or gas wells, hereafter will be made by the collectors' audit forces under the provisions of sections 204 (c-2) of the revenue act of 1926, which reduces largely to a simple arithmetical computation the determination of allowances for depletion, in the oil and gas industry. Returns of this character heretofore were submitted to the engineering division of the unit for the performance of this operation and on completion were returned to the collectors for audit.

3. The procedure relative to the clearing of abatable accounts from the collectors' ledgers, due to the acceptance of an offer in compromise was revised to permit the accomplishment of this operation within the bureau through the issuance of a certificate of allowance. The procedure followed previously required the clearing of these items through the filing of office claims in abatement by the collectors.

4. A 60-day conference unit was established to allow taxpayers a conference on cases that were assessed under jeopardy circumstances and on which 60-day letters were mailed, and on cases that were appealed to the United States Board of Tax Appeals, where, in the judgment of the general counsel, a rehearing in the Income Tax Unit would be beneficial both to the taxpayers and the Government for the purposes of closing the cases. This move will result in the

closing of a large number of cases by the Board of Tax Appeals through stipulation, thereby eliminating the necessity for hearings, and will accomplish much to relieve the congestion caused by the large number of appeals filed.

5. The policy of listing additional assessments was changed to permit the forwarding of statements of deficiencies to the collectors on a weekly rather than a monthly basis. This move has resulted in savings to the taxpayer in interest costs and has secured for the government a quicker collection of deficiency taxes.

6. Owing to the large cost of photostating returns, the practice of sending photostats of returns and related papers to revenue agents as a basis for field examination was discontinued, the original returns and related papers being forwarded instead. This resulted in a savings of \$73,619.69, which was the annual cost incident to the preparation of photostatic copies.

7. The practice of allowing engineers of the unit to make computations and extensions of depletion and other schedules has been discontinued, leaving these auditing and clerical activities to lower salaried employees, thus releasing the engineers for purely valuation work.

CLEARING DIVISION

The clearing division is charged with the responsibility of reviewing the classification placed on approximately 600,000 returns a year, and also of accomplishing the final closing of such of these returns as are designated "accepted" by the revenue agents.

Besides this type of preliminary audit, the division must examine and close, or route to the basic audit divisions for closing, all returns on which the field forces have secured signed agreements from taxpayers, consenting to the assessment of deficiency taxes; it must also review and close all returns which are forwarded by the agents, as not meriting an intensive investigation in the field. Since its establishment on April 30, 1926, the division has reviewed and closed 91,122 returns of these classes. In addition to its work on returns, this section must review and adjust, or route to basic audit or the field for adjustment, all claims filed by taxpayers.

The claims control section received, recorded and routed to audit 72,195 claims. It scheduled 103,319 claims and 53,848 certificates of overassessment in cases against which no claims were filed. In all cases where interest was allowed the taxpayers, this section computed the amounts due.

The proving section, during the fiscal year 1926, received and proved 635,461 taxable and 570,465 nontaxable returns. It also listed assessments of deficiency taxes, for the approval of the commissioner on 166,046 returns.

The statistical section, in accordance with the provisions of the revenue act requiring the preparation and publication annually of statistics from the returns of net incomes, compiled statistics of income from the returns for 1924, which returns were filed in 1925, and there were issued two preliminary reports covering the returns filed by individuals and corporations, respectively.

In addition to these publications, the statistical section prepared numerous confidential compilations for administrative and legislative use, also compilations of specialized data in response to requests from other departments of the Government.

RECORDS DIVISION

The functions of this division are primarily the controlling, assembling, and routing of all income-tax returns and related papers to the several sections of the unit in Washington, and to the various divisions of the field.

The files section during the year assembled and routed 201,787 cases. Besides this it recorded the movement of all cases from one division of the bureau to another.

The distribution section transferred 538,884 returns and related papers.

The sorting section audited and closed 13,084 withholding returns and examined 600,304 information returns. Based on the audit of withholding returns it assessed \$10,892,133.70 compared with \$10,048,561.66 the previous year. Delinquent returns totaling 9,948 were secured as a result of the examination of the information returns. The number of certificates sorted was 14,029,550.

SERVICE DIVISION

The stenographic section of this division made 43,465 assignments of stenographers. The number of pages written by stenographers was 3,928,694 and by typists 1,718,041, a total of 5,646,735 pages.

The photostat section made 890,216 photostatic copies and photostated 35,031 returns.

INFORMATION SERVICE

The rules and regulations section answered 61,167 inquiries of taxpayers on technical and administrative questions. This section prepared and issued weekly, quarterly, and semiannually bulletins and digests of income-tax rulings. The income-tax return forms also are prepared in this section.

PERSONNEL

The allotment for salaries in the bureau's appropriations was reduced for the fiscal year 1926, necessitating a reduction in force. The reduction was accomplished through the separation from the service of the Income Tax Unit, due to resignations or dismissals of 463 technical and 636 clerical employees, a total of 1,069. Of the technical separations 223 occurred in the personnel of the Washington force and 240 in the field. The clerical separations consisted of 557 from the Washington force and 79 from the field. The direct saving in salaries resulting from the reduction in force was \$1,080,656. On June 30, 1926, the technical personnel of the Washington force was 1,489 and the number of clerks 1,875, a total of 3,364, while on June 30, 1925, the technical force numbered 1,942 and the clerical force 2,224, a total of 4,166. There were assigned to the field force on June 30, 1926, 2,442 revenue agents and 629 clerks, or a total personnel of 3,071, while at the close of the previous year there were 2,310 revenue agents and 521 clerical employees, or a total of 2,831.

As a further result of the policy of decentralization, 240 auditors and 67 clerks were transferred to the field, the auditors being assigned to duty as revenue agents.

IMPROVEMENTS PLANNED

The improvements planned for the fiscal year 1927 will be directed toward greater efficiency with a decreased cost of operation, to be brought about by the consolidation of activities. It is anticipated that many of the changes will be in the nature of refinements of the policies and reorganizations which were effected during the fiscal year 1926.

The most important of the projected improvements is the merging of several audit divisions into a review division. When established, this new division will be charged with the responsibility of reviewing the findings of the field.

Another step will be to combine the personnel and efficiency records sections.

The work of the unit at Washington has decreased to such an extent that it is no longer necessary to continue the service division as a separate entity, this being caused by reduced personnel. The division therefore will be abolished and its functions placed under the jurisdiction of a section which will be created.

The drive conducted during the fiscal year 1926 to dispose of claims filed against assessments made in 1920 and prior years proved so beneficial that it has been decided to devote especial attention, during the fiscal year 1927, to the adjustment of abatement and credit claims which were filed against assessments made in 1921 and 1922.

It is believed the production program of the unit for the ensuing year will result in bringing all work to a current condition by June 30, 1927. This contemplates the final closing of returns reporting income earned in 1924 and prior years.

MISCELLANEOUS TAX UNIT

This unit is charged with the administration of all taxes other than income tax and certain taxes under the jurisdiction of the Prohibition Unit. In consequence of the repeal of various taxes by the revenue act of 1926, the miscellaneous division was organized March 1, 1926, taking over the work of the former sales tax division and the administration of the miscellaneous taxes from the tobacco and miscellaneous division. From the date mentioned, the unit has been composed of four divisions, namely, capital stock tax division (for the completion of the work in connection with the capital stock tax, repealed effective June 30, 1926), estate tax division, miscellaneous division, and tobacco division.

Economies were effected in the conduct of the work of the divisions comprising this unit. Notwithstanding the material reduction in personnel compared with the previous year, the work is practically on a current basis. All important tax rulings have been published.

PERSONNEL AND PAY ROLL

The personnel and annual pay rolls of the unit as of June 30, 1925, and June 30, 1926, are shown in the following table:

Division	Personnel			Pay roll		
	1925	1926	Increase (+), decrease (-)	1925	1926	Increase (+), decrease (-)
Executive office.....	14	13	-1	\$40,850	\$43,480	-\$3,380
Capital-stock tax division.....	113	86	-27	211,720	169,320	-42,400
Estate-tax division.....	119	102	-17	302,520	228,600	-38,920
Miscellaneous division.....	117	90	+117	223,080	161,600	+223,080
Tobacco division.....	90	90	+90	161,600	161,600	+161,600
Sales-tax division.....	103	103	-103	189,800	189,800	-189,800
Tobacco and miscellaneous division.....	122	122	-122	224,600	224,600	-224,600
Total.....	471	406	-63	935,560	823,080	-112,480
Estate tax—field ¹	255	233	-25	794,800	738,300	-56,500
Grand total.....	726	641	-88	1,730,360	1,561,380	-168,980

¹ The field deputies and agents assigned to investigation of above taxes other than estate tax are not attached to this unit.

TAXES COLLECTED

The following comparative statement shows the amounts of the different taxes collected for the years ended June 30, 1925 and 1926:

Class of tax	Fiscal year		Increase	Decrease
	1925	1926		
Capital-stock tax.....	\$90,002,594.56	\$97,383,753.01	\$7,381,158.45
Estate tax.....	101,421,766.20	118,041,038.09	14,619,271.89
Gift tax.....	7,518,120.32	3,175,338.73	\$4,342,781.59
Miscellaneous taxes.....	88,127,497.61	61,633,737.99	3,528,780.38
Sales taxes.....	180,480,495.16	184,232,680.93	3,802,185.77
Tobacco taxes.....	345,247,210.96	370,668,438.87	25,419,227.91
Total.....	782,767,693.81	833,175,008.72	54,750,105.00	14,342,790.59

¹ The difference in the totals of these amounts show a net increase of \$50,407,314.41.

APPEALS AND REVIEW SECTION

The appeals and review section, which is attached to the office of the deputy commissioner in charge of this unit, functioned prior to January 1, 1926, as the review section of the estate-tax division. Hearings were held with taxpayers regarding formal claims for abatement filed in connection with jeopardy assessments or claims for refund and on all protests filed by taxpayers against the tentative determinations of the estate tax where a hearing was requested. Since January 1, 1926, this section, in addition to holding hearings in estate-tax cases, has held hearings with taxpayers or their representatives in connection with the adjustment of claims for abatement and refund of the various taxes administered by the miscellaneous unit and also reviewed all claims for refund of over \$500 adjusted by the unit. This section upon request furnishes legal opinions interpreting the revenue laws administered by the unit.

During the fiscal year 1926, 681 hearings were held and 666 formal legal opinions were prepared on law questions arising under the revenue laws administered by this unit. On June 30, 1926, there were 76 cases awaiting supplemental information in order that they might be finally closed, and there were 58 cases awaiting hearings which had been scheduled at the request of the taxpayer.

From December 15, 1925, to June 30, 1926, 289 hearings were held in the field under Treasury decision 3783, and in 63 of said cases agreements were reached in the field with the taxpayer. Since January 1, 1926, members of this section have assisted officers in the field in holding hearings on three large estate-tax cases.

The reduction in the number of hearings held in estate-tax cases is a result in part of having the claims section first pass upon all protests, where a hearing has been asked, before scheduling a case for a hearing, thus enabling that section to dispose of over 30 per cent of such cases by direct correspondence with the taxpayer and of holding but one hearing for each case. The holding of hearings in the field under Treasury decision 3783 and the use of form letters whenever it is practicable has made it possible to reduce the number of hearings held by the appeals and review section by 40 per cent, the personnel by 35 per cent, and the personnel cost of the section by 30 per cent during the fiscal year.

CAPITAL-STOCK TAX DIVISION

The capital-stock tax division is responsible for the administration of the tax imposed by section 700 of the revenue act of 1924, and the same tax imposed by prior revenue acts. The revenue act of 1926 repealed this tax to take effect July 1, 1926.

Upon approval of the revenue act of 1926, the collectors' offices were advised to make an immediate drive to secure delinquent returns from all taxpayers so that these returns could be audited with the 1926 returns, since it was the desire of the bureau to liquidate the division at as early a date as practicable. This division must complete the audit of the few cases for 1925 and prior years, and of approximately 80 per cent of the 1926 returns, and dispose of the delinquent returns and such claims as may be filed.

The pay roll was reduced from \$212,120 on the date of approval of the revenue act of 1926, to \$169,320 on June 30, 1926. Transfers and resignations, effective July 1, reduced the number of employees to 74 and the pay roll to \$140,460. The work is considered to be on a strictly current basis, but with the greatly reduced personnel, the audit of the remaining returns will require a greater length of time than previously estimated.

The segregation of returns by industries for audit, inaugurated in prior years, has proven satisfactory. The industries are segregated as follows: Public utilities; railroads; bank and trust companies; hotel, apartment house, and office buildings; mining and mineral-holding companies; oil and natural gas companies; lumbering and timber-holding companies; textile corporations; automobile manufacturers; and newspaper publishers. Increased valuations, resultant from the unusual prosperity in practically all industries during the fiscal year 1925, are reflected in the capital stock tax collections, which amounted to \$97,385,755.61, an increase of \$7,383,161.05, compared with the previous year.

Statistics.—Statistics from the capital stock tax returns covering the period July 1, 1924 to June 30, 1925, in which the valuations are reflected in a large majority of cases as of December 31, 1923, were compiled by the statistical division, Income Tax Unit, for publication in the bureau's report "Statistics of income, 1924."

Assessments.—During the year 1926, the capital stock tax division listed additional tax in the amount of \$8,798,643.54 as the result of the audit of returns. The collectors' offices, during the same period, listed a tax of \$80,263,253.01, making the total assessments \$89,061,896.55.

Claims.—The adjustment of claims is shown in the table which follows:

	Refund		Abatement		Uncollectible	
	Number	Amount	Number	Amount	Number	Amount
On hand July 1, 1925.....	720	\$912,283.02	304	\$1,430,642.52	84	\$13,431.39
Received.....	5,895	6,750,253.06	1,635	1,753,242.69	864	142,534.90
Allowed.....	4,052	1,435,025.49	1,103	1,507,048.50	844	114,663.02
Rejected.....	1,519	3,634,993.02	604	634,684.93	40	38,936.33
On hand June 30, 1926.....	1,050	2,427,657.57	232	1,050,456.89	84	32,187.65

¹ Includes \$27,810.07 interest paid on claims.

Offers in compromise.—There were on hand July 1, 1925, 5,438 offers in compromise amounting to \$72,631.65. There were received 13,542 offers, amounting to \$207,315.02. The number of offers accepted was 9,903, amounting to \$135,600.22. The number rejected was 977, amounting to \$19,875.18. Pending June 30, 1926 were 8,100 offers, amounting to \$124,471.27.

ESTATE-TAX DIVISION

The estate-tax division is responsible for the administration of the estate tax imposed by Title III of the revenue act of 1926 and the disposition of cases involving estate and gift taxes under repealed statutes.

The present law, which became effective February 26, 1926, retroactively reduces the rates provided in the 1924 act to the same percentage as existed under the 1921 act; provides a new and even lower range of rates in cases arising after February 26, 1926; grants a possible maximum credit of 80 per cent for State inheritance taxes paid; increases the amount specifically exempted from taxation to \$100,000; abrogates the gift tax; and contains provisions not found in any of the prior acts.

New regulations and forms were required. In addition to its conference duties, the appeals and review section assisted the division in the preparation of the regulations, and in the disposition of unusual tax problems arising in the audit or adjustment of particular cases.

The field force operates under the direction of the deputy commissioner through internal-revenue agents, in charge, and supervising agents. On June 30, 1926, the work was not on a current basis, due to a decreased force, consequent upon reduction in appropriations. It is expected, however, that a substantial reduction will be made in

field work during the fiscal year 1927 since fewer estate-tax returns will be filed on account of the increased exemptions.

Opportunity to protest directly to field officers is afforded estates under Treasury decision 3783.

Collections.—Estate-tax collections aggregated \$116,041,036.09, compared with \$101,421,766.20 for the fiscal year 1925.

The number of returns audited was 13,912, compared with 19,752 for the previous year. The field force submitted 13,694 major reports, compared with 15,606 for 1925. There were filed 15,982 new returns, compared with 13,962 for 1925.

Additional assessments amounting to \$20,540,328.39 in estate-tax cases and \$202,039.87 in gift-tax cases were made, due to office audit and field investigations.

Questions that consume considerable time for discussion and decision lie in the transfers made in contemplation of or to take effect at or after death, powers of appointment, charitable bequests, and the valuation of close-corporation stocks. The solution of these problems requires the maintenance of an adequately trained force of attorneys in both field and office. The files, on June 30, 1926, contained 129,159 estate-tax cases and 2,358 gift-tax cases.

Claims and protests.—The status of claims is shown in the following table:

	Estate-tax claims					
	Refund		Abatement		Uncollectible	
	Number	Amount	Number	Amount	Number	Amount
On hand July 1, 1925.....	151	\$4,759,342.01	10	\$601,366.28	5	\$1,407.30
Received.....	2,402	28,257,119.68	345	4,036,134.27	11	239,487.08
Allowed.....	2,249	18,554,823.09	339	3,124,783.06	10	43,463.39
Rejected.....		14,691,381.42		1,519,123.12	3	122.20

Rejected.....		908,653.51		
On hand June 30, 1926.....	48	605,324.21		

† Includes \$680,065.12 interest paid on claims.

† Includes \$815.26 interest paid on claims.

There were 102 protest letters pending at the beginning of the year and 2,286 were received. There were 2,281 such letters disposed of, involving \$28,019,063.57, leaving 107 on hand at the close of the year. A large percentage of the claims and protests concerned taxes re-

duced under the retroactive provisions of the 1926 act, and with transfer questions.

Statistics.—Statistical data from the 1925 returns, showing in comparative and classified form statements of total amounts of assets included in gross estates, total amounts of deductions, total net amounts taxed, and total of resulting tax have been compiled and will be published in the bureau's report, "Statistics of income, 1924."

MISCELLANEOUS DIVISION

The miscellaneous division is charged with the administration of those taxes imposed by the revenue act of 1926, in sections 500 and 501 on admissions and dues, respectively, in section 600 on the sale of automobiles by the manufacturer, producer or importer, and on the sale of pistols and revolvers; in section 702, special taxes on the use of foreign-built boats and in section 903 on cereal beverages, and in Title VIII, payable by stamp, on issue, sale, and transfer of stocks, on sales of products for future delivery, on bonds of indebtedness, passage tickets, playing cards, and insurance policies issued by foreign corporations on property in the United States. This division is also responsible for the administration of the stamp and special taxes imposed under old statutes, including the taxes on oleomargarine, adulterated butter, renovated butter, mixed flour, filled cheese, white phosphorous matches, and cotton futures. The work of this division includes the disposition of cases involving taxes repealed by the revenue act of 1926 and prior revenue acts.

Audit of returns.—During the year there were received and audited 270,501 monthly returns covering admissions, dues, and excise taxes. Due to the repeal by the revenue act of 1926 of certain sales taxes, the returns filed for the last two months of the year were reduced to approximately one-half the average number filed for corresponding months in the preceding year. Six thousand two hundred and fourteen credits against current liabilities for alleged prior overpayments on sales were disposed of during the year. By reason of investigations in the field and by office audit of reports and returns additional taxes in the amount of \$5,142,599.50 were assessed.

Receipts.—Receipts for the fiscal year 1926 from admissions, dues, and excise taxes amounted to \$184,252,680.93 compared with \$180,450,495.16 for 1925. Collections from miscellaneous stamp and special taxes were \$61,653,757.99, compared with \$58,127,497.61 for 1925.

Offers in compromise.—On July 1, 1925, there were on hand 12,195 offers in compromise, 33,665 were received during the year and 38,788 disposed of, leaving 7,172 on hand June 30, 1926. Of the 38,788 offers handled 38,213 were accepted for amounts aggregating \$339,046.83.

Adjustment of claims.—A substantial reduction was made in unadjusted claims as evidenced by the following table:

	Refund		Redemption		Abatement		Uncollectible	
	Number	Amount	Number	Amount	Number	Amount	Number	Amount
On hand July 1, 1925.....	2,987	\$11,947,156.41	774	\$509,260.88	1,038	\$1,247,581.76	732	\$575,143.95
Received.....	4,069	7,556,177.54	8,272	679,119.10	3,185	3,520,778.57	3,197	1,072,129.30
Reopened and allowed.....	271	920,987.12	5	7,785.23	37	76,021.16	7	1,176.18
Allowed.....	3,433	4,799,784.50	7,334	635,456.27	2,742	4,650,517.30	2,886	1,051,345.04
Rejected.....	2,127	11,169,634.25	608	187,695.67	634	1,085,488.68	235	188,213.53
On hand June 30, 1926.....	1,757	4,484,881.32	1,109	353,017.33	884	2,108,975.31	815	408,810.80

During the year interest owed to the Government in the sum of \$842,102.07 was assessed, while there was paid out the sum of \$1,618,474.39 as interest accrued on taxes refunded, which latter amount is an increase from \$1,034,791.91 paid out for the fiscal year 1925. This increase is due principally to a large number of old claims covering taxes paid under the revenue acts of 1898 and 1914 which were reopened and allowed on account of court decisions.

Credit and refund claims aggregating \$1,722,522.59 were received from automobile manufacturers and dealers, pursuant to the provisions of section 1204 of the revenue act of 1926. These claims, which involve the review and audit of approximately 7,500 dealers' inventory schedules, are being handled as expeditiously as possible.

Documentary stamp tax.—The greater part of the stamp tax collections was from the tax on bonds, capital stock issues, conveyances, customhouse entries, passage tickets, proxies, powers of attorney, and foreign policies of insurance on property in the United States, which amounted to \$28,480,422.01, compared with \$27,862,622.04 for the preceding fiscal year. The tax on the transfer of stock during 1926 amounted to \$17,137,185.75, compared with \$12,808,629.24 for the previous fiscal year, and the tax on sales of produce (future deliveries) netted \$4,183,217.57, compared with \$5,397,147.98 for the preceding year.

Miscellaneous special taxes.—Special taxes upon brokers, pawn-brokers, ship brokers, customhouse brokers, proprietors of howling alleys and billiard tables, shooting galleries, riding academies, passenger automobiles for hire, and upon the use of pleasure boats, amounted to \$4,554,331.39, compared with \$5,811,558.04 for the preceding fiscal year.

