SUBJECT: CHANGE OF PROJECT COORDINATOR

Dear Admiral Nolan:

This letter is to advise you that Mr. José M. Díaz Vélez has been assigned as the Project Coordinator for the Department of the Navy's Master Materials License (MML) of Broad Scope, replacing Mr. Michael L. Fuller. The effective date is November 4, 2001. We are making the change from Mr. Fuller to Mr. Díaz in order to rotate the project coordination function approximately every two to three years. Mr. Fuller was recently promoted to Senior Health Physicist and will be transferring soon to our Region IV offices in Arlington, Texas. However, we believe that it is important to maintain continuity in the project coordination function. To this end, Mr. Fuller and Mr. Díaz will continue to communicate frequently on Navy MML issues.

Mr. Díaz has been a member of the Region II staff for several years, and has significant experience in both licensing and inspection of radioactive materials. Mr. Díaz may be reached at (404) 562-4736, or by e-mail, JXD2@NRC.gov.

If you have any questions, please contact me.

Sincerely,

/RA/

Douglas M. Collins, Director
Division of Nuclear Materials Safety
