

HPE 8GB (1x8GB) Single Rank x8 DDR4-2400 CAS-17-17-17 Unbuffered Standard Memory Kit (862974-B21)

Enterprise Memory

What's new

- Up to 16 GB DDR4-2666 MT/s memory options supported on HPE Gen10 servers.

Overview

Are you looking for enterprise-quality server memory at a lower cost? Small and medium business owners often must choose between the need for high-performance server memory that supports their workloads and the simultaneous desire to control capital and operating expenses. With HPE DDR4 Standard Memory, you don't need to choose between

performance and cost efficiency. HPE Standard Memory options are designed to deliver performance, reliability and efficiency at an affordable price. Unlike third-party alternatives, HPE Standard Memory is sourced from the highest-quality DRAMS and undergoes a rigorous testing and authentication process. This extensive testing ensures that it is completely compatible with and optimized for entry-level HPE server platforms to perform to industry-defined specifications.

Features

High Performance

HPE DDR4 Standard Memory matches the performance capabilities of the new generation of Intel® processors.

HPE DDR4 Standard Memory reduces downtime and lowers energy costs using advanced error detection.

High Reliability

HPE DDR4 Standard Memory provides excellent quality and support for a selection of HPE Gen10 and Gen9 servers.

HPE engineers quality and reliability into every HPE DDR4 Standard Memory product.

Increased Efficiency

HPE offers an affordable solution for small and medium business and remote and branch office customers with DDR4 Standard Memory.

Technical specifications

HPE 8GB (1x8GB) Single Rank x8 DDR4-2400 CAS-17-17-17 Unbuffered Standard Memory Kit

Product Number (SKU)	862974-B21
DIMM type	UDIMM
DIMM capacity	8 GB
DIMM rank	Single
DIMM native speed (MT/s)	2400 MT/s
Voltage	1.2 V
Minimum dimensions (H x W x D)	8.89 x 19.05 x 1.91 cm
Weight	0.045 kg
Warranty	http://h20564.www2.hp.com/hpsc/doc/public/display?docId=c00383139

HPE Pointnext

HPE Pointnext leverages our breadth and depth of technical expertise and innovation to help to accelerate digital transformation. A comprehensive portfolio that includes – Advisory, Professional, and Operational Services is designed to help you evolve and grow today and into the future.

Operational Services

- **HPE Flexible Capacity** is a new consumption model to manage on-demand capacity, combining the agility and economics of public cloud with the security and performance of on-premises IT.
- **HPE Datacenter Care** offers a tailored operational support solution built on core deliverables. It includes hardware and software support, a team of experts to help personalise deliverables and share best practices, as well as optional building blocks to address specific IT and business needs.
- **HPE Proactive Care** is an integrated set of hardware and software support including an enhanced call experience with start to finish case management helping resolve incidents quickly and keeping IT reliable and stable.
- **HPE Foundation Care** helps when there is a hardware or software problem offering several response levels dependent on IT and business requirements.

Advisory Services includes design, strategy, road map, and other services to help enable the digital transformation journey, tuned to IT and business needs. Advisory Services helps customers on their journey to Hybrid IT, Big Data, and the Intelligent Edge.

Professional Services helps integrate the new solution with project management, installation and startup, relocation services, and more. We help mitigate risk to the business so there is no interruption when new technology is being integrated in the existing IT environment.
