Encl: (1) Current Doctrinal Publications
(2) New Publications Under Development
(3) Cancelled/Superseded Doctrinal Publications

1. Purpose. To provide the 2nd and 3rd quarters, FY 2013 update of current Marine Corps doctrinal and associated publications.

2. Background

a. Reference (a) designates the Deputy Commandant for Combat Development and Integration (DC CD&I) as the Commandant's executive agent for the development, review, maintenance, and publication of Marine Corps Service doctrine, and for Marine Corps participation in naval, joint, and multinational doctrine development. Further, it assigns responsibilities and identifies relationships among the various Marine Corps organizations involved in the doctrine development process. Reference (a) also grants authority to the DC CD&I to assign selected Marine Corps organizations as doctrine proponents. Proponency entails the assignment of responsibility for the preparation, review, and periodic maintenance of a doctrinal publication by selected agencies from the Marine Corps supporting establishment. Proponency assignments are reviewed annually and updated in Marine Corps Bulletin 5603 series. Enclosures (1) through (3) provide the status of doctrinal publications within the Marine Corps Doctrinal Publications Program to include Service, multi-Service, joint, multinational, and associated publications.

DISTRIBUTION STATEMENT A: Approved for public release;
distribution is unlimited.

b. Marine Corps Doctrinal Publications Architecture. The Marine Corps publication hierarchy is comprised of Marine Corps Service doctrinal publications, dual-designated publications, and multi-Service publications.

(1) Marine Corps Service Doctrine

(a) Marine Corps Service doctrine consists of publications created to describe the warfighting doctrine, tactics, techniques, and procedures (TTP) of the Marine Corps. Doctrine provides the fundamental principles by which our forces guide their actions in support of national objectives. TTP provide the detailed description of how our forces perform assigned tasks. The Marine Corps doctrinal publications designation and numbering method is established by reference (a). There are a few remaining publication designations of Fleet Marine Force Manuals (FMFMs), Fleet Marine Force Reference Publications (FMFRPs), and Operational Handbooks (OHs) that are being phased out as publications are reviewed and rewritten. Marine Corps doctrinal publications are designated as one of the following:

1. Marine Corps Doctrinal Publication (MCDP). MCDPs are higher order doctrinal publications that contain the fundamental and enduring beliefs of warfighting (Capstone publications - MCDP 1, 1-1, 1-2, and 1-3) and the guiding doctrine for the conduct of major warfighting activities (Keystone publications - MCDP 1-0, 2, 3, 4, 5, and 6).

2. Marine Corps Warfighting Publication (MCWP). MCWPs have a narrower focus that details TTP used in the prosecution of war or other assigned tasks.

3. Marine Corps Reference Publication (MCRP). MCRPs contain general reference material that is more specific/detailed than the MCWPs. MCRPs are given the same number as the parent MCWP with an alpha designator added to the number.

4. Marine Corps Interim Publication (MCIP). The overall purpose of an MCIP is to rapidly disseminate new TTPs, based on findings from lessons learned, training, and experimentation. MCIPs will expire after 2 years (or earlier, if superseded by a new or revised MCWP or MCRP). The 2-year period is intended to allow for in-depth validation and may be incorporated into MCRPs/MCWPs during their scheduled review cycle.

(b) Review of Existing Publications. Each Service doctrinal publication is reviewed periodically. When a review is initiated, a request for feedback message will be promulgated by DC CDI soliciting comments from Marine Forces; Headquarters, US Marine Corps; and other appropriate organizations. Comments on any doctrinal publication, however, are welcome at any time. Normally, MCWPs and MCRPs are reviewed every 4 years, MCDPs are reviewed every 8 years.

(2) Dual-Designated; Multi-Service; and Air, Land, Sea Application (ALSA) Center Publications

(a) Each military Service is authorized to use other Services' doctrinal publications and to effect necessary modifications to align each with their own mission, roles, and functions. These publications, identified as dual-designated or multi-Service publications, contain TTP to which two or more of the Services have subscribed. They are ratified by and bear the designation of each participating military Service. Dual-designated or

multi-Service publications ratified by the Marine Corps are designated as MCWPs, MCRPs, or MCIPs, as appropriate, and have the same authority and status as other Marine Corps warfighting or reference publications.

