

PRODUCT CATALOG

MINK[®]

**BUILDING THE WORLD
MADE IN AMERICA**

To Our Valued Customers,

Thank you for your continued support in MK Products! MK Products will be celebrating it's 50th year of manufacturing its Push-Pull GMAW products and 22+ years of Orbital GTAW products. This new catalog format is a combination of all our printed literature into this one full product color catalog. This now means one source for all our product information and specifications. We hope you find this new approach easy to use and helpful.

Introducing two new product lines for our 50 year celebration. The CobraMig 300 Aluminum push-pull Mig welder with "CobraLoc" and the X Series Digital Push-Pull guns. CobraLoc allows the user to unlock the feeder from the power supply giving full portability. The X Series Digital gun gives the user ultimate control at their fingertips. Remotely change the parameters or switch between memory programs directly from the gun. Our world-class **Cobra® Welding Systems** are distributed throughout more than 40 countries. For aluminum **GMAW**, the **Cobramatic®** name is unsurpassed. Our products and services are on display 24-hours a day, 7-days a week at our virtual showroom located at www.mkproducts.com. Our field sales force and distributors are always eager to demonstrate product capabilities and provide solutions for all your welding needs.

The **Cobramatic® Pro Series** Push-Pull Wire Feed cabinets accept our full line of welding guns to meet your toughest welding challenges. **Cobra® MX**...an updated version of our original gooseneck gun is back and better than ever in a small, lightweight design that is perfect for welding aluminum. If you want to go even smaller, then the **Cobra® SX** is the smallest Push-Pull gooseneck gun in the world.

MK continues to offer the **Python®** gooseneck gun for high performance and power...as well as the **Prince® XL** for versatile pistol grip performance. Both the Python and Prince XL offer unique versatility. Rotate the barrel 360°, replace with a straight or curved barrel version or use the "Flex Barrel" for unusual, hard to reach welding. Check out our complete line of **Spool Guns** - we have the "Top of the line" full size **Prince XL Spool Gun** to the smallest **MiniSpool™** gun.

"**Orbital Welding Made Easy™**" best describes our line of patented GTAW fusion tube welding products. **CobraTig® 150 SM**...perfect for portable contractor use in the field. **Advanced Color Logic®**...patented on-screen visual interface is ideal for manufacturing work cell applications where tough quality assurance standards are maintained. MK **Orbital™** weldheads are available for many special applications. **MiniMicro™**...is our smallest weldhead for Ultra High Purity welding applications. **CopperHead®**...our most popular and economical for sanitary, mid-range tube sizes. **DiamondBack™**...is our largest for tubes and pipe sizes up to 6-inch O.D.

For welding or positioning, our precision rotary tables turn heads with every revolution. The **AirCrafter™ 25** and the **CobraTurn™ Digital Turntable** positioners are available in 5" or 10" tabletop models or a 4" diameter 3-jaw chuck. Both models provide 90-degree tilt for vertical or horizontal positions. The CobraTurn™ provides speed ranges from .3 to 10 RPM's and the T-25 comes standard On\Off foot control.

Whether you are a new customer or a loyal MK user, we value your business and we look forward to providing you with the best welding products and services available.

Product Applications

Understanding the product icons

Push-Pull Wire Feed: Proven technology that provides smooth wire feeding for the GMA (MIG) Welding Process in gun lengths up to 50 feet.

Accessories and Consumables: A broad selection of contact tips, barrels, gas cups that further expands the flexibility and usability of the MK Products line.

Spool Guns: Include a patented spool brake and wire leveling arm, multi-turn speed control knob, and simple "one-hand" wire spool loading.

Orbital Equipment: Orbital-GTA (TIG) Welding systems designed for autogenous welds in the sanitary, ultra-high purity and high-pressure welds.

Positioners: Table-top positioners for manual or automatic welding. Designed for rotating welding jobs, they can also be used for non-welding applications.

Water Cooled: Guns that require a re-circulating radiator cooling system, because they use a smaller diameter copper cable compared to Air Cooled guns. Coolant flow rates should be a minimum of 10 GPH between 35 and 45PSI.

Air Cooled: These welding guns use the ambient air and shielding gas to dissipate excess heat. They have lighter and more flexible gun cables and the system's simpler design makes them easier to operate, assemble, maintain and transport.

PRICING

All shipments are priced from published lists or written quotations. Prices do not include taxes.

Prices include standard domestic packaging. For shipments that may be exported, please contact your freight forwarder for any special packaging or documentation.

PRINTED PRICES

Check all prices before ordering. MK Products reserves the right to make changes to this price list at any time. The latest revisions to this price list are posted on our web site at www.mkproducts.com. These prices supersede all previously published price lists.

INVOICE TERMS AND DISCOUNTS

Terms are NET 30 Days based on prior credit approval.

Credit card purchases using Visa, MasterCard, Discover and American Express are accepted.

PAST DUE ACCOUNTS

Accounts not paid within 30 days are past due and subject to a finance charge of 1½% per month (annual percentage rate of 18%).

