MOBILIS®
26 years of expertise
at your service

INNOVATION, MOBILIS®'S DNA SINCE ITS CREATION

In 1993, MOBILIS® was founded on a radically innovative idea: the first permanent protective shell for a laptop!

Hardened and ergonomic protection to protect equipment during use, the breakage rate being always higher in use than in transport. But also a semi-rigid protection to transport the material safely.

This permanent protection has become essential today for tablets, hybrid PCs, smartphones, laptops and data entry terminals. The protective shells must adapt to constant changes in the mobile computing market and to the changing needs that result. That's why we decided early on to internalize product development and manufacturing. Thus, we have a strong expertise and the necessary agility to always offer relevant solutions adapted to the new uses and new constraints.

OUR PROMISES

PROTECTION ERGONOMICS DESIGN

Each of our solutions is designed by the development team according to 2 axes:

- Providing the appropriate level of protection for the use of the product.
- Creating features that make the use of devices in the field easier.

CARE & CARRY

Our « Care & Carry » philosophy is embodied in each of our products, as a guideline from conception to you. We take care of your material by protecting it effectively and thus preserve your personal and / or sensitive data. Added to this is the special attention paid to the aesthetics of our products while emphasizing comfort and ergonomics.

MOBILIS®, "LA FRENCH FAB"

MOBILIS® is the only player in the market to have two fully integrated factories in France (sewing and plastic injection), and is part of La FRENCH FAB, the movement of French industrial companies that innovate, create jobs, develop and reinvent themselves locally.

This is explained by :

- a special attention to the place of the man in the processes
- Performance backed by digital and new materials
- a development turned towards the international
- reducing our environmental footprint and improving our energy efficiency.

MOBILIS SUPPORTS ALL SECTORS OF ACTIVITY

SALES FORCES & TECHNICIANS

The equipment of sales forces in mobile computing tools is a vector of productivity for companies. The management of quotes, orders and invoices, consultation of stocks, tour optimization, access to technical plans ... are done everywhere and at any time for more efficiency!

Our clients : Danone, Coca-Cola, Kellogg's, Procter & Gamble, Heineken...

TRANSPORT & LOGISTIC

From the truck driver to the airline pilot, from the driver to the logistics manager, from the order picker to the courier, MOBILIS® assists professionals who use mobile devices to optimize rounds, have a real-time schedule, scan, capture signatures, print, receive and send alerts, be reachable and responsive!

Our clients : Geodis, DB, GLS, Chronopost, MRW...

ENERGIES

The production, distribution of water, gas and electricity require challenges: network maintenance, customer relations, optimization of production, security ... We offer a wide choice of protective covers that which are adapted to very specific business and environmental constraints, for the equipment of technicians, engineers ...

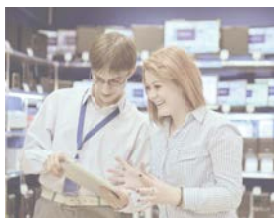

Our clients : EDF, E-ON, Engie, Red Electrica, Repsol...

EDUCATION

In education, contents have become digital and interactive, so accessible from a tablet or laptop! The integration of these tools at school, at home and in the children's 'binder' is a real challenge for such fragile materials. MOBILIS® protects more than 500,000 laptops and tablets in the education sector around the world.

Our clients : Primary & secondary schools, high schools, colleges...

RETAIL & POINTS OF SALE

Improve inventory management, inventories, prepare orders, manage in-store withdrawals, advise customers, accelerate collection, do upselling ... These are all benefits that come with PDAs, smartphones and tablets at the point of sale.

Our clients : Darty, But, Auchan, Costa Coffee, Kiabi...

POLICE FORCE & SECURITY

Security has become a major problem. The security forces (Police, Military, Firefighters ...) must be able to access directly and securely to their applications in the field (wanted persons, stolen vehicles, burglaries mapping, identity verification, Electronic statement...)

