# What you see, is what you get.

At HeroDogTreats we believe it is our responsibility to be involved in our community.

We support our Troops, the Canadian Service Dog Foundation, and Community Living personnel, to which we entrust our packaging needs. All of our treats are all-natural, chemical and preservative free, from human grade animals, and come from government inspected facilities.

# BRANCH INFORMATION

[www.kanevet.com](http://www.kanevet.com)

**Vision:** To become the leading provider of products and services to our customers in the Canadian animal health market.

**Mission:** To develop a long-term, successful, strategic relationship with our customers and our vendor partners.

**Values:** Service to our customers is our primary duty and the most vital component to our partnered success.

---

Established in 1969 by Dan and Cassy Kane, Kane Veterinary Supplies is a Canadian wholesale distributor and manufactures agent. Kane provides excellence in distribution of the highest quality, cutting edge, value-laden products to the veterinary, pet, agricultural and equine markets across Canada.

Today, Kane has two full-service branches – Edmonton, Alberta and Cambridge, Ontario. Day-to-day inventory consists of over 12,000 items including vet supplies and pharmaceuticals, pet food and toys, animal ID products, and pest control items.

“A large part of our success is due to our diverse product selection – we offer items for the entire animal spectrum,” says Director of Canadian Operations, Steve Olsson. “This diversity is also displayed as a strength in our experienced staff members.”

In October 2007, Kane Veterinary Supplies Ltd. joined the Animal Health International, Inc. family group of companies (who in 2015 joined Patterson Companies Inc.).

**Terms:**

Terms are COD until approved by the Credit Department. Once approved, accounts are Net 30 days from the date of invoice.

All accounts with a past due balance of 31 days or more will be charged a late fee of 2% per month. All accounts, which have balances past due by 45 days or more, shall have their credit privileges suspended or revoked and orders will not be processed until the past due balance is paid in full. We reserve the right to remove any discounts if accounts go past due.

NSF cheques will be assessed a \$25.00 service charge. NSF cheques must be replaced immediately and prior to the release of any new orders with a certified cheque, bank draft or money order which includes the \$25.00 service charge.

Payments can be made by debit, company cheque and/or cash. Personal cheques are not accepted. Credit cards are accepted but may incur additional processing fees. Credit cards may only be used for accounts with current status.

It is to your advantage as well as ours to keep your credit account current.

---

**Ordering:**

Orders can be faxed, phoned or e-mailed.

Please provide the KVS item code number when placing orders.

All pick up orders must be placed a minimum of 4 hours prior to the expected pick up time, and must be picked up before 4:30pm. Our minimum order is \$25.00.

All orders are subject to GST/PST/HST where applicable. All published pricing is subject to change without notice.

---

**Prepaid Requirements:**

In order to obtain prepaid shipping/deliveries on orders shipped to one destination, orders not including taxes must reach our minimum requirements.

Orders may include a combination of pet food and accessories to meet the requirements.

Additional freight surcharges may apply to large or weight sensitive items.

**Shipping / Deliveries:**

All freight policies are subject to change without notice.

After shipments have been accepted by the carrier they become the property of the consignee. Therefore, any problems with the shipment (i.e. damaged or lost merchandise) should be directed towards the carrier within 48 hours. It is very important to count and inspect each piece of your shipment before you sign the transport company's Bill of Lading. It is the only way to ensure the carriers responsibility.

All claims of Kane shortages must be reported within 48 hours of receipt of goods.

---

**Returned Goods Policy:**

You must have the authorization of Kane Veterinary Supplies to return goods prior to shipment or to dispose of damaged product. Please contact our returns department for a return authorization number.

Please enclose a copy of your original invoice with the product you are returning. An itemized list of product(s) being returned and a brief description of why the product is being returned must accompany all returns.

Any product returned for warranty work must have a copy of the bill of sale and a copy of the original invoice.

