

# Interactive Ultra Short Widescreen Projection

Widescreen 60" image from just 39cm away

Widescreen presentations and HD entertainment

Shadow-free images on projection surfaces

Future proof design – 3D-Ready

Bright images, vivid colours – 3200 ANSI Lumens, Native WXGA

Crystal clear images -HDMI connectivity

Plug and play presenting

CR Crestron RoomView® - RJ45 control and monitoring

Secure cable management

Impressive sound quality – integrated 10W speaker

Environmentally friendly design <0.5W standby mode

#### Widescreen 3D Ultra Short Throw Projection and Interactivity

Engage your audience with the interactivity technology built into the 3D,widescreen, EW675UTis. Transform a flat wall or tabletop into a 3D interactive surface without the need for a screen or electronic whiteboard.

This complete solution has everything that's needed to create a collaborative learning or working experience, including projector, WizTeach software, interactive pen and wall-mount\*.

Ideal for almost any room in educational and corporate environments, the EW675UTis makes the most of the available space without the need for costly screens and interactive whiteboards. The specially designed ultra short throw lens produces huge images from an extremely short distance allowing you to stand closer to the screen, preventing shadows and screen glare.

Captivate your audience, increase their learning potential and help improve results with lessons in crystal clear 2D or incredible 3D.

Using the specially designed wall mount\* and clever cable management system the EW675UTis is simple to install. Once in place the many security features ensure the projector is safe and secure.

Designed with you, the presenter, in mind, the EW675UTis with 3200 ANSI Lumens of brightness, incorporates extensive connectivity, plug and play presenting, powerful 10W stereo speakers and Crestron RoomView® control to maintain and monitor the projector over the network. The environmentally friendly EW675UTis has energy saving features including <0.5W standby mode and auto power off saving you both time and money. Our unique Optoma Colour guarantee ensures hassle-free, long-lasting projection.

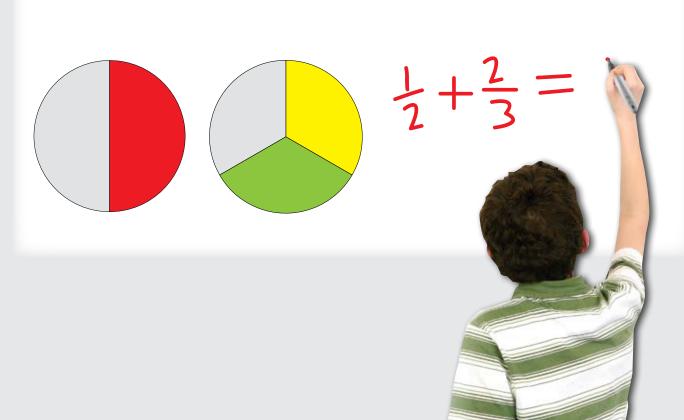

\*OPTIONAL ACCESSORY

## PROJECT & INTERACT

No need for an interactive board

#### INTERACTIVE ULTRA SHORT THROW BENEFITS

2D projection fails to deliver the information needed to ensure	Excite and engage your audience with the latest 3D projection.			
it makes a real impact.	Tried and tested 3D technology proven to improve results.			
	3D projection is vital to creating the best classroom or meeting			
	room environment.			

#### **WIZTEACH**

Enhance your teaching and learning with the WizTeach interactive software. With over 70 individual learning tools and 3000 ready made images designed to work over your browser or any application and available in 36 languages, the WizTeach software gives you everything you need to interact and engage with your audience.

Diverse uses including presentations for business conferences, teaching in education and training for business.

## INTERACTIVE PEN FOR MOUSE CONTROL, DRAWING AND WRITING

Easy to use with all your PC and Mac applications using the intuitive interactive pen.

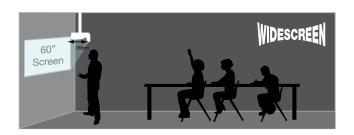

- Left and right click buttons just like your mouse
- Draw and annotate on the projected image using the Wizteach tools
- Easily advance and reverse your presentation slides

#### **ULTRA SHORT THROW LENS**

Position the EW675UTis even closer to the wall so that the light beam doesn't shine into your eyes. Project an impressive 60" diagonal image from just 39cm from the screen. Stand alone or wall mounted the EW675UTis eliminates shadows on the screen and allows you to present with ease.

