▶ Right Response™

Arc Abrasives' **Right Response™** program will help you right-size your inventory for maximum returns on your investment while maintaining or increasing your margins. **Right Response™** is a needs evaluation and response program that helps you minimize inventories without compromising your ability to respond to customer emergencies.

Right Evaluation

An Arc applications expert will help you determine the optimum inventory level and product mix to manage your customers' needs.

Right Inventory Support

A profile of your product needs will govern our "in-stock" inventory on items to assure your JIT delivery. That inventory will be maintained for you at no cost to insure the RIGHT delivery.

Right Ordering

A minimum step ordering protocol will be developed to perfectly match your ordering systems with Arc's express order implementation system. All orders are confirmed via fax.

Right Fulfillment

Upon receipt of your order, the items are either pulled from special inventory or manufactured on demand.

Right Shipping

Your order will be shipped within twenty-four hours of order receipt (unless otherwise specified at time of order acknowledgement).

Right Quality

We unconditionally guarantee Arc's product quality to meet or exceed your specifications.

Right Pricing

You will receive quantity discounts based upon your program's annual buying projection and not single shipments. You will receive the price benefits of volume buying without the burden and cost of excessive inventory.

Terms & Conditions

Guarantee

Arc Abrasives warrants the products we sell to be free from defect in material and workmanship when used under normal conditions at safe operating speeds.

Pricing

The prices for products listed in our 2003 Price Book are Consumer List Prices. All claims of pricing discrepancies must be made within 30 days after invoice date as defined by date of shipment on the order.

Minimum Order Amount

Minimum order is \$80. Product must be ordered in Standard Package Quantity, as stated in this catalog.

Invoice Terms

2% 10 days. Net 30 days. Any invoices not paid within 60 days will be considered delinquent, and all subsequent in-house and future orders will be placed on hold until delinquent invoices are paid.

Freight

For all single orders of Arc Abrasives products shipped as one order within the continental United States, to one destination, via our choice of carrier, and having a net invoice value of \$500 or more, freight will be prepaid and allowed. For all single orders of Arc Abrasives products valued at less than \$500, freight will be prepaid and charged. All overseas shipments will be shipped freight collect. Freight will be charged for any special requests for partial shipments or for shipments made by other than normal means.

Manufacturing Tolerances

Arc Abrasives reserves the right to over-ship 10% or to under-ship 5% for all non-stock or make-to-order items.

Returns

All returns must be authorized and promptly returned by obtaining a Returned Goods Authorization (RGA) number from an Arc Customer Service Representative. The RGA number is valid for 30 days from the date of issue.

Stock Items

- Stock items may be returned up to 6 months from the date of purchase.
- Stock items must be returned in Standard Package Quantity and in Arc packaging.
- Any "stock item" return that is not due to the error of Arc Abrasives will be assessed a 20% charge. This charge helps to offset the cost of receiving, inspecting, repackaging of product, and outbound freight.

Non-Stock Items

- Requests for return of non-stock items will be reviewed on a case-by-case basis and assessed up to a 50% charge, per the discretion of Arc Abrasives. If approved for return, non-stock items may be returned up to 6 months from the date of purchase and must be returned in Standard Package Quantity and in Arc packaging.

Make-to-Order Items

- Specially manufactured, make-to-order items are not returnable.

Agreements

All agreements, which include sales, are made contingent upon strikes, fires, accidents, delays of nature or other causes beyond our control. We will not accept responsibility for shortages that are not reported within ten days after receipt; nor will we accept the return of merchandise without our consent.

Belt Materials

Coated Abrasive Cloth Belt Materials

The two types of cloth backings offered are cotton and polyester. Cotton is lightweight and flexible but not waterproof. Polyester backings are stronger than cotton. In addition, they are waterproof, fray resistant and they absorb shock. Like paper, cloth backings come in various weights.