TELEPHONE ORDERS

Telephone orders are confirmed and are acknowledged immediately. If changes are requested on any order placed, we cannot guarantee these changes without additional expense to the purchaser.

LABOR RATE

All labor is billed at \$90.00 per hour.

REPAIRS/WARRANTY REPAIR

All repairs, Standard or Warranty, will be performed under the MK Products Repair & Warranty Repair Policy. Full terms and conditions of this policy are available by contacting MK Products via phone, fax or e-mail.

EDUCATIONAL DISCOUNT

An educational discount off list price is available on most equipment sold directly by MK Products to a non-profit educational institution. This discount is not to be combined with any other special offer.

Equipment not eligible for discount:

- Special product items, used or reconditioned equipment
- Replacement and consumable parts

This Educational Discount Policy supersedes all previous publications.

TRANSFER OF TITLE

All merchandise is sold F.O.B. MK Products Inc., Irvine, California. Title to the merchandise is transferred to the purchaser at the time the carrier accepts shipment. The purchaser must file any claims for loss or damage in transit with the carrier. Upon request, MK Products Inc., will issue tracers on any shipment considered "lost" by the purchaser.

MINIMUM BILLING

Minimum billing on all domestic orders is \$25.00 USD NET.

Minimum billing on all export orders is \$50.00 USD NET.

CANCELLATION OF ORDERS

Except in the case of non-standard items, orders for standard items can be canceled without charge, provided notice is received at MK Products, Irvine, California, at least one week before scheduled delivery to the carrier.

In the case of non-standard items, the purchaser will be liable for full payment at the contract price for all finished units available prior to cancellation. Also, for all non-standard materials and components in semi-finished condition, the purchaser will be liable for purchased price plus 15%.

ORDER HANDLING

MK Products will make every effort to ship all sales orders within 1~2 working days for merchandise that is in stock.

For PRIORITY shipments, please have your purchase order in by 3:00pm Pacific Time to qualify. Your priority order must ship by NEXT DAY delivery service. We will make every reasonable effort to ship priorities.

MK PRODUCTS RETURN POLICY

NEW / UNUSED or DEFECTIVE

You have up to 30 calendar days from invoice date to request a return of new/unused or defective items. If the item(s) are sent back unused in the original packaging including any accessories or manuals that shipped with the product and follow the return procedures, MK Products will offer you a full refund, less shipping costs (unless the item is defective, which will receive full credit). You will be responsible for shipping the item(s) back to MK Products, including any shipping fees.

OPENED / USED

You have up to 15 calendar days from date receipt of product to request a return of opened/used items. These items will be subject to a 30% restocking fee and all shipping costs. No exceptions.

RMA(Return Material Authorization) All Returns MUST be accompanied by a valid RMA number

Prior to returning item(s), contact MK Products at 1-800-787-9707 or e-mail to sales@mkprod.com, to obtain an RMA number, along with complete instructions. Please have your order number ready along with the part number and quantity of item(s) being returned. Item(s) must be returned to MK Products within 15 calendar days of the issuance of the RMA. RMA number must be posted on the address label of the package. Packages without RMA will not be accepted by MK Products. If applicable, MK Products will issue credit after the item(s) has been received and inspected.

NOTE: MK Products recommends that you: (1) use a carrier that offers shipment tracking for all returns and (2) either insure your package for safe return to MK Products or declare the full value of the shipment so that you are completely protected if the shipment is lost or damaged in transit.

FREE FREIGHT PROGRAM

MK Products pays all UPS ground freight charges for orders \$150 or more, Net.

Does not include Internationals, Freight Forwarders or OEM orders. Applies to orders marked "Ship Complete", ONLY

Introducing the new

X Series Digital Push-Pull Guns

Giving the user ultimate control at their fingertips!

PRINCE[®]X

PYTHON[®]X

Cobra[®]X

Made EASY!

It's Back!!

300

CobraMig

The new CobraMig 300 now with a detachable Digital Wire Feeder!

Detachable digital wire feeder allows for Rail or Boom mounting applications. Interface extensions of 25', 50' or more provide remote adjustments of the power supply.

Simplified user interface allows quick and easy operations.

Extending the capabilities even further...

MK has developed a NEW series of Digital push-pull guns. The X Series digital guns give the user ultimate control at their fingertips. Remotely change parameters or switch between memory programs directly from the gun. Combining feeder separation length and gun cable length, operations can now be managed directly at the gun, allowing complete control 100 feet or more from the power supply.

Plug & play connection now available!

Python® X

X Series Digital Push-Pull Gun

Power and performance is the best way to describe a gun so advanced that even the competition is on edge. Taking a lesson from both the Cobra® X and (inline design) the Prince® X, (removable/rotatable barrel) the Python® X Digital gun adds its own unique set of features with time proven design to bring together the most advanced welding gun available.