#### WHY USE AN OPTOMA ULTRA SHORT THROW PROJECTOR?

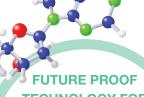

#### **PERFECT FOR TEACHING**

Maximise space in the classroom for teachers and students. The teacher can stand close to the interactive whiteboard without having the intense light from the projector shining directly into their eyes.

#### **UTURE PROOF TECHNOLOGY FOR** THE CLASSROOM

Engage and inspire your students with 3D lessons in Biology, Maths, Geography and many more.

#### **A NEW SOLUTION** FOR INTERACTIVITY

Interactive technology offers tremendous potential for improving the learning process. Teachers and presenters can interact with their on screen material, engaging and involving everyone to bring learning to life.

#### **ENERGY EFFICIENT = ENVIRONMENTALLY FRIENDLY** = SAVE MONEY

Running costs are reduced thanks to reduced power consumption and standby mode <0.5W. When the projector is no longer required it will automatically turn off, saving energy and prolonging the life of the lamp.

#### **DETAILED PROJECTION**

Easy to read text and graphs thanks to the incredibly high native contrast ratios.

#### SECURE V

Kensington Lock, security bar and password protection help secure your projector and act as a theft deterrent.

Customised start-up screen helps identify who the projector belongs to.

Keypad lock prevents unauthorised adjustments and ensures the projector can only be controlled via the remote control or network.

#### **BRILLIANT COLOURS THAT LAST**

Project stunning, vibrant and accurate colour images that won't decay overtime thanks to BrilliantColor™ and DLP® technology.

#### **EASY TO CONTROL AND MONITOR**

Crestron RoomView® software provides a custom configurable interface to monitor, manage and control every projector in every room remotely from any computer.

#### **DISCOVER THE ADVANTAGES OF 3D PROJECTION**

#### **EDUCATION**

Bring the classroom to life. Engage and inspire your students with lessons taught in 3D. Increase your students interest and help them to explore the world, travel through space, see inside the body and bring new ideas to life.

#### **OFFICE**

Grab your colleagues or customers attention by delivering a winning presentation. Modelling costs are eliminated as the product can be brought to life in a virtual projected 3D world.

#### **DISPLAY**

Wow audiences in museums, galleries and shops to give them a 3D experience they really will remember.

#### **HOW DOES 3D WORK?**

Using the inherent speed of DLP® technology, Optoma 3D-Ready projectors can output video and images at an astonishing rate of 120Hz, allowing you to show full screen, full colour, stereoscopic 3D.

The 3D effect is generated by splitting this signal into two standard video streams, one for each eye. Using DLP® Link™ technology, the 3D glasses synchronise with the image on screen to filter each stream to the correct eye. Your brain then combines the two streams to make them jump into life.

#### **WHAT YOU NEED**

- 1. Optoma EW675UTis
- 2. Optoma DLP®-Link™ Glasses
- 3. Quad-buffered graphics card (installed in a PC) and 3D educational software

For more information please visit www.optoma.co.uk/3deducation.aspx

#### THE DIFFERENCE IS WIDESCREEN

The EW675UTis is the perfect companion for widescreen laptops. Your presentations will appear as sharp and detailed as they do on your widescreen laptop in WXGA (1280 x 800). WXGA resolution gives 30% more pixels than XGA.

XGA WXGA

#### CARING FOR THE ENVIRONMENT

The EW675UTis incorporates energy saving features to conserve power and extend the lamp life:

To achieve the maximum 3000hrs lamp life time the projector should be operating in ECO mode and the shut down timer enabled to automatically switch off the projector if it is accidentally left on when no longer required.

Optoma's low energy standby mode significantly reduces power consumption, enabling environmentally friendly power management and lower cost of ownership. It takes less than 10 seconds for the projector to power up and shutdown, saving both time and energy.

We know that improving our products is the best way to reduce our impact on the environment. That's why at Optoma, we design our products to have a long usable life, use fewer materials, ship with the minimum packaging and be free of all possible toxic substances. Naturally, energy efficiency and being recyclable are built in at the design stage. With each new product, we strive towards minimising our environmental impact. For full details of Optoma Project Green please visit our website.

#### BRIGHT, DETAILED & COLOURFUL PROJECTION

Grab your audience' attention with bright, vivid projected images thanks to the BrilliantColor $^{\text{TM}}$  technology incorporated within the EW675UTis.