X-weight

- Strong, heavy cloth, also known as drills
- Recommended for all ordinary machine sanding operations

J-weight

- Light weight, more flexible cloth, referred to as jeans
- Used where flexibility is desired, such as contour sanding

F-weight

- Light weight, highly flexible jeans cloth
- Used where extreme flexibility is desired

Y-weight

- Extremely heavy duty drills cloth, also known as heavy drills
- Excellent for tough applications

Paper/Cloth Backing Weights	Flexibility
A Weight	
C Weight	
D Weight	
E Weight	
F Weight	
J Weight	
X Weight	
Y Weight	HARDEST Least Flexible

Aluminum Oxide Standard, X-Weight (AO/X Standard)

Excellent general purpose abrasive ideal for use on steel, aluminum, composite, or hard/soft woods. For dry grinding only.

Grain Type *Aluminum Oxide*
Grit Range *24-400*
Coating *Closed coat*

Grinding Aid *N/A*
Backing *65% polyester/35% cotton; X-Weight*
Bonding *Phenolic resin*

Aluminum Oxide Premium, Y-Weight (AO/Y Premium)

Features a highly tear-resistant backing that makes it suitable for deburring or grinding under heavy working conditions. For wet or dry grinding.

Grain Type *Premium Aluminum Oxide*
Grit Range *24-320*
Coating *Closed coat*

Grinding Aid *N/A*
Backing *100% polyester; Y-Weight*
Bonding *Phenolic resin*

Aluminum Oxide Plus, X-Weight (AO/X Plus)

Especially suited for use on stainless steel or high tensile steels. Material is self-lubricating to avoid over-heating of the work piece, reduce clogging and improve the finish. For dry grinding only.

Grain Type *Premium Aluminum Oxide*
Grit Range *36-150*
Coating *Closed coat*

Grinding Aid *Cooling agents*
Backing *100% cotton; X-Weight*
Bonding *Phenolic resin*

Aluminum Oxide Open Coat, X-Weight (AO/X Open Coat)

Ideal for use on soft wood or composites. Open coat reduces clogging. Not washable.

Grain Type *Aluminum Oxide*
Grit Range 40-220
Coating *Open coat*

Grinding Aid *N/A*
Backing *65% polyester/35% cotton; X-Weight*
Bonding *Phenolic resin*

Aluminum Oxide Open Coat, Y-Weight (AO/Y Open Coat)

Suitable for sanding plywood and for flat sanding at high speeds. Open coat reduces clogging. Washable.

Grain Type *Premium heat-treated aluminum oxide*
Grit Range 36-220
Coating *Open coat*

Grinding Aid *N/A*
Backing *65% polyester/35% cotton; Y-Weight*
Bonding *Phenolic resin*

Aluminum Oxide Standard, J-Weight (AO/J Standard)

Flexible abrasive ideal for use on alloy, brass, stainless steel, hard wood or plywood. Especially suited for sanding contours or curves. For dry grinding only.

Grain Type *Aluminum Oxide*
Grit Range 60-600
Coating *Closed coat*

Grinding Aid *Active filler*
Backing *100% cotton; J-Weight*
Bonding *Phenolic resin*

Aluminum Oxide Premium, J-Weight (AO/J Premium)

Highly flexible abrasive for most contour surfaces. Heat-treated grain allows sharper cutting and more consistent finishing. For dry grinding only.

Grain Type *Premium aluminum oxide*
Grit Range 60-500
Coating *Closed coat*

Grinding Aid *N/A*
Backing *100% Egyptian cotton; J-Weight*
Bonding *Phenolic resin*

Silicon Carbide Standard, Y-Weight (SC/Y Standard)

Excellent closed coat abrasive ideal for finishing of non-ferrous metals, ceramic, glass and concrete. For wet or dry grinding.

Grain Type *Silicon carbide*
Grit Range 24-600
Coating *Closed coat*

Grinding Aid *N/A*
Backing *100% polyester; Y-Wt./24-80 grit; X-Wt. 100-600 grit*
Bonding *Phenolic resin*

Zirconia Alumina with Grinding Aid, Y-Weight (ZA/Y Plus)

Two grinding aids provide high-performance results under high-pressure, high-heat conditions. Ideal for use on stainless steel and high-temp alloys. For dry grinding only.

Grain Type *Zirconia alumina*
Grit Range 24-120
Coating *Closed coat*

Grinding Aid *Cryolite and potassium fluoroborate*
Backing *100% heavy-duty polyester; Y-Weight*
Bonding *Phenolic resin*

Zirconia Alumina Standard, Y-Weight (ZA/Y Standard)

Designed for a fast cut in heavy grinding of cast iron, nickel, stainless steel and alloys. For wet or dry grinding.