Oleomargarine.—On July 1, 1925, there were 59 oleomargarine factories in business. Four new factories began operation during the year and 2 were closed, leaving 61 in business as of July 1, 1926. There was an increase of 32,740,803 pounds of oleomargarine produced during the fiscal year 1926 compared with the preceding year. The following comparative data reflects the trend of the industry:

	Colored		Uncolored	
	1925	1926	1925	1926
	<i>Pounds</i>	<i>Pounds</i>	<i>Pounds</i>	<i>Pounds</i>
Oleomargarine produced.....	11,260,121	13,189,568	204,122,417	234,456,753
Withdrawn tax paid for domestic use.....	8,347,652	10,629,048	204,054,447	214,678,328
Withdrawn free of tax for export.....	1,375,228	1,512,874	11,040	16,920
Withdrawn free of tax for use in United States.....	885,663	876,130	4,080

The oleomargarine law yielded a total of \$3,070,218.26 in revenue during the year, compared with \$3,038,927.84 in 1925, an increase of 1.03 per cent. The collections in detail for the years 1925 and 1926 were as follows:

	1925	1926	Increase (+) or decrease (-)	Per cent
Stamp tax colored oleomargarine.....	\$1,231,038.85	\$1,073,036.99	-\$158,001.86	12.83
Stamp tax uncolored oleomargarine.....	510,362.94	585,904.76	+75,541.82	15.20
Manufacturers' special tax.....	39,036.13	45,544.80	+6,508.67	14.04
Wholesale dealers' special tax.....	352,047.17	373,042.49	+20,995.32	5.93
Retail dealers' special tax.....	903,743.15	988,789.12	+85,045.97	9.41
Total.....	3,038,927.84	3,070,218.26	+31,290.42	1.03

A total of 15,180 manufacturers' and wholesale dealers' returns were examined during the year, and a large number of prospective delinquents referred to the collectors for investigation. This work resulted in the discovery of 817 delinquents, and the collection of additional tax, penalties, and compromise offers aggregating \$12,453.02.

Adulterated butter.—The adulterated butter law yielded only \$2,176.24 in revenue during the year. Practically all of the revenue collected under this law resulted from the finding on the market of creamery butter which contained moisture of 16 per cent or more. Since the decision in the case of Tildeu Produce Co. v. Lynch, wherein the 16 per cent moisture regulation was held invalid, collections have practically ceased, and unless the law is amended to include a definite standard for moisture only a nominal amount of revenue will be derived from this source in the future. There are still two registered manufacturers of adulterated butter whose entire output is removed free of tax for export.

Process or renovated butter.—There were seven manufacturers of process or renovated butter in business during the year. They produced a total of 2,482,660 pounds of process or renovated butter, compared with 3,824,929 in 1925. The revenue derived from this source totaled \$6,080.18, as compared with \$10,163.15 in 1925.

Mixed flour.—There were 24 makers, packers, or repackers of mixed flour engaged in business during the year, and they made, packed, or repacked a total of 8,297,634 pounds as compared with 3,065,772 pounds in 1925. The mixed flour law yielded a total of \$12,817.39 in revenue during the year, which is an increase of \$3,822.50 over the preceding year.

Filled cheese and white-phosphorous matches.—There are no registered manufacturers of filled cheese or white-phosphorous matches

in business, the tax and restrictions placed on these businesses being practically prohibitive. During the year a manufacturer was discovered using coconut oil in the manufacture of cream cheese. His equipment, materials, and finished product were seized, tax and penalties were assessed, and a report was submitted to the United States attorney recommending that criminal action be instituted. The law yielded \$1,247.85 in revenue during the year.

Playing cards.—There were 76 manufacturers, repackers, or importers of playing cards in business during the year. They manufactured, repacked, or imported a total of approximately 46,469,142 packs. A total of \$4,213,414.03 was collected from this source, compared with \$3,183,384.92 in 1925.

Effect of legislation.—The repeal of a number of taxes administered by this division reduced both the amount of collections and the volume of work. Such work, however, has not declined as rapidly as have the revenues, due to the necessity of disposing of many pending cases arising under prior acts and the reopening of a considerable number of cases as a result of adverse court decisions. The regulations and forms which relate to taxes administered by this division have been revised to conform with the provisions of the revenue act of 1926. The reduction in personnel which would result normally through the repeal of certain taxes has been accomplished by voluntary separations and by transfers.

Conferences.—During the year, 1,444 conferences were held by representatives of this division with taxpayers and their representatives.

Changes in organization.—Consolidations of sections and subsections in the miscellaneous division have resulted in a more efficient grouping of clerks and a saving of administrative expense.

Effective March 1, 1926, the miscellaneous section of the tobacco and miscellaneous division was transferred to the sales-tax division and the name of the latter changed to the miscellaneous division. This grouping of work brought all the miscellaneous taxes under one administrative head.

TOBACCO DIVISION

The tobacco division is charged with the responsibility for the administration and enforcement of the laws dealing with the manufacture, sale, tax payment, and exportation of tobacco, snuff, cigars, and cigarettes and purchase and sale of leaf tobacco, embraced in sections 3355 to 3406, Revised Statutes, and subsequent acts of Congress down to the act of February 26, 1926 (Title IV), tax on cigarette papers and tubes, violations of law, and the withdrawal of tobacco products free of tax for use of the United States under section 3464, Revised Statutes.

The receipts from tobacco taxes during the fiscal year 1926, including taxes on domestic and imported manufactures, manufacturers' special taxes, and taxes on domestic and imported cigarette papers and tubes in packages, books, or sets, were the greatest in the history of the Internal Revenue Service and exceeded the total internal-revenue collections from all sources for any year prior to 1914.

The total collections from this source were \$370,666,438.87, an increase of \$25,419,227.91, or 7.36 per cent, compared with the preceding year. Such collections represent 13.07 per cent of the total internal-revenue receipts from all sources, compared with

13.36 per cent for 1925. The receipts from taxes on small cigarettes represents 68.75 per cent of the tobacco collections, amounting to \$254,824,808.19, an increase of \$29,792,106.12, or 13.24 per cent, over the preceding year.

Receipts from special taxes imposed on manufacturers of cigars, cigarettes, and tobacco amounted to \$1,132,155.97, an increase of \$6,241.56 compared with the preceding year.

The total taxes collected on cigarette papers and tubes amounted to \$1,061,144.42, a decrease of \$128,263.87 or 10.79 per cent. Of this amount \$26,326.71 was collected on 2,618,814 packages of cigarette papers of domestic manufacture, \$1,029,281.60 on 97,450,685 packages imported, and \$5,536.11 on cigarette tubes payable by stamp. There were removed exempt from tax for consumption or use 220,112,993 packages of cigarette papers, each containing not more than 25 papers, and there were released tax free for use of cigarette manufacturers 27,654,420 cigarette tubes.

The following seven States furnished 86.45 per cent of the total receipts from tax on tobacco manufactures: North Carolina, \$172,503,186.60; Virginia, \$40,815,049.41; New York, \$35,359,424.05; New Jersey, \$28,672,336.72; Pennsylvania, \$22,322,302.04; Missouri, \$10,767,822.06; California, \$10,009,208.18.

The leading States in the manufacture of tobacco products are as follows in the order named: In the manufacture of cigars weighing more than 3 pounds per 1,000, Pennsylvania, New York, Ohio, Florida, New Jersey, Indiana, and Michigan; in the manufacture of cigars weighing not more than 3 pounds per 1,000, Maryland, Pennsylvania, North Carolina, New York, and Virginia (see Table No. 16); in the manufacture of cigarettes weighing not more than 3 pounds per 1,000, North Carolina, New York, Virginia, New Jersey, Pennsylvania, and California; in the manufacture of cigarettes weighing more than 3 pounds per 1,000, New York, which produced 90.37 per cent of the total manufactured (see Table No. 18); in the manufacture of plug tobacco, Missouri, and North Carolina; twist, Missouri, Tennessee, and Kentucky; fine-cut, Illinois, Michigan, New Jersey, and New York; smoking tobacco, North Carolina, Ohio, Kentucky, Illinois, New Jersey, and West Virginia; snuff, Tennessee, New Jersey, and Illinois (see Table No. 13).

Additional statistics concerning the manufacture and tax payment of tobacco products are shown in Tables 12 to 28, on pages 94 to 123, and relating to tax collections in Table 1, on pages 50 to 71; in Table No. 2, on pages 72 to 82; and in Table No. 3, on pages 83 and 84.

Claims.—The following table indicates the status of tobacco claims:

	Refund		Redemption		Abatement		Uncollectible		Drawback	
	Number	Amount	Number	Amount	Number	Amount	Number	Amount	Number	Amount
On hand July 1, 1925.....	8	\$422.60	20	\$3,535.06	25	\$61,867.06	7	\$9,636.16	15	\$63,067.19
Received.....	33	150,813.66	1,978	416,420.37	264	240,077.94	46	35,030.40	245	331,668.21
Allowed.....	35	1,931.00	1,828	336,250.15	179	181,990.63	38	17,045.89	263	350,901.37

On hand June 30, 1926.....	7	360.76	142	77,154.47	26	112,100.88	7	11,833.26	3	10,879.23

¹ See also Table 24, on page 115.
² Includes \$28.16 interest.

³ Includes \$11.90 interest.
⁴ Partial rejections.

The number of claims received increased from 1,301 in 1925 to 2,589 in 1926. The number disposed of increased from 1,344 to 2,482. During the last quarter of the fiscal year there were 1,409 claims for redemption of stamps received, aggregating \$203,441.71, and during the same period 1,320 claims of the same class were allowed, in the aggregate of \$156,928.22. Most of these claims were filed by manufacturers for redemption of unused cigar stamps purchased within the statutory limitation and prior to March 29, 1926, the effective date of the reduction in rates of tax imposed on cigars under section 400 of the revenue act of 1926. Practically all manufacturers who had any such stamps on hand March 29, 1926, filed claims for their redemption, since they could not use them after said date without sacrificing the difference in value between the old and new rates of tax. Cigar stamps overprinted "Revenue Act of 1926," to denote the new rates, were available on March 29, 1926, and their issue will be continued pending such time as the Bureau of Engraving and Printing is able to supply a new series.

Included in the number and amount of drawback claims received and allowed are 171 claims for drawback of \$209,310.50 floor tax paid under the revenue act of 1918 on tobacco products exported, filed pursuant to the Supreme Court decision in the case of *P. Lorillard Co. v. United States*.

The revenue act of 1926, approved February 26, 1926, repealed the tobacco special taxes effective July 1, 1926; reduced the rates of taxes on large and small cigars effective on the expiration of 30 days after the enactment of the act, which was March 29, 1926, and provided for refund (or rebate) of taxes paid on cigars held and intended for sale on the last-mentioned date. The tobacco special taxes amounted to \$1,131,737.97 this year. During the period of this fiscal year that the decreased cigar-tax rates were in effect the revenue collection decrease from this source was approximately \$4,000,000. Under the refund (or rebate) provision above referred to, no claim for an amount less than \$10 nor one which was received after May 28, 1926, may be allowed. The total number of claims received in the bureau from collectors to the close of the fiscal year was 24,177, and the amount involved was \$3,776,847.76. Slightly more than half of the claims have been examined. The scheduling of allowed claims for payment awaited congressional action on an appropriation for the payment of these claims which was made available July 3, 1926.

Offers in compromise—Violation cases.—There were pending at the beginning of the fiscal year 31 violation cases involving offers in compromise; new cases numbered 318 and offers in compromise amounting to \$6,277.50 were tendered during the year; cases closed by acceptance of offers in compromise numbered 309, amounting to \$5,272.50, and 5 offers, totaling \$275 were rejected, leaving 33 offers, amounting to \$1,280, pending June 30, 1926.

Assessments.—Total assessments made on tobacco assessment lists during the fiscal year amounted to \$1,260,560.28. Of this amount \$1,055,444.85 was tax on cigarette papers and tubes, \$195,003.31 was additional tax assessed as a result of office audit and field investigations, and \$5,109 submitted as offers in compromise for violations. The balance, \$4,343.12, covered ad valorem penalties, etc., and included \$569.65 interest collected.

ACCOUNTS AND COLLECTIONS UNIT

For the purpose of effective administration the Accounts and Collections Unit is divided into three divisions.

DIVISION OF PROCEDURE AND ACCOUNTS

The Division of Procedure and Accounts is charged with the following duties:

The construction of accounting systems for use in collectors' offices, the preparation of the procedure for the audit of income-tax returns in collectors' offices, supervision over the force of supervisors of accounts and collections and internal-revenue agents (sales and miscellaneous taxes), the answering of inquiries in regard to matters of procedure and accounting, the auditing of collectors' revenue and special deposit accounts, the preparation of statistics in regard to internal-revenue collections, the preparation of orders for internal-revenue stamps and the redemption of unused stamps, and the recording of refunds of taxes erroneously and illegally collected; also the direction of field investigations made by collectors' field forces and special squads of internal-revenue agents under supervisors of accounts and collections, the planning of delinquent drives, and the organization of collectors' field forces.

During the year the supervisors of accounts and collections submitted 100 reports covering the examinations of the accounts of collectors of internal revenue. The accounts of every collector's office were examined at least once. In addition to the examinations made by the supervisors of accounts and collections, these officers made 52 transfers of collectors' offices under renewal bonds, and superintended the transfer of 7 offices to new collectors and 1 office to an acting collector.

On July 1, 1925, there were on hand in the various collectors' offices 7,594 claims for abatement, credit, and refund. There were filed during the fiscal year 332,926 claims, making a total to be accounted for of 340,520. The collectors transmitted to the bureau or otherwise disposed of 327,145 claims, leaving on hand at the close of the fiscal year 13,375. In view of the fact that collectors during the fiscal year 1925, disposed of 268,518 claims, compared with 327,145 for the fiscal year 1926, it will be seen that the volume of the claims work increased to a large extent. This increase is due largely to the decision of the Court of Claims in the case of *Clifford Jones, Major, U. S. Army v. The United States*. In this case the court held that rental value of quarters furnished or cash received as commutation of quarters was not taxable income. The effect of this decision was the making of a large number of refunds to the personnel of the military and naval services.

Out of a total of approximately 4,300,000 individual income-tax returns filed, collectors of internal revenue retained for audit approximately 3,670,000. Those retained by the collectors show a gross income of \$25,000 or less. During the previous year collectors retained for audit approximately 7,350,000 out of a total of about 7,556,000 individual returns filed. However, the revenue act of 1926 materially reduced the number of individuals required to file income-tax returns. The audit of returns in collectors' offices is

progressing satisfactorily. Indications are that a great majority of the returns retained by them for audit will be completed well before the end of the calendar year 1926, and that the liability of most individual income-tax payers will have been established before the next returns are due.

The Accounts and Collections Unit and the Income Tax Unit, working in cooperation, prepared instructions with reference to the preliminary examination of returns in collectors' offices. All individual returns showing a gross income in excess of \$25,000, as well as all corporation returns filed during the 1926 filing period were examined in collectors' offices for mathematical errors. The returns then were reviewed by revenue agents, and a large number of cases were definitely closed within a few weeks after the returns were filed. As a result of this procedure, taxpayers were notified promptly of corrections in their returns and a substantial amount of revenue was produced.

The examining and audit work in connection with collectors' revenue accounts and collectors' special deposit accounts has been kept current and all accounts referred to the Comptroller General within the required time.

A total of 7,281,880,397 revenue stamps valued at \$455,334,009.26 1/2 was issued to collectors of internal revenue and to the Postmaster General.

Stamps were returned by collectors and by the Postmaster General and credited to their accounts to the value of \$31,135,680.59. These stamps were of various kinds and denominations, including partly used books and stamps for which there was no use.

During the year a concerted country-wide drive was initiated with a view to collecting back taxes and clearing the old assessment lists. The results of this drive were highly gratifying, the collections far exceeding the official estimates.

The field work was reorganized. During the year, 106 division offices and 30 stamp offices were discontinued, resulting in an annual saving of \$204,469 in personnel cost and rental. At the close of the fiscal year there were 65 collectors' offices, 43 division offices and 48 stamp offices, 21 of which were operated in conjunction with division offices. The average revenue production of a zone deputy is approximately \$37,000 a year. Using this figure as a basis, as a result of the discontinuance of 106 division offices and the assignment of former division chiefs to the duties of zone deputies, it is expected that there will be a substantial increase in the amount of revenue produced.

Special attention was given by collectors' field forces to the serving of warrants for distraint, the verification of returns filed indicating additional tax due, and the conduct of delinquent drives. The number of warrants for distraint served was 127,571, resulting in the collection of \$50,249,181 compared with 106,154 warrants served and \$25,471,000 collected for the fiscal year 1925. An average of 2,109 deputy collectors made a total of 492,367 revenue-producing investigations, including the serving of warrants for distraint, compared with 577,558 revenue-producing investigations, including the serving of warrants for distraint, made by an average of 2,241 deputy collectors for the fiscal year 1925. The total amount collected and reported for assessment by deputy collectors during the fiscal year

1926 was \$78,500,438, compared with \$58,224,340 for the previous fiscal year. The average number of investigations made per deputy was 233 and the average amount of tax collected was \$37,222, compared with for the fiscal year 1925 the average number of investigations made per deputy was 258, and the average amount collected and reported for assessment was \$25,981.

The special force of internal revenue agents working under the direction of the accounts and collections unit collected and reported for assessment \$10,704,165, an average of \$103,924 per agent.

The total collected and reported for assessment as a result of the activities of both the force of field deputy collectors working under the collectors and the special squads working under supervisors of accounts and collections amounted to \$89,204,603, compared with \$71,219,207 for the fiscal year 1925.

DIVISION OF FIELD ALLOWANCES

The division of field allowances is charged with the consideration and granting of allowances to collection districts covering the employment of personnel and miscellaneous operating expenses and the keeping of adequate records thereof. Collectors' requisitions for nonexpendable supplies, mechanical equipment, and office furniture are passed upon by this division. The procurement of space for collectors' offices and branch offices is also handled by this division.

At the close of the fiscal year 1925, there was in the internal-revenue collection service a total authorized force, including collectors, of 6,586 employees, at an annual salary rate of \$12,277,530. At the close of the fiscal year 1926, there was a total authorized force, including collectors, of 6,015 employees, at an annual salary rate of \$11,391,760. During the year there was a net reduction of 571 in the number of positions and \$885,770 in the annual salary rate, the reduction amounting to approximately 8 3/4 per cent of the total authorized force and 7 1/2 per cent of the total annual rate. This reduction in personnel has been brought about by more efficient coordination of the work in the various collection districts, and has assisted materially in bringing the total authorized force within the reduced allotment granted for the payment of salaries of permanent employees for the fiscal year 1927. The reductions have been made in most instances by not filling vacancies occurring in the regular force and no detrimental effects have been shown upon the service as a result of the reduction. A total of \$47,688.34 was expended for the employment of temporary help in collectors' offices, compared with \$224,985 expended for this purpose during the preceding fiscal year. The decrease of \$177,296.66 in expenditures for temporary employees was due in large measure to the reduction in the volume of work brought about by the new revenue law, although considerable additional work was imposed upon collectors' forces incident to the preliminary audit of income tax returns in their offices, a function which has not heretofore been performed in collectors' offices.

In administering the personnel of the several collection districts, the provisions of the classification act of 1923 have been closely adhered to. New appointments have been made at the minimum

salary rate of the grade and this has had a tendency to lower the average salary of the various grades throughout the service.

During the year 1926, \$295,345.82 was expended for rental of collectors' offices and branch offices compared with \$329,146.35 for the preceding fiscal year. The decrease of \$33,800.53 was brought about by the removal of certain offices from commercial to Federal space, the discontinuance of various division offices housed in commercial space, and the procurement of space at a lower rental rate to the Government.

No additional office appliances were purchased for collectors' offices during the fiscal year, but the usual number of replacements were made of unserviceable equipment.

DISBURSEMENT DIVISION

The disbursement division is charged with the duties of keeping the accounts in connection with expenditures from appropriations made available by Congress for the use of the Bureau of Internal Revenue. The division also is charged with the responsibility and supervision of the administrative examination required by law of the disbursing accounts of collectors, revenue agents, and prohibition administrators, as well as the administrative audit of miscellaneous vouchers for transportation, equipment, telephone service, rentals, etc., paid from internal revenue funds by the disbursing clerk of the Treasury Department and direct settlements by the General Accounting Office.

The disbursement division administratively examined and recorded 1,602 monthly accounts of collectors of internal revenue, revenue agents in charge, and Federal prohibition directors, and prohibition administrators, together with 162,159 supporting vouchers, in addition to which 12,639 expense vouchers of employees and 12,667 vouchers covering passenger transportation and freight, miscellaneous expenses, special employees, informers, etc., were audited and passed to the disbursing clerk of the Treasury Department and General Accounting Office for payment.

A total of 838 applications of field employees leaving the service for refunds of amounts deducted from their salaries on account of the retirement fund were approved and forwarded to the Commissioner of Pensions for settlement. Data for fixing the annuity pay of 26 persons retired from the service, as well as a report of the totals of the amounts deducted from the salaries on account of the retirement fund of 122 persons transferring out of the service were furnished to the appointment division of the bureau for administrative action. A total of 126 applications for service credit was prepared or verified for forwarding to the Commissioner of Pensions.

Continued good results are being had in keeping current the settlement of field disbursing officers' accounts with the General Accounting Office.

The mechanical system of accounting for the appropriation accounts continues to prove its effectiveness by showing daily balances existing in the various appropriation accounts and the several allotments made therefrom.

PROHIBITION UNIT

The reorganization and decentralization of the prohibition service, planned and partly carried out in the fiscal year 1925, was completed during the fiscal year 1926. The offices of the former 51 Federal prohibition directors were abolished and 24 prohibition districts established in lieu thereof, each in charge of a prohibition administrator. The continental United States contain 22 such districts, while the Hawaiian Islands and Porto Rico each comprise one. The districts are bound in every instance save two by Federal judicial lines, and the prohibition administrators keep in close touch and cooperate with United States attorneys in all matters connected with prohibition enforcement.

