Secure Peripheral Switching Solutions

belkin

Certified to NIAP Protection Profile for Peripheral Sharing Devices Version 4.0 base PSD with applicable modules for each component.

The Solution

Belkin offers the latest Common Criteria NIAP Protection Profile 4.0- certified peripheral sharing devices designed to maintain air-gap isolation with the desktop while improving operator efficiency and effectiveness.

The ultimate security solution

All Belkin Secure Switching Products are equipped with advanced cybersecurity provisions including:

- Optical data diodes assuring unidirectional data flow from each peripheral
- Device emulation and filtering of connected USB devices
- Secured EDID emulation ensuring protection of connected monitors

Tamper-proof system

All Belkin secure switching products are equipped with an end-to-end tamper-proof system including:

- A holographic security tamper-evident label on the switch enclosure to indicate if the product has been opened or compromised
- The advanced Universal 2nd Gen Secure KVMs include an always-on, battery-backed, active anti-tamper circuit that protects the unit while in transit and after deployment
- The Universal 2nd Gen Secure KVMs ship in tear-away packaging to ensure the integrity of the unit throughout the supply chain

Modular SKVMs
Belkin's Modular SKVMs are designed and built for government and military agencies around the world to safeguard critical data and computer systems. While only slightly larger than a modern smartphone, Belkin's Modular series of secure KVMs and KMs meet all critical security constructs to ensure air-gap isolation and system security in the smallest form factor on the market. Universal video compatibility, innovative mounting options, and an included remote control allow administrators to declutter the operator's desk without jeopardizing control and access.

- Smallest form factor for 2- or 4-port secure KVM
- Universal video compatibility
- Included remote control supports KVM switching while decluttering the desk
- Optional mounting hardware supports VESA and under-the-desk mounting
- Certified for NIAP Protection Profile 4.0 to meet the highest security standards
- TAA compliant, assembled in the USA
- Dedicated US-based free technical support

Free up your desk

With a 94% smaller footprint than other KVMs, the Modular SKVM Series is designed to take up as little desk space as possible while adhering to NIAP PP PSD 4.0 requirements.

Optional mounting choices and the included remote control combine to help declutter the desk while enhancing operator ergonomics in even the most cramped work environments.

Modular KMs

Modular KMs

Supporting two or four computers, the Belkin Secure Modular KM series is ideal for desktops that require multiple monitors for real-time monitoring and response. Each computer remains directly connected to its own monitor(s) while the KM switches USB keyboard and mouse control with a simple keyboard key press and cursor move to the active computer. Modular KM units are shipped with a complete set of connecting cables and a remote-control unit, should a user desire a button push to switch the keyboard and mouse to a different computer.

- Smallest form factor for 2- or 4-port KM
- Included remote control supports KM control switching while decluttering the desk
- Optional mounting hardware supports VESA mounting and under-the-desk mounting
- Certified for NIAP Protection Profile 4.0 to meet the highest security standards
- TAA compliant, assembled in the USA
- Dedicated, USA-based free technical support

Universal 2nd Generation SKVM

Belkin's Universal 2nd Generation Secure KVM series combines cutting-edge cybersecurity provisions, video performance, and user experience to deliver a no-compromise solution for the most demanding applications. Compatible with a unique KVM Remote with Integrated Keyboard, combining the KVM channel selection with a backlit, mechanical USB keyboard reduces operator error and declutters the desktop.

- Available in 2-, 4-, 8-, and 16-channel ports with a choice of single or dual monitors for 1-8 port models, single monitor for 16-port model
- Future-proof design supports current and upcoming video standards at up to 4k@60Hz with optional passive and active TAA compliant cables
- Optional SKVM remote with integrated keyboard supports full KVM switching control for the ultimate operator experience
- Certified for NIAP Protection Profile 4.0 to meet the highest security standards
- USA-based free technical support

The color of efficiency

Customizable port coloring and naming on the front panel of the Universal 2nd Gen facilitates channel identification and reduces operator errors.

Control the KVM from the keyboard

The industry-first Belkin KVM Remote with Integrated Keyboard provides full control of the SKVM, allowing it to be located off the desk for a clean and decluttered workstation. The keyboard's LED backlighting and status indicators mimic the SKVM's front panel configuration to reinforce the security enclave the operator is working on, minimizing operator error while enhancing workspace ergonomics.

Who We Are

At Belkin International, we create products that help people realize
the power of technology and make people's lives better, easier, and
more fulfilling. This has been Belkin's mission since our inception in
1983. As a leading provider of secure KVM switches for mission-critical
applications, we positively impact and improve worker efficiency by
delivering innovation and peace of mind to users working across
multiple security enclaves. Our offer is certified to the latest Common
Criteria NIAP Protection Profile for Peripheral Sharing Devices version
4.0 along with all applicable modules.