A minimum 15% recovery fee will be applied to all returns that are sent back due to customer error or out of season products.

Please ship all product returns back prepaid unless Kane's error.

**No Credit will be allowed on the following products:**

- Products unfit for resale due to improper storage, fire or flood damage, breakage, defacement
- Products with price stickers
- Products with broken seals
- Products sold with mention of "No Return"
- Non-dated merchandise over 1 year old
- Discontinued products
- Products manufactured/supplied on special order to customer's specification, except in the case of a manufacturing defect
- Expired or damaged product
- Short dated product (6 months or less) may be returned at a significant restock. For more information, call our returns department

## Our Story

Our story is told by a creator who had a strong desire to design a unique line of dog treats like nothing seen before... a desire to craft a local dog treat, made by local people. With the cookie business in full bloom, there had to be another treat, something different, that the masses were missing. On a very hot, summer night, the Pampered Cheffans were hastily being rotated in the kitchen ovens and, after several failed attempts, the perfect granola batch was created. Many hours went into the pursuit of creating the perfect dog treat. The recipe was a combination of this and that and the flavors were extraordinary. It wasn't long after K9 Granola Factory was born and although we quickly outgrew our small kitchens, our commitment to quality has stayed the same.

As the family business continues to grow, our creator has realized the importance of designing flavors that are not only nutritious but delicious too. We choose the highest quality ingredients and combine them with oats & honey to create fun loving flavors. Granola is not only in the name but our way of life

#### Gorilla Chew - Natural Wood

Gorilla Chews are an all-natural wood chew for dogs, sustainably-harvested and minimally processed to be environmentally friendly products. They are the ideal natural chew alternative to rubber, latex, and nylon chew toys. Gorilla Chews are made from a dense and very hard wood. The characteristically contoured surface is extremely durable and long lasting, making an excellent chew choice for dental and gum care by reducing plaque build-up. Dogs instinctively love to chew wood, sticks, and branches, making Gorilla Chews the perfect solution to engage and entertain dogs for hours of gnawing fun.

#### Beef Tripe

Beef Tripe is a high in protein and low in fat treat suitable for any dog's healthy diet. Our Green Tripe is the stomach lining of a cow which means it has plenty of healthy and all natural digestive enzymes and probiotics. This makes it a great treat for pups with sensitive tummies. Tripe is also great for soothing outdoor allergies and its crunch promotes dental health as your pup can gnaw on them and this helps the scraping down of plaque on teeth. WAG Tripe is grain free and single ingredient which aligns with a pup's physiology.

#### Goat Horn

By the age of 3 up to 80% of dogs develop some degree of dental disease - most commonly tartar buildup. Dental disease destroys the tissue and bone structures in your pup's mouth. Goat Horn is mainly composed of calcium and phosphorous to aid their bone structure. Additionally, by gnawing on a Horn for 30 minutes a day, your dog can scrape away tartar buildup on their teeth by nearly 70%. WAG recommends roughly 30 minutes of supervising chewing at a time, always leave them wanting more! Goats are culled for their meat, and their Horns are generally left to waste to decompose into the ground. WAG acquires them as a byproduct of the processing of their meat. They are boiled to remove any bugs and nasties, wrapped with a label and that's it!

#### Kangaroo Bone

By the age of 3, up to 80% of dogs develop some degree of dental disease - most commonly tartar buildup. Dental disease destroys the tissue and bone structures in your pup's mouth. The marrow in Bones is mainly composed of calcium and phosphorous to aid their bone structure. Additionally, by gnawing on a Bone for 30 minutes a day, your dog is able to scrape away tartar buildup on their teeth by nearly 70%. Kangaroo Bones provide a great bone and meat mix; with Kangaroo meat being one of the leanest meats on the market! As Kangaroo is a unique protein, it has many hypoallergenic properties that are excellent for pups with allergies to Beef or Chicken. Kangaroo is low fat and great for the heart, so it only makes sense that Roo Bones are the way to go!