During the year, the Assistant Secretary of the Treasury in charge of customs, Coast Guard and prohibition, organized within the Prohibition Unit two special squads to cooperate with prohibition administrators in the enforcement of the national prohibition act, a supplemental appropriation having been passed by Congress to provide for such squads and to augment forces already organized. One squad, operating under a supervisor of alcohol control, combats the diversion of alcohol to beverage purposes, and one, operating under a supervisor of brewery control, is assigned to prevent breweries from releasing high-powered beer. A supervisor of wine control also was appointed to handle the control of sacramental wine. A force of under-cover investigators was assigned to duty under a chief prohibition investigator to conduct interdistrict investigations of major violations of the national prohibition act, such as conspiracy cases.

During the year 1926, conventions were entered into between the United States and Cuba and between the United States and Mexico for the suppression of the smuggling of intoxicating liquor into the United States from those countries.

Following are some of the Treasury Decisions and other regulations promulgated during the year with a view of securing better enforcement of the national prohibition act:

Treasury Decision 3764: Withdrawal of formulas 39-A and 39-B for manufacturing rubbing or bathing alcohol. Formulas less easily redistilled are now required to be used. This will prevent illicit recovery of large quantities of alcohol by redistillation.

Treasury Decision 3765: Classifies tincture of ginger, double strength, as intoxicating liquor; formerly treated as a medicinal preparation unfit for beverage use. Fluid extract of ginger is mentioned as unfit for beverage use.

Treasury Decision 3773: Provides that hereafter all basic permits of every class are renewable annually, this applying to "H" permits and specially denatured alcohol permits as well as others. Formerly all industrial and denatured alcohol permits, as well as "H" (manufacturers') permits, were unlimited as to duration, running until canceled or revoked. This change will keep permittees under closer surveillance and make inspections more frequent. In order better to effectuate the purposes of Treasury Decision 3773, the department issued, under date of November 19, 1925, Treasury Decision 3774, providing that outstanding permits for the use or sale of denatured alcohol shall continue in effect until March 31, 1926, and all "H" permits (to use alcohol or other distilled spirits in manufacturing) shall continue in effect until December 31, 1926, unless sooner turned in or revoked. These extensions were made in order that thorough inspections may be made in every case before a permit is issued.

A new form of "L" permit, to operate a dealcoholizing plant (breweries) has been put into use. The revised form contains certain

definite requirements, conditions, and stipulations not heretofore in effect, which are a part of the permit itself. It is provided that upon breach of any part thereof the permit may be revoked. These requirements, conditions, and stipulations are in the interest of prohibition enforcement, placing brewers having permits under the stricter control of the Government. Following are some of the restrictions in the new permit:

That the business shall be subject to inspection by State as well as by Federal officers.

That no fences shall be built around the premises other than slatted fences.

That there shall be at all times an unobstructed view of loading platform.

That there shall be no underground passageways.

That no wort shall be manufactured or sold.

That no malt sirup, malt extract, or like preparations will be manufactured for brewing or distilling.

Treasury Decision 3767: Provides for bond from transportation permittees; in the case of railroads, steamships, and other such carriers the bond to be \$5,000 to \$20,000, bond not having been formerly required. In the case of trucks transporting liquor, a bond of \$5,000 is required, in lieu of one for \$1,000, as was formerly required.

Treasury Decision 3779: Reduces the allowance of sacramental wine which may be allowed an adult from 2 gallons to 1 gallon per year, and reduces the amount which may be allowed a family from 10 gallons to 5 gallons a year. It also provides that the rabbi shall be responsible for the safekeeping of sacramental wine released to him.

Collectors' mimeograph No. 3364: Revokes section 615 of Regulations 60, which provides for registration of heads of families for making not more than 200 gallons of fruit juices other than cider, without payment of tax, and stipulates that thereafter no application for that privilege will be approved by collectors of internal revenue and that any outstanding notices already approved by any collector will be at once revoked. This regulation does not, of course, impair the rights conferred by section 29 of the national prohibition act as to nonintoxicating cider and fruit juices for use in the home.

Treasury Decision 3785: Provides for the revocation of completely denatured alcohol formula No. 6, in order to put a stop to the manipulation and conversion of this formula into illegal liquor.

Treasury Decision 3787: Provides that effective February 1, 1926, no further applications for the withdrawal of whisky, brandy, or gin will be approved for manufacturing, but in special cases whisky, rum, or brandy may be approved for use in old medicinal remedies.

Treasury Decision 3875: Permits surety companies to withdraw from questionable business, after due notice, and will make it more difficult for questionable permittees to secure and keep bonds.

There were 3,589 employees on the rolls of the unit at the close of the fiscal year 1926, compared with 3,811 at the close of the fiscal year 1925, a decrease of 222.

During the year 1,828,742 pieces of mail passed through the section of mail control of the unit, a decrease of 1,927,756 compared with the preceding fiscal year. This decrease is due to the decentralization of the unit, and the fact that the work relating to the issuance, handling, and revocation of permits was sent to the field.

Prohibition agents made 58,391 arrests during the year and seized 5,935 automobiles, valued at \$2,877,894, and 187 boats, valued at \$225,561. As a result of the work of such agents, 52,989 prohibition cases were handled in Federal courts, and 41,154 persons were convicted, of which number 13,312 were given jail sentences. The courts imposed sentences aggregating 4,884 years and fines amounting to \$7,135,248.15.

COLLECTIONS

A total of \$416,197.63 was collected under the tax and tax-penalty provisions of the national prohibition act, compared with \$560,888.07 for the fiscal year 1925. In addition, as shown by records of the Solicitor of the Treasury Department, there were certain collections through the Federal courts, such as fines and forfeitures, incident to enforcing the national prohibition act, amounting to \$5,231,130.90, compared with \$5,208,203.09 for the fiscal year 1925.

OFFICE OF CHIEF COUNSEL

During the year the office of chief counsel underwent a complete reorganization, with a heavy reduction of its force, owing to the decentralization of the prohibition service. Many of its former activities, notably the conduct of revocation and assessment hearings, were discontinued. This office gives legal advice in matters relating to prohibition; renders opinions, and prepares memoranda involving points of law, regulations, and instructions; conducts correspondence involving legal questions; considers tenders in compromise of civil liability arising under the national prohibition act, and applications for pardons and paroles, examines and approves or disapproves permit bonds; and prepares and certifies office records, bonds, etc., for the use of United States attorneys in the prosecution of prohibition cases.

During the year, 4,097 compromise cases were examined and determined, 2,299 of which were favorably acted upon, and 1,798 rejected, the total amount accepted being \$932,289.99.

There were considered 371 applications for pardon from persons serving sentences for violation of the national prohibition act, 30 of which were recommended for approval, 261 recommended for rejection, 65 returned to the Department of Justice without recommendation, and 15 referred to other departments.

A total of 875 applications for parole from persons serving sentences for violation of the national prohibition act was considered, 7 of which were recommended for approval, 572 recommended for rejection, 222 returned to the Department of Justice without recommendation, and 74 referred to other departments.

There were 29,400 permit bonds examined, approved, and forwarded to administrators, and 4,012 were considered and approved for cancellation.

NARCOTIC DIVISION

On June 30, 1926, 322 persons were registered under the Harrison Narcotic Act, as amended, as importers and manufacturers, 1,826 as wholesale dealers, 48,459 as retail dealers, 143,879 as practitioners, and 119,146 as dealers in and manufacturers of untaxed narcotic preparations, the latter number including registrants not required to pay special tax by reason of paying another tax under the act, or a total of 313,632 registrations.

During the year a total of 5,926,688 ounces of taxable narcotic drugs was imported. There was an aggregate of 1,654,333 ounces of narcotic drugs, both in pure form and as part content of compounds

and preparations, in the possession of manufacturers on July 1, 1925. Imports amounting to 5,926,688 ounces were added to this quantity during the year, making a total of 7,581,021 ounces. During the year manufacturers exported 1,188 ounces of this supply or of the drugs derived therefrom through manufacturing, and 467,349 ounces of like description were sold by them to domestic purchasers, leaving a total of 1,606,332 ounces in the possession of manufacturers on June 30, 1926. A mathematical balance can not be produced from the foregoing statement, as an alkaloid or derivative is not the equivalent in weight of the drug from which it is obtained through a manufacturing process.

During the year ended June 30, 1925, a total of 3,366,368 ounces of narcotic drugs of all kinds was imported while during the year ended June 30, 1926, an aggregate of 5,926,688 ounces was imported, an increase of 3,560,320 ounces. During the same periods 8,541 ounces and 5,723 ounces, respectively, were exported, showing a decrease of 2,818 ounces. The net aggregate quantity of pure drugs of all kinds contained in products sold by manufacturers to domestic purchasers during the fiscal year 1925 amounted to 441,677 ounces, and domestic sales of this description for the fiscal year 1926 involved 467,349 ounces, or an increase of 25,672 ounces. The drugs exported involved 265,416 taxable ounces of products and those sold to domestic purchasers 4,680,428 taxable ounces. (Tax is paid by stamps at the rate of 1 cent per ounce or fraction thereof for the entire contents of each package or bottle. A compound or preparation containing a narcotic drug in a quantity exceeding the statutory exemption is taxed the same as the pure drug.)

During the year 1926, a total of 9,147 ounces of narcotic drugs and preparations was seized or purchased as evidence through enforcing the internal revenue narcotic laws.

At the beginning of the year 3,303 violations of the Harrison Narcotic Act were pending against persons not entitled to registration under the law, and a total of 6,602 violations against such persons was reported during the year. At the beginning of the year 2,755 violations of the law were pending against registered persons. During the year penalties, imposed by section 3176 of the Revised Statutes, as amended, were assessed against 23,506 registered persons on account of failure to register and pay special tax as required under the act, and 3,656 violations of the law were reported during the year which involved other charges of greater significance. Accordingly, a total of 9,905 violations accrued during the year against unregistered persons and 29,917 violations of all kinds against registered persons.

Of the unregistered persons charged with violations of the law, 4,835 were convicted, 189 were acquitted, 54 submitted acceptable offers in compromise of their liability, 1,744 cases were dropped, and 3,083 cases were pending at the close of the year. Of the cases accruing against registered persons, collection of specific penalty was made in 23,506 cases, 223 persons were convicted, 12 were acquitted, and 1,965 submitted acceptable offers in compromise of their liability, 12 cases were dropped, and 2,802 cases were pending at the close of the year.

At the beginning of the year 88 cases of violations of the act of January 17, 1914, regulating the manufacture of smoking opium,

were pending and 84 cases were reported during the year, or a total of 172 violations. During the year 62 persons were convicted, 3 were acquitted, 46 cases were dropped, and 61 violations were pending at the close of the fiscal year.

A total of 5,120 convictions under the internal revenue narcotic laws was had, for which the courts imposed sentences aggregating 6,797 years, 11 months, and 10 days and fines amounting to \$374,677.23. A total of 2,019 cases was compromised, the aggregate amount collected being \$144,054.70. During the year ended June 30, 1925, a total of 10,297 cases of criminal character was reported, whereas during the last fiscal year 10,342 such cases were reported. An increase of 45 cases over the previous year is to be noted, indicating a more effective operation of the field force and more efficient means for disclosing violations of the law. Sentences for the past year totaled 6,797 years, 11 months, and 10 days, whereas the aggregate for the preceding year was only 6,361 years, 11 months, and 7 days. Fines imposed decreased from \$453,330.27 to \$374,677.23.

Monthly returns of sales, etc., rendered by importers, manufacturers, and wholesale dealers afford means not only for controlling the manufacture and sale of narcotics but also for a systematic scrutinizing of all purchases. As far as possible with the present force, every person the aggregate of whose purchases has appeared excessive, has been investigated. An abstract system, operated in connection with the audit of the monthly returns for apprehending such purchasers, has resulted in directing the inspections and investigations of registered persons most essential to that aspect of the enforcement of the law. Greater economy in the operation of the field force in making inspections is also thereby afforded.

The number of agents and inspectors in the narcotic field force averaged 294 for the year. The collections under the narcotic laws for the fiscal year ended June 30, 1926, were \$981,739.07, a decrease of \$109,193.66 under the collections for the previous year, which were \$1,090,932.73.

INDUSTRIAL ALCOHOL AND CHEMICAL DIVISION

The work of the industrial alcohol and chemical division has changed somewhat during the past fiscal year, due to decentralization. The division now conducts the chemical work of the Bureau of Internal Revenue in Washington and supervises generally the activities of the chemical laboratories in the field. It also has supervision of work relating to the provisions of Title III of the national prohibition act and Regulations 61, and conducts work relating to the permissive use of intoxicating liquors under Title II of the national prohibition act. Certain features of the general internal revenue laws relating to bonded warehouses, storekeeper-gauger assignments, and other miscellaneous items under Regulations 7 and 30 are also administered. This division is also charged with the work in connection with the concentration of distilled spirits in accordance with the provisions of the act of February 17, 1922 and Treasury Decision, 3351 promulgated thereunder.

Nonbeverage alcohol.—The work of the former permit division, still being performed in the unit, has been transferred to this division. While the issuance of the basic permits for the use and sale of in-

toxicating liquors for nonbeverage purposes has been transferred to the prohibition administrators, the formulæ submitted for examination by permittees for the use of alcohol and other liquors are retained in this unit. This has been deemed necessary for the purpose of assuring uniformity and better control over products in which alcohol and other liquors are used. The handling of this work in the division necessarily entails a considerable amount of correspondence with both administrators and permittees.

During the year new laboratories were established at Charlotte, N. C., Pittsburgh, Pa., Los Angeles, Calif., New Orleans, La., Fort Worth, Tex., and Seattle, Wash. A chemist in charge also was stationed at Omaha, the use of a portion of the laboratory at Fort Omaha having been placed at the disposal of the Prohibition Unit by the commanding officer.

These additional laboratories were established at various divisional headquarters in order to expedite and facilitate the local enforcement work, and thus strengthen the reorganization plans which contemplated more effective local enforcement. A part of the personnel in the laboratories previously established was moved to the new laboratories, and six new chemists were appointed.

The work of the field laboratories has increased both in number of samples and in varied character of samples. All private formulæ are examined and passed upon in Washington, but the field laboratories have been doing an increased amount of check work for the benefit of the various district inspectors. This check analysis work to determine whether permitted products conform to the approved formulæ enables the field laboratories to furnish testimony in permit-revocation proceedings, and thus partly relieves the Washington laboratory of that phase of the work.

The work of the Washington laboratory has decreased somewhat in volume during the past year but has increased notably in variety and importance of samples. There is less police work done in the Washington laboratory by reason of reorganization, but a much greater amount of permissive and investigational work.

The modification of the formulæ for completely denatured alcohol, which are of the greatest importance to both industry and enforcement, has occupied a substantial portion of the time of three chemists in the Washington laboratory. Substantial results have already been secured and during the next fiscal year the entire completely denatured alcohol production will be placed on a much stronger basis. Developments of the past year in enforcement work have shown the necessity of materially strengthening these formulæ. A tabulation of the number of samples of the field laboratories and a detail by classes of samples examined in the Washington laboratory follow:

Field laboratories

Providence.....	2,392	St. Louis.....	7,971
New York.....	21,672	Fort Worth.....	1,121
Buffalo.....	12,897	Seattle.....	280

Fermented beverages.....	2,225	Total.....	18,346
Narcotics.....	711		
Total, all laboratories.....			105,101
Increase over previous year.....			4,581

The chemists have spent a total of 2,582 days in court and 267 days outside of the laboratories in special investigations.

Industrial alcohol section.—The work of this section, carried on principally under Regulations 61, drawn pursuant to Title III of the national prohibition act, has changed in character during the past fiscal year. A portion of the work performed in this section during previous years, particularly the approval of applications to use and sell specially denatured alcohol, has been transferred to the offices of the prohibition administrators. The section, however, still performs work connected with specially denatured alcohol incident to the submission of samples and formulæ of articles to be made therewith and other miscellaneous work relating to the sale and use of such alcohol necessitating a considerable volume of correspondence.

As an indication of the quantity of work performed in connection with specially denatured alcohol, there were handled during the fiscal year 3,254 cases, which included the approval and disapproval of a considerable number of samples, formulæ, and commercial labels submitted by manufacturers. There was a reduction in the number of industrial alcohol plants, bonded warehouses, and denaturing plants, due to revocation and failure to renew permits. At the close of the fiscal year 1925 there were qualified to operate 72 industrial alcohol plants, 78 bonded warehouses, and 92 denaturing plants. During the year 1926, 1 industrial alcohol plant, 5 bonded warehouses, and no denaturing plants were established, while 6 industrial alcohol plants, 6 bonded warehouses, and 13 denaturing plants were discontinued. For the production of distilled spirits for non-beverage purposes other than alcohol there were operated during the fiscal year 2 rum distilleries and 27 fruit distilleries. No grain distilleries were operated during the fiscal year.

The number of permits issued for the withdrawal of tax-free alcohol under Title III of the national prohibition act is less than the number issued during the fiscal year ended June 30, 1925, 5,082 having been issued in the fiscal year 1925, and 4,623 in the fiscal year 1926. There were also issued 11 permits covering tax-free withdrawals of spirits other than alcohol by the United States under section 3464, Revised Statutes.

Concentration of distilled spirits.—The concentration program is practically completed. The contents of a few warehouses remain to be transferred owing to peculiar conditions, but since the enactment of the concentration act 252 warehouses have been discontinued. This has resulted in a large permanent saving and in much greater security to the spirits.

AUDIT DIVISION

The audit division is charged with the preparation of all assessment lists and with the examination and audit of all reports and accounts which relate to distilleries; general and special bonded warehouses;

industrial and denatured alcohol plants; dealers in and manufacturers using denatured alcohol; wineries, breweries, dealcoholizing plants; liquor dispensed on physicians' prescriptions; wines for sacramental purposes; liquors used in manufacturing and compounding; and liquors received by physicians, hospitals, etc.

Refund, abatement, and remission claims under the provisions of internal revenue laws are handled in this division. The following statement covers the claims acted on during the fiscal year ended June 30, 1926:

Claims

	Abatement		Refund		Uncollectible		Total	
	Number	Amount	Number	Amount	Number	Amount	Number	Amount
Pending July 1, 1925	631	\$2,172,248.55	84	\$444,820.90	134	\$207,763.74	810	\$2,824,834.40
Received during the year	3,842	11,332,116.87	473	231,584.92	1,567	2,257,053.93	5,912	14,421,935.72
Allowed	3,726	7,774,327.10	366	367,423.27	1,326	1,717,304.55	5,420	9,859,060.92
Rejected	186	477,117.41	107	267,094.46	287	415,158.92	364	1,189,970.81
Pending June 30, 1926	581	5,852,921.21	40	41,571.07	106	333,254.20	727	6,227,746.48

Distilled spirits.—During the fiscal year ended June 30, 1926, there were produced 202,271,670.32 proof gallons of alcohol, an increase of 36,106,152.51 proof gallons compared with the quantity produced during the preceding fiscal year.

There were withdrawn from warehouse on payment of tax 8,800,775.13 proof gallons of alcohol, an increase of 253,256.88 proof gallons compared with the quantity withdrawn tax paid during the preceding year, and there were withdrawn for tax-free purposes, including withdrawals for denaturation, for export, and for use of the United States, hospitals, laboratories, colleges, and other educational institutions, a total of 192,974,114.15 proof gallons of alcohol, an increase of 45,244,663.36 proof gallons compared with the quantity withdrawn tax free during the preceding year.

There were withdrawn, tax paid, from distillery, general, and special bonded warehouses, 1,948,203.7 taxable gallons of distilled spirits (including brandy) other than alcohol, a decrease of 22,740.5 gallons compared with the quantity withdrawn tax paid during the preceding year.

Cereal beverages.—During the fiscal year ended June 30, 1926, there were 353 dealcoholizing plants in operation compared with 374 such plants in operation during the preceding year. There were 150,522,077 gallons of cereal beverages produced during the past year, a decrease of 8,154,340 gallons over the quantity produced during the preceding year.

Denatured alcohol.—During the fiscal year 1926 there were withdrawn from bond, free of tax, for denaturation, 191,670,107.2 proof gallons of alcohol and rum, against 148,970,220.9 proof gallons withdrawn for this purpose during the previous year.

There were 105,375,886.23 wine gallons of denatured alcohol produced during the present fiscal year, of which 65,881,442.43 wine gallons were completely denatured and 39,494,443.80 wine

gallons were specially denatured, compared with 81,808,273.16 wine gallons of denatured alcohol produced during the previous fiscal year, of which 46,983,969.88 wine gallons were completely denatured and 34,824,303.28 wine gallons were specially denatured.

The increase in the quantities of both completely and specially denatured alcohol produced during the year is attributable to the constantly increasing use of completely denatured alcohol for general purposes, such as for fuel, light, and power, and to the use of specially denatured alcohol in the manufacture of new products and articles.

Wines.—Revenue from taxes on domestic and imported wines during the fiscal year ended June 30, 1926, amounted to \$1,679,434.38 compared with \$1,595,488.63 in 1925, \$1,454,062.88 in 1924, \$1,531,991.38 in 1923, \$1,306,249.72 in 1922, \$2,001,779.87 in 1921, \$4,017,596.82 in 1920, \$10,521,609.14 in 1919, \$9,124,368.56 in 1918, and \$5,164,075.03 in 1917.

The total production of wine amounted to 5,841,095.63 gallons during the fiscal year ended June 30, 1926, an increase of 2,202,649.46 gallons compared with the quantity produced during the preceding fiscal year. Of the wine produced during the year, 2,905,002.68 gallons, having not over 14 per cent, were fortified with brandy, and 3,284,461.05 gallons of sweet wines were produced therefrom, of which 78,462.89 gallons had not over 14 per cent, 3,102,335.59 gallons had over 14 per cent but not over 21 per cent, and 103,662.57 gallons had over 21 per cent but not over 24 per cent alcoholic content.

The quantity of wines removed on payment of tax for medicinal and sacramental purposes during the fiscal year amounted to 4,973,197.98 gallons, of which 1,875,750.16 gallons had not over 14 per cent, 3,097,447.82 gallons had over 14 per cent but not over 21 per cent alcoholic content, compared with 4,817,228.22 gallons removed for these purposes during the preceding fiscal year, of which 1,889,473.07 gallons had not over 14 per cent, and 2,927,754.25 gallons had over 14 per cent but not over 21 per cent alcoholic content.