Our clients : Gendarmerie Française, DGT Espagne, NYPD...

POSTAL SERVICES

MOBILIS® equips the postmen, reception services and counter sales, and intervenes in the automation of sorting centers for national posts in Spain, France, Portugal, Belgium, Italy ... Solutions for transport, protection mobile computing hardware, user ergonomics, integration into vehicles and mail transport.

Our clients : La Poste, Correos, Bpost, Posteitaliane, Postnl, Chronopost...

AUTOMOTIVE

Production monitoring, quality control, inventory management and consultation, and reception and control of vehicles under concession, sale or diagnostic technology: MOBILIS® supports the leading car manufacturers in their projects for mobile computing equipment.

Our clients : Toyota, Snap-On, PSA, Renault-Nissan, Volkswagen, Mercedes-Benz...

RAIL TRANSPORT

Carrying passengers, maintaining railways, train stations and trains, welcoming, advising and guiding millions of travelers, ensuring safety ... Smartphones and tablets are essential companions for drivers, controllers, logisticians, technicians and engineers. Access to information, sharing and traceability are imperative!

Our clients : SNCF, SNCB, Thalys, DB ...

HEALTH

Dematerialization of files, medical imaging, traceability of medical procedures, medicines ... MOBILIS® intervenes to protect equipment (tablets, smartphones, scanners, HDD, fixed PCs ...) against breakage, theft but also protect sensitive data and facilitate the everyday life of the nursing staff by working the ergonomics of use of mobile terminals at the patient bedside.

Our clients : Sanofi, Bayer, Pierre Fabre, Astra Zeneca, APHP...

INDUSTRY

Tablets, laptops, smartphones and PDAs exist in production workshops for operations as diverse as robot control and programming, augmented reality, following the production cycle, controlling quality or performing maintenance operations.

Our clients : Airbus, Toyota, Techem, Bosch, Otis ...

NORMS & WARRANTIES

The integration of product development from the beginning to the end provides a high reactivity in the innovation of the materials and brings the best solutions. Then the MOBILIS® products can endure the strictest tests and guarantee the best protection for your devices.

IK The shock resistance index

The degree of impact resistance of an equipment is represented by the index IK. It corresponds to the risk of aggression a product can be subjected in its environment of use.

*Resistance to an impact of x joules.
Mass of x kg falling from a height of x cm*

IK index	IK03	IK06	IK08	IK10
Energy (joules)	0.35J	1J	5J	20J
Mass in kg	0.25kg	0.25kg	5kg	20kg
Height	14cm	40cm	40cm	40cm

TFP 4.0 MOBILIS® anti-shock material

Specifically designed to cushion shocks even the most violent, it instantly absorbs up to 90% of the energy of an impact, then disperses it. Thus, no shockwave is transmitted to your device. This new generation of TFP is enhanced with microcells, to be even more effective in absorbing repeated impacts.

MIL-STD 810G NORM Military norm

MIL-STD 810G is a standard norm created by the US Army Equipment Testing Laboratory. Products with this standard norm are ultra-rugged devices designed to endure extreme use conditions.

WARRANTY

Thanks to many controls and strict tests that our products pass, we can offer a wide guarantee against any defect in material, design or manufacture.

SOCIAL RESPONSABILITY

As a member of the NGO AMFORI, MOBILIS® is committed to improve working conditions, social and environmental standards for all our industrial partners.

REACH is a European regulation dealing with the evaluation, the authorization of use and the restriction of certain chemical compounds: SVHC (Substance of Very High Concern). Since 2011, our finished products have been rigorously tested by an independent laboratory TÜV SÜD to exclude materials containing one of the 181 problematic substances and potentially carcinogenic, mutagenic, toxic for reproduction. This list of subjects is updated and followed every 6 months.

CASE C1

Scratch protection and enhanced ergonomics, the promise of the CASE C1 for tablet.