## 05 - Chain Collars

### Petmate

#### Collar - Chain

Petmate's Mighty Link® Chain collars are great as a training collar when used correctly. Guaranteed against rust, tarnish & breakage, Mighty Link collars are created with nickel & chrome plating for durability. Be sure to keep in mind the weight of the chain in comparison to the size of your dog as a heavy chain will cause smaller dogs to tire quickly. Choose the perfect length by adding 2-3" to the circumference of your dog's neck. To be sure the collar is on correctly, allow the collar to hang down. When looking at your dog, the collar should form a "P" shape.

#### Boot Bed - Balmoral

The Scruffs Balmoral collection is covered with a distinctive tartan, produced from a very durable 600-denier Oxford fabric. This hardwearing fabric is used on the outside of the beds for greater support and durability. The sleep area of each bed is lined with a super-soft plush fabric providing a snug, comfy environment for your dog to dose. The beds are trimmed with faux leather piping and finished with a Scruffs logo. Suitable for most family cars, the trunk bed is an ideal travel accessory. The ribbed sleep area provides comfort for your dog while protecting your trunk from dirt and odor. To use, place the bed on the floor of your vehicle. Before your dog gets in, unroll the beds cover over your car bumper to protect your dogs' legs as they get into the car. Then, simply roll the cover up to form the fourth side of the bed. When the bed is not in use the cover can be stretched across the top of the bed to cover the sleep area, allowing shopping etc. to be stowed without getting dirty.

### Tuffys

#### Tuffy - Mega - Ring - No Stuffing

Tuffy toys are the most durable dog toys on the market! With up to 4 layers of material, our toys are bonded and sewn together for added durability. Most dog toys have just one seam to hold the toy together. Tuffy toys can have up to 7 rows of stitching. Most Tuffy toys include an additional piece of black trim which protects the outside seam and makes the toy even stronger. Our toys are built to last, but keep in mind that no toy is "indestructible". Tuffy toys are designed to be used for interactive play and are not chew toys. Please be a responsible dog owner and only allow your dog to play with the toy under supervision. Do not allow your pet to ingest any portion of the toy. #### Tuffy - Sea Creatures - Killer Whale

We believe that product design is the process of recreating, rethinking and developing a product idea using functionality, ergonomics, and simplicity as our guide. We also believe that product sales are the truest measure of a creation's worth. Adding value to our clients products is always our foremost goal - whether by eliminating manufacturing overhead, reducing time to market, or establishing advantaged market positions through the development of strategically significant intellectual property. There are two components to every successful product, Design and Execution. The greatest ideas in the world, if executed poorly, will fail. That is why we have combined manufacturing, and product sourcing with product design to provide a complete product that is executed from the idea on the napkin to the product on the store shelves.

#### Beco Ball on a Rope

The Beco Ball on a rope provides your dog with hours of fun. Made from natural rubber and cotton it makes both a great chew and fetch toy. All dogs love playing with pieces of rope and the long cotton rope helps pet owners get some extra throwing distance when playing fetch! This is a perennially popular super versatile toy. Chase it, catch it, fetch it and chew. An all rounder if you've got the energy this ball will be thrown far further than you can a ball on it's own. The Natural rubber has been developed and refined over the years and is now so hard wearing we're happy to give our no quibble toy guarantee if you are not at all satisfied.

### Beco Double-Knot Rope

Strong and durable natural hemp toy. Great for strengthening dogs teeth and for long distance fetch. Made from natural hemp, the Beco Rope toys tough and durable to withstand hours of play. Hemp is a very eco material as no pesticides are used in the growing process. Great for cleaning and strengthening a dog's mouth and teeth. With bright pink, blue and green strands entwined, the Beco Rope range is extremely attractive and will stand out amongst other inferior ropes. Most importantly though it's better than synthetic ropes as it has very short fibres which are more easily digestible. This means that if a piece of rope is swallowed it is much more likely to pass through the dog's body without causing problems.

