

## Backpack ACTIVE XL 15-17.3 black/blue

Premium notebook backpack with a sporty design

**The Backpack ACTIVE from DICOTA is characterised by its sporty look combined with great functionality and perfect protection. The material, which is both lightweight and hard-wearing at the same time, means that you can travel without the need to lug any additional loads around. Your device will be securely stowed away in the hidden notebook compartment at the back of the backpack, so you've got all the equipment you'll need for any adventure.**

The Backpack ACTIVE is characterised by high-quality materials and sophisticated details. The spacious main compartment offers plenty of space for sports gear, documents and other mobile accessories. You can rest assured that your mobile companion will be perfectly protected thanks to a slip pocket for tablets measuring up to 10.1". The front compartment with key fob and slip pockets will keep everything tidy and provides the perfect place to store your personal items. Your drinking bottle and umbrella can be stored in a space-saving fashion in the outer pockets, while the compression straps on both sides can be used to compress the backpack, creating a more compact solution. Another highlight is the security pocket which has been invisibly sewn into the breathable rear padding. It's the perfect place to safely store your valuables out of the reach of pickpockets.