- Improved handle design allows Snake Skin to "Tie" wrap to handle
- Ergonomic handle provides for hours of continuous fatigue free welding.
- Digital feature allows Scroll through menu remotely on CobraMig® 300 (WireSpeed, Voltage, Memory)
- Precision incremental adjustments digitally from gun. (Wire Speed, Voltage, Memory)
- Standard Python® consumable parts. (Gas cup, Contact tip, Barrel Liner, Drive / Idler Roll, Cable bundle).
- Can use MK Flex Barrel for hard to reach welds
- Direct Plug-in with MK CobraMig® 300 System
- EZ-Lock barrel can easily rotate 360* to provide the perfect weld angle for all jobs.
- Available in Air Cooled models only.

CobraMig® 300 Compatibility (Air Cooled Only)

LENGTH	MODEL NUMBER
15 ft (4.6 m)	341-815
25 ft (7.6 m)	341-825
35 ft (10.7 m)	341-835
50 ft (15.2 m)	341-850

Rated Output determined by the gun having an Air Cooled (A/C) barrel.

Duty Cycle 100%

Call Factory for replacement parts

The Python® X can be used with MK's new Flex Barrel, which is designed for hard to reach welds. Air Cooled models only. See page 31 for part numbers.

Cobra® X

X Series Digital Push-Pull Gun

Familiar with Cobra® Gold? Cobra® X is a direct replacement with all of MK Products' latest features and manufacturing techniques. This Digitally Controlled gun features our famous push-pull gooseneck design and weighs only 2 lb 5 oz. The Patented Cobra® X is ready to fit all your aluminum welding needs.

- Direct Plug-in with MK CobraMig® 300 System
- Cobra® fix mount barrel with high temp barrel insulator
- Original rear Trigger location
- Digital feature allows Scroll through menu remotely on CobraMig® 300. (Wire Speed, Voltage, Memory)
- Precision incremental adjustments digitally from gun. (Wire Speed, Voltage, Memory)
- Standard Python® consumable parts. (Gas cup, Contact tip, Barrel Liner, Drive / Idler Roll, Cable bundle).

CobraMig® 300 Compatibility (Air Cooled Only)

LENGTH	MODEL NUMBER
15 ft (4.6 m)	343-815
25 ft (7.6 m)	343-825
35 ft (10.7 m)	343-835
50 ft (15.2 m)	343-850

Rated Output determined by the gun having an Air Cooled (A/C) barrel.

Duty Cycle 100%

Call Factory for replacement parts

Prince® X

X Series Digital Push-Pull Gun

The Prince® X brings together all aspects of heavy duty dependability expected from the Prince XL Pistol Grip gun. With all new Digital Control, conveniently control nearly every aspect of your weld parameters remotely from the gun.

- Digital feature allows Scroll through menu remotely on CobraMig® 300. (Wire Speed, Voltage, Memory)
- Precision incremental adjustments digitally from gun. (Wire Speed, Voltage, Memory)
- Standard Prince® XL consumable parts. (Gas cup, Contact tip, Barrel Liner, Drive / Idler Roll, Cable bundle).
- Can use MK Flex Barrel for hard to reach welds
- Direct Plug-in with MK CobraMig® 300 System
- EZ-Lock barrel can easily rotate 360* to provide the perfect weld angle for all jobs.
- Available in Air Cooled models only.

CobraMig® 300 Compatibility (Air Cooled Only)

LENGTH	MODEL NUMBER
15 ft (4.6 m)	350-715
25 ft (7.6 m)	350-725
35 ft (10.7 m)	350-735
50 ft (15.2 m)	350-750

Rated Output determined by the gun having an Air Cooled (A/C) barrel.

Duty Cycle 100%

The Prince® X can be used with MK's new Flex Barrel, which is designed for hard to reach welds. Air Cooled models only. See page 31 for part numbers.

Call Factory for replacement parts

Python®

Advanced Gooseneck

Power and performance is the best way to describe a gun so advanced that even the competition is on edge. Taking a lesson from both the Cobra® gooseneck and the Prince® XL, the Python® adds its own unique set of features with time proven design to bring together the most advanced welding gun available.

- Optional Ultra Flex power cable offers more durability and less strain when welding.
- Air Cooled models can use the Flex Barrel for hard to reach welds.
- Plug-in direct compatibility with MK, Lincoln, Miller, Fronius, ESAB and Euro systems.
- Convenient “forward trigger” location.
- “Fingertip” wire speed adjustment.
- EZ-Lock® barrel can easily rotate 360° to provide the perfect angle for all jobs.
- Available in both Water and Air Cooled models.
- Provides hours of high speed continuous wire feed without welder fatigue.
- For aluminum, stainless, steel and flux cored wires.
- Wire feed speed 800 IPM.
- Wire type and diameter:
 - .030” - .045” solid and hard wire (0.8 mm - 1.1 mm)
 - .030” - 1/16” aluminum and cored wire (0.8 mm - 1.6 mm)

See pgs 30-36 for barrels, contact tips and gas cups.

Duty Cycle 100%

Rated Output determined by the gun having an Air Cooled (A/C) or Water Cooled (W/C) barrel.