## 02 - Footwear

### Ultra Paws

#### Doggie Socks - Oakley

The Ultra Paws new Oakley Doggie Socks combines functional comfort with a bold design. Ultra Paws Doggie Socks are designed for indoor paw protection and provide traction on slippery surfaces. The wide, double-layer cuff holds the sock in place and the generous silicone swirl grip on the sole provides traction. Socks may also be used inside of dog boots for increased warmth. Simply open the cuff wide and slide your dog's paw into the sock. Make sure your dog's nails are trimmed short prior to using. Oakley design features orange cuff, gold and red center and black toe with silk screen logo. Four socks per set. Machine wash, cold water, low heat to dry.

### High Tech Pet

#### Collar - Ultrasonic MS4 - Water-Resistant

This water resistant digital ultrasonic collar operates all High Tech Pet Power Pet electronic pet doors and Sound Barrier and Yard Barrier sonic fences. Using all digital circuitry, this state of the art design provides a stronger signal and maintains better accuracy over all temperature ranges. It includes a specially designed B3V1A battery which lasts about 3 months and prevents damage to the circuitry if the battery is accidentally installed incorrectly. With a fully enclosed ultrasonic speaker, the MS-4 is water-resistant and rugged. It's perfect for the pet who likes to do some serious "ruffhousing". While we don't recommend you let your pooch take it for a dip in the pool, our new MS-4 is fully immersible for short periods of time and will continue to work even when wet. It will stand up to heavy rain showers and is perfect for dogs who love to play in the snow. The enclosed transducer (speaker) is much more robust than conventional open air transducers and will stand up to far more abuse from your pet.

#### Fence - BlueFang 3-in-1 Training Fence

The Blue fang® BF-22 collar is a remote trainer, bark control and electronic fence collar all in one. It's all controlled by your iPhone or Android. Remote dog training uses audible tones to quickly teach good dog behaviors such as, sit, stay and heel. 3 corrective stimulus levels stop bad dog behaviors like digging, jumping and chewing. Use the factory presets or customize the stimulus intensity and duration of each level to your dog's individual temperament. Bark control distinguishes between nuisance barking and intruder/ alarm. You can stop only nuisance barking, stop all barking or stop barking and howling. Corrective stimulus settings include painless Sound, Stimulus or Sound Plus Stimulus. Stimulus modes use harmless, progressively increasing static shock to stop barking fast while minimizing doggie stress. Sound Plus Stimulus Uses an audible warning tone first and only applies stimulus if your dog continues barking. The BF-22 is also an electronic fence that works with any High Tech Pet transmitter.

#### Fence - Boundary Extension Kit

Expand the coverage of your electronic fence. This boundary extension kit gives you 500-feet of custom engineered Ultra-Wire, 50 boundary flags and 5 waterproof wire splices. This wire is specially engineered for electronic dog fences with electrical and mechanical properties optimized for your dog containment application. The wire is solid-core copper designed for optimum electrical impedance. It has an extra thick jacket made of a specially-formulated insulation material that is resistant to ultraviolet sunlight, moisture, ground rot and corrosion. High tensile strength insulation greatly reduces the risk of wire breaks. Whether you have a genuine Humane Contain electronic dog fence or another brand, this is hands-down, the best dog containment fence wire you will find anywhere.

It also has an on-board ultrasonic transmitter to control other High Tech pet products, including Power Pet electronic pet doors, Sound Barrier and Yard Barrier sonic fences and Radio Mat pet deterrent kits. No need for your dog to wear multiple collars; this one does it all. You can add as many RX-10 collars as you like to your Humane Contain X-10 electronic fence to contain any number of dogs. Whether you use the RX-10 for dog containment only or as the controller for a complete electronic pet care system, this collar brings you state-of-the art technology in an extremely slim, lightweight package designed for maximum pet comfort. Rechargeable lithium-ion battery never needs replacement (model CRX-10 charger sold separately). This collar is fully waterproof and packed with advanced features, including High Tech Pet's proprietary Pulsed Proportional Stimulus technology. Waterproof audio speaker produces loud and clear progressive training tones for quicker boundary training. Built-in battery and stimulus tester. Dual radio receivers provide omni-directional reception for consistent field width, regardless of the direction your dog is moving. Solid copper stimulus probes resist rust and corrosion and provide the best electrical conductivity.