There were removed tax free during the fiscal year, including removals for distilling material, for export, and as vinegar, a total of 2,965,004.34 gallons, of which 2,902,753.64 gallons had not over 14 per cent, and 62,250.70 gallons had over 14 per cent but not over 21 per cent alcoholic content. The losses on storage aggregated 1,230,416.56 gallons.

On June 30, 1926, there were 23,393,964.34 gallons of wine on hand at bonded wineries and bonded storerooms of which 15,056,761.27 gallons had not over 14 per cent, 8,295,813.92 gallons had over 14 per cent but not over 21 per cent, and 41,389.15 gallons had over 21 per cent but not over 24 per cent alcoholic content, compared with 26,290,417.55 gallons on hand June 30, 1925, of which 17,493,001.24 gallons had not over 14 per cent, 8,759,753.39 gallons had over 14 per cent but not over 21 per cent, and 37,662.92 gallons had over 21 per cent but not over 24 per cent alcoholic content.

OFFICE OF THE GENERAL COUNSEL

The work of the general counsel's office embraces the whole field of Federal taxation and may be summarized as cases in suit (criminal and civil); income and profits tax cases specially referred by the Com-

missioner on appeal or otherwise; cases of a similar character received directly from the Income Tax Unit; estate, capital stock, and sales tax questions; documentary, public utilities, insurance, occupational, beverage, luxury, tobacco, oleomargarine, and special taxes; accounts, supplies, and equipment, and the consideration, preparation, and revision of Treasury decisions and regulations, mimeographs, and other formal compilations. The office is divided into six divisions, viz: Appeals, Interpretative I, Interpretative II, Penal, Civil, and Administrative.

APPEALS DIVISION

The revenue act of 1924 provided for the establishment of the United States Board of Tax Appeals, an independent agency of the executive branch of the Government. The board was formally organized July 16, 1924. Its function is to hear appeals from additional assessments in tax proposed to be made by the Commissioner of Internal Revenue after June 2, 1924, in cases involving income and excess-profits taxes, estate, and gift taxes. Appeals to the board in all cases are taken at the instance of the taxpayer. Should the decision of the board be in favor of the taxpayer, the commissioner is not permitted, in cases heard by the board prior to February 26, 1926, to assess the tax and proceed with its collection by distraint, as prior to the passage of the 1924 act, but may, if he disagrees with the board's decision, bring suit within one year from the date of such decision in the appropriate United States district court for the recovery of the tax. The revenue act of 1926, approved February 26, 1926, enlarged the jurisdiction of the board and provided a method of appeal from its decisions by either the commissioner or the taxpayer to a circuit court of appeals, or to the Court of Appeals of the District of Columbia, in cases heard by the board since February 26, 1926, within six months from the date the decision is rendered.

Under the board's rules a copy of the taxpayer's petition is served on the general counsel for the Bureau of Internal Revenue, formerly solicitor of internal revenue, the commissioner's legal representative in such matters. The board's rules, which have been revised and amended from time to time, now provide that motions may be filed within 20 days, or answers within 60 days, and thereafter the case is at issue before the board.

At the outset, appeals to the board were few in number, and the commissioner was represented by lawyers in the review division of the then solicitor's office. This work, however, grew to such proportions that it was deemed advisable to establish a separate division in the then solicitor's office for that purpose, which is known as the appeals division. This division was organized April 24, 1925, and on June 30, 1925, had 26 lawyers and 5 assistants assigned to it, and on June 30, 1926, 34 lawyers and 10 assistants. From the date of organization of the board, July 16, 1924, to June 30, 1925, there were filed with the board 5,220 appeals, of which number 4,751 were served on the commissioner. From July 1, 1925, to June 30, 1926, there were filed with the board 12,867 appeals, of which number 12,449 were served on the commissioner.

Attorneys representing the commissioner have appeared in all cases tried before the board and in practically all cases made oral arguments, supplemented in the more important cases by written

briefs. In many cases depositions were taken away from Washington, the commissioner being represented either by revenue agents who were qualified lawyers or by attorneys from the appeals division, the latter appearing in the more important cases. On a number of occasions, upon request of taxpayers or the commissioner, or upon the board's own motion, one or more members of the board have gone outside of Washington to hear testimony in one or a group of cases, instead of having such taxpayers or their witnesses come to Washington. In all such cases an attorney from the general counsel's office was present to represent the commissioner.

A field division of the board held hearings at St. Louis and Kansas City, Mo., in October, November, and December, 1925. Four attorneys attached to the appeals division accompanied the division and represented the commissioner in all cases heard. Four field divisions of the board left Washington in April, 1926, for a 30-day trip, holding hearings at Birmingham, New Orleans, Atlanta, San Francisco, Los Angeles, Oklahoma City, Dallas, Tulsa, Chicago, and St. Paul. Seventeen attorneys attached to the appeals division accompanied the board.

Plans were made whereby five divisions, consisting of one member each, would hold hearings in Washington, beginning October 4, 1926. A series of field hearings was arranged for October and November, 1926. The field divisions were to proceed without interruption to the hearings of the five divisions of the board at Washington.

It is necessary to have attorneys representing the commissioner with all field divisions of the board. Under the revenue act of 1924 proceedings before the board and its divisions were conducted in accordance with such rules of evidence as the board from time to time prescribed, but the revenue act of 1926 specifically requires the proceedings of the board and its divisions to be conducted "in accordance with the rules of evidence applicable in courts of equity of the District of Columbia."

Appeals to the board include proposed deficiencies of from a few dollars to several million dollars. Individual cases frequently involve principles affecting the revenue in amounts running into millions of dollars. The size of an individual deficiency is not a criterion of the importance of an individual case.

Decisions of the board are final in that the commissioner, if he does not agree, must bring suit in a United States district court in cases where hearings were held prior to the passage of the 1926 act, and may appeal to a circuit court of appeals or the Court of Appeals of the District of Columbia in cases heard since the passage of the 1926 act. Nevertheless, the commissioner, as a matter of policy and necessity, must very largely accept the board's decision as final, and of a large number of cases decided since the establishment of the board comparatively few have not been acquiesced in.

In cases where an appeal is taken to the board, every effort is made to reach an agreement with the taxpayer and to settle the case without its going to trial before the board. The attorneys necessarily are handicapped in this work because of the inadequacy of the force. Nevertheless, a great many cases have been settled by stipulation of the parties.

During the fiscal year 1926 the board rendered 873 written decisions in 947 cases, and dismissed, for various reasons, including lack of jurisdiction, failure to prosecute, failure to complete petitions, failure to file petitions within 60 days, failure to pay filing or hearing fees, and on stipulations, 3,022 cases. A total of 3,969 cases was disposed of.

The following statistics show the volume of work handled before the United States Board of Tax Appeals during the period from July 1, 1925, to June 30, 1926, the disposition of the cases and the status of the work as of June 30, 1926:

Appeals filed with the board from July 1, 1925, to June 30, 1926.....	12, 867
Appeals served on the commissioner from July 1, 1925, to June 30, 1926..	12, 449
Pleadings filed with the board by the commissioner.....	15, 863
Appeals argued before the board.....	2, 172
Briefs filed.....	371
Cases decided by the board in 873 formal decisions.....	947
Appeals disposed of by the board without rendering formal decisions.....	3, 022
Total number of cases disposed of from July 1, 1925, to June 30, 1926..	3, 969
Appeals at issue and awaiting trial June 30, 1926.....	7, 315
Petitions awaiting answer.....	1, 720
Petitions not answered but motions filed.....	1, 898
Appeals tried and awaiting decisions by the board.....	1, 201

INTERPRETATIVE DIVISION I

Questions considered by Interpretative Division No. I relate solely to the income and excess profits tax provisions of the several revenue acts. During the year the work has consisted exclusively of rendering decisions on specific questions. These, for the most part, are rendered in the shape of informal opinions in response to specific questions presented by the Income Tax Unit, and in passing on, approving or commenting upon letters prepared by the rules and regulations section. Occasional requests for opinions have been made by the appeals division in connection with cases pending before, or just decided, by the United States Board of Tax Appeals. In addition to the foregoing, all matters proposed for publication in the Internal Revenue Bulletin is submitted to this division for review and approval before publication is authorized.

During the fiscal year 1926, 894 cases have been received by this division and 813 disposed of. There were 236 cases undisposed of on July 1, 1925, while on June 30, 1926, there were 317.

The work of this division during the period in question has included:

The determination of the stand to be taken in regard to the treatment for income tax purposes of installment sales of real and personal property, repossession thereunder, and the preparation of a Treasury decision covering the same.

Further development of the theories of depletion and amortization, including the amortization of land.

The question of the proper treatment of bank discount and commissions charged on loans received consideration in connection with certain decisions of the Board of Tax Appeals.

The construction of the net-loss provision of the various revenue acts by the Board of Tax Appeals required a revision of the theory heretofore followed by the office.

The classification of certain cases with regard to the definition of net income.

Pleas for exemption have covered a wide range, including the much controverted question of salaries paid State officers and employees (especially pilots), various charitable and nonprofit organizations, and the provisions of the 1926 act granting limited exemptions of income to nonresident citizens; also the treatment of allowances of Federal officers and employees under the decision of the Court of Claims in the case of Jones v. United States.

The position heretofore taken as to reserves maintained by insurance companies was revised.

The definition of what constitutes carrying charges on unproductive property required careful study.

The application of the provisions authorizing the consolidation of accounts of related businesses received consideration.

During the year, members of this division have been assigned to the various audit divisions of the Income Tax Unit as representatives of the office of the general counsel. These representatives pass upon all legal questions arising in cases in the division to which they are assigned. If the question is one of very great importance and not covered by precedent, it is referred by the representative to the general counsel's office for a formal opinion.

INTERPRETATIVE DIVISION II

The work of this division during the year was as follows: (1) Interpreting the provisions of law relating to the following taxes—admissions and dues, leverage, capital stock, gift, estate, excise, insurance, legacy, occupational, oleomargarine, special, stamp, telephone and telegraph, tobacco, transportation; (2) preparing and reviewing regulations, Treasury decisions, informal memoranda and letters relating to such taxes; (3) reviewing and approving claims for abatement, redemption and refund of the above taxes involving amounts in excess of \$500; (4) assisting in the drafting of contemplated revenue legislation relating to the above taxes; (5) supervising the disposition of real estate acquired by the Government under the provisions of internal revenue laws, and with the approval of the Secretary, authorizing the sale at public vendue of the interest of the United States in such realty; (6) considering and reviewing administrative questions of a legal nature arising in connection with all internal revenue laws, including the inspection of returns under rules and regulations prescribed by the Secretary and approved by the President, and approving the furnishing of certified copies of returns; (7) considering deficiency protests in estate tax cases in accordance with article 76 of Regulations 68; (8) handling estate tax cases before the United States Board of Tax Appeals. The work of reviewing and approving miscellaneous claims was limited to refunds involving amounts in excess of \$50,000. In June, 1926, the work of reviewing and approving income tax claims involving refunds in excess of \$50,000, formerly handled by the review division, was transferred to this division when the review division was abolished, and at that time administrative questions involving income tax were transferred to interpretative division I and the work of defending estate tax cases before the Board of Tax Appeals was transferred to

the appeals division. By reason of the procedure whereby taxpayers are afforded an opportunity to be heard in the Miscellaneous Tax Unit it was deemed advisable, in the interest of simplification and efficiency, to eliminate the hearings accorded taxpayers on deficiency protests in estate tax cases and, accordingly, by the provisions of Treasury Decision 3783, no further protest cases under article 76 of Regulations 68 are being passed upon by this division. The division is now disposing of all protests on hand from the date of the issuance of Treasury Decision 3783.

The cases in this division during the year, including the work formerly done by the review division on income tax claims and protests, are grouped into six classes—interpretative cases, estate tax deficiency protests, tax board cases, miscellaneous tax claims, income tax claims, and income tax deficiency protests. A summary of the work is as follows:

Interpretative cases

On hand July 1, 1925.....	173	
Received during fiscal year ending June 30, 1926.....	849

	2,436
Disposed of during fiscal year ending June 30, 1926.....	2,376
	60
Pending June 30, 1926.....	

During the year the division conducted 198 hearings and argued 105 cases before the Board of Tax Appeals. There were 32 real estate cases pending on July 1, 1925. During the year 3 were received and 10 disposed of, leaving 25 cases pending July 1, 1926. There were 9 quitclaim deeds executed and delivered. On July 1, 1925, 11 cases were pending wherein sales of real estate had been made by collectors to private purchasers, at sales under distraint proceedings. Fourteen similar cases were received during the year, making a total of 25. The number of such cases closed during the year was 8, leaving 17 cases pending July 1, 1926. During the year the following regulations were considered and revised—Regulations 9, 22, 43 Parts I and II, 47, 70, and 71.

PENAL DIVISION

During the fiscal year ended June 30, 1926, several important changes were made in the duties and functions of the penal division. The first of these, which has been in effect since early in September, 1925, altered the previous practice of determining accounting questions as well as questions of law and the assertion of penalties, and eliminated the determination of accounting questions by this division. Another change was the inauguration of a practice of preparing in the penal division indictments in all cases referred by the commissioner to United States attorneys for criminal prosecution. This practice was adopted, with the approval of the Department of Justice, in order to assist the United States attorneys to whom such cases are referred, and for the purpose of obtaining greater uniformity in indictments in tax cases. During the greater part of the year this division prepared opinions and gave advice to officers of the bureau, in cases involving liens, proceedings in distraint, search and seizure, and sales and purchases of property under seizure, but early in June, 1926, cases of this character which did not involve any questions of penalties were transferred to interpretative division I, where they more logically belong. Since these several changes were made, therefore, the duties of this division have consisted of (1) preparing opinions advising the commissioner and the heads of the various units of the bureau as to the liability for fraud, negligence, or delinquency penalties in cases where protests have been filed by taxpayers against the proposed assessment of penalties by one of the accounting units or where an opinion as to assertion of penalties has been requested by any unit or officer of the bureau; (2) preparing for reference to United States attorneys, for the purpose of prosecution, criminal cases arising under the internal revenue laws or applicable provisions of the criminal laws of the United States; (3) assisting in such criminal prosecutions by furnishing evidence for grand jury and court proceedings, preparing indictments and briefs, and taking part in arguments, trials, and appeals at the request of the Department of Justice or the United States attorneys; (4) preparing office opinions, letters of instruction, and answers to inquiries from officers of the bureau regarding conduct of tax examinations, special investigations, and general matters relating to violations of Federal penal statutes by taxpayers; (5) recommending acceptance or rejection by the commissioner of offers in compromise made by taxpayers charged with civil penalties or violations of Federal penal statutes; and (6) consideration of claims for reward under section 3463 of the Revised Statutes.

In cases in which taxpayers have protested against the proposed assertion of penalties, of whatever nature, it is the practice of the division to grant the taxpayers and their qualified representatives hearings at which they are entitled to present evidence and arguments, with briefs in support thereof, and written opinions are then prepared stating the pertinent facts, the law involved and the conclusions reached, with the reasons therefor. These opinions are sent over the signature of the general counsel to the appropriate bureau officer. If no hearing is requested or desired, the case is considered and decided upon the evidence in the file. Evidence submitted on behalf of a taxpayer must in some cases be referred to officers of

the bureau in the field for investigation and report before a decision can be rendered.

During the year, two attorneys attached to the penal division were assigned for permanent service, respectively, in New York and Chicago. Attorneys from the division frequently are sent to various points throughout the United States to render assistance requested by United States attorneys in criminal cases and under appointments as special assistants to the Attorney General, to conduct grand jury proceedings and jury trials in collaboration with United States attorneys. While it is recognized that criminal offenders in tax cases should be personally punished for their violations of law, successful prosecutions have the added and more far-reaching effect of impressing upon the taxpayer's community the results of infractions of the law in tax cases, and serve as a warning to other possible lawbreakers. The penal provisions of the law are, of course, incidental to their general purpose of raising revenue, but the successful prosecution of numerous violators of the tax laws is believed to have resulted indirectly in the voluntary payment of large amounts of taxes legally due.

Cases referred to the division fall into two general classifications, viz., interpretative and law cases. These are subdivided so that under each classification there are income-tax cases and miscellaneous tax cases, the latter consisting of the large variety of cases other than income-tax cases.

At the beginning of the fiscal year there were pending in the penal division 1,409 cases. Now cases to the number of 639 were received, making a total of 2,048 cases under consideration during the year. The number of cases disposed of was 1,251, leaving 767 pending June 30, 1926. There was, therefore, a net decrease in cases pending at the close of the year of 642 cases, or approximately 45½ per cent. During the past fiscal year a survey was made of every case in the division, and wherever possible action was taken which resulted either in the prompt closing of cases or expediting their final consideration. Such action was, of course, not possible in the considerable number of cases in litigation and in certain others where the division was dependent upon other sources for the furnishing of essential information.

Details of the number of cases received, disposed of, and pending are tabulated below:

		<i>Interpretative cases</i>	
Pending July 1, 1925:			
	Income-tax cases.....	750	
	Miscellaneous tax cases.....	148	
		898	
Received during fiscal year ending June 30, 1926:			
	Income-tax cases.....	335	
	Miscellaneous tax cases.....	48	
		383	
	Total interpretative cases pending during fiscal year.....		1,279
Closed during fiscal year ending June 30, 1926:			
	Income-tax cases.....	731	
	Miscellaneous tax cases.....	172	
		903	
Cases pending at close of fiscal year June 30, 1926:			
	Income-tax cases.....	354	
	Miscellaneous tax cases.....	22	
		376	

Law cases

Pending July 1, 1925:			
Income-tax cases.....	295		
Miscellaneous tax cases.....	218		513
Received during fiscal year ending June 30, 1926:

Miscellaneous tax cases.....	200		378
Cases pending at close of fiscal year ending June 30, 1926:			
Income-tax cases.....	243		
Miscellaneous tax cases.....	148		391
Cases pending on July 1, 1925.....	1,409		
Cases received during fiscal year.....	639		
Total cases pending during fiscal year.....	2,048		
Total cases closed during fiscal year.....	1,281		
Total cases pending July 1, 1926.....			767

The following is a statement of internal-revenue criminal cases handled by the district courts of the United States during the fiscal year, as furnished this office by the Department of Justice:

Number of cases pending July 1, 1925.....	1,794
Number of cases commenced during fiscal year ended June 30, 1926.....	482
Number of cases terminated during same period.....	890
Number of cases pending at close of business on June 30, 1926.....	1,386

The above figures include, of course, the large number of cases referred directly to United States attorneys by collectors of internal revenue throughout the United States.

Claims for reward for information relative to violations of the internal-revenue laws, submitted under the terms of Circular 99, revised, promulgated in accordance with the provisions of section 3463, Revised Statutes, were filed and disposed of during the year ended June 30, 1926, as follows:

Pending July 1, 1925, 7; presented during year, 10; disposed of during year, 4; pending July 1, 1926, 13.

In addition, 10 informal claims for reward were disposed of during the last fiscal year, either by closing the cases after the lapse of six months without receipt of further information from correspondents, or by letters advising informers of the reasons why favorable consideration could not be given by this office to formal claims, if presented.

Four claims for reward were allowed by this office in a total sum of \$10,764.98.

The 13 claims pending are awaiting receipt of reports from the field officers of the bureau conducting investigations in the cases in question or the closing of the law cases with which such claims are associated.

CIVIL DIVISION

The civil division, in cooperation with the Department of Justice and the United States attorneys' offices, handles all civil internal-revenue cases pending in the Federal courts. These cases include

the prosecution of suits by the United States to recover unpaid taxes and the defense of suits brought by taxpayers against collectors of internal revenue or the United States to recover taxes alleged to have been erroneously assessed and collected. While the United States attorneys are charged with the responsibility for the conduct of these cases, the attorneys of the civil division assemble the evidence, prepare and brief the cases for trial both as to the facts and the law, and an attorney of the civil division is usually present to assist at the trial. In most instances the trial of the case, at the suggestion of the United States attorney, is conducted by the attorney of the civil division. Where cases are appealed the attorneys of the civil division assist in preparing the record, and a brief for the appellate court is forwarded to the United States attorney for printing and filing. Cases in appellate courts are frequently argued by the attorneys of the civil division. In appeals to the Supreme Court of the United States or petitions for certiorari the petition is prepared in the civil division and forwarded to the Department of Justice, and a brief is prepared for the use of the Solicitor General in the argument of the case.

The principal centers of litigation with reference to the number of cases pending and the amounts involved are New York; Philadelphia, Boston, Chicago, Pittsburgh, and San Francisco.

The following civil internal-revenue tax cases were decided by the Federal courts during the fiscal year 1926:

	Decided for the Government	Decided against the Government	Partly for Government and for taxpayer	Total
District courts.....	114	56	9	179
Circuit courts of appeal.....	14	16	1	31
Court of Claims.....	20	11	0	31
Supreme Court.....	17	4	1	22
Total.....	165	87	11	263

The number of civil internal-revenue tax cases pending in the Federal courts at the end of the fiscal year 1926, compared with the number pending at the end of the previous fiscal year, is as follows:

	Cases for suit by the United States	Cases pending in district courts	Cases pending in circuit courts of appeal	Cases pending in Court of Claims	Cases pending in the Supreme Court	Cases pending settlement	Cases pending payment of judgment	State court and miscellaneous cases	Total
Civil cases pending July 1, 1925.....	391	1,220	31	637	27	123	47	21	2,497
Civil cases pending July 1, 1926.....	369	1,493	52	382	23	5	36	55	2,400

During the fiscal year, 1,983 new civil cases were received and 2,080 civil cases were closed, 14 interpretative jacketed cases were referred to the civil division and closed, 14,639 letters were written, 6,415 memoranda prepared, 508 telegrams, 68 Treasury decisions,

and 162 briefs. Civil compromise cases received during the fiscal year numbered 434, of which 372 were disposed of, 182 being rejected and 190 accepted; the total amount claimed was \$4,464,360.11, and \$1,957,939.01 accepted.