PROTECTIVE FOLIO CASE FOR GALAXY TAB

- Dedicated folio protective case
- 2 usage positions: photo & video mode and keyboard mode
- Brushed metal finish
- Access to all ports and functionalities
- 2-year warranty

PROTECTIVE FOLIO CASE FOR IPAD

- Dedicated folio protective case
- 2 usage positions: photo & video mode and keyboard mode
- Brushed metal finish
- Access to all ports and functionalities
- 2-year warranty

CASE C1 UNIVERSAL

Our universal range covers the vast majority of tablets on the market.

UNIVERSAL PROTECTIVE FOLIO CASE FOR TABLET

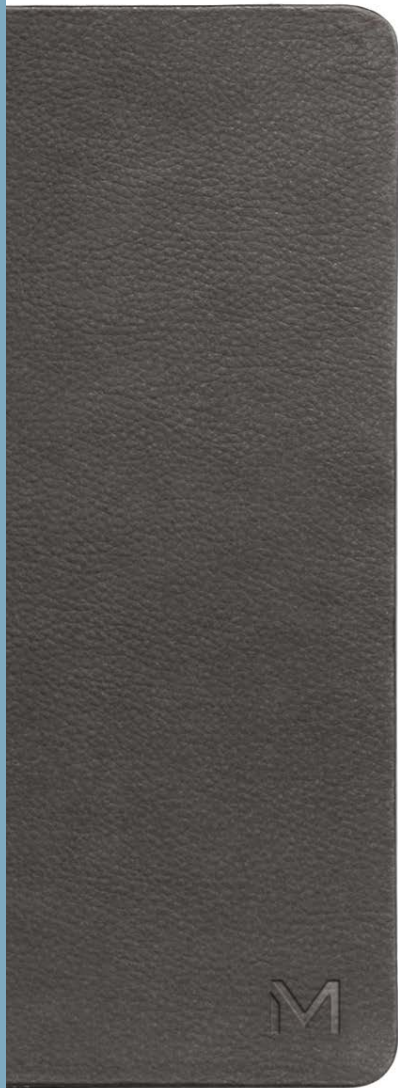

- Dedicated folio protective case
- 2 usage positions: photo & video mode and keyboard mode
- Brushed metal finish
- Access to all ports and functionalities
- 2-year warranty

RUGGED PROTECTIVE CASE FOR TABLET / HYBRID PC

Dedicated protective solution

Contact your reseller.

Hardened RESIST protective cases are specifically designed to withstand heavy-duty use in the field. They can withstand 1000 drops from a height of 1.20m, that is 30 times higher than the requirements of military standard MIL-STD 810G.

RESIST PACK cases feature a shoulder strap, hand strap and stylus holder. They are user-friendly and easy to carry around which ensures that the tablets can be used in all conditions: on the move, in a meeting, and even while standing up in a hostile environment.

- Dedicated rugged protective case
- Keyboard compatible
- Shock-resistant: 30x greater than military standard MIL-STD 810G; capable of withstanding 1000 drops from a height of 1.2m
- Reinforced protection: 2 patented systems for absorbing shocks (Perimetric Bumper and Shock Wave Absorber) and use of TFP 4.0 anti-shocks composite
- Shoulder strap included to carry your device or for typing while standing
- Shoulder strap attachment rings: braided nylon resistant to a 15kg traction per ring
- Elastic strap
- Stylus holder
- You break, we pay*
- 2-year warranty

*PREVENTIS warranty : Contact-us for more information

REINFORCED PROTECTIVE FOLIO CASE FOR TABLET / HYBRID PC

Dedicated protective solution

Contact your reseller.

With ACTIV reinforced protective folio cases, your tablets or hybrid PCs are always fully protected in case of drops and shocks. These protective cases can withstand more than 50 drops from a height of 1.20m, which is twice the requirement of military standard MIL-STD 810-G. They are certified to IK08 standard for resistance to shocks.