(b) The ALSA Center is chartered by the four Services' doctrine development agencies and tasked to rapidly develop publications that fill interoperability voids between Services, joint forces, and staffs. In most cases, these publications take on the form of multi-Service TTP (MTTP) and address operational details often not included in our joint publications. Once signed by DC CD&I or designated representative (Director, Capabilities Development Directorate) ALSA publications are given an appropriate MCWP or MCRP designator and placed within the Marine Corps' publication hierarchy. As with non-ALSA dual-designated publications, these MTTPs have the same authority and status as our other Marine Corps doctrinal publications. Although developed by the ALSA Center, ALSA publications must be approved/signed by the individual Service doctrine commands.

(3) Publication Status

(a) The current MCDPs, MCWPs, MCRPs, and MCIPs are listed in enclosure (1) (publication developmental status and cyclic review information is also included). All FMFMs, FMFRPs, and OHs listed remain in effect until superseded. Enclosure (2) lists new publications under development. Enclosure (3) lists publications canceled due to replacement, supersession, or obsolescence during calendar years 2011 and 2012.

(b) Current Service and multi-Service doctrine status can be obtained electronically via MCCDC Knowledge On-line at <https://ehqmc.usmc.mil/org/mccdc/CDD/MID/DCB/doct/default.aspx>.

(4) Publications Availability and Procedural Guidance. Publications can be obtained in either paper copy or electronic form. Procedural guidance for distribution and maintenance of doctrinal publications can be found on the USMC doctrine web page at <https://www.doctrine.usmc.mil>.

c. Naval Doctrine Publications. These publications provide the fundamental concepts that govern the employment of naval forces at all levels. They form the seamless fusion of Navy and Marine Corps doctrine and form the naval characteristic of joint operations. They are signed by the Commandant of the Marine Corps and the Chief of Naval Operations and are part of the Marine Corps publication hierarchy.

d. Other Doctrinal Publications

(1) Joint Publications. These are doctrinal manuals developed and promulgated as a distinct family of publications by the Joint Chiefs of Staff per references (b) and (c). Joint publications and joint TTPs provide guidelines for the coordinated employment of forces of two or more Military Departments conducting a joint operation.

(2) Ratified Allied Publications. Ratified allied publications contain doctrine and TTP to which North Atlantic Treaty Organization (NATO) member nations have subscribed. When ratified by the United States, these publications are the senior doctrinal guide for forces conducting NATO operations. Additional information on these publications is contained in reference (d). Reference (e) provides information regarding standard NATO agreements.

(3) Joint Munitions Effectiveness Manuals (JMEMs). JMEMs provide in-depth descriptions of specific weapons system characteristics and effectiveness. JMEMs are reference documents detailing friendly weapon system capabilities and limitations, and are primarily used for weaponeering. JMEMs are designated as FMFRPs or MCRPs but are not posted on the doctrine hierarchy. Current JMEM publications are published annually per reference (f).

(4) Other Service Publications. The Army, Navy, and Air Force have produced a large number of publications detailing TTPs for the many aspects of warfighting. Though not Marine Corps doctrine, these publications provide a wealth of information, and can be referenced to supplement Marine Corps TTP.

3. Action. Recommendations for new doctrinal publications or modifications to existing publications should be submitted through the Universal Need Statement (UNS) process. The UNS submission process is delineated in reference (g). The UNS recommendation for modifications to existing publications should include the following information:

a. Location of Change

- (1) Publication number and title.
- (2) Current page number.
- (3) Paragraph number (if applicable).
- (4) Line number.
- (5) Figure number (if applicable).

b. Nature of Change

- (1) Addition/deletion of text.
- (2) Proposed new text.

c. Records. Records created as a result of this Order shall be managed according to National Archives and Records Administration approved dispositions per reference (h) to ensure proper maintenance, use, accessibility and preservation, regardless of format or medium.

4. Reserve Applicability. This Bulletin is applicable to the Marine Corps Total Force.

RICHARD P. MILLS
Deputy Commandant for
Combat Development and Integration