A digest of important tax cases decided by the Federal courts during the fiscal year is found at the end of the statistical tables, *infra*, page 205.

A section of the civil division is designated as the bankruptcy, receivership, and compromise section. This section handles all cases in which claims are filed by collectors in bankruptcy and receivership proceedings and claims against the estates of insolvent persons. Evidence in support of the Government's claim is assembled in this section and forwarded to the collector or the United States attorney for use before the referee or trustee and the courts. Briefs are also prepared upon law points involved for the use of the United States attorneys in court proceedings, and in important cases an attorney from the section is present at the trial. In addition to the above this section handles all compromise cases involving interest and delinquency penalties, exclusive of civil compromises and compromises of specific penalties and fraud cases.

The work of the section for the fiscal year is summarized as follows:

Bankruptcy, receivership, and insolvent

Cases pending July 1, 1925.....	3,783
Cases closed during year.....	2,560
Cases pending June 30, 1926.....	2,478

In the 2,560 cases closed claims were filed in the amount of \$6,622,-622.94 and the sum of \$2,106,632.58 was collected.

Insolvent compromises

Cases pending July 1, 1925.....	472
Cases closed during year.....	1,141
Cases pending June 30, 1926.....	320

Of the 1,141 cases closed 368 were accepted in the sum of \$1,686,-394.72 for taxes aggregating \$6,737,825.63, and 773 were rejected.

Interest and delinquency penalty compromises

Cases pending July 1, 1925.....	936
Cases closed during year.....	54,911
Cases pending June 30, 1926.....	1,330

New York leads in the number of bankruptcy and receivership cases, followed by Illinois, Pennsylvania, Massachusetts, New Jersey, Oklahoma, California, Texas, and Ohio.

SUMMARY OF SUITS AND PROSECUTIONS

The following is a statement of internal-revenue and prohibition cases handled by the district courts of the United States during the fiscal year ended June 30, 1926, as furnished this office by the Department of Justice:

Internal revenue

	Civil	Criminal
Number cases pending, July 1, 1925.....	1,751	1,794
Number cases commenced during fiscal year ended June 30, 1926.....	1,120	482
Number cases terminated during same period.....	1,033	800
Number cases pending at close of business on June 30, 1926.....	1,838	1,356

Prohibition

	Civil	Criminal
Number cases pending, July 1, 1925.....	6,950	24,786
Number cases commenced during fiscal year ended June 30, 1926.....	8,642	44,492
Number cases terminated during same period.....	8,338	48,520
Number cases pending at close of business on June 30, 1926.....	7,254	20,740

BUREAU AND FIELD PERSONNEL

The following statement shows the number of employees in the Internal Revenue Service on June 30, 1925, and the number in the service on June 30, 1926:

	June 30, 1925	June 30, 1926	Increase (+) or decrease (-)
Employees in Washington.....	5,176	4,843	-1,333
Collectors' offices.....	8,453	8,073	-381
Internal revenue agents' force (income and estate taxes).....	3,010	3,770	+766
Internal revenue agents' force (miscellaneous and sales taxes).....	138	56	-82
Prohibition field service (including narcotic officers).....	3,173	3,261	+90
Supervisors of accounts and collections.....	42	40	-2
Intelligence force.....	112	124	+12
Storekeeper-gaugers.....	228	278	+50
Stamp agent.....	1	1	
Total.....	19,333	17,903	-1,430

¹ Exclusive of 55 temporary employees.

² Exclusive of 18 temporary employees.

Under the provisions of the retirement act 18 classified employees were retained in the service after reaching the age of 70; 38 were retired on annuity, 11 of the latter being retired on account of total disability.

Respectfully,

D. H. BLAIR,
Commissioner of Internal Revenue.

Hon. A. W. MELLON,
Secretary of the Treasury.

STATISTICAL TABLES

TABLE 1.—RECEIPTS FROM SPECIFIC SOURCES OF INTERNAL REVENUE, FISCAL YEAR ENDED JUNE 30, 1926, BY COLLECTION DISTRICTS

The figures concerning internal-revenue receipts as given in this statement differ from such figures carried in other Treasury statements showing the financial condition of the Government, because the former represent collections by internal-revenue officers throughout the country, including deposits by postmasters of amounts received from sale of internal-revenue stamps and deposits of internal revenue collected through customs officers, while the latter represent the deposits of these collections in the Treasury or depositories during the fiscal year concerned, the differences being due to the fact that some of the collections in the latter part of the fiscal year can not be deposited, or are not reported to the Treasury as deposited until after June 30, thus carrying them into the following fiscal year as recorded in the statements showing the condition of the Treasury.

Includes \$15,784.13 income tax on Alaska railroads (act of July 19, 1914).

TABLE 1.—RECEIPTS FROM SPECIFIC SOURCES OF INTERNAL REVENUE, FISCAL YEAR ENDED JUNE 30, 1920, BY COLLECTION DISTRICTS—

NOTE.—The revenue act of 1925 repealed the tax on automobile trucks and wagons, tires, parts or accessories for automobiles, effective Feb. 26, 1925, and reduced the tax from 5 to 3 per cent on other automobiles and motor cycles, effective Mar. 29, 1925. It levied a tax upon pistols and revolvers, and cereal beverages, but repealed the remaining excise taxes in above classifications, effective Feb. 26, 1926.

	Manila, P. I.	818,746.05	788,529.73	-4
Total		2,584,140,268.24	2,835,999,892.10	+10

¹ Less than one-half of 1 per cent.

² Includes \$103.25 on account of documentary-stamp sales in Porto Rico and \$3,857.48 collected on products from the Virgin Islands.

³ Includes \$15,784.13 income tax on Alaska railroads (act of July 18, 1914).

⁴ In addition to this amount collections on tobacco manufactures from the Philippine Islands are included as follows: First California, \$301.62; and Hawaii, \$1,066.21.

⁵ The figures concerning internal-revenue receipts as given in this statement differ from such figures carried in other Treasury statements showing the financial condition of the Government, because the former represent collections by internal-revenue officers throughout the country, including deposits by postmasters of amounts received from sale of internal-revenue stamps and deposits of internal revenue collected through customs offices, while the latter represents the deposits of these collections in the Treasury or depositories during the fiscal year concerned, the differences being due to the fact that some of the collections in the latter part of the fiscal year can not be deposited or are not reported to the Treasury as deposited until after June 30, thus carrying them into the following fiscal year as recorded in the statements showing the condition of the Treasury.

TABLE 3.—SUMMARY OF INTERNAL-REVENUE RECEIPTS, YEARS ENDED JUNE 30, 1925 AND 1926, BY SOURCES—Continued

Source	1925	1926	Increase (+) or decrease (-)
Revenue acts of 1924 and 1925—Continued.			
Opium, coca leaves, including special taxes, etc.	\$1,090,832.73	\$981,739.07	-\$109,093.66
Special taxes—			
Corporations, on value of capital stock	90,002,594.56	97,385,755.61	+7,383,161.05
Brokers, stock, etc.	1,325,657.07	939,936.13	-385,720.94

¹ Nine months only.

TABLE 9.—INTERNAL-REVENUE TAX ON PRODUCTS FROM PHILIPPINE ISLANDS, YEARS ENDED JUNE 30, 1925 AND 1926, BY ARTICLES TAXED

Articles taxed	1925	1926	Increase (+) or decrease (-)
Cigars (large)	\$515,136.08	5783,215.89	-531,920.19
Cigars (small)		90	+90
Cigarettes (large)	10.08	86.70	+76.62
Cigarettes (small)	2,840.27	4,507.17	+1,666.90
Manufactured tobacco	49.07	198.09	+149.02
Stamp sales (documentary)	2,145.50	2,905.75	+760.25
Total	520,180.00	700,887.56	-280,296.44

NOTE.—Under the tariff act of Aug. 5, 1906, the above receipts, with the exception of the internal revenue collected from sale of documentary stamps, are covered into the Treasury of the United States to the credit of the treasurer of the Philippine Islands.

TABLE 10.—INTERNAL-REVENUE TAX ON PRODUCTS FROM PORTO RICO, YEARS ENDED JUNE 30, 1925, AND 1926, BY ARTICLES TAXED

Articles taxed	1925	1926	Increase (+) or decrease (-)
Cigars (large)	\$1,010,371.28	\$950,348.04	-\$60,023.24
Cigars (small)	19,500.21	14,617.80	-4,882.41
Cigarettes (large)	56,741.32	20,475.84	-36,265.48
Cigarettes (small)	1,313.31	1,459.62	+146.31
Stamp sales (documentary)	1.80	103.25	+101.45
Total	1,090,527.62	993,004.55	-106,823.07

NOTE.—The above receipts for 1926 include \$997,901.30 deposited at San Juan, P. R., to the credit of the treasurer of Porto Rico, which amount is not included in internal-revenue collections shown in other statements hereto. The receipts from sale of documentary stamps in Porto Rico are included in the collections reported from the second district of New York.

¹ Compiled from an annual abstract statement of manufacturers' accounts prepared from returns filed monthly. Figures relate exclusively to products manufactured in the United States. Title 311, section 311, of the tariff act of 1922 provided for the establishment of bonded warehouses for the manufacture of cigars wholly from tobacco imported from any one country and for the withdrawal of such cigars for home consumption on the payment of the duty on such tobacco and the payment of the internal revenue tax accruing on such cigars in the condition as withdrawn. These bonded manufacturing warehouses are wholly under customs supervision, and business done by them is not included in these tables, which show the operations of internal revenue factories only. Returns filed with collectors of customs by these bonded manufacturing warehouses show 31,831,579 cigars manufactured. These returns show cigars of the various classes as follows removed tax paid for domestic consumption on which the tax amounted to \$349,763.10; class A, 263,300; class B, 167,680; class C, 18,131,272; class D, 132,226; class E, 1,047,882.

¹ Figures reported in the columns headed "Net quantity" represent exact quantities of narcotic drugs both in pure state and as part content of compounds and preparations. Tax is paid by stamps at the rate of 1 cent per ounce or fraction thereof for the entire contents of each package or bottle. A compound or preparation containing a narcotic drug in a quantity exceeding the statutory exemption is taxed the same as the pure drug. The number of "taxable" ounces reported has been determined from the value of stamps required.

TABLE 66.—SUMMARY OF OPERATIONS AT DISTILLERY, GENERAL, AND SPECIAL BONDED WAREHOUSES, YEAR ENDED JUNE 30, 1926

[Statement in tax gallons]

Remaining in bonded warehouses on July 1, 1925	29,839,805.1
Withdrawn for export and unaccounted for June 30, 1925	1,126,614.7
Lost by casualty, etc., and unaccounted for June 30, 1925	393,574.4
Withdrawn for transfer to bonded warehouses and unaccounted for June 30, 1925	30,603.9
Transfers to manufacturing warehouses and unaccounted for June 30, 1925	6,162.0
Produced and removed to denaturing warehouses direct from cistern rooms of distilleries	651,003.1
Produced and removed to wineries for the fortification of sweet wine direct from brandy distilleries	558,609.6
Produced and removed tax paid from brandy distilleries	306.6
Produced and deposited in bonded warehouses	328,153.2
Deposited in bonded warehouses from other warehouses	3,528,570.4
Bottled in bond and returned to warehouses	1,647,294.6
Deposited in bonded warehouses from export storage warehouses	8,639.1
Excess ascertained on regauge	163.3
Aggregate	38,324,604.6
Withdrawn from warehouses tax paid	1,870,152.4
Withdrawn from warehouses tax paid for bottling in bond	79,368.5
Withdrawn tax paid direct from brandy distilleries	305.6
Loss allowed on account of leakage or evaporation in warehouses	1,256,780.0
Withdrawn for scientific purposes and for use of the United States	604.8
Withdrawn free of tax for redistillation and denaturation	18,031.9
Removed from cistern rooms of distilleries direct to denaturing warehouses	651,003.1
Withdrawn for the fortification of wine (brandy)	119,617.3
Transferred to wineries for the fortification of sweet wine direct from brandy distilleries	558,609.6
Exported from bonded warehouses, proofs of handling received	250,284.0
Deficiencies in export tax paid or allowed	1,995.3
Spirits heretofore reported as lost by casualties, etc., accounted for	39,345.8
Deposited in manufacturing warehouses	18,727.8
Removed to bottling warehouses before payment of tax	1,851,608.0
Transferred to and deposited in bonded warehouses	3,528,570.4
Losses in transit to bonded warehouses tax paid	1,487.0
Withdrawn for export and unaccounted for June 30, 1926	1,107,537.8
Lost by casualty, etc., and unaccounted for June 30, 1926	392,359.4
Transfers to bonded warehouses and unaccounted for June 30, 1926	25,291.7
Remaining in bonded warehouses June 30, 1926	1,624,238.9
Aggregate	26,553,609.5

TABLE 67.—FORMULAS PRESCRIBED FOR DENATURATION OF ALCOHOL, THE INDUSTRIAL PURPOSES FOR WHICH THE ALCOHOL IS USED, AND THE QUANTITIES WITHDRAWN FROM DENATURING PLANTS, YEAR ENDED JUNE 30, 1926

Formula No. and composition	Authorized for use in the manufacture of—	Wine gallons
Completely denatured alcohol		
To every 100 gallons of ethyl alcohol, add: (1) 10 gallons of approved wood alcohol and 1/4 gallon of approved benzene.	General uses, fuel, light, and power, cleaning automobile combustion chambers, cleaning and polishing brass, glass, silver, shoes, etc., etching, preparing subjects for exhibition purposes, starting gasoline lamps, antifreezing solutions, testing fruit for scientific purposes, cleaning fabrics, decarbonizing agent, engine cleaning, manufacturing purposes, recovering purposes, dipping fluids, insect powders, fumigating lamps, disinfectants, cements, gas mantles, medicinal tablets, oils, cartridges, flux, starch, bats, annealing jewelry, paint and varnish, soap dyes, shoe blacking, etc.	4,506,806.00
(2) 2 gallons of approved wood alcohol and 1/4 gallon of approved pyridine base.	do	979,030.02
(3) 5 gallons of sulphuric ether, 2 gallons of benzine and 1 gallon of pyridine or aniline oil.	Motor power	72,010.58
(4) 2 1/4 gallons of approved benzol, 0.5 gallon nitrobenzol or ortho-nitro toluol and 0.2 gallon of approved pine oil.	General uses (see formula No. 1)	26,724.01

TABLE 67.—FORMULAS PRESCRIBED FOR DENATURATION OF ALCOHOL, THE INDUSTRIAL PURPOSES FOR WHICH THE ALCOHOL IS USED, AND THE QUANTITIES WITHDRAWN FROM DENATURING PLANTS, YEAR ENDED JUNE 30, 1926.—Continued

Formula No. and composition	Authorized for use in the manufacture of—	Wine gallons
<i>Completely denatured alcohol—Contd.</i>		
To every 100 gallons of ethyl alcohol, add—Continued.		
(5) 2 gallons of approved wood alcohol, 0.25 gallon of approved pyridine bases, 0.5 gallon of approved benzene (kerosene).	General uses (see formula No. 1)	47,592,920.62
(6) 2 gallons of approved benzol, 0.25 gallon of approved pyridine bases, 0.5 gallon of approved benzene (kerosene).	do	12,405,239.44
(7) 2 gallons of approved benzol, 2 gallons of approved benzene (kerosene), 1 gallon of approved antline oil.	do	41,371.00
Total		60,376,701.64
<i>Specially denatured alcohol</i>		
To every 100 gallons of ethyl alcohol, add: (1) 5 gallons approved wood alcohol...	Acetaldehyde; acetanilide; acetic ether; acetphenetidin; acetate; adeps lanae; atetrin; alkaloids and alkaloidal salts (39-A); aloin; ammunition; antipyrine; apocynin; arbutin; arspenamine; artificial flowers and feathers; asclepiadin; aspirin (acetyl salicylic acid); atophan; avertin; analytical work; arabinose; barometer and thermometer tubes; benzaldehyde; benzidine; benzoic acid; benzoin; benzyl cyanide; beta naphthol; beta naphthol benzoate (3-A); beta naphthol salicylate composition billiard and pocket balls; bluing (laundry); bottle caps; brushes; benzoin; benzol, camphor (synthetic); celluloid scrap (reworking); cements; cheloniin choral hydrate (8-B); chloroform; cimicifugin; cocoa butter; collodion; collodion corn remedy; colors and bronze powders; compasses; concentrations (nonliquid); coumarin; creosote carbonate; cutlery; caustic potash; confectioners' colors; dandelion; dental alloy; diethylaniline; digestive ferments; digitalis; dimethylglyoxime; dinitrotoluene; disinfectant germicide; door checks; dyestuffs; dextrin; dextrose; embalming fluid; enamel; eosine; essential oil orris; ether; ethyl acetate; ethyl aniline; ethyl bromide; ethyl butyrate; ethyl chloride; ethyl propionate; extracting glycerine from distillery slop; felt base floor covering; fertilizers; filaments for incandescent lamps; formaldehyde; formaldehyde; fireworks; fulminate of mercury; gaduol; gallocyanine; gas mantles; gentian (solid extract); glue; glycerophosphates (3-A); guaiacol; guaiacol carbonate; gelatine capsules; gum and pyroxyline solutions; galactose; glass; glass enamel; hats; heliotropin; hexachlorobenzol; hydrastis (alkaloid of); imitation ivory goods; imitation leather (12-A); incense; inks; insulin; inulin; iriscin; isinglass; insecticides; jalapin (nonliquid concentrations of); japans; jewelry; lacquers; pastes and varnishes from soluble cotton (2-A); leather goods finish; leather substitutes; liquor cresolis compositus; laevulose; lysol; mandrake (powdered and solid extract of); mica insulators; mirrors; mouldings and picture frames; monobromated camphor; moth repellent; motor fuel (28); mucilage; maltose; mannose; mannite; metal; melibiose; nitrocellulose (solution and solvent of) (19); nitrosobetanaphthol; nonscatterable glass; oils, greases, lubricants, and soluble thread-cutting oils; oleoresins; orthotoluolsulfamid; optical goods; paints; paraffin; paste; pepsin and similar products; phenolphthalein; phenylcinchoninic acid (3-A); photographic engravings, (5) (11) (19); photographic dry plates (30); photographic films (10); phytolacin (concentration of); podophyllin resin and similar	7,495,270.63

TABLE 67.—FORMULAS PRESCRIBED FOR DENATURATION OF ALCOHOL, THE INDUSTRIAL PURPOSES FOR WHICH THE ALCOHOL IS USED, AND THE QUANTITIES WITHDRAWN FROM DENATURING PLANTS, YEAR ENDED JUNE 30, 1926.—Continued

Formula No. and composition	Authorized for use in the manufacture of—	Wine gallons
<i>Specially denatured alcohol—Continued</i>		
To every 100 gallons of ethyl alcohol, add—Continued.		
(1) 5 gallons approved wood alcohol—Continued.	products; polish preparations for metals and furniture; postal-card colors; potassium hydrozide; powder compact; powdered drugs and extracts; print paper and enlargements; pyroxylin cements, paramidophenol; pencils; paper; plumbing material; potassium cyanate; refining mineral oils; refining precious metals; resin of scammony; resorcin; raffinose; recrystallization and purification purposes; resins; rhamnose; rouge compact; saccharine; salicylic acid; salicylic aldehyde; salol (3-A); salophen; santolin and strychnine; saponin; shampoo jelly; shatropoo liquid; shellac thinner; shellac varnish; shoe polish; silk fabrics; silverware and bronze; smokeless powder (12-A); soap liquid (3-B) (27); soap transparent (3-A); sodium benzoate; soldering flux; solid extracts; solidified alcohol; stains; steatol paper; sterilizing solution for corks; sulphonic acid; surgical ligatures; synthetic mustard oil; saccharose; sorbit; solution and solvent of nitrocellulose stanolin; synthetic perfume basis; tannic acid; terpin hydrate (12-A); textile cleansing soap; theobromine; thermostatic devices; tinfil; toluidine; transparent paper, transparent soap for water-proofing cement; trinitrotoluol; turpaco; trehalose; trioxylaline; tuberculin purified; uric acid; varnish remover; viburnum (concentration); vegetable colors; washing lenses; water colors; watches; wood filler; wood finish; wool fat; waterproof fiber signs; xylene.	
(2a) 2 gallons of approved wood alcohol and 2 gallons of benzol.	Carbon remover; celluloid, pyralin, and similar products; ethyl acetate; nitrocellulose lacquer; varnishes; lacquers; pastes and varnishes from soluble cotton; hydrosulphate sodiums; japans.	1,078.00
(2b) 1/2 gallon benzol	Acetic ether; acetphenetidin (conditional); arspenamine; beta naphtha centralites; dyes; diethyl barbituric acid (barbital); diamidophenol; diethylphthalate; dimethylsulphate; ethyl esters of—cinnamic lauric, benzoic, and pelargonic acids; ethyl chloride; ethylene; ethyl palmitate; ethyl sulphate (for use in manufacture of acetphenetidin); fulminate of mercury; guaiacol; hydroquinone; ketone Michlers; manufacture pectin (closed process); manufacture cement; lacquers; laboratory experiments; leather dressing; metal; motor fuel; neosarsphenamine; nitrocellulose products; nitrous ether; pyroxyline enamel; phenacetin; pyroxylin plastics; paramidophenol; phenylacetic acid; picric acid test for United States Government; potassium sodium xanthate; powdered chemicals; sulphuric ether in connection with the production of powder; synthetic camphor; saccharine; smokeless powder; trinitrotoluol; viscoloid; white petroleum oils; ethyl sulphate; sodium hyposulphite.	9,113,890.04
(3a) 5 gallons of commercially pure methyl alcohol.	Adalin; alkaloids; acetanilid; acid salicylic; acetphenetidin; ammonium; B-naphthol; by-products from distillery slop; benzonaphthol; betanaphthol benzoate; bleaching, washing, dyeing leathers; cinchona bark alkaloid and preparations; codeine; compasses, repairing of same; cutting oils; diacetylmorphine; deodorants; disinfectants; embalming fluid; ethyl chloride; ethyl morphine; experimental purposes; esters (process of manufacture must accompany application); furniture polish; films; glycerophosphates; gradometers; homatropin-lacquers for food containers; liquid glue; mercuric chloride	1,113,237.10