Grain Type *Zirconia alumina*
Grit Range 24-120
Coating *Closed coat*

Grinding Aid *Cryolite*
Backing *100% heavy-duty polyester; Y-Weight*
Bonding *Phenolic resin*

Zirconia Alumina Economy, X-Weight (ZA/X Economy)

Poly/cotton backing adds strength and durability to very competitive product. For dry grinding only.

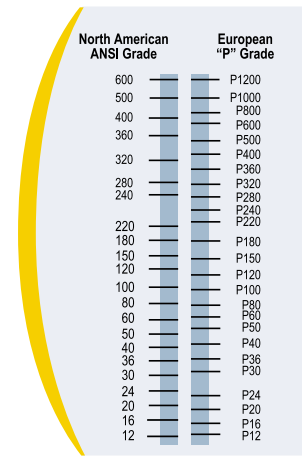

Grain Type *Zirconia alumina*
Grit Range 36-80
Coating *Closed coat*

Grinding Aid *N/A*
Backing *65% polyester/35% cotton; X-Weight*
Bonding *Phenolic resin*

Grit Comparison Chart

In the manufacture of coated abrasive products, there are more than 22 grain particles (grit sizes) used, ranging from a very coarse 12 grit to an ultra-fine 1200 grit. Grit sizes are graded by two different sets of standards: the ANSI Grading System, used typically by North American coated abrasive manufacturers; and the P-Grade System, used by European manufacturers. The P-Grade System uses the letter designation "P" to precede the grit sizes, whereas the ANSI grades are designated by numbers only.

Extremely Coarse

- 100% X-Flexed Egyptian cotton especially made for mounted flap wheels
- Extremely high heat-resistant epoxy
- Balanced construction allows the wheels resilience to pressure at high RPMs

Applications

- Material easily conforms to contours
- Blending, finishing and deburring on very tight areas (exterior and interior)
- Works great on non-ferrous and ferrous metals
- Cleans burrs and threads

Additional sizes and grits available. Call for price and delivery.

- No tooling change for the operator
- Just spin-off the old and spin on the new wheel
- 100% X-Flexed Egyptian cotton especially made for mounted flap wheels
- Extremely high heat-resistant epoxy
- Balanced construction allows the wheels resilience to pressure at high RPMs

Applications

- Great for piece work production
- Material easily conforms to contours
- Blending, finishing and deburring on very tight areas (exterior and interior)
- Works great on non-ferrous and ferrous metals
- Cleans burrs and threads

- Solid uniform construction allows wheels to be resilient to pressure
- Provides consistent finishing throughout the life of the wheel
- No dressing preparation before or during use

Applications

- Use on stationary and portable grinders
- Blending and finishing insides of large vats (Brewery, Pharmaceutical, Nuclear)
- Finishes flat and contour surfaces
- Excellent performance on non-ferrous and ferrous metals

- Premium aluminum oxide grain
- Custom polyester substrate backing adds flexibility and resiliency
- Durable, laminated construction reduces snagging or shredding of abrasive cloth
- Operators can change discs quickly, with no tooling

Applications

- Ideal for blending flat-surface blemishes
- Great for contours and deburring
- Use for ferrous materials in a variety of industries, including aircraft, appliances, metal fabrication, and food equipment manufacturing

- Tough aluminum oxide grain is impregnated into durable plastic (polyamide) backing
- Extremely lightweight for power tools
- Easily trimmed to expose new cutting surface
- Use all the way to the core
- Spin-on and spin-off design requires no tooling

Applications

- Cleaning light imperfections
- Blending light welds
- Edge grinding

- Premium aluminum oxide with 10% zirconia
- Grinding aid for additional cooling and anti-clogging
- Extremely heat resistant
- Fast cutting with long service life

Applications

- High production on blending welds (i.e., door frame and utility box manufacturing)
- Fiberglass, plastics, and ferrous metals
- High performance for an aluminum oxide disc

- Twice the cutting action of premium aluminum oxide discs
- Additional pressure allows the zirconia to cut faster
- Extremely heat resistant
- Zirconia is extremely tough and self-sharpening

