Observaciones: El % de puntualidad es el porcentaje de vuelos que salen o llegan dentro de los 15 minutos de su horario estipulado.

Fuente: OAG flightview. Cualquier reutilización, publicación o distribución de datos en los informes se deberá atribuir a OAG flightview. Los Posicionings de puntualidad global son asignados a todas las aerolíneas donde OAG tiene cobertura de por lo menos el 80% de los vuelos programados.

Actualización: A partir de JUNIO de 2017 el estado de cobertura se basará solo en horarios de embarque reales en lugar de horarios estimados. Esto puede resultar en la exclusión de algunos aeropuertos y aerolíneas de este informe. Las clasificaciones de puntualidad global se asignan a todos los aeropuertos y aerolíneas donde OAG tiene estado de cobertura de por lo menos el 80% de los vuelos programados.
