

TEACHING INNOVATION - ULTRA SHORT PROJECTION

This new innovative range of education projectors is designed to deliver superior images in any size room. The unique mirror imaging technology allows you to project at an ultra short throw distance with no shadow on the screen or glare when presenting.

The Epson ultra short throw range has been designed with unique features, providing you with the right tools for effective presenting for teaching and training environments. Epson's new mirroring technology projects amazing widescreen images up to WXGA resolution from the shortest distance.

Big projection, even in the smallest room

You don't need a big room to project a big image. Teachers and students can make the most of the space available. These ultra short throw projectors are able to display a sharply focused, bright, wide image of 70", 16:10 format screen, from just 16 cm distance. Shadow effects caused by people and objects in front of the screen are simply eliminated.

ADVANCED FEATURES

Our projectors are built for no-nonsense, cutting-edge presentation from one device. Easy installation and setup, advanced features and low-cost design put these projectors at the top of the class.

Simple installation and easy setup

Installation and maintenance are made easy with the bundled wall mount plate. With direct power on/off function from the power supply the projectors power up automatically and turn off instantly. Users can also achieve a square image to screen quickly, with excellent image sharpness even on the edge of the projected image.

Plug and play presenting

The 2-in-1 USB display is the easiest way to present from a computer, because one cable handles both image and mouse controls. Project instantly, just plug an USB cable into your computer and projector, so no more unnecessary RGB cables and settings.

KEY FEATURES

- Simple installation and easy setup
- Plug and play presenting
- Security functions
- Quick start / instant off functions
- Wireless convenience

PRODUCT SPECIFICATIONS

IMAGE

Resolution	WXGA, 1280 x 800, 16:10