Python® LX

Advanced Gooseneck

The NEW Python® LX combines the robust engineering of the Python® and the stylish design of the Cobra® MX. When connected with the Cobramatic® wire feed cabinet, you get the best push-pull wire feed equipment for welding aluminum. Completely and fully synergic, the one-knob control in the Python® LX returns precise and repeatable weld settings from 15 to 50 feet away.

- Optional Ultra Flex power cable offers more durability and less strain when welding.
- Air Cooled models can use the Flex Barrel for hard to reach welds.
- Plug-in direct compatibility with MK, Lincoln, Miller, Fronius, ESAB and Euro systems.
- Compatible with different generations of Cobramatic® cabinets.
- Fingertip speed control protected in handle.
- Mechanical gas valve integrated with trigger function (bypass for full auto control).
- Uses the legendary Cobra® rear trigger configuration.
- Patented EZ-Lock® rotatable and tapered barrel design.
- 12" and 18" straight/curved Air and Water Cooled barrel options.
- Wire feed speed 800 IPM.
- Wire type and diameter:
 - .030" - .045" solid and hard wire (0.8 mm - 1.1 mm)
 - .030" - 1/16" aluminum and cored wire (0.8 mm - 1.6 mm)

See pgs 30-36 for barrels, contact tips and gas cups.

Duty Cycle 100%

Rated Output determined by the gun having an Air Cooled (A/C) or Water Cooled (W/C) barrel.

Cobra® MX

Push-Pull Gooseneck Gun

Familiar with Cobra® Gold? Cobra® MX is a direct replacement with a gas valve in the gun and with all of MK Products' latest features and manufacturing techniques. This gun features our famous push-pull gooseneck design and weighs only 2 lb 5 oz. The Patented Cobra® MX is ready to fit all your aluminum and hard wire welding needs.

- Optional Ultra Flex power cable offers more durability and less strain when welding.
- Plug-in direct compatibility with MK, Lincoln, Miller, Fronius, ESAB and Euro systems.
- Cobra® fix mount barrel with high temp barrel insulator.
- Protected fingertip speed control in the handle.
- Uses the original Cobra® rear trigger location.
- Covered wire feed mechanism.
- Covered lever wire release in the handle.
- Wire feed speed 800 IPM.
- Wire type and diameter:
 - .030" - .045" solid and hard wire (0.6 mm - 1.1 mm)
 - .030" - 1/16" aluminum and cored wire (0.8 mm - 1.6 mm)

See pgs 30-36 for barrels, contact tips and gas cups.

Cobra® SX

Push-Pull Gooseneck Gun

With a striking resemblance to the original Cobra® gooseneck gun, the Cobra® SX is easy to use, easy to maintain, and utilizes the original Cobra® consumables. The ergonomic left/right handed speed control is perfect for every welder.

- Optional Ultra Flex power cable offers more durability and less strain when welding.
- Plug-in direct compatibility with MK, Lincoln, Miller, or Fronius.
- Cobra® fix mount barrel with high temp barrel insulator.
- MK Products' lightest, smallest push-pull gooseneck: **less than 2 lbs!**
- Feeds stainless and other hard wire materials.
- Air Cooled to reduce unnecessary cable weight and components.
- Handles more heat without the need for water cooling: no need for coolant recirculators.
- Original Cobra® rear trigger location.
- Thumb pressure wire release in the handle.
- Perfect for all aluminum welding.
- Wire feed speed 800 IPM.
- Wire type and diameter:
 - .023" - .035" solid and hard wire (0.6 mm - 0.9 mm)
 - .030" - .035" all wires (0.8 mm - 0.9 mm), with 3/64" Aluminum 4000 series and softer alloys capability

See pgs 30-36 for barrels, contact tips and gas cups.

Duty Cycle 100%

Rated Output determined by the gun having an Air Cooled (A/C) barrel.

Prince® XL

Push-Pull Pistol Grip Gun

The Prince® XL brings together every aspect of precision and dependability. High heat and heavy duty applications will benefit from the Water Cooled and lightweight pistol grip design.

- Optional Ultra Flex power cable offers more durability and less strain when welding.
- Air Cooled models can use the Flex Barrel for hard to reach welds.
- Plug-in direct compatibility with MK, Lincoln, Miller, Fronius, ESAB and Euro systems.
- Ingenious 3¾ turn pot easily adjustable and hidden in the base of the handle for added protection.
- EZ-Lock® barrel can easily rotate 360° to provide the perfect angle for all jobs when using curved barrels.
- Patented Water Cooling right to the end of the gas cup.
- Available with straight or curved barrels in 6", 12" and 18".
- Wire feed speed 800 IPM.
- Wire type and diameter:
 - .030" - .045" solid and hard wire (0.8 mm - 1.1 mm)
 - .030" - 1/16" aluminum and cored wire (0.8 mm - 1.6 mm)

See pgs 30-36 for barrels, contact tips and gas cups.