TABLE 67.—FORMULAS PRESCRIBED FOR DENATURATION OF ALCOHOL, THE INDUSTRIAL PURPOSES FOR WHICH THE ALCOHOL IS USED, AND THE QUANTITIES WITHDRAWN FROM DENATURING PLANTS, YEAR ENDED JUNE 30, 1926—Continued

Formula No. and composition	Authorized for use in the manufacture of—	Wine gallons
<i>Specially denatured alcohol—Continued</i>		
To every 100 gallons of ethyl alcohol, add—Continued.		
(3a) 5 gallons of commercially pure methyl alcohol—Continued.	tablets (provided no alcohol remains in the finished tablets); morphine; phenylephrine; salicylic acid; photographic emulsions; photographic films; resilvering mirrors; salicylate cocaine; senna (extract of); sodium; strontium; salol (see also special Formula 1) chemicals; saladin; shampoo; shampoo jelly; strychnine alkaloids and preparations; synthetic mustard oil; solution of aniline dyes for industrial purposes (except certified food colors); thinning shellac; tincture of benzoin soap; transparent soap; veronal; wires, removing insulation from same.	
(3b) 1 gallon of pine tar (pix liquida, U. S. P.).	Liquid soap; shampoo; shampoo jelly; scumming salts; toilet preparations.	10,357.60
(4) 1 gallon of the following solutions: 5 gallons of an aqueous solution containing 40 per cent nicotine; 3.6 ounces of methylene blue; water to make 100 gallons.	Cigars, cigarettes, smoking and chewing tobacco.	1,743,412.22
(4a) ½ gallon benzol and 1 gallon of the following solution: 5 gallons of an aqueous solution containing 40 per cent nicotine; 3.6 ounces of methylene blue; water to make 100 gallons.	Fungicides, insecticides, dewarants, and substances of a similar nature, pipe-cleaning preparations.	70,721.78
(5) 65 pounds of sulphuric ether, 3 pounds of cadmium iodide, and 3 pounds of ammonium iodide.	Photocollargens; photoprints; photo-engravings; photographic collodion.	3,721.05
(6a) 15 gallons of condensed fumes, recovered in process of manufacture.	Fulminate of mercury	147,404.28
(6b) ½ gallon of pyridine bases.	Acetphenetidin; chloral hydrate; dichlorethane; ethyl acetate; ethyl butyrate; ethyl chloride; paraluminat of mercury; paraphenetidin; acetic ether; ethyl bromide; hydroquinone; guaiacol.	74,787.03
(11) 100 pounds of sulphuric ether and 10 pounds of cadmium iodide.	Photographic collodion; photo-engraving; photoprints.	255.00
(12a) 5 gallons of benzol.	Acetphenetidin; barbital; cleaning fluid; hydra-zonisol; imitation leather; milk protein; parantropheanol; refining potassium and sodium hydrate; refined petroleum products; saponification of the waxes of acid-fast bacteria; smokeless powder; solvent for cellulose; terpin hydrate; trinitrotoluol; benzoic acid; ethyl ester; dye intermediates; imitation rubber; experimental purposes; lacquer solutions; liquid soaping; goupound; urea; anhydrous soap; sutures and ligatures; tubes (collapsible); sanatogen; citronellol; geraniol.	172,491.34
(13a) 10 gallons of sulphuric ether.	Ammonium salts of lauric and oleic acid; acetic ether; anesthetic ether; arsenamine; butyric ether; caproic acid; caproic ether; celery oil; certified food colors; chemical preparations; collodion; dry extracts for food products; ethereal oil; insulin; neosalvarsan; neoarsphenamine; protargentum; photo-engravings; propionic ether; sodium ethyl sulphate; sulphuric ether; salvarsan.	1,382,724.00
(14) 3 gallons of sulphuric acid and 1 gallon of kerosene.	Ethyl bromide; ethyl chloride; ethyl nitrate; nitrous ether; pure acetic ether.	4,593.10
(17) 0.05 gallon (6.4 fluid ounces) of animal oil (Dipple's oil).	Acetic ether; acetphenetidin; chloral hydrate; dichlorethane; ethyl acetate; ethyl chloride; ethylene gas; paraphenetidin.	31,901.00
(18) 100 gallons of vinegar, containing not less than 9 per cent of acetic acid.	Acetate of lime; aniline; vinegar.	1,719,324.33
(19) 100 gallons of ethyl ether.	Artificial silk; backing of films; by-products from distillery slop (see also special Formula 3-A); collodion; ethyl acetate; indizers; lithographers' transfers; solvent for ultracellulose; photofilms; photo-engravings.	78,783.30

TABLE 67.—FORMULAS PRESCRIBED FOR DENATURATION OF ALCOHOL, THE INDUSTRIAL PURPOSES FOR WHICH THE ALCOHOL IS USED, AND THE QUANTITIES WITHDRAWN FROM DENATURING PLANTS, YEAR ENDED JUNE 30, 1926—Continued

Formula No. and composition	Authorized for use in the manufacture of—	Wine gallons
<i>Specially denatured alcohol—Continued</i>		
To every 100 gallons of ethyl alcohol, add—Continued.		
(20) 5 gallons crude chloroform.	Chloroform (conditional).	1,091.50
(22) 10 gallons of U. S. P. formaldehyde solution.	Preserving formaldehyde, U. S. P. The amount of denatured alcohol to be used in the finished product must not exceed 20 per cent; embalming fluid. Remedies for treatment of honey combs.	10.12
(23) 10 gallons of acetone and 2 gallons of benzol.	Liniments and lotions, for external use only (conditional); xanthates.	7,105.00
(23a) 10 gallons acetone, U. S. P.	Liniments and lotions for external use only; solid and powdered extracts; leather dressing.	1,133,082.33
(23b) 15 pounds of camphor, U. S. P.; 2 pounds of menthol crystals, U. S. P.; and 4 pounds of carbolic acid, U. S. P.	Liniments and lotions for external use only.	1,708.48
(23c) 10 pounds carbolic acid, U. S. P.; 15 pounds resorcinol, U. S. P.; and 5 pounds oil of wintergreen, U. S. P., or methyl salicylate, U. S. P.	do	8,669.36
(23d) 20 pounds tannic acid, U. S. P., and 25 pounds gum camphor, U. S. P.	do	1,250.00
(23e) 9 pounds oil bitter almonds, U. S. P.; 6 pounds salicylic acid, U. S. P.	do	8,756.13
(23f) 3 pounds of salicylic acid, U. S. P.; 1 pound resorcinol, U. S. P.; 1 gallon oil of bergamot, N. F. IV.	do	13,929.00
(24) 29 gallons of sulphuric acid.	Phenacetin; ethyl acetate (conditional); ethyl butyrate; ethyl oxidehydrate; ethyl propionate; ethyl valerate.	661.00
(25) 20 pounds of iodine, U. S. P. and 15 pounds of potassium iodide, U. S. P.	Tincture of iodine, U. S. P.; tr. Iodii Fortior, N. F.; tr. Iodine Churchill's; tr. Iodine 3/4 per cent.	28,836.00
(25) (Alternative.) A solution composed of 20 pounds iodine, U. S. P.; 15 pounds potassium iodide, U. S. P.; 15 pounds water.	do	06,901.91
(26) 5 gallons aniline oil.	Ethyl aniline and diethyl aniline, dyes and intermediates.	1,293.50
(27) 1 gallon of oil of rosemary, U. S. P., and 30 pounds of camphor, U. S. P.	Scapliniment, U. S. P., and chloroform liniment, U. S. P.	55,842.51
(27a) 35 pounds of camphor, U. S. P., and 1 gallon of oil of cloves, U. S. P.	Liniments for external purposes only.	11,668.82
(27b) 1 gallon oil lavender flowers, U. S. P., and 100 pounds of soft soap, U. S. P.	Liniment of soft soap, U. S. P. (tincture of green soap).	14,934.17
(28) 10 gallons of approved benzol.	Motor fuel (conditional).	88,381.00
(23a) 1 gallon of gasoline.	do	1,308.25
(29) 5 gallons of an alcoholic solution of acetaldehyde containing not less than 20 per cent of acetaldehyde.	Aldehydes (conditional) chloroform; glacial acetic acid (conditional); ethyl butyrate, ethyl chloride, artificial musks propionate and valerate.	116,612.42
(30) 10 gallons of pure methyl alcohol.	Chemical and physical laboratory purposes; dental gold; digestive fermentations and similar granular products (provided they contain no alcohol); fur dyeing; hypodermic tablets; photo dry plates; vacuum tubes; manufacturing vegetable oils; varnish and white petroleum oils (conditional); mirrors.	74,073.66
(31a) 100 pounds of glycerine, U. S. P., and 20 pounds of hard soap, good toilet grade, containing not in excess of 5 per cent of moisture.	Tooth paste.	23,779.50
(31b) 5½ gallons oil of peppermint, U. S. P.; 1.25 gallons eucalyptol, U. S. P.; and 4 pounds menthol crystals, U. S. P.	do	1,223.00
(31c) 33 pounds citric acid, U. S. P., and 33 pounds menthol, U. S. P.	do	10.00
(32) 5 gallons of sulphuric ether.	Calorene gas; ethylene (conditional); washing food products.	1,142,465.00
(33) 30 pounds of methyl violet (conditional).	Meat-branding inks (conditional).	3,823.04

TABLE 67.—FORMULAS PRESCRIBED FOR DENATURATION OF ALCOHOL, THE INDUSTRIAL PURPOSES FOR WHICH THE ALCOHOL IS USED, AND THE QUANTITIES WITHDRAWN FROM DENATURING PLANTS, YEAR ENDED JUNE 30, 1926—Continued

Formula No. and composition	Authorized for use in the manufacture of—	Wine gallons
<i>Specially denatured alcohol—Continued</i>		
To every 100 gallons of ethyl alcohol, add—Continued.		
(33a) 13 pounds erythrosin.....	Incorporating certified color in food products, no alcohol to appear in the finished product when prepared for use.	
(24) 5 gallons of tetrachlorethane.....	Artificial silk.....	4,683.45
(35) 35 gallons of ethyl acetate.....	Acetoparamidophenolsol and candy glaze.....	20,561.00
(35a) 5 gallons of ethyl acetate.....	Pectin; ethyl acetate.....	486,335.15
(36) 3 gallons of stronger ammonia water, U. S. P.....	Shaving cream.....	189,868.18
(37) 45 ounces eucalyptol, U. S. P.; 30 ounces thymol, U. S. P.; and 20 ounces menthol, U. S. P.....	Antiseptic solutions and lotions for external purposes.....	461,423.12
(37a) 5 pounds of U. S. P. menthol; 10 pounds of U. S. P. camphor.....	do.....	177.40
(38) 10 pounds of any one of the following: Methyl salicylate, U. S. P. Oil of wintergreen, U. S. P. Oil of cassia, U. S. P. Oil of cloves, U. S. P. Oil of peppermint, U. S. P. And 5 gallons of a water solution of 60 ounces of zinc chloride, U. S. P.....	Mouth washes and dentifrices.....	13,685.79
(38a) 5 ounces menthol crystals, U. S. P.; 9 ounces emetine hydrochloride, U. S. P.; and 16 pounds benzoic acid, U. S. P.....	Dentifrices.....	1,890.03
(38b) A total of 10 pounds of any of the U. S. P. oils and substances listed below, provided that not less than 2½ pounds of any one be used: Oil of wintergreen. Methyl salicylate. Oil of cloves. Oil of peppermint. Oil of cassia. Oil of eucalyptus. Oil of rosemary. Oil of lavender. Oil of thyme. Thymol. Menthol crystals. Oil of sassafras. Eucalyptol. Phenol. Camphor. Safrol. Volatile oil mustard. Oil of turpentine. Oil of citronella, pure.....	Mouth washes and dentifrices; lotions for external purposes.....	64,979.44
(38c) 160 ounces menthol, U. S. P.; 1.25 gallons solution formaldehyde, U. S. P.....	Dentifrices.....	11,489.00
(38d) 40 ounces of menthol, U. S. P., and 2.5 gallons of formaldehyde, U. S. P.....	Mouth washes and dentifrices.....	1,331.00
(38e) 5 gallons of fluid extract ipecac, U. S. P., or 40 pounds of ipecac, U. S. P.....	do.....	1,665.04
(39) 9 pounds sodium salicylate, U. S. P., 1.25 gallons N. F. fluid extract quassa, and 1 gallon of either acetone, U. S. P., or isopropyl alcohol. Alternative—9 pounds salicylic acid permitted in lieu of this quantity of sodium salicylate.....	Barbers' supply preparations.....	356,740.41
(39a) 60 ounces of any one of the following U. S. P. alkalis or salts: Quinine, quinine bisulphate, quinine hydrochloride, cinchonidine, or cinchonidine sulphate, and 1 gallon of either acetone, U. S. P., or isopropyl alcohol.....	do.....	1,303,900.45

TABLE 67.—FORMULAS PRESCRIBED FOR DENATURATION OF ALCOHOL, THE INDUSTRIAL PURPOSES FOR WHICH THE ALCOHOL IS USED, AND THE QUANTITIES WITHDRAWN FROM DENATURING PLANTS, YEAR ENDED JUNE 30, 1926—Continued

Formula No. and composition	Authorized for use in the manufacture of—	Wine gallons
<i>Specially denatured alcohol—Continued</i>		
To every 100 gallons of ethyl alcohol, add—Continued.		
(39b) 2½ gallons of diethylphthalate C ₄ H ₄ (CO ₂ C ₂ H ₅) ₂	Perfumes, toilet waters, barbers' supplies, and lotions. High-grade perfumes and toilet waters containing not less than 2 per cent by weight of essential oils, or their equivalent in perfume materials.	6,845,286.43
(39c) 1 gallon of diethylphthalate.....	Bay rum and lotions for external purposes.....	398,337.93
(39d) 50 ounces quinine sulphate, U. S. P., or 200 ounces, avoirdupois, sodium salicylate, U. S. P., and 1 gallon oil of bay, N. F.....	do.....	6,912.89
(40) 3 ounces brucine sulphate and 0.5 gallon of either acetone, U. S. P., or isopropyl alcohol.....	Perfumes and toilet preparations.....	3,061,178.56
(41) 20 pounds menthol crystals, U. S. P.....	Solid confections and lozenges.....	1,614.90
(42) 80 grams potassium iodide, U. S. P., and 109 grams red mercuric iodide, U. S. P.....	Sterile-surgical ligatures.....	84,477.89
(43) 30 pounds methyl salicylate, U. S. P.....	Emulsions which contain no alcohol in the finished products. Dikote solution; spirit varnishes, varnish removers, and in similar preparations, preparation of carbon eliminators in oil burners.	612.22
(44) 10 gallons of normal butyl alcohol.....	do.....	18,283.90
(45) 300 pounds of rosin shellac.....	Candy glaze.....	12,928.70
(46) 25 fluid ounces phenol, U. S. P., and 4 fluid ounces oil of wintergreen or methyl salicylate, U. S. P.....	An antiseptic, sterilizing, and bathing alcohol for use by visiting nurse associations, public nursing associations, clinics, and dispensaries, exclusively.	455.70
(47) 7 gallons fluid extract of arnica flowers, National Formulary, third edition.....	Liniments and lotions for external purposes.....	38,554.54
Total.....		39,402,445.26

* Regulation 60, revised March, 1924, effective May 1, 1924, provides that "H" class permits are continuous and need not be renewed. The figures in total represent the number of "H" class permits issued prior to July 1, 1925, which are still in force by virtue of the above provision of Regulation 60.

Playing card.....	41,995,800	4,199,580.00
Documentary.....	14,189,080	27,155,959.00
Stock transfer.....	21,373,944	17,103,350.00
Future delivery.....	623,348	4,108,275.00
Wines, cordials, etc.....	650,070	1,664,919.00
Narcotic.....	2,997,150	123,501.25
Order forms for opium.....	790,500	7,905.00
Cigarette tubes.....	500,000	5,000.00
Special tax.....	512,031	5,623,516.90
Total.....	7,751,850,397	455,334,006.26 1/2

TABLE 95.—COST OF PRINTING AND BINDING FOR THE INTERNAL REVENUE BUREAU AND SERVICE, FISCAL YEARS 1925 AND 1926

Classification of work	1925		1926	
	Quantity	Cost	Quantity	Cost
Publications, regulations, decisions, etc.....	1,525,950	\$35,119.04	1,084,350	647,255.08
Blank forms.....	165,132,550	333,475.07	157,473,197	297,451.69
Blank books.....	250	378.23	533	723.07
Letterheads, etc.....	10,674,000	27,705.30	17,148,500	25,487.26
Miscellaneous: Binding, memorandum sheets, etc.....		5,306.97		9,611.32
Total.....		422,103.00		1,375,647.62

¹ This amount covers bills rendered for completed work up to June 30, 1926. On this date the estimated cost of undelivered work at the Government Printing Office, ordered during the fiscal year 1926, was \$35,064.99. This estimated amount, together with the cost of completed work, makes an approximate total expenditure of \$460,612.61 for printing and binding for the fiscal year.

IMPORTANT DECISIONS OF THE FEDERAL COURTS IN INTERNAL REVENUE CASES

ADMINISTRATION AND PROCEDURE

Girard Trust Co. et al. v. United States.—Supreme Court of the United States (46 S. Ct. 229; T. D. 3850.)

Under sections 250 (b), 252, and 1324 (a) of the revenue act of 1921, the date of allowance to which interest is payable on credits and refunds is the date of final approval by the commissioner and not the date when the commissioner first determines that an over-assessment should be made and transmits the schedule to the collector and not the date of final payment.

Under section 1324 of the revenue act of 1921 interest is payable from the date of payment of the tax only where the taxpayer makes a specific protest setting forth in detail the basis and reasons for such protest. Otherwise interest is payable from six months after the date of filing the claim for refund or credit.

Interest is not payable on the discount of 3 per cent allowed for early payment by section 1009 of the revenue act of 1917.

Blair, Commissioner, v. United States ex rel. Birkenstock et al., executors.—Supreme Court of the United States (45 S. Ct. 506; T. D. 3886).

Under section 1019 of the revenue act of 1924 interest on a refund is to be computed to the date on which the commissioner signed the authorization to the disbursing clerk of the Treasury directing him to pay the refund. Where a tax is paid in quarterly installments interest is payable only on the excess over the total amount of the tax and is to be computed on such excess from the date paid.

The decision in *Girard Trust Co. v. United States* (Sup. Ct.) T. D. 3850 followed.

Hayner v. United States.—Court of Claims of the United States (unreported to date; T. D. 3880).

As a prerequisite to a suit to recover internal-revenue taxes, a claim for refund must, under section 281 (b) of the revenue act of 1924, be filed within four years from the time the tax was paid.

When the amount of a deduction claimed for salary by a company is disallowed in part by the Commissioner of Internal Revenue, the individual receiving the salary should, under the provisions of the revenue act of 1918, return the whole as salary and not the part disallowed as a dividend subject only to surtax rates.

Virgil J. Lopez v. United States.—United States Court of Claims (unreported to date; T. D. 3884).

Under section 3226 of the Revised Statutes as amended by the revenue act of 1924, a suit to recover internal-revenue taxes is barred unless brought within five years from the date of payment of the tax or within two years after the disallowance of that part of the claim for refund or credit to which the suit relates.

Tocaway Mills, a corporation, v. United States.—Court of Claims of the United States (unreported to date; T. D. 3805).

A waiver of limitation for the collection of 1917 taxes executed before the enactment of the revenue act of 1921 was continuing, and

the indorsed approval by the commissioner after the passage of the act constituted a consent in writing within the meaning of section 250 (d) so as to permit the assessment and collection of the tax more than five years after the date the return was filed.

Taxes paid can not be recovered in a suit against the United States without a clear showing of a valid claim therefor.

Charles L. Sohr v. United States.—United States District Court, Western District of Pennsylvania (unreported to date; T. D. 3894).

A Federal court is without jurisdiction to determine the correctness of a deficiency found to be due but not assessed where an appeal is pending before the United States Board of Tax Appeals, the jurisdiction of the court depending upon payment of the tax and the filing of a claim for refund as required by statute.

The case of *Blair v. U. S. ex rel. Birkenstock* (46 S. Ct. 506; T. D. 3886) followed.

McDonald Coal Co. v. Lewellyn, Collector.—United States District Court for the Western District of Pennsylvania (9 Fed. (2d) 994; T. D. 3802).

The making of a waiver is not a sufficient compliance with section 281 (e) of the revenue act of 1924 to prevent the running of limitations against a suit by a taxpayer to recover back taxes alleged to be erroneously assessed and collected, where claim for refund for the year 1917 was filed more than four years after the tax was paid and more than five years after the return was due.

J. G. White v. Weiss, collector.—United States District Court, Northern District of Ohio (7 Fed. (2d) 139; T. D. 3742).

A collector of internal revenue is not liable in an action of assumpsit for additional interest claimed to be due on a judgment recovered against him where certificate of probable cause under section 989, Revised Statutes, has issued and the principal amount of the judgment with interest to date of final judgment has been paid.

Interest in internal-revenue tax cases runs to the date of final judgment and not to the date of payment of the judgment.

Lone Star Brewing Association v. United States.—Court of Claims of United States (unreported; T. D. 3778).

A taxpayer can not recover by suit in the Court of Claims an amount offered in compromise of all civil and criminal liability growing out of internal-revenue taxes, after such offer has been accepted, for the reason that the court can not go back of the agreement and open up a transaction which has been closed by act of both parties.

Certiorari denied by Supreme Court (46 S. Ct. 631).

Burrows et al. v. Woodworth, collector.—United States District Court for the Eastern District of Michigan (11 Fed. (2d) 777; T. D. 3900).

A judgment in a suit to recover Federal taxes brought against a collector of internal revenue, or the United States, does not, under the provisions of section 1117 of the revenue act of 1926, carry interest after the entry of final judgment, but interest may be included in the judgment at the rate of 6 per cent from the date of payment of the tax to the entry of final judgment.

A certificate of probable cause filed pursuant to section 989 of the Revised Statutes converts a judgment against a collector of internal revenue into one against the Government.