Once you've purchased an Optoma DLP® projector, we guarantee that the colours compared to other leading technologies will not fade for a minimum of 5 years.

Preset display modes allow you to achieve a perfect image on a variety of surfaces including screens and interactive whiteboards.

#### **CLEAR, FOCUSED IMAGES**

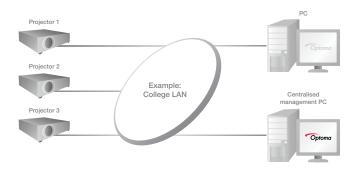

Lessons in the classroom and presentations in the boardroom demand sharp, flawless images. DarkChip3™ technology from Texas Instruments produces a stunning 3000:1 contrast ratio for pin sharp graphics and crystal clear text. Crisper whites, ultra-rich blacks makes images come alive and text easier to read.

#### CRESTRON ROOMVIEW® - NETWORK CONTROL

RoomView® software provides a custom configurable interface to power on/off, monitor, manage and control up to 250 projectors at the same time from any computer.

- Schedule the projectors to power up/down saving time, money and extending the life of the lamp.
- Control and alter the projector settings using a simple web browser page including menu control.
- Send alerts for warning messages.
- Reduce maintenance time by automatically receiving emails for lamp replacements.

Download Crestron RoomView® Express software from: www.crestron.com/getroomview

#### **RS232 CONTROL**

The extensive RS232 command set makes it simple and easy to control the EW675UTis with any control system.

#### **AMX Compatibility - Dynamic Discovery**

Protocol is incorporated into the EW675UTis. This feature allows for easy installation with AMX control systems.

#### HASSLE-FREE PC-LESS PRESENTATION

Enjoy hassle-free presenting with the USB Reader to project a JPEG presentation from a USB flash drive. The Remote Desktop function allows you to present using a wireless mouse and keyboard. You'll get to access everything from your computer remotely on the projection screen!

### MULTIPLE DISPLAY OPTIONS FOR VARIOUS OFFICE AND CLASSROOM NEEDS

The EW675UTis gives you plenty of options to project a great presentation or video on your projector.

- **USB Display** offers the 2-in-1 USB display function using a single cable to manage both the images and mouse controls from your PC device.
- LAN Display offers a cost-effective solution for projection control, monitoring and display.
- Wireless Display keeps cables and wires out of everyone's way with the Mini Wi-Fi Dongle. (optional accessory)

The free downloadable 'Optoma Presenter' software to give you the ability to display information to your projector using a network cable or wireless adaptor. Display presentations and video up to 4-1, 1-8 and partial projection for business presentations, training meetings and educational lessons.

#### **CONNECT WITH EASE**

The EW675UTis easily connects to multiple devices such as computers, laptops, DVD players and games consoles.

#### **TRUE HDMI**

Project crystal clear images using HDMI v1.3 input. Hassle-free projection from a widescreen computer/HD source with a single HDMI cable – no need for separate audio cables.

#### **EASY LAMP REPLACEMENT**

Direct and easy access to the lamp whist the projector is in situ.

#### **AUDIO POWER**

Use a microphone and the powerful built-in 10W speakers to capture your audience attention from anywhere within your classroom or meeting room.

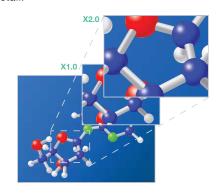

Two audio inputs from individual computer and video devices enable the EW675UTis to function as an audio switcher and volume controller. The convenient audio pass thru feature enables idle projection, even in standby mode to power the external speakers, eliminating the need for complicated and costly additional audio hardware and cabling.

[only compatible with stereo mini-jack]

#### **ENLARGE YOUR IMAGES**

Use the digital zoom feature to explain the projected image in more detail.

#### PERFECT PROJECTION

Quickly adjust misaligned images with vertical keystone correction.

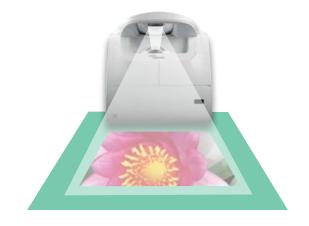

#### **INSTALLATION**

Integrated cable management design ensures security and protection. Fitted with the customised OPCUWM900 wall mount the cables are concealed to ensure a neat, tamper proof installation.

#### **PROJECTION TILTING**

For tabletop use as well as wall and floor projection.