The Prince® XL can be used with MK's new Flex Barrel, which is designed for hard to reach welds. Air Cooled models only. (See page 31)

Duty Cycle 100%

Cobramatic® Pro Series

Push-Pull Wire Feed System

MK Products introduces the NEW Cobramatic® Pro Series Wire Feed Cabinet. It has the same dedicated function and performance as expected from a Cobramatic®, but with a stylish and rugged design. The Pro Series cabinet utilizes many enhancements from the original, without sacrificing integrity and durability.

- Structural design allows for smaller compact size providing greater accessibility to tighter, more confined spaces (i.e., it fits through ship portholes).
- Half the weight yet twice as durable. Rugged enough for all weather environments.
- Visible in the brightest or darkest shops: a bright front panel LED displays Wire Feed Speed and Welding Arc Voltage.
- Advanced connectivity allows for universal input power from ALL welding power supplies.
- Offers classic MK or EURO style gun connections, consult factory for available guns.
- Wire type and diameter:
 .030" - 1/16" Aluminum (0.8 mm - 1.6 mm)
 .030" - .045" solid and hard wire* (0.8 mm - 1.1 mm)
 *Steel, stainless steel and flux core steel wires

Optional Kits

- 8 ft interface cable for Miller, 14 pin, 115VAC (005-0316)
- 8 ft interface cable for Lincoln, 14 pin, 115VAC (005-0608)
- 25 ft interface cable for Miller, 14 pin, 115VAC (005-0658)
- 25 ft interface cable for Lincoln, 14 pin, 115VAC (005-0659)
- 50 ft interface cable for Miller, 14 pin, 115VAC (005-0658-50)
- 50 ft interface cable for Lincoln, 14 pin, 115VAC (005-0659-50)
- 8 ft interface cable for Thermal Arc, 19 pin, 115VAC (005-0630)
- 8 ft interface cable for ESAB 460/450 (005-0705)

Installation available upon request, \$25.00 labor charge. Allow 2-3 days.

3/8" DIAMETER SPRING LOADED CONTACT TIPS - PYTHON® LX, PYTHON®, PRINCE® XL, COBRA® MX (MAX CUP), COBRAMAX™

MK's line of spring loaded contact tips offers superior smooth arc control, and greatly reduces tip burn back issues while striking an arc or running longer continuous welds.

Additional Enhancements For Aluminum Capabilities

Drive Roll Kits

Insulated Grooved Drive Roll Kits - Optional

The Insulated Grooved Drive Kits are designed to fit all models of MK welding guns. Insulated Grooved Drive Rolls are used to prevent preheating of the wire which may soften and clog the liner. The picking up of current at the drive rolls (rather than at the contact tip) is usually not a problem unless using too large of a contact tip or welding with excessively oxidized aluminum wire.

Barrel Liners

Aluminum Welding

MK's Teflon liner packages are truly One-Size-Fits-All. These packages will replace the need for individual liner lengths. Included on the back of each is a cutting length chart for true-length cuts regardless of Tip Extender, Cup/Tip Adapter or gun/barrel style.

Always measure the length of liner removed from gun/barrel prior to cutting to length.

48° Curved Cup and Tips

For Air and Air/Water Barrels

Expand the aluminum welding capabilities of your Prince® XL, Python® & Python® LX welding guns with the addition of a Curved Gas Cup and Contact Tips.

Made to fit all current production Straight, Air/Water and Air Cooled barrels for the Prince® XL, Python® & Python® LX welding guns. The simple, curved design of these tips establishes a more positive electrical contact with the welding wire; enhancing arc strikes and arc characteristics. The narrow profile of the Curved Gas Cup (3/4" outside diameter) enables the operator to reach in and weld in very tight spaces, seams or gaps.

To adapt the curved front-end assembly to your straight barrel, choose from the part numbers shown below.

To adapt the curved front-end assembly to your straight barrel, choose from the part numbers shown below.

Choose Your 48° Curved Tip:

<u>Wire Size</u>	<u>Tip ID*</u>	<u>Tip P/N</u>
.035"	.044"	621-0451
.040" & 3/64"	.053"	621-0452
3/64"	.060"	621-0453
1/16"	.074"	621-0454

**Length of weld and heat may determine tip size*

Add these required parts:

Prince® SG	39
Sidewinder®	40

Prince® XL Spool Gun

The most versatile pistol grip welding gun in the world, the Prince® XL spool gun provides 1 or 2 lb wire spool flexibility and a pistol grip design weighing less than 3 lbs.

Connect the Prince® XL spool gun to any CV or CC power supply using the WC-1 Control or one of our simple interfaces to most any manufacturer's power supply.

- Optional Ultra Flex power cable offers more durability and less strain when welding.
- Can use the Flex Barrel for hard to reach welds.
- EZ-Lock® 360° rotating barrels in 6", 12", and 18", straight or curved. Uses Python® gun consumables and 1 or 2 lb spools.
- Can be easily converted to a push pull gun for use with a 12" spool in the Cobramatic® cabinet.
- 3¼ turn potentiometer provides easy control over a wide range of welding conditions.
- Wire feed speed 900 IPM
- Wire type and diameter:
 - .030" to .045" solid and hard wire (.08 ~ 1.2 mm)
 - .030" to 1/16" aluminum wire (.08 ~ 1.6 mm)

Prince® SG Spool Gun

Prince® SG spool gun...when economy counts! Larger and more powerful than the Sidewinder® and utilizes a 1 lb wire spool for increased productivity, the Prince® SG is the most economical spool gun available anywhere.

