iDISPLAY™ Product Catalog

Introduction

Welcome to iDISPLAY™ product catalog. This edition will ensure that you have access to a definitive and detailed catalog to our world-class portfolio. Both product sales brochures as well as product specification sheets have been included for your use. Used individually or collectively, this catalog is meant to assist you in the marketing and sales of iDISPLAY™ to your clients. The electronic catalog is navigable and will provide you all iDISPLAY™ product information at the touch of a click.

For pricing or more detailed product information, please contact your local iDISPLAY™ sales representative or contact us at www.outform.com/contact

iDISPLAY™

The iDISPLAY™ brand of touch screen tablets and displays is a wholly owned subsidiary of Outform. iDISPLAY™ utilizes proprietary technology snd industrial grade materials for maximum performance in commercial environments. From supermarkets to restaurants to apparel retail, we study every aspect of your business to determine how our solutions can help you create new sources of customer value and competitive differentiation.

OUTFORM

Outform is a full-service, brand implementation firm that delivers innovation to store environments that both excite and incite shoppers. We enhance brand presence through creative, intelligent solutions that inspire behavior and motivate purchase. From ideation & discovery to design & deployment, our teams produce impactful solutions that generate brand equity, advocacy and Return on Investment. Specializing in both complex retail executions and in retail-ready interactive kiosks, Outform creates engaging, disruptive displays with state of the art technologies that support in-store activation and drive sales.

iDISPLAY™ Tablet 8" UIT408

BUILT FOR COMMERCIAL USE

The iDISPLAY Tablet 8" is designed as an interactive display for any location. Operating on an Android operating system and powered by Pulse technology, this slim and elegant display includes all of the solutions needed for commercial locations. Attach to any standard TV/monitor VESA bracket and simply turn on the power. It is a fully interactive commercial display that uses capacitive touch, built in WiFi and LAN, and a host of integrated features that work in either landscape or portrait format. With the option to expand to 3G services*, this is an amazing, interactive digital display that creates an engaging, memorable consumer experience.

iDISPLAY™ Advertising Displays

15.6"   18.5"   21.5"

*

Wi-Fi 3G

BUILT FOR
COMMERCIAL USE

The compact all-in-one Android Advertising Displays are a great solution for brands and retailers to advertise their digital marketing message in a commercial location. Operating on an Android OS and powered by Pulse technology, these compact screens include all the features of a giant Android tablet, without the touch screen capability. These devices are compatible with standard TV/monitor Vesa brackets and are ready out of the box as soon as you turn on the power. With an integrated media player, a host of built-in signage and connectivity options (embedded WiFi, LAN and 3G USB-dongle), these displays are capable of remote updates for your digital signage content. With high viewing angles and a small footprint, it is well suited as a free standing floor or wall display, in portrait and landscape format.

*3G optional, pending carrier compatibility/availability.

iDISPLAY™ 4K Media Player

BUILT FOR
COMMERCIAL USE

Disruptive, engaging media in reshaping the digital signage industry, and 4K resolution is leading the charge. With four times the resolution capacity compared to that of full HD (High Definition), the iDISPLAY™ 4K Media Player delivers powerful performance in a sleek, compact design. The iDISPLAY™ 4K Media Player connects to all digital signage networks to straem movies, photos and online video (media) over a wired or wireless network.

Pulse Management provides a tablet/player administrator, device manager and CMS (content management system) to configure display settings and content management for consistent, controlled and branded user experiences across thousands of displays from a single dashboard. Pulse's remote monitoring service ensures that devices are powered up and secured, guarantees that content is deployed and running and that store associates are focused on selling.

Play your media or content applications on any screen anywhere.

*3G optional, pending carrier compatibility/availability.

OUTFORM™

iDISPLAY™ Tower

Maximize the effectiveness of your retail merchandising with the tower from iDISPLAY™. The tower is an attractive, customizable free-standing display designed to bring your product to life through both product exposition and digital media. Your product commands presence, showcased in a beautiful transparent case housed above a large, 38" ultra-bright LCD. Run various forms of digital media for advertising campaigns, product introductions or seasonal promotions. Create life-sized imagery to attract and engage your customers, build brand awareness and stand out from the competition. The display may also be branded with your logo or product marketings. Content may be changed as often as you like, extending the life of your display while keeping your brand fresh in the eyes of your consumer.

*3G optional, pending carrier compatibility/availability.

