

Experience the difference that Logitech brings to **Cisco® UC clients and IP phones**

Logitech has partnered with Cisco® to offer a range of Cisco compatible UC tools that are so intuitive, people actually love to use them, enabling enhanced collaboration and productivity.

Logitech is the first and only company to develop a new way to control the Jabber® collaboration experience. This solution, the UC Solution for Cisco 725-C, fits the ever-shrinking desktop so it's perfect for small workspaces, hot desking and cubicles. This UC keyboard combo brilliantly integrates voice, video and messaging into a keyboard and makes it easy to collaborate while staying productive. The result: a better UC adoption rate within organizations.

Logitech helps unleash Cisco productivity and collaboration with intuitive designs that are good for people and good for business.