Lighter than the competition and ready for any job, the Prince® SG is up to any challenge big or small, aluminum or steel. The Prince® SG includes genuine Cobra® consumables and more than 35 years of MK's spool gun expertise packaged into a ready to go, simple solution for all your spool gun needs.

- Wire retainer prevents wire backlash.
- Wire speed control in handle.
- 3¼ turn potentiometer provides easy control over a wide range of welding conditions.
- Quick release cover removes in second for changing spool.
- Uses 1/4" consumables.
- Wire feed speed 900 IPM
- Wire type and diameter:
 - .023" to .045" solid and hard wire* (.06 ~ 1.2 mm)
 - .030" to 1/16" aluminum wire (.08 ~ 1.6 mm)

*Steel, stainless steel and flux core steel wires

Sidewinder[®] MiniSpool™ Gun

Size actually does matter, especially when you're welding in a tight and confined location such as auto body repair. Select the Sidewinder for ultra compact size and profile for limited access or confined welding areas. If reach is an important feature for special applications such as channel letter welding in the aluminum sign industry, the Sidewinder has a 7" barrel length for extended reach into deep channels with steep sidewalls and where other mechanical interference exists around the desired weld zone.

- Intended for applications with limited access, weight requirements or the need for a small footprint.
- Extended reach 7" barrel for getting down into the deepest narrow channel letters.
- Combine with SP control modules to connect to small inverters or portable engine-driven power sources.
- Wire feed speed 600 IPM.
- Wire type and diameter:
030", .035" aluminum wire (0.8 ~ 0.9 mm)
(MiniSpool™ 1/4 lb welding wire is required for use with this gun)

See pgs 30-36 for barrels, contact tips and gas cups.

Duty Cycle 100%

CobraTig® 150 SM

Portable GTAW Orbital Tube Welder

The CobraTig® 150 SM is a portable, lightweight orbital welding power source with a digital controller that is the perfect solution for construction or rugged environments. User friendly LCD screen and simple menus guide users through powerful weld programming using SmartArc® logic, real-time data monitoring, plus a built-in thermal printer for weld data. Packaged for rugged construction environments or manufacturing work-cells.

- Provides automatic control for repeatability, verification and traceability.
- SmartArc software develops a near ideal weld procedure with Automatic Program Generator.
- Capable of going down to 0.1 Amps with MicroTig™ technology.
- High Voltage Pulse automatic arc starting from 0.5 to 25 Amps.
- SmartArc control provides flexibility for orbital and manual welding.
- Shipped in a sealed rugged case with wheels for easy mobility.
- Standard with extended memory.

Advanced Color Logic® GTAW Orbital Power Supply / Controller

The patented Advanced Color Logic® delivers controlled welding current needed to perform high-integrity orbital tube welds and is the perfect package for manufacturing environments.

Exclusive Auto Program Generator for easy weld setup and retrieval of saved procedures. Repeatability and precision, combined with real time data monitoring, traceability, and verification conform to most inspection and quality requirements.

Pentium® class processor for the fastest real time on-screen visual display of all welding parameters. Playback entire weld graphically for analysis or download to offline computer.

- Digital control and real-time graphics provide ease of operation and on-screen reference.
- Make your next weld while viewing the process in real time with 17" LCD flat screen monitor.
- Patented updated software now delivers more information, faster.
- USB equipped for moving, storing and transferring weld data and procedures.
- Programming is easy: just enter the tube diameter and wall thickness.
- Weld data monitoring can be printed or viewed as text, graphic on-screen displays or exported to a spreadsheet file.

Sanitary, Short Ferrule Collets

Easy to use and cost effective collets to simplify your orbital welding applications. MK strives to make your job easier by providing off-the-shelf solutions to life's tough challenges. Collets designed for precise tungsten placement offer enhanced repeatability for each weld.

High-Pressure Weld Tooling

Custom machined collets combined with locating and threaded weld fitting mandrels position the electrode right where you want it. MK's ability to create standard and custom tooling can help make the difference in your critical welding applications, including aerospace.

Sanitary • High-Pressure • Ultra High-Purity

Miniature weld fitting collets, tool mounting side plates and clamping jaws are made of nickel plated tool steel and each hardened for wear and toughness. These are just some of the standards that you have come to expect from MK, the leader in orbital welding systems.

MiniMicro™ Weldhead

The MiniMicro™ weldhead was designed for precision welding of small diameter tubes and fittings. It is controlled by an orbital power-supply motor-control circuit to turn the rotor at the precise speed to create a near perfect weld.

- Uses a 24VDC motor with TACH feedback.
- Capable of welding 1/8" to 1/2 inch OD tubes and associated fittings.
- Twist-lock cable-end connectors.
- Comes equipped with an integrated 12 foot cable.
- Connects directly to either the CobraTig® 150 or the ACL orbital power supply with the addition of Pig Tails and the CobraCooler®.