Applications

- High performance on blending welds (i.e., door frame and utility box manufacturers)
- Works extremely well on stainless steel
- Aggressively attacks the more exotic metals (inconel, stainless, titanium, and tool steel)

- Premium heat-treated, closed-coat aluminum oxide
- Instant spin-on and spin-off design reduces downtime in production
- No tooling needed
- Special resin system developed to add exceptional high performance

Applications

- Ideal for blending flat surfaces (blemishes)
- Great for contours and deburring
- Ferrous metals
- Aircraft, appliances, metal fabricators, and food equipment manufacturers

Quick-Change Resin Fibre - Zirconia

- Premium grain construction for aggressive stock removal
- Grinds extremely cool
- Anti-clogging agent for non-ferrous metals
- Extremely durable, laminated construction reduces snagging or shredding of the abrasive cloth

Applications

- Great on inconel, titanium, and composites
- The more pressure, the better the performance
- Jagged welds
- Great for contour areas and flat surfaces

Additional sizes and grits available. Call for price and delivery.

- Twice the cutting action of premium aluminum oxide
- Zirconia is extremely tough and self-sharpening

Applications

- Ideal for aggressive cutting in tight areas
- Fast cutting on stainless steel and other tough metals

- Aluminum backing adds aggressive support to the abrasive cloth, and is recessed to lessen the chance of scratching during operation
- Overlapping construction offers aggressive cutting action

Applications

- Ideal product for aggressive removal of a variety of metal fabrication applications and welds
- Two steps in one (remove stock and blend during the same operation)
- No extra tooling and no production downtime for the operator
- Cleans imperfections and removes stock while blending the surface

- Phenolic (fiberglass) backing will not scratch workpiece
- Overlapping construction offers aggressive cutting action

Applications

- Two steps in one (remove stock and blend during the same operation)
- No extra tooling and no production downtime for the operator
- Aggressively removes welds and cleans imperfections

Arc Pyramid Flap Disc Merchandiser

The Arc Pyramid Merchandiser displays up to 60 4-1/2" flap discs in a little over one square foot of counter space. Your customers will appreciate the selection and convenience. It's easy to re-stock and best of all—it builds walk-in sales of popular Arc Regular and High Density Flap Discs!

Pyramid Merchandiser Kit includes:

- (2) 4-1/2" x 7/8" angle face ZA flap discs, 40 grit
- (2) 4-1/2" x 7/8" angle face ZA flap discs, 60 grit
- (2) 4-1/2" x 7/8" angle face ZA/Y Plus flap discs, 40 grit
- (2) 4-1/2" x 7/8" angle face ZA/Y Plus flap discs, 60 grit
- (2) 4-1/2" x 5/8-11" angle face ZA flap discs, 40 grit
- (2) 4-1/2" x 5/8-11" angle face ZA flap discs, 60 grit
- (2) 4-1/2" x 7/8" ZA High Density, 40 grit
- (2) 4-1/2" x 7/8" ZA High Density, 60 grit
- (2) 4-1/2" x 7/8" angle face AO/Y Plus flap discs, 40 grit
- (2) 4-1/2" x 7/8" angle face AO/Y Plus flap discs, 60 grit
- (2) 4-1/2" x 7/8" flat face ZA flap discs, 40 grit
- (2) 4-1/2" x 7/8" flat face ZA flap discs, 60 grit
- (1) Full color, heavy-duty Pyramid Merchandiser

Item No. 10800

Price - \$166.58

- Premium aluminum oxide for excellent finishing
- A-weight backing is great for contoured surfaces
- Open coat structure allows free cutting
- PSA on back with no release paper
- Full resin over resin

Applications

- Outstanding results in finishing wood, metal, and fiberglass
- Designed for orbital sanders

"T" in part number = "Pull-tab"

- Premium heat-treated aluminum oxide grain
- 100% cotton backing
- Highest quality pressure sensitive adhesive
- Heat-resistant adhesive eliminates disc flying off during operation
- Pull-tab available from 1-1/2" to 6" diameter, 60 grit and finer, for easy peel-off

Applications

- Ideal for light blending and contoured areas
- Ferrous metals, steel, aluminum casting, and soft hardwoods
- Used on pedestal grinders, orbital sanders, stationary disc sanders, and right angle/vertical shaft portable grinders