OUTFORM™

iDISPLAY™ iShelf 2

BUILT FOR
COMMERCIAL USE

The iSHELF 2 is a 7" interactive digital shelf-talker used to attract and communicate with customers as they shop in aisle throughout the store. Attached to the edge of the shelf, this compact display may be branded and used to advertise special scale, introduce a new product or marketing campaign or share other product information through static imagesmor video messaging. The iSHELF 2 is an effective tool that draws attention and invites participation with your brand at shelf, breaking through much of the visual noise that occurs in the last three feet of the sale. Battery power as an option, the iSHELF 2 does not require a dedicated power source and can be placed virtually anywhere throughout the store. Display deployment and media uploads are so simple, an iSHELF 2 program may be managed by store associates, eliminating the need for technical installation and support.

*3G optional, pending carrier compatibility/availability.

OUTFORM™

Window Light Show™

Create customer excitement through a stunning visual experience in your storefront or retail window. The WLS (Window Light Show™) is a unique LED signage that can drive traffic, promote your brand or simply create retail ambiance to enhance customer experience.

A great vehicle for brands to tell their story in a unique way, The Window Light Show™ breaks through random messaging that competes for customers' attention in store. Unlike video walls, this large light canvas is transparent and does not obstruct store merchandising and can be viewed from all angles, in and outside of the store. Retailers today need to make their store campaigns more compelling than ever before. The Window Light Show™ may be the answer to the customer attraction you are looking for.

*3G optional, pending carrier compatibility/availability.

OUTFORM™
Choreographed Movement & Color

The Kinetic light show™ performs precise Choreographed sequences that leave people amazed.Each LED light globe has a full range of color and luminocity, making the possibilities endless! Whether you're in need of a unique color story or seasonal promotion, the Kinetic has you covered. Full control of height, speed, color, and luminance makes the Kinetic a great choice for any brand, product, or season.
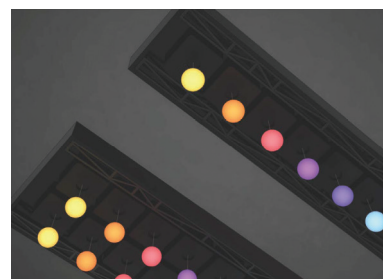

Wow Effects

The Kinetic Light Show™ wows from afar with stimulating movement and ligting. The result is an increases in dwell time and consideration.

Versatile Applications

With a wide range of applications from retail to hospitality, this display is completely adjustable for specific height requirements, installation needs, and sizes.

Modular

Compose your base units with either one or two rows of lights in a veriaty of configurations or create larger display matrices for even more visual impact.

System Diagram

The Kinetic Window Display is controlled by a series of wireless sub controllers that coordinate movement with individual LED elements. Each row's sub controller communicates directly to the programmable main controller, enabeling both Base-of-use and limited wiring and excessive clutter needed for each display.

Specifications

Item:	MB16
Working voltage:	AC 100~240V
Power:	About 40W
Size:	ø20cm ball
Kinetic distance:	< 2M
Max speed:	0.5 meters per second
LED qty:	16 pcs per ball
Wireless control distance:	< 15M

*Standard Capacity Battery

Battery capacity:	2,000 mah
Charging time:	4H
Continuous working time:	5H (Color gradually changing effect)

*High Capacity Battery (Under development)

Battery capacity:	4,000 mah
Charging time:	8H
Continuous working time:	10H (Color gradually changing effect)

* Alternative

Control Mode

K-SY-308-W-KB — Wirelss Master Controller

Size:	190L×140W×45H mm
Remote control distance:	20m (Without obstacle)
Wirelss frequency:	2.4GHz
Output port:	RJ45×1
Max power:	10W
Working temperature:	-15˚C~60˚C
SD Card:	4G
Cover color:	Silver
Working voltage:	DC7.5V
Power plug:	Power adapter
Capacity:	16 pcs Sub Controller
Function:	Change the display effect of the LED ball wirelessly. Send the moving style and speed to the LED ball from the repeater by network cable.

SY-308-KB — Sub Controller

Size:	165L×120W×40H mm
Output channel:	1 channels
Output signal:	RS-485
Output port:	Rj45*1
Max power:	5W
Working temperature:	-15˚C~60˚C
Cover color:	Black
Working voltage:	AC110V/220V
Power plug:	By customer's request
Capacity:	16 pcs LED Ball
Function:	Process the motion command of the main-controller and control the stepper motor on the top tray.