Intercontinental Rubber Co. v. Ferguson, collector, and the United States.—United States District Court for the District of New Jersey (unreported to date; T. D. 3910).

It is a misjoinder of parties defendant to join a collector of internal revenue and the United States in a suit to recover Federal taxes.

ADMISSIONS AND DUES

Georgine Iselin v. United States.—Supreme Court of the United States (46 S. Ct. 248; T. D. 3846).

A stockholder of the Metropolitan Opera and Real Estate Co. thereby entitled to six tickets of admission to a box in the parterre tier for each performance who sells such tickets is not subject to the tax imposed by paragraph (3) of section 800 (a) of the revenue act of 1918, since the statute contains no specific or general provision referring to taxation of tickets of this character.

The decision of the Court of Claims (59 Ct. Cls. 654; T. D. 3603) reversed.

Masonic Country Club v. Holden, collector.—United States District Court, Western District of Michigan (unreported to date; T. D. 3870).

An amount paid for a subscription to stock of a club, accompanied by an application for a life membership, is taxable under section 801 of the revenue act of 1921 as an initiation fee when the so-called "life membership" is in fact a regular membership.

The tax imposed by section 801 is constitutional as an excise tax and the statute does not impose a direct or property tax.

BANKRUPTCY AND RECEIVERSHIP

Reinecke, collector, v. General Combustion Co., insolvent.—Appellate Court of the First District of Illinois (237 Ill. App. 404; T. D. 3743).

An order of a State court requiring the filing of all claims in receivership on or before a certain date does not apply to the filing of a claim by the United States for unpaid taxes, as such a claim can be filed at any time while the receivership is pending and assets of the estate remain undistributed.

In re Bates Machine & Tractor Co., bankrupt.—United States District Court for the Northern District of Illinois (8 Fed. (2d) 424; T. D. 3762).

Under section 64 (a) of the bankruptcy act, the United States is not bound by a bar order of a referee limiting the time within which claims can be filed against the estate of a bankrupt. Claims may be filed by the United States for taxes at any time before final distribution of the assets and take priority in payment to the extent of undistributed funds at the time when the claim is filed.

A referee is without authority to provide that a payment for taxes shall be in full of all claims of the United States for taxes. It is his duty to allow, disallow, or modify the particular claim.

The case of *Re Anderson* (275 Fed. 397; 279 Fed. 525) distinguished. *United States v. Butterworth-Judson Corporation.*—Supreme Court of the United States (46 S. Ct. 179; T. D. 3825).

Under section 3466 of the Revised Statutes the United States is entitled to priority in the payment of debts due it from an insolvent corporation in the hands of a receiver.

Leo A. Price, receiver, v. United States.—Supreme Court of the United States (46 S. Ct. 180; T. D. 3820).

The word "debts" as used in section 3466 of the Revised Statutes includes taxes, and the United States is entitled to priority in the payment of Federal taxes due it from an insolvent corporation in the hands of a receiver.

CAPITAL STOCK TAXES

Edwards, collector, v. Chile Copper Co.—Supreme Court of the United States (46 S. Ct. 345; T. D. 3857).

The parent company, organized as a holding corporation to finance a subsidiary by issuing its bonds secured by a pledge of the stock of the subsidiary and engaged in doing what it principally was organized to do in order to realize profit, is "doing business" and subject to the capital stock tax imposed by the revenue acts of 1916 and 1918.

Von Baumbach v. Sargent Land Co. (242 U. S. 503; T. D. 2436), followed. *McCoach v. Minehill & Schuylkill Haven R. R. Co.* (228 U. S. 295; T. D. 1847), and *United States v. Emery, Bird, Thayer Realty Co.* (237 U. S. 28; T. D. 2188), distinguished.

ESTATE TAXES

Cleveland Trust Co., executor of McBride v. Routsahn, Collector.—United States District Court, Northern District of Ohio (7 Fed. (2d) 483; T. D. 3471).

Where a donor creates a trust reserving the right to the income for life, with power in the trustee to draw at its discretion on the principal for her support and maintenance, the value of the property transferred was properly included in decedent's gross estate under the provisions of section 402 of the revenue act of 1918.

The estate tax levied by the revenue act of 1918 is not a direct tax and the inclusion in decedent's gross estate of property transferred prior to the passage of the act, although vesting in beneficiaries, is constitutional, as the provisions of the act are retroactive in effect.

The decision of the United States Circuit Court of Appeals for the Sixth Circuit (269 Fed. 321; T. D. 3119) followed.

Edgar Stark, executor of Schmidlapp, et al., v. United States.—United States District Court, Southern District of Ohio (Unreported to date; T. D. 3897).

Where a donor creates a revocable trust reserving to himself the rents and profits during his lifetime or until August 10, 1923, and providing that upon the death of the donor or on August 10, 1923, should the donor be then living, the corpus should be distributed equally between the donor's two sons and the donor dies prior to August 10, 1923, the trust is one intended to take effect in possession or enjoyment at or after death within the meaning of section 402 (c) of the revenue act of 1918, and the value of the trust property shall be included in the gross estate.

The retroactive provision of section 402 (e) of the revenue act of 1918 relating to trusts intended to take effect in possession or enjoyment at or after death is constitutional.

Where an executor joins with him as party plaintiff a trustee under a trust created by the last will and testament in an action to recover back Federal estate taxes paid by the executor there is no mis-

joinder of parties plaintiff, although the trustee was not an indispensable or even necessary party.

In an action to recover Federal taxes it is a misjoinder of parties defendant to sue the Collector of Internal Revenue to whom the tax was paid and the United States of America.

The cases of *Shwab v. Doyle* (269 Fed. 321; T. D. 3119), *Shukert v. Allen* (6 Fed. (2d) 551; T. D. 3729), *McCaugha v. Girard Trust Co.* (11 Fed. (2d) 520; T. D. 3835), followed.

McCaughn, collector v. Girard Trust Co., executor.—United States Circuit Court of Appeals for Third Circuit (11 Fed. (2d) 520; T. D. 3835).

In 1916 Annie Bradford created a deed of trust reserving the income for life and providing that after her death the corpus go to Emma Hays. In 1916 Emma Hays died and the remainder interest in the deed of trust was included in her gross estate for purposes of the Federal estate tax. In 1921 Annie Bradford died and the commissioner included in her gross estate the value of the trust property without deduction for the remainder interest which had been taxed in the estate of Emma Hays. *Held*, that the trust created by Annie Bradford was intended to take effect in possession or enjoyment at or after death within the meaning of section 402 (c) of the revenue act of 1918 and the value of the property was properly included in her gross estate, and that no deduction was allowable under section 403 (a) (2) for the remainder interest taxed to Emma Hays.

United States v. Ayer et al., executors.—United States Circuit Court of Appeals, first circuit (12 Fed. (2d) 194; T. D. 3869).

The United States may maintain an action against an executor to recover estate taxes although no assessment was made within four years as provided by section 1322 of the revenue act of 1921 where the action is brought within five years from the time the tax was due as provided by section 1320 of the revenue act of 1921.

Mary Dean Reed, as executrix v. Howbert, collector.—United States District Court, District of Colorado (8 Fed. (2d) 641; T. D. 3775).

The estate tax levied by the revenue act of 1918 is not a direct tax, but is an excise tax and is constitutional although section 402 (c) includes in the gross estate transfers made prior to the passage of that act and the revenue act of 1916.

Where a decedent prior to the revenue act of 1918 conveys personal property in trust, reserving the income to himself for life, the beneficiaries of the trust have only an equitable, not legal, title and the value of the trust property should be included in decedent's gross estate under section 402 (c) of the act.

Kahn et al., executors, v. Bowers, collector.—United States District Court, Southern District of New York (unreported; T. D. 3821); affirmed, Circuit Court of Appeals, Second Circuit (9 Fed. (2d) 1018).

Where a testator by will creates a trust providing that the residue of the estate shall be held in trust to pay the income to testator's widow during her natural life and in the discretion of the trustees to pay her the whole or any part of the corpus if necessary for her maintenance and support, and after her death the corpus to be paid to certain named charitable corporations, no amount is deductible under section 403 (a) (3) of the revenue act of 1918 from the gross estate of the testator on account of the bequest to charity, as there is no certainty that the bequest will ever take effect.

Frew et al., executors of Nash v. Bowers, collector.—United States District Court for the Southern District of New York (unreported; T. D. 3789).

The estate tax levied by the revenue act of 1921 is not a direct tax, but is an excise tax. It is constitutional although the value of property transferred and vested in the beneficiaries in 1910 is included in the value of the gross estate of the decedent, since the provisions of the act are expressly retroactive in effect and the measure of the tax is reasonable.

Where a donor creates a trust in 1910, reserving the right to the income during his life, the value of the property transferred, although vested in the beneficiaries, was properly included in decedent's gross estate under the provisions of section 402 (c) of the revenue act of 1921.

GIFT TAX

John W. Bladgett v. Charles Holden, collector.—United States District Court Western District of Michigan (41 Fed. (2d) 180; T. D. 3838).

The gift tax imposed by section 319 of the revenue act of 1924 is an excise tax upon the transmission or transfer of property, and, not being a direct tax, is constitutional though not apportioned.

Congress has the power to give tax laws retroactive effect, and, the retroactive provisions of the gift tax do not violate the fifth amendment. That the tax applies to past transactions, thus preventing a shifting of the burden, does not make it a direct tax.

The gift tax does not deprive the owner of State and municipal bonds of any valuable right, since he can still sell, keep, pledge, and collect interest and principal when due without being subject to the excise tax, and does not impair the exercise of the governmental powers of the States.

No burden is cast by the gift tax law upon the power of the States to regulate gifts, but when a gift has become a completed transaction the right to impose an excise attaches.

INCOME AND EXCESS PROFITS TAX

Edwards, collector v. Douglas et al., executors of James Douglas.—Supreme Court of the United States (269 U. S. 204; T. D. 3797).

The word "surplus" means the net assets of a corporation in excess of all liabilities, including its capital stock. A surplus is "paid-in" where the stock is issued at a price above par and is "earned" where it is derived wholly from undistributed profits. As used in section 31 (b) of the revenue act of 1916, the term "surplus" means that part of the surplus which was derived from profits which, at the close of earlier annual accounting periods, were carried into the surplus account as undistributed profits. The term "undivided profits" means profits which have neither been distributed as dividends nor carried to surplus account upon the closing of the books, that is, current undistributed earnings.

The general aim of the revenue acts of 1916 and 1917 was to make the dividend, in whatever year paid, bear the tax rate of the year in which the profits of which it was a distribution had been earned and, for this purpose, to treat as a unit the profits of the whole tax year.

The phrase "most recently accumulated undivided profits or surplus" as used in section 31 (b) includes current earnings of the year in which the dividends are paid and where current earnings are sufficient to cover the dividends paid in that year, the dividends are conclusively presumed to have been paid out of those earnings and are taxable to the distributee at the rates prescribed for the year in which such profits or surplus were accumulated by the corporation.

United States v. Robbins et al., executors.—Supreme Court of the United States (269 U. S. 315; T. D. 3817).

Under the decisions of the Supreme Court of California the rule is established that the wife has a mere expectancy in community property while living with her husband.

Even assuming that the wife has an interest in the community income, the husband is subject to Federal income tax upon the whole income from the community property and the filing of separate income-tax returns by husband and wife is not warranted.

United States v. P. Chauncey Anderson et al., etc., and United States v. The Yale & Towne Manufacturing Co.—Supreme Court of the United States (269 U. S. 422; T. D. 3839).

Where a taxpayer keeps its accounts upon an accrual basis and sets up a reserve during the year 1916 for the munitions manufacturer's tax levied by the revenue act of 1916, the munitions tax should be taken as a deduction in the income-tax return for the year 1916, as "accrued," and not in the return for the year 1917 when the tax was "paid."

Section 12 (a) of the revenue act of 1916 provides for the keeping of books and the filing of returns upon a receipts and disbursements basis, and section 13 (d) of the act provides for the keeping of books and the filing of returns upon an accrual basis unless the latter does not reflect true net income. Under section 13 (d) taxpayers must file their returns upon an accrual basis in accordance with their method of bookkeeping, and may not file returns upon a mixed basis of receipts and disbursements as to some items and accrual as to other items, as such a return would not reflect true net income. T. D. 2433, interpreting section 13 (d), was in conformity with the purpose and intent of the law.

Under sections 12 (a) and 13 (d) of the revenue act of 1916 a corporation which made its tax return and kept its books of account on an accrual basis by deducting from gross income all losses and expenses accruing during the year and are applicable to process of earning income, whether immediately payable or not, was required to deduct such items, including a reserve for taxes, in the year of accrual rather than when paid in order to reflect true income.

Findings of the Court of Claims that a corporation kept its books and made its returns on basis of accruals and reserves to meet liabilities instead of a receipts and disbursements basis is conclusive on Supreme Court, and the burden of proof is upon the taxpayer seeking to recover the tax to prove facts establishing the invalidity of the tax.

The case of *United States v. Woodward* (256 U. S. 632; T. D. 3195) distinguished.

United States v. Mitchell et al., executors.—Supreme Court of the United States (45 S. Ct. 418; T. D. 3865).

Where the income tax return of an estate is filed upon a cash receipt and disbursement basis the Federal estate tax is only deduct-

ible under section 214 (a) (3) of the revenue act of 1918 from gross income of the estate for the year in which paid.

Under section 214 (a) (3) of the revenue act of 1918 the inheritance tax imposed by the laws of Texas is deductible from gross income of the estate for the year in which paid.

United States v. Anderson et al. (269 U. S. 422; T. D. 3839) followed. *United States v. Woodward* (256 U. S. 632; T. D. 3195) distinguished.

Burk-Waggoner Oil Association v. Hopkins, Collector.—Supreme Court of the United States (269 U. S. 110; 45 S. Ct. 48; T. D. 3790).

As used in the revenue act of 1918 the term "corporation" includes associations and joint stock companies and the term "partnership" refers to ordinary partnerships. Unincorporated joint stock associations which conduct their business in the general form and mode of procedure of a corporation are taxable as corporations although technically such associations are partnerships under the law of the State where organized.

Congress has the constitutional power to tax as a corporation an unincorporated association which transacts its business as if it were incorporated, and the power of Congress is not affected by the fact that, under the law of that particular State, the association can not hold title to property, or that its shareholders are individually liable for the association's debts, or that it is not recognized as a legal entity.

The case of *Hecht v. Malley* (265 U. S. 144) followed.

United States v. Boston Insurance Co.—Supreme Court of the United States (269 U. S. 197; T. D. 3792).

A reserve for accrued but unsettled loss claims required by the State superintendent of insurance as a condition precedent to doing business is not a "reserve required by law" within the meaning of section 12 (a) second of the revenue act of 1916, and a fire and marine insurance company is not entitled to deduct the net addition to such a reserve in computing its net income for Federal taxation.

The case of *McCoach v. Insurance Co. of North America* (244 U. S. 585; T. D. 2501) is followed, and the case of *Maryland Casualty Co. v. United States* (251 U. S. 342; T. D. 3013) is distinguished.

New York Life Insurance Co. v. Edwards, collector.—Supreme Court of the United States (46 S. Ct. 436; T. D. 3872).

Overpayments of premiums by preferred dividend policyholders in 1912, which were ascertained in 1913 and added to the amount held for future distribution, are not deductible from income for the year 1913 under Section 11 G (b) of the act of 1913 as an amount paid back or credited to an individual policyholder within the year.

Additions to a fund for the purpose of amortizing bonds purchased at a premium are not deductible as a loss sustained within the year under the provisions of Section 11 G (b) of the act of 1913 since no loss is ascertainable until the bonds are sold or paid off.

The estimated value on December 31, 1913, of future premiums, which were waived on policies after proof of total or permanent disability, is not deductible as a net addition to a reserve required by law although required by the State superintendent of insurance to be reported and carried as a liability.

A special fund required by the State superintendent of insurance to meet unreported losses of policyholders who died during the calendar year but whose deaths were not reported before the end of

the year, is not deductible as a net addition to a reserve required by law as the item was not reserved from premiums to meet policy obligations at maturity although it represented a liability.

Additions to a fund set aside to provide for payment of annuities to former soliciting agents of the company are not deductible as a net addition to a reserve required by law, as compensation of soliciting agents has no relation to the reserve held to meet maturing policies.

Walter L. Marr v. United States.—Supreme Court of the United States (268 U. S. 536; T. D. 3755).

Where stockholders of a corporation organize a new corporation in another State to take over the business and assets of the old corporation, stockholders of the old corporation exchanging their stock for stock in the new corporation on the basis of one share of common stock for five shares of common and one share of 7 per cent preferred for one and one-third shares of 6 per cent preferred, a different proportional interest, and the old corporation is thereupon dissolved, income is realized by stockholders under the provisions of the revenue act of 1916 to the extent that the stock received in the new corporation was greater in value than the cost of the stock of the old corporation.

Where stockholders of an existing corporation organize a new corporation under the laws of another State with a larger and different capitalization of preferred and common stock to take over the entire business and assets and existing surplus of the old corporation, the new corporation is a separate and distinct corporate entity and the exchange of stock for stock results in taxable income being received by stockholders.

United States v. Phellis (257 U. S. 156, T. D. 3270); *Rockefeller v. United States* (257 U. S. 176, T. D. 3271); *Cullinan v. Walker* (262 U. S. 134, T. D. 3508) followed. *Eisner v. Macomber* (252 U. S. 189, T. D. 3010); *Weiss v. Stearn* (265 U. S. 242, T. D. 3609) distinguished.

Metcalf and Eddy v. Mitchell, administratrix.—Supreme Court of the United States (46 S. Ct. 172; T. D. 3824).

The fees of consulting engineers professionally employed under contract by a State or local subdivision with reference to proposed water supply and sewage disposal systems are not exempt from Federal income tax under section 201 (a) of the revenue act of 1917 as the engineers were independent contractors and not officers or employees of a State or local subdivision.

"Office" is a public station conferred by the appointment of government and embraces the idea of tenure, duration, emolument, and duties fixed by law. The term "officer" is one inseparably connected with an office. The use of judgment and discretion in the performance of a contract and liberty of action excludes the control or right of control by the employer which characterizes the relation of employer and employee and differentiates the employee or servant from the independent contractor.

What instrumentalities of either a State or the Federal Government are exempt from taxation by the other can not be stated in terms of universal application but those agencies through which either government immediately and directly exercises its sovereign powers are immune from the taxing power of the other. Any taxation by

one government of the salary of an officer of the other, or the public securities of the other, or an agency created and controlled by the other, exclusively to enable it to perform a governmental function, is prohibited, but taxation by the Federal Government of the income of one who is neither an officer nor employee of government and whose relation to it is that of contract, under which there is an obligation to furnish service, is not a tax imposed upon an agency of government. Exemption from Federal taxation is not established by showing that income is received as compensation for services rendered under a contract with the State.

Keith, Collector v. Johnson, administratrix.—Supreme Court of the United States (46 S. Ct. 415; T. D. 3864).

Under section 5 (a) third of the revenue act of 1916, the transfer tax imposed by the laws of the State of New York is deductible from gross income of an estate for the year in which paid.

The Supreme Court will follow the decisions of the State courts as to the meaning and proper application of the State transfer tax law.

United States v. Perkins (163 U. S. 625) and *Home Trust Co. v. Law* (204 App. Div. 590; 236 N. Y. 607) followed. *New York Trust Company v. Eisner* (256 U. S. 345; T. D. 3267) distinguished.

Bowers, Collector v. Kerbaugh-Empire Co.—Supreme Court of the United States (46 S. Ct. 449; T. D. 3881).

Income, within the meaning of the sixteenth amendment, is not received when, by reason of the diminution in the value of German marks, a loan of marks is repaid in marks for a less amount in terms of dollars, where the money borrowed was lost and the result of the whole transaction was a loss. The mere diminution of loss is not gain, profit, or income.

C. F. Routzahn, Collector, v. F. H. Mason, United States Circuit Court of Appeals for the Sixth Circuit (unreported to date; T. D. 3902).

The words "distribution made" as used in section 31 (b) of the revenue act of 1917 mean "dividends paid," and the date of payment of the dividend and not the date of declaration determines the year in which a dividend should be taxed to a stockholder.

In construing the phrase "most recently accumulated" profits, the entire taxable year should be taken as a unit and the phrase applied to profits at the end of the year during which the income was received.

The case of *Douglas v. Edwards* (269 U. S. 204; T. D. 3797) followed.

Nelson B. Updike et al. v. United States.—United States Circuit Court of Appeals, Eighth Circuit (8 Fed. (2d) 913; T. D. 3815).

The revenue act of October 3, 1917, which is retrospective as of January 1, 1917, is constitutional and its provisions are applicable to a corporation which was in existence during a part of the year 1917, although the corporation was dissolved and distributed its assets to stockholders prior to the passage of the act.

A corporation which was in existence during the year 1917, but was dissolved prior to the passage of the act of October 3, 1917, must file an income-tax return and excess-profits tax return as provided by the act of October 3, 1917, covering the period from January 1, 1917, to the date of its dissolution.

Where the assets of a corporation are distributed to its stockholders on dissolution, the stockholders are liable under the trust-fund doctrine to the extent of assets received on distribution for taxes due and unpaid by the corporation.

Where a corporation was in existence during the year 1917 but was dissolved prior to the passage of the act of October 3, 1917, the failure to file a return under the provisions of that act removes the bar of statute of limitations provided by section 250 (d) of the revenue act of 1921 limiting a suit by the United States to recover unpaid taxes to five years from the date the return was filed, and the filing of returns under the provisions of the revenue act of 1916 and the act of March 3, 1917, in the case of a corporation dissolved in July, 1917, is not a compliance with the provisions for filing a return under the act of October 3, 1917.

The decision of the District Court (1 Fed. (2d) 550; T. D. 3654) affirmed.

Ernest H. Lyons v. Reinecke, collector.—United States Circuit Court of Appeals for the Seventh Circuit (10 Fed. (2d) 3; T. D. 3800).

The salary of experts employed by the board of local improvements of the city of Chicago in connection with street improvement is not exempt from Federal taxation as street improvements is not the exercise of a governmental function but is a quasi private, corporate, and ministerial duty exercised for the advantage of the municipal locality and its inhabitants.