(continued on next page)

- Zirconia alumina grain
- 100% heavy-duty polyester backing allows extremely aggressive stock removal
- Grinding aid allows cooler running
- Highest quality pressure sensitive adhesive
- Heat-resistant adhesive eliminates disc flying off during operation

Applications

- Ideal for contour areas and flat surfaces
- Great on titanium, inonel and composites
- The more pressure, the better the performance
- Jagged welds
- Use on pedestal grinders, orbital sanders, stationary disc sanders, right angle/vertical shaft portable grinders

- Aluminum oxide material
- Superior non-loading, open coat material
- Extended edge wearability due to tear-resistant adhesive
- Pull-tab allows quick release for operator
- Individual release liner allows discs to stack and lay flat

Applications

- Outstanding results in finishing wood, metal, and fiberglass
- Designed to fit dual action and orbital sanders
- Cabinet shops and boating manufacturers
- Vacuum hole discs available with a 500-piece minimum.

- Special adhesive allows easy peel off
- Runs cool, does not alter part geometry
- Mainly sold in 8" and 12" sizes
- Arc's "Pull-Tab" feature saves time when changing grits in the multi-step process

Applications

- Designed for micro-structural sample preparation
- May be used wet or dry

PSA Paper Disc Holders

A9 1/8 x 1 x 1/4"	50109	1	2.48
A10 1/8 x 1-1/2 x 1/4"	50110	1	2.48
A15 3/16 x 3/4 x 1/4"	50115	1	2.48

Size*	Item No.	Std. Pkg.	Price Each
A16 3/16 x 1 x 1/4"	50116	1	2.48
A17 3/16 x 1-1/2 x 1/4"	50117	1	2.48
A21 1/4 x 1 x 1/4"	50121	1	2.48
A22 1/4 x 1-1/2 x 1/4"	50122	1	2.48

* Size = Pilot Dia. x Pilot Length x Shank Dia.

- Choose a mandrel with a shank diameter to fit your power tool collet or chuck.
- Check the diameter of the mandrel pilot on which the cartridge roll or spiral is mounted.
- A 1/8" diameter pilot is used for cartridge rolls up to and including 1/2" in diameter.
- For safe operation, use 3/16" or 1/4" diameter pilots for cartridge rolls.

- Inner cloth liner adhered to band for extra durability
- Inner liner prevents slippage while being used on an expandable drum
- No tooling for operator

Applications

- Great in curved and contoured areas
- Fast cutting yet leaves a smooth, even finish

Solid Rubber Drums

- Layered construction of material, formed as a square
- Chatter-free grinding
- Intermittent strokes of pad corners improve visibility
- Corners very aggressive in the beginning until edges round
- When corners are round, good for polishing

Applications

- Excellent for blending welds inside of pipes
- For use by dairy/brewery vat and faucet manufacturers
- Removing welds on flat surfaces

Cross Pads - Aluminum Oxide - X-Wt. Cloth

- Multi-ply abrasive pad
- Exposes new cutting surface as each layer wears
- Three sizes of eyelets available in center of cross: 3-48, 8-32, 1/4-20
- Eyelet allows quick on and off of cross pad

Applications

- Deburring and cleaning the interior of a tube
- Blending small radii

- Center alignment offers exceptional balance at high RPMs
- Extremely flexible and durable

Applications

- This unique disc allows you to reach inaccessible areas
- Light removal of matter inside of pipe
- Blends surface imperfections within pipes
- Abrasive on both sides allows grinding going in and coming out

4 x 1/8 x 3/8"	A36R	87746	19,000	25	1.63

- Extremely reinforced fiberglass construction
- Aluminum oxide grain

Applications

- Great for hand-held grinders
- Ideal for fast, clean, straight cutting
- Great on ferrous and non-ferrous metals

Jet Wheel Mandrels for Small Cut-Off Wheels

Item No.	Std. Pkg.	Price Each
50690	1	4.70

- 1/4" shank adapter
- 1/4" screw
- 1/4" screw with 3/8" shoulder

- For 4" diameter wheels or smaller
- Used for all wheels 1/32" through 1/4" thick with either 1/4" or 3/8" hole

What is this

Sheets

Emery Cloth Sheets - Closed Coat - 9x11"