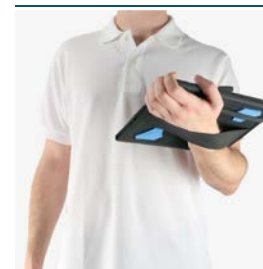

Featuring a foldable cover that also serves as a base as well as a shoulder strap, hand strap and stylus holder, ACTIV PACK protective folio cases offer excellent ergonomics at the office or in a meeting. They are also easy to carry around and suited for semi-nomadic uses.

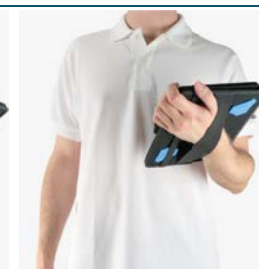

- Dedicated rugged protective case
- Keyboard compatible (Hybrid PC only)
- Shock-resistant: 2x greater than military standard MIL-STD 810G; capable of withstanding 50 drops from a height of 1.2m
- Reinforced protection: 2 patented systems for absorbing shocks (Perimetric Bumper and Shock Wave Absorber) and use of TFP 4.0 anti-shocks composite
- Shoulder strap included to carry your device or for typing while standing
- Shoulder strap attachment rings: braided nylon resistant to a 15kg traction per ring
- Elastic strap
- Stylus holder
- 2-year warranty

VIDEO

REINFORCED PROTECTIVE CASE FOR TABLET / HYBRID PC

PROTECH reinforced protective cases are cleverly designed to protect your devices efficiently if they happen to be dropped. Several technologies using different materials have been developed to cushion shocks, absorb the shockwave and disperse the energy of the impact. The exclusive combination of several protection elements means PROTECH is highly resistant to falls and drops, in fact, 15 times higher than the requirements of military standard MIL-STD 810G.

Flexible and light, PROTECH cases fit perfectly like a second skin around the devices they protect and thus take up a minimum of space.

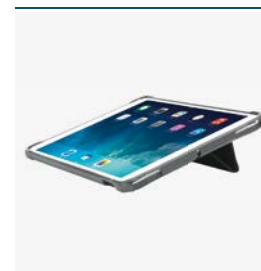

- Dedicated protective case
- Drop-resistant: 15x greater than military standard MIL-STD 810G; capable of withstanding 400 drops from a height of 1.2m
- Reinforced protection: 3 shock protection systems: Perimetric Bumper; Shock Wave Absorber and TFP 4.0 composite
- Designed to cushion shocks - it can absorb shock waves and withstand impacts
- 2 stand positions: keyboard or photo&video
- Shoulder strap included to carry your device or for typing while standing
- Shoulder strap attachment rings: braided nylon resistant to a 15kg traction per ring
- Elastic strap
- Stylus holder
- 2-year warranty

Featuring user-friendly accessories and carry options (shoulder strap, hand strap, stylus holder, base for tablets) PROTECH cases for tablets and input terminals are the ideal combination to safely carry and use your devices.

REINFORCED PROTECTIVE CASE FOR HANDHELD DEVICE

PROTECH reinforced protective cases are cleverly designed to protect your devices efficiently if they happen to be dropped. Several technologies using different materials have been developed to cushion shocks, absorb the shockwave and disperse the energy of the impact. The exclusive combination of several protection elements means that PROTECH is highly resistant to falls and drops, in fact, 15 times higher than the requirements of military standard MIL-STD 810G.

Flexible and light, PROTECH cases fit perfectly like a second skin around the devices they protect and thus take up a minimum of space.

- Dedicated protective case
- Drop-resistant: 15x greater than military standard MIL-STD 810G; capable of withstanding 400 drops from a height of 1.2m
- TFP 4.0 composite on each corner to cushion shocks - it can absorb shock waves and withstand impacts
- Compatible with manufacturers accessories (docking station...) depending on the model
- Shoulder strap included to carry your device
- Shoulder strap attachment rings: braided nylon resistant to a 15kg traction per ring
- Detachable elastic strap included
- Stylus holder on the elastic strap
- Access to all ports and functionalities
- 2-year warranty

Featuring user-friendly accessories and carry options (shoulder strap, hand strap, stylus holder, base for tablets) PROTECH cases for tablets and input terminals are the ideal combination to safely carry and use your devices.

