## WELCOME TO STANDARD GOLF'S 2022 CATALOG

Inside you'll find over 4,000 unique and innovative golf course accessories, course maintenance tools, customizable products and parts. Standard Golf has had a great 112-year ride and it has all been because of the great support of our fans, dealers and customers across the world. In 2021 we promoted the culture, "To Success, One Must Adapt to the Changing Environment." You will see with our newest product vertical that we are indeed adapting to the changing environment this year as we get into some humic and fulvic acids as we introduce GreenActivator™.

# BUNKER RAKES COMPARISON

## THE CHIEF

Designed by a golf course superintendent to be used with the "Aussie Style" of bunker maintenance. This tine-less or "toothless" rake has two sides, a smooth side to help pack down the vertical sides of a bunker, and a side with ridges to rough up the bottom of the bunker without leaving large grooves in the sand.

- ▶ 20" (51 cm) rake head will come with one of 3 handle sizes, Green 54" (137 cm) Aluminum, 60" (152 cm) Green Gator Grip or 72" (183 cm) Green Gator Grip.
- ▶ Single tapping screw (included) is all you need for assembly.

## TOUR PRO™

The stronger, lighter material has tines to help move deep sanded bunker sand into place. Flip over and the ridges smooth the playing surface without leaving the sand compacted and flat. Less expensive and a wider coverage than many of its competitors.

- ▶ 20" (51 cm) and 25" (63 cm) heads ensure tracks are covered with minimum effort, while pioneering design generates tournament quality surfaces
- ▶ When durability is a must, the exclusive Gator Grip handle is your best option, available in both 60" (152 cm) and 72" (183 cm) lengths. Also available with 64" (162.5 cm) curved aluminum and 54" (137 cm) composite handles.
- ▶ A single self-tapping screw (included) is all you need for assembly.

## TOUR SMOOTH™ II

Performance of the original Tour Smooth Bunker Rake just got an upgrade. Improved rake assembly and the addition of the exclusive Gator Grip handle makes the Tour Smooth™ II a must for all courses.

- ▶ Smooths both fine and course sand into perfect playing conditions quickly and easily
- ▶ Pair the Tour Smooth™ II with the exclusive 60" (152 cm) Gator Grip handle for a level of performance unmatched by any of the competitors
- ▶ A single self-tapping screw (included) is all you need for assembly.

## DUO-RAKE™

One side furrows and the top side smooths. The entire rake floats!

- ▶ 15" (38 cm) high-impact plastic head.
- ▶ Now with new stronger, gusset-reinforced high-impact plastic head.
- ▶ Bolt and cone (included) is all you need for assembly.

## ECONOMY

Full size performance for smaller-sized budgets.

- ▶ 48" (122 cm) wooden or 54" (137 cm) ultralight, plastic-coated steel handles
- ▶ Tough, high-impact 15" (38 cm) molded head (and handle).

## CART RAKE

When weight is the issue, the Cart Rake is the lightest you'll find.

- ▶ Impact-resistant, 15" (38 cm) polyethylene molded head.
- ▶ Redesigned neck for added strength and durability.
- ▶ 48" (122 cm) wooden handle.
- ▶ Perfect for golfers to carry.
- ▶ Fits in most golf carts!

# 400 DENIER VS. 200 DENIER FLAG FACTS:

## FACT #1

Sometimes less is more. 400 denier is relatively new to the industry and typically used on sailboats.

## FACT #2

The purpose of a golf flag is to show where the cup is and to help golfers judge wind speed. It takes a 7 to 10 mph wind to get a 400 denier flag waving. It takes a 3 to 5 mph wind to get a 200 denier flag waving. Advantage: 200 denier. Plus, the heavier 400 denier flag wears out ferrules, flagsticks and cups quicker.

## FACT #3

Golf flags are meant to fly. Sails are meant to propel sailboats. One has nothing to do with the other. So trust us when we tell you the only time we recommend 400 denier is usually when we're talking to sailors, not superintendents.

All nylon flags are made of DuPont SolarMax® Nylon!

# IF IT STICKS TWISTS OR LEANS IT'S NOT A SMART-FIT

## INTRODUCING MAGNATECH™

– a proprietary aluminum blend from Standard Golf. Beginning in 2020, all of Standard Golf's aluminum cups will be made with our new MagnaTech™ Aluminum Blend. A proprietary blend with more silicone and less copper, our MagnaTech™ Aluminum is stronger than previous versions and has less corrosive tendencies.

Standard Golf's ST2000 Smart-Fit™ Cups come with three configurations: aluminum, plastic and "hybrid" with an aluminum base and plastic molded walls to combine the best of our aluminum and plastic models.

All of our notched ferrule flagsticks - Royaline (*now with veil wrapped coating*), Tournament and Putt-Saver - fall right into place every time without twisting, sticking or sinking.

## BEST VALUE

*Set of 18 Cups + 1 Cup Setter*

Standard Golf's Aluminum ST2000 Smart-Fit™ cup, MagnaTech™ Budget Cup, and Aluminum Cup are each available in sets of 18 cups with 1 cup setter for the best value.