Popular Accessories

- Bench Mount Kit for 4000~5003 Weldheads (P/N 005-0634)
- 25 ft (7.6m) Extension Cable (P/N 005-0635)

Coolant:

For this weld head only, use distilled water.

MODEL	DESCRIPTION	DIAMETER RANGE	COOLING REQUIREMENTS
4000	MiniMicro™	1/8" ~ 1/2" O.D.	Yes

CopperHeads®

GTAW Weldheads

Whether it's for bench or portable applications, MK Products provides a solution when it comes to orbital welding systems. As our most cost effective and rugged in-place orbital weldhead, the CopperHead® series is an ideal cost saver for sanitary and high pressure tube systems. All CopperHeads® are Water Cooled with fingertip controls in the weldhead handle and come ready to plug into the CobraTig® 150 SM and Advanced Color Logic® power sources.

- Perfect for sanitary and high pressure tube and pipe jobs.
- Weld fitting collets, mandrels and special tooling available.
- CopperHead® offers versatility and high-output production rates.
- Water Cooled, narrow profile CopperHeads® ideal for awkward welds with limited access.
- Standard cable lengths of 25ft (7.6m).

Popular Accessories

- CopperHeads® I-III Benchmount Kit (P/N 005-0634)
- 25 ft (7.6m) Extension Cable (P/N 005-0635)
- 50 ft (15.2m) Extension Cable (P/N 005-0635-50)

Locating Mandrels

Locating Mandrels are used for precise and repeatable tube and welding fitting positioning and alignment. See price book for part numbers.

Collets, Flush and Extended

A set of collets is defined as top and bottom halves for each side of the weldhead. See price book for part numbers. Typically, 2 sets are required per each weldhead.

Aluminum Protection

For best performance, use only Cobra® Coolant. Failure to use Cobra® Coolant will void warranty.

5002	CopperHead® II	1/4" ~ 2" O.D.	Yes
5003	CopperHead® III	1/2" ~ 3" O.D.	Yes

DiamondBack™

GTAW Weldheads

The DiamondBack™ is our largest in-place orbital weldhead. Heavy duty and versatile, the DiamondBack™ has a narrow profile and is perfect for process piping and weld fitting applications found in food & beverage, dairy and other sanitary process piping installations. Also great for high-pressure aerospace applications, this easy to use weldhead is simple yet robust to meet the demands of field construction or manufacturing production environments.

- Weldable Tube Range: 2" Tube OD to 6" Tube OD
- Weldable Nominal Pipe Range: 2" Nominal Pipe to 5" Nominal Pipe.
- 3-Piece Collet Design for Precision Self-Centering of Tube or Pipe.
- Operator Flexibility: Flip-Top and View Lens aid Fit-Up, Alignment & Inspection.
- Ergonomically Perfect with 7 Function, Push Button Fingertip Control Built into the Weldhead.
- Advanced Design includes Jaw Style Clamping, 360° Head Rotation and 90° Tilt Action. Rugged Machined Aluminum Handles Eliminates Handling of Weldhead Body.
- Weld fitting collets, mandrels and special tooling available.
- Standard cable lengths of 25ft (7.6m).

Popular Accessories

- DiamondBack™ Benchmount Kit (P/N 005-0680)
- 25 ft (7.6m) Extension Cable (P/N 005-0635)
- 50 ft (15.2m) Extension Cable (P/N 005-0635-50)

MODEL	DESCRIPTION	DIAMETER RANGE	COOLING REQUIREMENTS
5006	DiamondBack™	2" O.D. ~ 6" O.D.	No

Offset Tungsten Layout Configurations

2% Ceriated electrodes, pre-ground and cut to length, 18° included angle, .015" flat tip, .040" or 1/16" diameter. See page 49 for part numbers.

CobraTurn™

57

AirCrafter™ T-25

Rotary Turntable

The AirCrafter™ T-25 positioner is ideal for lightweight applications. The most affordable rotary turntable, the T-25 is well suited for welding small, intricate assemblies, tube flanges and small aircraft-type parts as well as rotating lightweight non-welding items. The compact T-25 positioner has a maximum center load capacity of 25 lbs. and maximum welding ground capacity of 170 amps.

- Compact high performance turntable.
- Comes with 5" turntable top.
- Table angle control from 0 to 90°.
- Appropriate for GMAW or GTAW welding processes.
- High frequency protected.
- Perfect for small jobs.
- Includes a variable speed foot control.

The AirCrafter™ T-25 comes with a variable speed foot control.

MODEL NUMBER	OFFSET LOAD CAPACITY		TABLE DIAMETER	BALANCED LOAD CAPACITY		TABLE TILT	RPM RANGE
	HORIZONTAL - 0°	VERTICAL - 90°		HORIZONTAL	VERTICAL		
127-001	16 lb with Center of Gravity 1.78" off center	10 lb with Center of Gravity 2.5" from plate	5"	25 lb	10 lb	0 ~ 90°	0.5 ~ 10

The AirCrafter™ has a long standing reputation for fine workmanship and durability. It's no wonder that the AirCrafter™ name is one of the most asked for brands in the welding industry. MK Products makes every turntable to exacting standards.