Grit	Item No.	Std Pkg.	Price Each
Fine	74117	50	.77
Medium	74118	50	.80
Course	74119	50	.87

- Emery grain
- Closed coat construction

Applications

- Hand operation
- Cleaning and polishing metal surfaces
- Wood surfaces

Aluminum Oxide Cloth Sheets - 9x11"

Grit	Item No.	Std Pkg.	Price Each
36X	74101	25	1.26
40X	74102	25	1.15
50X	74103	50	1.08
60J	74104	50	1.01

400J	74114	50	.78
500J	74115	50	.78
Crocus	74116	50	1.14

- Aluminum oxide grain
- Closed coat is designed for more surface removal
- Durable and flexible backing

Applications

- Hand operation
- Use on ferrous and non-ferrous metals, wood and fiberglass

Silicon Carbide Waterproof Sheets - 9x11"

Grit	Item No.	Std Pkg.	Price Each
60C	74121	50	.72
80C	74122	50	.61
100C	74123	50	.54
120C	74124	50	.46
150C	74125	50	.44
180C	74126	50	.42
220A	74128	50	.39
240A	74129	50	.39
280A	74130	50	.39
320A	74131	50	.39
400A	74133	50	.39
500A	74134	50	.39
600A	74135	50	.39

- Durable silicon carbide grain
- Use wet or dry

Applications

- 60 to 80 grit "C-weight" - use for more aggressive applications
- 100 and finer grit - use for finishing applications
- Great for lacquer, wood, and fiberglass finishing

Additional sizes and grits available. Call for price and delivery.

Silicon Carbide Sandscreen Waterproof Sheets - 9x11"

Grit	Item No.	Std Pkg.	Price Each
60	74080	25	3.75
80	74081	25	3.22
100	74082	25	2.82
120	74083	25	2.43
150	74084	25	2.30
180	74085	25	2.30
220	74086	25	2.30
320	74088	25	2.30

- Durable silicon carbide grain
- Waterproof and non-loading

Applications

- Ideal for drywall, body filler, and fiberglass
- Marble and ceramic industry

Flint Paper Sheets - 9x10"

Grit	Item No.	Std Pkg.	Price Each
Coarse	74230	50	.27
Medium	74231	50	.21
Fine	74232	100	.19

- The flint grain is natural
- Open coat design allows for non-loading
- For dry use only

Applications

- Fiberglass, cabinet shops and wood industry
- Used most for finishing applications
- Ideal for contours and flexible areas

Aluminum Oxide Cabinet Paper Sheets - 9x11"

Grit	Item No.	Std Pkg.	Price Each
40D	74191	50	.53
50D	74192	50	.45
60D	74193	50	.39
80D	74194	100	.34
100C	74195	100	.30
120C	74196	100	.30
150C	74197	100	.30

C-Weight

D-Weight

- Open coat design allows for non-loading
- For dry use only
- C-weight is 70# paper and D-weight is 90# paper

Applications

- Cabinet shops
- More aggressive sanding
- C-weight is medium flexibility - some contours
- D-weight is low flexibility - mostly flat sanding

Aluminum Oxide Finishing Paper Sheets - 9x11"

Grit	Item No.	Std Pkg.	Price Each
80A	74194AW	50	.26
100A	74195AW	100	.23
120A	74196AW	100	.23
150A	74198	100	.23
180A	74199	100	.23
220A	74200	100	.23
280A	74201GR	100	.23
320A	74202	100	.23

- Open coat design allows for non-loading
- For dry use only
- Available in A-weight - 40# paper

Applications

- Fiberglass, cabinet shops, and wood industry
- Finishing applications
- Ideal for contours

Garnet Cabinet Paper Sheets - 9x11"

Grit	Item No.	Std Pkg.	Price Each
40D	74209	50	.53
50D	74210	50	.45
60D	74211	50	.39
80D	74212	50	.34
100C	74214	100	.30
120C	74216	100	.30
150C	74218	100	.30

D-Weight

- The garnet grain is natural
- Open coat design allows for non-loading
- For dry use only

Applications

- More aggressive applications
- Fiberglass, cabinet shops, and wood industry
- Ideal for flat sanding versus contour sanding

Garnet Finishing Paper Sheets - 9x11"

Grit	Item No.	Std Pkg.	Price Each
80A	74213	100	.26
100A	74215	100	.23
120A	74217	100	.23
150A	74219	100	.23
180A	74220	100	.23
220A	74221	100	.23
240A	74222	100	.23

- The garnet grain is natural
- Open coat design allows for non-loading
- For dry use only

Applications

- Fiberglass, cabinet shops, and wood industry
- Used most for finishing applications
- Ideal for contours and flexible areas

Silicon Carbide Sandscreen Rolls - 1-1/2" x 25 yds.