#### Training Mat - Scat Mat

Used as a stand-alone training system or as a great accessory to any Humane Contain electronic fence system, the Radio Mat is an electronic scat pad that triggers stimulus at your dog's receiver collar whenever he touches the pad. Use it to keep your dog away from the trash, off of furniture, out of an entire room and away from any area you wish to make off limits. At the touch of a paw, the pad sends a radio signal to the RC-8 receiver collar (included) that emits a harmless, but unpleasant shock stimulus to make your dog scat. Only dogs wearing the collar are affected. No need to worry about small children or unsuspecting guests touching the pad and receiving the shock. You can add an unlimited number of extra transmitter pads and extra radio collars. Also includes Sound Blast feature, in which the pad itself emits a loud sonic blast at the touch of a paw. Use the sound to reinforce the shock stimulus or all by itself for painless area restriction training of cats and dogs. No collar is required to operate the sound blast feature so, you may use this feature to keep your kitties and other pets at bay without the need of a collar. Pad requires a standard 9 volt battery (not included). Pad dimensions: 12-inch wide by 60-inch long.

#### Training Mat - Sofa Scram

Instantly activated by the touch of a paw, the battery operated Sofa Scram emits startling 85 decibel beeps that get pets off the furniture fast. Great for cats and dogs. Pet owners love the Sofa Scram because it works quickly and effectively without applying shock or pain to your pet. The Sofa Scram works as quickly and effectively as a static shock mat for about half the price. Because the Sofa Scram uses non-shock technology, it will not hurt your pet. The Sofa Scram has an attractive, easy to clean black nylon exterior. Measures 2-inch high by 12-inch deep by 59-inch long. Use the Sofa Scram on chairs, counter tops, beds, in front of doorways, trash cans and, of course, it works great on the sofa. Safe for use in households with children.

#### Electronic Pet Door - Power Pet Wall Adapter Tunnel

Quickly, easily and professionally frame your Power Pet Medium Electronic Pet Door wall installation with our pre-fabricated wall adapter tunnel. Your wall adapter tunnel eliminates the need for difficult framing of the hole you cut in your wall for the pet door passageway and gives your Power Pet door installation a high quality, professionally finished look. Made of high-strength ABS composite, this convenient Power Pet door accessory fits snugly into the back of your Power Pet door and telescopes into the door's outside frame. Makes wall installation simple. Just cut the hole in your wall, mount your Power Pet door with eight wood screws, slide in your Wall Installation Tunnel, mount your outside frame with another 8 screws and you're done. Installation typically takes 2-hour or less.

## 05 - Remote Training

### High Tech Pet Collar - Express Train

Express Train is an advanced remote radio dog trainer that quickly teaches dogs multiple behaviors with High Tech Pet's proprietary Command-Tone-Stimulus training system. Three positive training tones may be activated at the collar. These tones are associated with positive commands such as Sit, Heal and Retrieve. A negative tone is provided to command a dog to cease unwanted behavior such as digging, barking, chewing, etc. The negative tone may be followed by one of four increasingly intense shock levels if the unwanted behavior persists. No other electronic trainer provides such a complete and comprehensive training system. One half mile range. Includes hand-held transmitter, radio collar, short and long hair probes and complete training manual. Collar and transmitter are fully waterproof and operate on built-in rechargeable lithium-ion batteries. Commands up to 3 dogs with additional RTC-1 receiver collars sold separately.