ERGONOMICS

ACCESSORIES

SCREEN PROTECTORS

67% of damages involve screens, and in 77% of cases, they occur because your smartphone or your tablet was dropped.

The screen is the most active component...but also the most fragile!

Our "Screen Protector" solutions not only prevent screen damages, scratches and reflections and fingerprints.

More than 2000 references available for tablet, smartphone, notebook and LCD.

SCREEN PROTECTORS

NORM OF PROTECTION

The IK standard defines the degree of protection against external mechanical shocks. It is standardized according to NF EN 62262 (NF C 20-015). The IK06 rating indicates resistance to a 1-joule impact (equivalent to the impact of a 250gr mass dropped from a height of 40cm).

ANTI-FINGERPRINT

Even with regular cleaning, fingerprints and smudges are always visible on your smartphones' and tablets' touchscreens. Thanks to its anti-fingerprint effect, a matte finish prevents this unpleasantness.

OLEOPHOBIC

Don't be afraid of coffee drips, food spots or dust traces anymore. With their matte finish, anti-stain screen protectors prevent any mark from staining your screen.

ANTI-SCRATCH HARDNESS

9H is the hardest grade (behind diamond, which is 10H) on a scale defining resistance to touch, pressure, shearing, chafing and shock. Therefore, 9H is the best degree of anti-scratch protection that exists for screens.

ANTI-GLARE

The anti-glare feature prevents the reflection of sun and lighting on screens, allowing users to check their devices in luminous places without being constrained by glare.

PRIVACY

With its 60° angle of visibility, the privacy filter protects your data from curious or prying eyes.

TRANSPARENT FINISH

Transparency 99%

PRIVACY FILTERS

Effectively protects your onscreen data from prying eyes

For those who want to use their laptop away from prying eyes, MOBILIS® has designed privacy filters which can be adjusted to fit your IT equipment.

Check your sensitive data wherever you want.

This removable filter helps you to completely protect your personal or sensitive data on your computer screen. In fact these privacy filters use a micro-louvre technology which only allows the person in front of the screen to see the data on display. Those seated on each side of the computer can only see a black screen. This essential protection accessory means you can work with complete peace of mind in public places, on public transport, or even in an open-plan office.

- Effectively protects your onscreen data from prying eyes
- Only the person in front of the screen can view the displayed data (side protection)
- For laptops and PCs
- Compatible with touchscreens inferior to 15"
- Easy to install - removable and adjustable
- Installation kit provided (cleaning wipes/microfibre cloth/dust protection/easy-on and easy-off)
- 2 attachment systems: for screens with/without bezel
- Available from 12.1" to 24"
- 2-year warranty

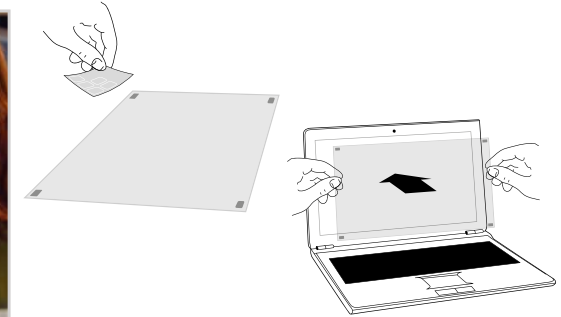

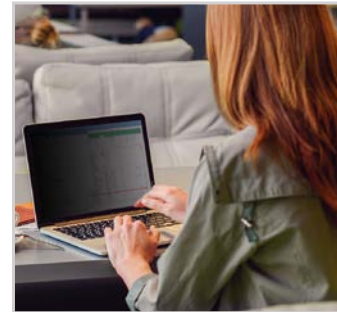

Pack composed of :