Grit	Item No.	Std Pkg.	Price Each
80	75612	4	39.55
100	75613	4	37.99
120	75614	4	37.99
180	75616	4	37.99
320	75620	4	37.99

- Durable silicon carbide grain
- Waterproof and non-loading

Applications

- Ferrous and non-ferrous metals
- Hand use for paint and wood
- Metals, fiberglass, and wood

Flexible Sanding Sponges - 4 x 2-3/4 x 1"

Pad Type/ Grit	Item No.	Std Pkg.	Price Each
Smooth/ Fine-Med	39150	24	1.81
Smooth/ Med-Coarse	39151	24	1.81
Serrated/ Fine-Med	39152	24	1.81
Serrated/ Med-Coarse	39153	24	1.81

- Available with smooth or serrated surface

Applications

- Ideal for corners, contours, sealers, and flat surfaces
- Use on plastic, paint, wood, or metal

Handy Sandy Holder

Description	Item No.	Std Pkg.	Price Each
Fits PSA Cloth Strips	50610	1	2.11

PSA Cloth Strips - 1 x 11"

Grit	Item No.	Std Pkg.	Price Each
60	30825	500	.29
80	30826	500	.28
100	30827	500	.27
120	30828	500	.27

- Open coat design allows for non-loading
- For dry use only

Applications

- Used most for finishing applications
- Contour surfaces, wood, metal, and fiberglass
- Bodywork and painting

Additional sizes and grits available. Call for price and delivery.

Nonwoven

Coated Finish vs. Nonwoven Abrasive Finish

The following charts outline approximate grit ranges used within both surface conditioning (machine operated) and clean and finish (manual operated) nonwoven products. (source of table information: Fibral)

Grit Size	Clean & Finish Range	Surface Conditioning Range	Grit Size
60			60
80	Extra Cut (Brown)		80
100			100
120		A Coarse (Brown)	120
150	A Medium (Tan)		150
180	S Medium (Black)	A Medium (Maroon)	180
200			200
220	A Fine (Maroon)		220
240		240	

Grit Size	Clean & Finish Range	Surface Conditioning Range	Grit Size
240			240
260	General Purpose (Green)		260
280			280
320			320
360	A Very Fine (Maroon)	A Very Fine (Blue)	360
400			400
500		S Superfine (Grey)	500
600	S Ultra Fine (Grey)		600
800		800	
1000		1000

- Evenly coated with grit from the material surface to the base
- Even coating provides improved performance in deburring and edge applications
- 3-Dimensional abrasive action provides consistent finishes throughout use
- Type S and Type R mechanical locking button centers disc on tool with a twist
- Material resists loading and over-cutting

Applications

- Premium surface conditioning material performs a wide variety of tasks including deburring, flat finishing, & finishing on edges
- Great product for metal finishing and blending, surface preparation, gasket removal, weld cleaning, #3 and #4 finishing on stainless steel
- Can be used on a variety of different metals

Type R

Type S

Arcstrip™

- Uniform distribution of grit throughout the web provides a consistent finish throughout the life of the product
- Open construction design is nonloading and runs cooler

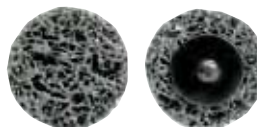

Applications

- With arbor holes, these discs are used on the edge in conjunction with the appropriate Bright-Buff™ mandrel
- Excellent tool for removal of surface coatings and contaminants on a variety of metals

- Can be mounted on portable tools, pedestal or bench grinders for most surface cleaning operations

- Premium surface conditioning material is evenly coated with grit from the material surface to the base
 - Even coating provides improved performance in deburring and edge applications
 - 3-Dimensional abrasive action provides consistent finishes throughout use
 - Standard scrim material for applications with low belt tension
- Applications
- Performs a wide variety of tasks including deburring, flat finishing, and finishing on edges
 - Great for metal finishing and blending, surface preparation, gasket removal, mild cleaning, #3 and #4 finishing on stainless steel
 - Can be used on a variety of metals

Additional sizes available, up to 40" wide.