John C. Noel, collector, v. John H. Parrott.—United States Circuit Court of Appeals for the Fourth Circuit (unreported to date; T. D. 3908).

A distribution of surpluses to officers of a corporation pursuant to resolutions and a sale by stockholders of their shares of stock, held taxable as income and not exempt as a gift within the meaning of section 213 (b) (3) of the revenue act of 1918.

Walker et ux v. Hopkins, collector.—United States Circuit Court of Appeals for the Fifth Circuit (12 Fed. (2d) 262; T. D. 3854).

A stock dividend does not affect the earnings and surplus of a corporation and is not a distribution of profits. Where a stock dividend was declared in 1917 which it was claimed so reduced earnings and surplus accumulated after March 1, 1913, as to make a cash dividend declared in 1918, a distribution of surplus acquired prior to March 1, 1913, the cash dividend is taxable to stockholders under section 201 of the revenue act of 1918 as a distribution of earnings and profits accumulated since March 1, 1913.

Eisner v. Macomber (252 U. S. 189; T. D. 3010), followed.

United States v. Kemp et al., former stockholders.—United States Circuit Court of Appeals, Fifth Circuit (12 Fed. (2d) 7; T. D. 3858).

Stockholders of a dissolved corporation are liable for taxes due from the corporation to the extent of assets received on dissolution.

A suit by the United States against stockholders of a dissolved corporation to recover taxes due from the corporation is not barred by section 250 (d) of the revenue act of 1921, although begun after five years from the date the return was filed where an unlimited waiver on behalf of the dissolved corporation was executed by its former president and secretary prior to the expiration of the five-year

period and assessment of the tax was made and suit was begun within the period of limitations as extended by the waiver.

Under the provisions of the revenue acts of 1917 and 1918, the regulations of the Treasury Department requiring a taxpayer in valuing inventories to use as a basis either cost or market price, whichever is lower, are reasonable, fair, and within the authority of the commissioner, and a taxpayer can not value his inventory at market if market is higher than cost.

Weiss v. United States.—Court of Claims of the United States (unreported to date; T. D. 3859).

Where stockholders of a corporation organized prior to March 1, 1913, organize a new corporation in another State to take over the business and assets of the old corporation, stockholders of the old corporation exchanging their stock for a greater number of shares of stock in the new corporation, income is realized under the provisions of the revenue act of 1916 by stockholders to the extent that the market value of the stock received in the new corporation exceeded the March 1, 1913, value of the stock of the old corporation.

United States v. Phellis (257 U. S. 156; T. D. 3270); *Cullinan v. Walker* (262 U. S. 134; T. D. 3508); *Marr v. United States* (268 U. S. 536; T. D. 3755) followed. *Weiss v. Stearn* (265 U. S. 242; T. D. 3609), distinguished.

D'Olier v. United States.—Court of Claims of the United States (unreported to date; T. D. 3855).

Where a partnership keeping its books and filing returns upon an accrual basis takes over the assets and assumes the liabilities of a prior partnership, as of May 1, 1917, and the partners of the new partnership thereupon make withdrawals in excess of income earned, invested capital should first be reduced by the estimated excess-profits taxes due and accrued, and this amount should be further reduced by the excess of the withdrawals over income.

United States v. P. Chauncey Anderson et al. and *United States v. Yale & Towne Manufacturing Co.* (Sup. Ct.), T. D. 3839, followed.

Frederick Warne & Co. (Ltd.) v. United States.—Court of Claims of the United States (unreported to date; T. D. 3895).

The excess-profits tax of a foreign corporation should be computed under the provisions of sections 327 and 328 of the revenue act of 1918 without the application of the provisions of section 302.

Malleable Iron Range Co. v. United States.—United States Court of Claims (unreported to date; T. D. 3909).

Where books are kept upon an accrual basis the amount of an adverse judgment by a lower court can not be accrued and deducted as a liability in the year in which the judgment is rendered if an appeal is taken to the appellate court, the liability being contingent and not fixed until the case is decided on appeal.

Auburn & Alton Coal Co. v. United States.—Court of Claims of the United States (unreported to date; T. D. 3823).

The loss resulting from a sale by a corporation of its capital assets, consisting of coal mines, mining rights, equipment, and other property, is not deductible as a "net loss" under the provisions of section 204 (a) of the revenue act of 1918 because it is not a loss resulting from the operation of a business regularly carried on within the meaning of subdivision (1), since the sale results in a suspension of business, and is not within the meaning of subdivision (2) because

it is admitted that the property was not acquired for the production of articles contributing to the prosecution of the present war.

The definition of a "net loss" in section 204 of the revenue act of 1921 can not control the construction of that term as used in the revenue act of 1918.

Samuel J. Kornhauser v. United States.—Court of Claims of the United States (unreported to date; T. D. 3831).

A taxpayer is not entitled to deduct as a business expense under section 214 (a) of the revenue act of 1918 amounts expended in the defense of a suit brought by a former law partner for an accounting, such sums being a personal expense within the meaning of section 215.

Silvertown Motor Co. (Inc.) v. United States.—Court of Claims of the United States (unreported to date; T. D. 3882).

A corporation may not deduct as a bad debt or a loss an indebtedness created by withdrawals of its sole stockholder on the theory of separate entities where the amounts withdrawn were not dividends and were carried as an account receivable during the year in question and were not charged off as a bad debt until the following year.

Clement H. Betts v. United States.—Court of Claims of the United States (unreported to date; T. D. 3836).

Upon the purchase of an interest in a going business, good will can not be separated from the tangible assets and considered as a gift exempt from tax under section 4 of the revenue act of 1916, since the purchase of an interest in a business includes as an incident thereto an interest in the good will, and the gain derived from a sale of the entire business includes a sale of good will and is measured by the difference between the cost and selling price.

The commissioner's conclusion upon facts found by him is not conclusive on the Court of Claims, which has jurisdiction in suits to recover internal-revenue taxes both to find the facts and apply the law.

Charles L. Cotterman v. United States.—Court of Claims of the United States (unreported to date; T. D. 3896).

A citizen of the United States domiciled in the Philippine Islands and deriving his income exclusively from property and investments in the Philippine Islands is subject to income tax under the provisions of the revenue act of 1918.

The case of *Cook v. Tait* (265 U. S. 47; T. D. 3436 and T. D. 3594) followed.

American Telegraph & Cable Co. v. United States.—United States Court of Claims (unreported to date; T. D. 3799).

Where a corporation leases its property under an agreement whereby the lessee agrees to pay the rent direct to the stockholders of the lessor, the amounts so paid are the income of the lessor corporation.

The Hubbard-Ragsdale Co. v. Charles M. Dean, collector (unreported to date; T. D. 3904).

A corporation engaged in buying and selling livestock upon commission but not engaged in trading on its own account where all of the stockholders, with one partial exception, devoted their entire time to the business, is not entitled to personal-service classification under section 200 of the revenue act of 1918, since the use of capital in the sense of material wealth was a necessary element in the conduct of the business, the investment of the stockholders was kept as

liquid working capital, and credits was given to and extended by the plaintiff to its customers.

Cotton Hotel Co. v. Bass, collector.—United States District Court for the Western District of Texas (7 Fed. (2d) 900; T. D. 3740).

The definition of a "personal service corporation" contained in section 200 of the revenue act of 1918 has three essentials, all of which must be present in order to be entitled to personal-service classification, viz: (1) The income must be ascribed primarily to the activities of the principal owners or stockholders; (2) who are themselves regularly engaged in the active conduct of the affairs of the corporation; (3) and in which capital is not a material income-producing factor.

The word "capital" embraces all the property used in the business, including money, and a lease of a building for a term of years is property and is "capital" as used in section 200 of the revenue act of 1918.

A corporation engaged in the operation under lease of a hotel having the value of \$500,000 and expending \$33,000 for furnishings and equipment is not entitled to personal-service classification within the meaning of the revenue act of 1918, as capital is a material income-producing factor.

The Motteson Co. v. Willcuts, collector.—United States District Court, District of Minnesota (12 Fed. (2d) 447; T. D. 3844).

A corporation to be entitled to personal-service classification under section 200 of the revenue act of 1918 must meet all three requirements of the statute, and where some of the stockholders are not regularly engaged in the active conduct of the affairs of the company personal-service classification should be denied.

George Langstaff v. Lucas, collector.—United States District Court, Western District of Kentucky (9 Fed. (2d) 691; T. D. 3793).

Where an existing corporation having on hand an accumulated surplus is dissolved and all of the assets, including the surplus, are transferred to a partnership under an agreement that the surplus shall not be distributed, the dissolution of the corporation thereby distributes to stock holders the amount of the surplus.

The distribution of the surplus by dissolution of the corporation results in income to the stockholders subject to both normal and surtax rates as a liquidating dividend under section 201 (c) of the revenue act of 1918 and is not an ordinary dividend within the meaning of section 201 (a) of the act.

Affirmed, Circuit Court of Appeals, Sixth Circuit, on June 30, 1926.

Eva F. Warner v. Walsh, collector.—United States District Court for the District of Connecticut (10 Fed. (2d) 155; T. D. 3822).

Where a decedent by will bequeathed certain securities to trustees, directing the payment from the income and interest the sum of \$50,000 annually for life to his widow and providing that if the income was insufficient, then payment be made out of the corpus, the amounts received by the widow are taxable income and are not exempt, under section 1200 of the revenue act of 1917, amending section 4 of the revenue act of 1916, and section 213 (b) (3) of the revenue act of 1918, as property acquired by gift, bequest, devise or descent.

The case of *Irwin, collection, v. Gavit* (268 U. S. 161; T. D. 3710) followed.

M. Fowler v. United States and Mrs. Darlic Fowler v. United States.—United States District Court, Northern District of Texas (11 Fed. (2d) 895; T. D. 3879).

In computing the surtax under section 211 (a) and (b) of the revenue act of 1918 on the profit arising from the sale of mines, the method proscribed by article 13 of Regulations 45 should be followed.

Lee Hardware Co. v. United States.—United States District Court, District of Kansas (unreported to date; T. D. 3883).

Invested capital must be determined by deducting from earned surplus depreciation sustained on the basis of actual cost of buildings without offsetting appreciation in the value of the buildings.

Labelle Iron Works v. United States (256 U. S., 377; T. D. 3181).

Milton Dairy Co. v. Willcuts, collector.—United States District Court for the District of Minnesota (8 Fed. (2d) 178; T. D. 3751).

Undistributed net earnings for a given year do not constitute earned surplus or undivided profits so long as there is an unprovided for debit item appearing on the books of the corporation.

Chattanooga Savings Bank, administrator of Key, v. Brewer, collector.—United States District Court Eastern District of Tennessee (9 Fed. (2d) 982; T. D. 3796).

Where a corporation has on hand a surplus against which the stockholders make unauthorized withdrawals during the taxable year and in a subsequent taxable year the board of directors duly pass a resolution distributing the surplus and declaring the withdrawals as dividends, the withdrawals are income to the stockholders for the year in which received and not for the year in which authorized by the board. Unauthorized withdrawals by stockholders held not a loan from the company to stockholders but a distribution within the meaning of section 201 (a) of the revenue act of 1918.

United States v. Capps Manufacturing Co.—United States District Court for the Northern District of Georgia (9 Fed. (2d) 79; T. D. 3768).

Section 250 (d) of the revenue act of 1918 was superseded by section 250 (d) of the revenue act of 1921, which extended the time for suit by the United States for Federal taxes due under the revenue act of 1918 to five years from the date the return is filed.

Where a new corporation is organized and acquires all of the outstanding stock of an existing corporation taking over all of the assets of the latter corporation without provision for the payment of Federal taxes, the new corporation is liable in a suit by the United States under the trust-fund doctrine for taxes due and unpaid by the old corporation to the extent of the assets acquired.

Thomas Cronin Co. v. Lewellyn, collector.—United States District Court for the Western District of Pennsylvania (9 Fed. (2d) 974; T. D. 3795).

A taxpayer, who chooses the completed contract method of determining profits on long-term road contracts in accordance with article 36 of the Regulations 45 and 62, must include such profits as income for the year in which the work is completed, although the five-year guaranty period during which the taxpayer was obliged to keep the roads in repair had not expired.

Allegations of payment to and filing of returns with other collectors than the defendant are sufficiently answered by a denial of any liability for such payments or returns.

Under Pennsylvania practice act an averment that the defendant collector, having exhausted all sources of knowledge open to him and from all information received, coupled with his general knowledge of the matter, believes and avers that matters are untrue, is a sufficient affidavit of defense.

Ormsby M. Mitchell v. Bowers, collector.—United States District Court, Southern District of New York (9 Fed. (2d) 414; T. D. 3798).

Where a member of a partnership firm, holding a fifty-one (51) per cent interest, enters into an agreement with his wife to form a subpartnership to share profits and losses on a fifty (50) per cent basis, the wife does not become a member of the original firm and the total profits on the interest of the firm partner are taxable to him as income.

McDonald Coal Co. v. Heiner, collector.—United States District Court for the Western District of Pennsylvania (9 Fed. (2d) 992; T. D. 3801).

Where a corporation operating under a lease owned by a partnership whose members are stockholders of the corporation and having the same name, holds itself out to the Government as a corporation and files corporation-income and excess-profits tax returns and capital-stock tax returns, pays corporation taxes, both to the Government and to the State, and secures an abatement of taxes by representing itself to be a corporation operating the leases, the income from such operation is properly taxed to the corporation.

Where the members of a partnership become stockholders in a corporation which sues to recover back a tax, the actions of such persons in representing themselves to be a corporation in filing corporate returns and copies of minutes of corporate action, in accepting an allowance under a claim for abatement filed in the name of the corporation, and in certifying the sale and transfer of the partnership property to the corporation, operate as an estoppel against the corporation and prevent its recovering the tax in an action based upon the ground that the income was that of the partnership.

Galatoire Bros. v. Lines, collector.—United States District Court, Eastern District of Louisiana (11 Fed. (2d) 878; T. D. 3852).

Where property is leased for a stipulated cash rental per month, plus one-half of the yearly profits and the furnishing of board and lodging, the amount of profits and the value of board and lodging are not deductible as ordinary and necessary expenses for the taxable year, but are advance rentals, and should be prorated over the term of the lease as a capital expenditure.

A contemporaneous construction given to an act of Congress by the executive officers charged with its enforcement is entitled to great weight. A doubt can not be created, if none exists, for the purpose of deciding a case in favor of the taxpayer.

Fleming v. Bowers, collector.—United States District Court, Southern District of New York (11 Fed. (2d) 789; T. D. 3833).

A Federal court receiver is not an officer or employee of the United States within the meaning of section 201 (a) of the revenue act of 1917, and whether the fees of a Federal court receiver are subject to excess-profits tax under section 200 of the revenue act of 1917 depends upon the time and attention required by and devoted to the duties of the particular receivership.

George L. Shearer v. Anderson, collector.—United States District Court, Southern District of New York (unreported to date; T. D. 3860).

A loss sustained to an automobile maintained for personal use by damage due to the unauthorized use and faulty driving by a chauffeur is not deductible from income of the owner under section 214 (6) of the revenue act of 1918.

The unauthorized use and resulting damage to an automobile by a chauffeur is not a loss arising from theft within the meaning of section 214 (6) of the revenue act of 1918.

Under the rule of ejusdem generis the words "other casualty" used in section 214 (6) of the revenue act of 1918 must be construed as applicable only to casualties of the same general nature or class as those particularly enumerated.

Electric Reduction Co. v. Lewellyn, collector.—United States District Court for the Western District of Pennsylvania (8 Fed. (2d) 91; T. D. 3739).

Where goods are purchased and a trade acceptance is negotiated by the seller but the goods are not delivered to the purchaser, the relation is one of debtor and creditor, and a deduction for income-tax purposes can only be taken under section 234 (a) (5) of the revenue act of 1918 as a "bad debt" in the year in which the amount is charged off the books of the taxpayer, and the deduction can not be taken under section 234 (a) (4) of the revenue act of 1918 as a "loss sustained."

Joseph G. Hitner v. Lederer, former collector.—United States District Court for the Eastern District of Pennsylvania. (Unreported to date; T. D. 3905).

The value of United States Liberty Bonds received as compensation for services to a corporation is taxable income.

INJUNCTION

C. R. Staley v. Hopkins, collector et al.—United States District Court for the Northern District of Texas (9 Fed. (2d) 976; T. D. 3791).

Under the provisions of section 3224, Revised Statutes, an injunction will not lie against a collector of internal revenue to restrain the collection of an income tax legally assessed, although warrant of distraint was levied against a homestead.

Jesse C. McDowell v. Heiner, collector.—United States District Court for the Western District of Pennsylvania (9 Fed. (2d) 120; T. D. 3808).

Under the provisions of section 3224, Revised Statutes, an injunction will not lie against a collector of internal revenue to restrain the collection of fraud penalties, assessed under section 3176, Revised Statutes, as reenacted by the revenue act of 1913, and as amended by the revenue act of 1916 and as amended by section 1317 of the revenue act of 1918.

Congress has the constitutional power to provide that ad valorem additions to the tax as a penalty for filing a false and fraudulent return shall be assessed as a part of the tax and collected by distraint.

The cases of *Lipke v. Lederer* (259 U. S. 557; T. D. 3354) and *Regal Drug Corporation v. Wardell* (260 U. S. 386; T. D. 3422) distinguished.

The Joseph Garneau Co. v. Bowers, collector.—United States District Court for the Southern District of New York (8 Fed. (2d) 378; T. D. 3803).

Under the provisions of section 3224, Revised Statutes, injunction will not lie to restrain the collection of a tax where an appeal has been filed with the United States Board of Tax Appeals and the board has decided that it has jurisdiction because the assessment was made after the enactment of the revenue act of 1924.

Emanus Silk Co. v. McCaughn, collector.—United States District Court for the Eastern District of Pennsylvania (6 Fed. (2d) 660; T. D. 3804).

Under the provisions of section 3224 of the Revised Statutes injunction will not lie to restrain the collection of a jeopardy assessment made prior to the passage of the revenue act of 1924 where claim for abatement is filed after the passage of the act and upon its rejection an appeal is filed with the United States Board of Tax Appeals.

INSURANCE TAX

United States v. New York Life Insurance Co.—United States Circuit Court of Appeals for the Second Circuit (unreported to date; T. D. 3803).

Policies of life insurance containing an indemnity clause for total and permanent disability and double indemnity in the event of death due to accidental causes are subject to a premium tax on the issuance of life insurance policies under section 504 (a) of the revenue act of 1917 and section 503 (a) of the revenue act of 1918, and are also subject to a premium tax on the indemnity features as the issuance of casualty insurance policies under section 504 (c) of the revenue act of 1917 and section 503 (c) of the revenue act of 1918.

LEGACY TAX

Anna Woerishoffer et al., executors, v. United States.—Supreme Court of the United States (269 U. S. 102; T. D. 3794).

Taxes levied by section 29 of the act of June 13, 1898, were "imposed" within the repealing act of April 12, 1902, without assessment before July 1, 1902, as assessment is not a prerequisite to the "imposition" of the tax.

Where residuary legatees were entitled to demand legacies prior to July 1, 1902, the legacies were on that date vested in possession and enjoyment even though, on account of unpaid taxes, attorneys' fees, and administration expenses, the executors did not fully distribute the legacies until after July 1, 1902.

PROHIBITION

Mc-King Products Co. v. Blair, Commissioner of Internal Revenue.—Supreme Court of the United States (46 S. Ct. 544; T. D. 3885).

Decision of commissioner in refusing permits is final when there is sufficient evidence upon which to act, unless his action is clearly arbitrary or contrary to law.

SALES TAXES

J. P. Seeburg Piano Co. v. United States.—Court of Claims of the United States (unreported to date; T. D. 3893).

An automatic piano operated by depositing a coin in a slot is not taxable as a vending machine under paragraph 11 of section 900 of

the revenue act of 1921, the tax on pianos levied by paragraph 4 of section 900 of the revenue act of 1918 having been removed by Congress in enacting the revenue act of 1921.

STAMP TAXES

Trusler v. Crooks, collector.—Supreme Court of the United States (269 U. S. 475; T. D. 3810).

Section 3 of the future trading act is unconstitutional. The alleged stamp tax imposed thereby is not a tax but a penalty and its collection is unlawful.

George D. Provost and Cornelius W. Provost, copartners, v. United States.—Supreme Court of the United States (269 U. S. 443; T. D. 3811).

The stamp tax provisions of the revenue acts of 1917 and 1918 are applicable to a short sale transaction in stock and the tax is payable upon the transfer of the shares from the lender to the borrower who uses them for delivery on the customer's short sale and the transfer and delivery by the borrower to the lender of the certificates for the purchased shares to replace the shares borrowed.

The decision of the Court of Claims (T. D. 3878) affirmed.

TRANSPORTATION TAXES

Delaware, Lackawanna & Western Railroad Co. v. Bowers, collector.—(Unreported to date; T. D. 3816).

Frank messages transmitted by a telegraph company for a railroad company in exchange for passenger and freight services rendered by the railroad company to the telegraph company are not transmitted without compensation and are subject to the tax imposed by section 500 of the revenue act of 1921.

The case of *Western Union Telegraph Co. v. Delaware, Lackawanna & Western Railroad Co.* (282 Fed. 925; T. D. 3869), followed.

The Philadelphia Electric Co. v. United States.—Court of Claims of the United States (unreported to date; T. D. 3871).

Transportation for hire is taxable under sections 500 and 501 of the revenue acts of 1917 and 1918, although rendered by a private carrier not engaged generally in the transportation business and not a common carrier.

City of Wichita Falls, Texas, v. United States.—Court of Claims of the United States (unreported to date; T. D. 3899).

A municipal corporation in legislating to establish and pay for a general sewer system and in adopting the general plan and method to be followed acts in a public capacity, but when it engages in the actual work of construction, the letting of contracts, and the purchase of materials it acts in a ministerial capacity. A city is liable for payment of the transportation tax imposed by section 500 of the revenue act of 1918 upon the transportation of sewer pipe to be used in completing a sewage system.
