LICENSEE'S RESPONSE TO THREE MILE ISLAND
ALERT'S THIRD SET OF INTERROGATORIES
AND THIRD REQUEST FOR PRODUCTION OF
DOCUMENTS TO GENERAL PUBLIC UTILITIES

On September 4, 1984, Intervenor Three Mile Island Alert (TMIA) filed its Third Set of Interrogatories and Third Request for Production of Documents to Licensee. Licensee's Response is as follows:

Interrogatory No. 1

Identify all persons GPU intends to call as a witness on the remanded issue of the Dieckamp mailgram. For each such person identified above, identify the following:

- (a) the nature or substance of his testimony;
- (b) his qualification, access to information, or other reason that he is being asked to testify as to the information identified in response to subpart (a) above;
- (c) his position or relationship to GPU at any time from the time of the accident to the present, including but not limited to any contracts, consulting arrangements, advisory positions or other relationships with GPU he has held or holds currently;

(d) all documents he has reviewed or will review to prepare his testimony;

(e) all persons whom he has consulted or will consult to prepare his testimony;

(f) the nature and substance of any discussions, conversations, communications, and other contacts he has had or will have with the persons identified in response to subpart (e) above;

(g) all documents he intends to rely on or use in support of any opinions, evaluations, conclusions, or recommendations he makes in his testimony;

(h) the current location and custodian of all documents identified in response to subparts (d) and (g) above.

Response

Licensee now anticipates calling as witnesses on the remanded issue of the Dieckamp mailgram the following individuals: Herman Dieckamp and William Lowe. Licensee is discussing whether to call one or two more individuals. The small number of anticipated witnesses is based on the expectation that a stipulation can be reached on additional evidence.

Mr. Dieckamp is the author of the mailgram. He will probably testify as to the purpose for and meaning of the mailgram and the basis for its statements. Mr. Dieckamp at the time of the accident was, and remains today, President of GPU; he served as the Chairman and Chief Executive Officer of GPU Nuclear from its formation until November, 1983; he remains a member of the GPU Nuclear Board of Directors. Mr. Dieckamp has just started reviewing documents and has not consulted with

individuals other than counsel in connection with the preparation of his testimony. Licensee anticipates that he will review and rely upon his personal notes, and prior interviews, depositions, and testimony, all of which have already been made available in the Discovery Room.

William Lowe is a member of the firm of Pickard, Lowe and Garrick and is a consultant to Licensee. Mr. Lowe was the person who recognized the significance of the pressure spike in the late evening of March 29, 1979, and will so testify. Mr. Lowe has not yet commenced reviewing documents or consulting individuals in preparation of testimony. Mr. Lowe will probably review and rely upon his notes, which have already been made available in the Discovery Room.

Interrogatory No. 2

Identify and produce all documents which GPU intends to introduce in the hearing or through prefiled testimony on the remanded issue of the Dieckamp mailgram.

Response

Licensee intends to introduce through stipulation of the parties all documents listed in Interrogatory No. 20 of Licensee's Third Set of Interrogatories to Three Mile Island Alert, Inc. (Sept. 13, 1984).

Interrogatory No. 3

Produce all documents identified in response to Interrogatory No. 1(d), (g) and (h) above.

Response

All documents identified above, other than those which TMIA has agreed need not be produced, have already been made available in the Discovery Room.

Interrogatory No. 4

For each person whom GPU has identified in response to an interrogatory in TMIA's First Set of Interrogatories or Second Set of Interrogatories to General Public Utilities, state the following:

- (a) his/her current home and business address;
- (b) if his/her current addresses are not known, his/her last known home and business address;
- (c) the positions he/she has held with GPU at any time;
- (d) his/her home and business address at the time for which the interrogatory requests information;
- (e) his/her present employer and position.

Response with respect to Licensee's Response to Three Mile Island Alert's First Set of Interrogatories

(a), (b). Attached is the list of GPU personnel who were sent the questionnaire identified in Licensee's Response to TMIA's First Set of Interrogatories. That list contains the business location of current GPU System employees and the last known address of former employees. Licensee objects to additionally providing home addresses for its employees as burdensome, irrelevant, and unnecessary.

The mailing addresses for the GPU System locations listed are:

Response with respect to Licensee's Answers to Intervenor
Three Mile Island Alert's Second Set of Interrogatories
to General Public Utilities (Training)

(a) to (d). Licensee has provided the job positions held by TMI-1 licensed ROs and SROs and has placed in the Discovery Room the resumes of those individuals Licensee intends to call as witnesses on the remanded training issue. See Licensee's Answers to Union of Concerned Scientists' First Set of Interrogatories to General Public Utilities (Training), 3(b)

and 2(a). Licensee objects to providing any further information on the basis that the request is burdensome and the information sought is not relevant.

Respectfully submitted,