- 6 x 9 pads made of nylon fibers, resins, and abrasive materials
- 3-dimensional abrasive surface breaks down, exposing new grain for consistent finishing
- May be used wet or dry
- Color coded for easy identification

Applications

- Use by hand, hand pad holder, or with vibratory sanders
- Cleaning, finishing, tight deburring of metals and plastics
- Defuzzing wood, paint, and lacquer scuffing
- Ideal replacement for steel wool, emery cloth, and wire brushes

Hand Pad Selection Guide

Color	Suggested Use
Maroon	Hand blending, cleaning, finishing
Gray	Light cleaning & finishing of all metals, plastics & fiberglass
Tan	Fast material removal & heavy cleaning
Green	Commercial scouring
White	Commercial scouring
Black	Commercial scouring

- Alternating flaps of nonwoven and coated abrasive arranged radially and mounted on a 1/4" spindle
- Material breaks down evenly providing consistent finishes
- Smooth and quiet in operation
- Less comfortable and removes more stock than Bright-Buff™ Flap Wheels

Applications

- Ideal for metal finishing, oxidation, and coating removal
- Ideal for uneven surfaces or flat areas
- Great for MRO-type operations where critical tolerances cannot be disturbed
- Decorative finishes on a variety of different metals

Additional sizes and grits available. Call for price and delivery.

The following information is pertinent to all types of Convolute Wheels

- Nonwoven material is wrapped and bonded around a core to varying diameters
- Hard wheels best suited for deburring, soft wheels for finishing
- Silicon carbide and aluminum oxide grains
- Different grit sized for varying scratch patterns

Applications

- Used on a variety of different metals
- Blending and polishing welds
- Removing rusts and oxides
- Finishing and deburring aircraft and automotive parts, general metal fabrication

Convolute Wheels - General Purpose

Dia. x Width x AH	Grade	Item No.	Std. Pkg.	Price Each
6 x 1 x 1" Max. RPMs 6,000	5S FIN	54715	3	52.60

- Nonwoven material is compressed into slabs of varying thickness and cut into different diameters
- Hard wheels best suited for deburring, soft wheels for finishing
- Silicon carbide and aluminum oxide grains

Applications

- Used on a variety of different metals or composites
- Deburring flashings, threads, or sharp edges
- Blending alloys
- Finishing and deburring aircraft and automotive parts, general metal fabrication

- Rolls made of nylon fibers, resins, and abrasive grains
- 3-dimensional abrasive surface breaks down, exposing new grain for consistent finishing
- May be used wet or dry

Applications

- Use by hand or with vibratory sanders
- Cleaning, finishing, light deburring of metals and plastics
- Defuzzing wood, paint, and lacquer scuffing
- Ideal replacement for steel wool, emery cloth, and wire brushes

- Cut from premium surface conditioning material
- 1/4-20 threaded eyelet is attached in center

Applications

- Use in conjunction with mandrel for deburring and radiusing drilled holes
- Ideal for consistent finishing inside holes or pipes

Additional sizes and grits available. Call for price and delivery.

Arc Abrasives—the right brand, the right product, the **Right Response**[™]

Founded in 1960, Arc Abrasives is a family-owned business dedicated to providing personalized service and product excellence. Through continuous reinvestment in our manufacturing processes and innovative product design, Arc Abrasives offers a comprehensive range of abrasive solutions for grinding and finishing.

From order entry to manufacturing, Arc Abrasives has streamlined every process to provide same day or next day shipping of nearly every product. We strive to ship all of our customers' orders in 24 hours or less! As a result, Arc Abrasives customers can reduce their abrasives inventory levels enabling faster inventory turns and a healthier bottom line.

We call it the **Right Response**[™].

Put our experience and extensive capabilities to work for you. Call Arc Abrasives today and discover how **Right Response**[™] can improve your abrasives program.