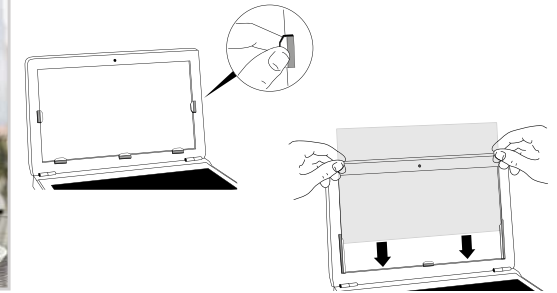

- Privacy filter (in transparent sleeve)
- Instructions for use
- 1 anti-dust adhesive
- Adhesive pads
- Hang tabs

This privacy filter is compatible with any LCD or laptop screen. Where applicable, it also retains the screen's touch capabilities. To meet your specific needs, there are two types of installation available: for screens with bezel (installation using hanger arms) or screens without bezel (installation using adhesive strips). For the best possible usability, this privacy filter also includes a matt anti-glare finish.

The 'Master Key' allows the IT manager to unlock all of our anti-theft cables. Available as an option.

ACCESSORIES

Car holders, chargers, travel AC adapters, capacitive stylus... A range of accessories to accompany you on a daily basis.

ACCESSORIES

UNIVERSAL CAR HOLDERS

Universal Car Phone 6" - Ref : 001256

Weight : 24g
Dimensions : 65x25x45 mm

- Universal: for all 3.5" to 6" smartphones
- Quick and easy to install onto your air vent thanks to its clip
- Rotating holder to position your smartphone through 360°
- 2-year warranty

Universal Car Nav 6" - Ref : 001235

Weight : 65g
Max opening : 90 mm

- Universal: for all 3" to 6.5" smartphones
- You can use your smartphone in hands-free mode in your car
- Quick and easy to install onto your windscreen thanks to its suction mounting
- Rotating holder to position your smartphone through 360°
- 2-year warranty

CHARGING ACCESSORIES

Car charger 2 USB - Ref : 001241

Weight : 13g
Ext. Dim. : 52x31x23 mm

- You can charge two devices at the same time
- Includes 2 USB ports (1x2.1A for tablets 1X1A for smartphones)
- Connects to all car cigarette lighters
- 2-year warranty

Worldwide Travel Adapter 2 USB - Ref : 001243

Weight : 94g
Ext. Dim. : 61x50x53 mm

- You can charge two devices at the same time
- Includes 2 USB ports (2x1 05A)
- Compatible in 155 countries (Europe/UK/USA/Australia)
- Compact style easy to carry
- 2-year warranty

CAPACITIVE STYLUS

Universal stylus for capacitive touch screen - Ref : 001005

Weight : 10g - Length : 115 mm

Pack of 10 retractable universal styluses with spiral cord capacitive touch screen - Ref : 001030

Weight : 5g - Length : from 65 to 100 mm - Diameter : 9 mm

- Universal: compatible with all capacitive touchscreens (tablets/smartphones - Apple/Android etc.)
- Compatible with all screen protectors
- Easy to use: its smooth and rounded tip mimics finger pressure while providing effortless navigation
- No scratches or fingerprints
- Rugged: metal body (001005)
- 1-year warranty (001005)
- Retractable stylus pocket format: 6.5 cm retracted and 10 cm when in use (001030)
- Practical: it includes an extendable spiral cable (from 15 to 90 cm) (001030)
- 2-year warranty (001030)

FOLD-UP STAND FOR TABLET & SMARTPHONE

Ref : 001237

Weight : 90g
Ext. Dim. : 185x32x23 mm

- Universal: compatible with all smartphones and tablets
- 100% adjustable viewing angle
- Light and foldable: easy to carry
- 2-year warranty