CobraTurn™ Digital Turntable

MK Products introduces the new CobraTurn™ Digital Turntable, designed for durability and performance with all welding processes. Utilized on small to large weld assemblies, the CobraTurn's™ ability to rotate welding jobs makes it ideal for all applications up to the rated load capacities.

- Simple illuminated control panel, with digital display.
- Power (On / Off) and Rotation direction (CW / CCW) push button switches.
- Linear single speed control knob, with center, push button start, stop or jog functions.
- Gas ID purge through the center shaft.
- High frequency interference protection.
- Simple push knob to adjust table angle.
- Grab handle for easy tilting and transporting.
- Standard On/ Off foot switch provided, or an optional variable foot switch may be purchased.
- Heavy-duty, compact, open frame design.
- Can be easily bolted to any flat surface.
- Gas fitting and grounding lug accept common gas hose and ground terminals used in the welding industry.
- Steel frame and control panel, powder coated grey.
- Lightweight, anodized aluminum gear housing.
- Heavy-duty steel cut gears.
- Spring loaded tapered pin lock mechanism to adjust table angle.
- 9 table angle locking positions from 0-90 degrees. Custom angle lock plates may be purchased.

The CobraTurn™ comes with:
On/Off Foot Switch
005-0747

LIMITED WARRANTY

This warranty supersedes all previous MK Products warranties and is exclusive, with no other guarantees or warranties expressed or implied.

LIMITED WARRANTY - MK Products Inc., Irvine, California warrants that all new and unused equipment furnished by MK Products is free from defects in workmanship and material as of the time and place of delivery by MK Products. No warranty is made by MK Products with respect to trade accessories or other items manufactured by others. Such trade accessories and other items are sold subject to the warranties of their respective manufacturers, if any.

MK Products' warranty does not apply to components having normal useful life of less than one (1) year, such as relay points, wire conduit, tungsten, and welding gun parts that come in contact with the welding wire, including gas cups, gas cup insulators, and contact tips where failure does not result from defect in workmanship or material.

MK Products shall, exclusively remedy the limited warranty or any duties with respect to the quality of goods, based upon the following options:

- (1) repair
- (2) replacement
- (3) where authorized in writing by MK Products, the reasonable cost of repair or replacement at our Irvine, California plant.

As a matter of general policy only, MK Products may honor an original user's warranty claims on warranted equipment in the event of failure resulting from a defect within the following periods from the date of delivery of equipment to the original user:

- 1. Power Supplies and Wire Feed Cabinets3 years**
- 2. Weldheads, Coolers, Positioners, and Push-Pull Guns ...1 year**
- 3. Spool Guns, and Spool Gun Modules 180 days**
- 4. Repairs/Exchanges/Parts 90 days**

Classification of any item into the foregoing categories shall be at the sole discretion of MK Products. Notification of any failure must be made in writing within 30 days of such failure.

A copy of the invoice showing the date of sale must accompany products returned for warranty repair or replacement.

All equipment returned to MK Products for service must be properly packaged to guard against damage from shipping. MK Products will not be responsible for any damages resulting from shipping.

Normal surface transportation charges (one way) for products returned for warranty repair or replacement will be borne by MK Products, except for products sold to foreign markets.

ANY EXPRESS WARRANTY NOT PROVIDED HEREIN AND ANY IMPLIED WARRANTY, GUARANTY, OR REPRESENTATION AS TO PERFORMANCE, AND ANY REMEDY FOR BREACH OF CONTRACT WHICH, BUT FOR THIS PROVISION, MIGHT ARISE BY IMPLICATION, OPERATION OF LAW, CUSTOM OF TRADE, OR COURSE OF DEALING, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR OF FITNESS FOR PARTICULAR PURPOSE, WITH RESPECT TO ANY AND ALL EQUIPMENT FURNISHED BY MK PRODUCTS, IS EXCLUDED AND DISCLAIMED BY MK PRODUCTS.

EXCEPT AS EXPRESSLY PROVIDED BY MK PRODUCTS IN WRITING, MK's PRODUCTS ARE INTENDED FOR ULTIMATE PURCHASE BY COMMERCIAL/INDUSTRIAL USERS AND FOR OPERATION BY PERSONS TRAINED AND EXPERIENCED IN THE USE AND MAINTENANCE OF WELDING EQUIPMENT AND NOT FOR CONSUMERS OR CONSUMER USE. MK PRODUCTS' WARRANTIES DO NOT EXTEND TO, AND NO RE-SELLER IS AUTHORIZED TO EXTEND MK PRODUCTS' WARRANTIES TO ANY CONSUMER.

USE OF OTHER THAN **GENUINE** MK PRODUCTS' CONSUMABLES, PARTS, AND ACCESSORIES MAY INVALIDATE YOUR PRODUCT WARRANTY.