ACCESSORIES

UNIVERSAL WRIST/ARM BAND

4-6" - Ref : 030003

Weight : 50g

5-7" HANDHELD device - Ref : 030004

Weight : 68g

- You can attach all 4 to 7" smartphones and data acquisition terminals to your wrist/arm
- Universal silicone mounting device
- Velcro-adjustable arm band to fit all wrist sizes
- A 180° rotating holder to use your device vertically or horizontally
- 2-year warranty

UNIVERSAL UTILITY HANDLE WITH SHOULDER AND STYLUS STRAPS

7-8" - Ref : 030001

Weight : 90g

Ext. Dim. : 185x135x15 mm

9-10.1" - Ref : 030002

Weight : 108g

Ext. Dim. : 226x159x40 mm

- You can keep hold of your tablet while typing and carry it in complete safety using the shoulder strap
- Compatible with all tablet brands and models
- Universal silicone mounting device
- 2 integrated stylus holders
- 4 rings to attach a shoulder strap to carry your device or to type while standing
- Adjustable and removable shoulder strap included
- 2-year warranty

U.FIX

To facilitate and secure the daily use of your smartphone or tablet, MOBILIS® has created the unique U.FIX range of mounts for these devices. You can now take them with you throughout your daily activities.

With its innovative SecureLock mechanical and magnetic system, secure your smartphone or your tablet in no time to U.FIX mounts and always keep them to hand to easily access all your applications.

U.FIX. Anywhere. Anytime.

IK10 PROTECTION

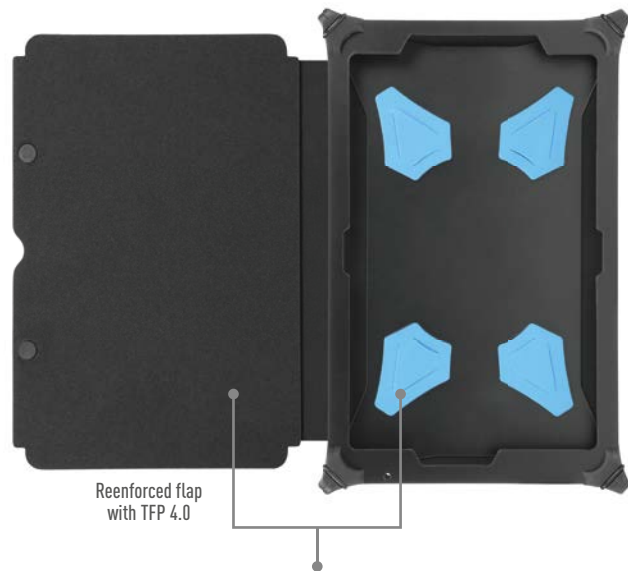

RESIST TO 1000
DROPS FROM 1,2M

RESIST

Result of 26 years of experience and expertise in the mobility market, RESIST cases protect your devices against vibrations and shocks.

Reinforced flap with TFP 4.0

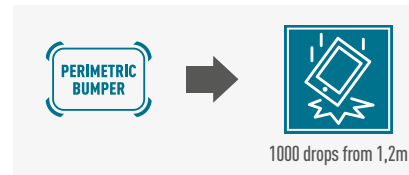

TFP 4.0

For shock wave absorption. TFP 4.0 is an exclusive composite developed by our laboratory. It cushions shocks, even the most violent.

Shock Wave Absorber with TFP 4.0

1000 drops from 1,2m

THE ONLY PROTECTIVE CASE IK10 NORM ! (WITH FLAP)

The IK standard defines the degree of protection against external mechanical shocks. It is standardized according to NF EN 62262 (NF C 20-015). The IK10 grade represents the highest level of protection, resisting an impact of 20 joules. MOBILIS® is the only player in the mobile device protection market that has achieved the IK10 standard.

DROP TEST

Your device will resist to 1000 drops from 1.2 meter height.
(30 times more than the actual military norms)
