

SP1080 Projector

Large-Format HD Home Entertainment Projector

Stunning HD Image Creates a Theater Experience at Home

SP1080 Projector

Part #: SP1080

Bring the Megaplex Home with Brilliant HD

Whether you're screening a blockbuster, hosting a SuperBowl party, or facing off in a cutting-edge video game, everything comes to life in stunning HD with the high brightness and 3D capability of the large-format InFocus SP1080 projector.

This value-packed projector is easy to buy and built to perform with HDMI input, high contrast, and BrilliantColor technology. Compact design and light weight make it as easy to move around as it is to quickly set up in your home.

InFocus

Screen Play

Why choose the SP1080?

- Full 1080p (1920 x 1080) HD for exceptional image quality
- Vivid and accurate color reproduction with BrilliantColor technology
- 3500 lumens & high 25000:1 contrast ratio make details pop
- Display 3D content from Blu-ray, cable boxes, and dish services
- Long life lamp of up to 10,000 hours
- Compact and lightweight for easy portability
- HDMI connectivity
- Audio ports for flexible sound reinforcement
- Affordable price brings the theater experience home

1080p resolution

Watch your favorite movies, sports and games as they were meant to be seen, in full native 1080p resolution (16:9 aspect ratio). With no scaling or altering of the image, your picture will look better than ever and larger than life — at an affordable price.

High Brightness and High Contrast

Meticulous attention to detail brings out amazing life-like details to create a fully immersive entertainment experience at home. The image quality of the SP1080 doesn't disappoint. Up to 3,500 lumens give you images that come in bright and clear. Impressive 25,000:1 contrast ratio adds sharpness and depth with darker blacks and whiter whites, day or night. Plus, preset modes give you fast, one-button access to the best image quality on a beige wall, a screen or other surface.

3D Ready

The SP1080 supports multiple forms of 3D — including Blu-Ray, 3D broadcasting, video games and PC connectivity. All you need are 144Hz DLP 3D glasses (sold separately) to seamlessly synchronize with the image for an awesome 3D experience.

Compelling Color

Saturated, vibrant, true-to-life color brings images to life. The SP1080 delivers just that—with the ability to adjust the color to fit your room and taste. InFocus' advanced six-segment color wheel produces up to 1.07 billion color variations and lets you tune settings for intense, precise colors that rival any movie theater screen.

Low Cost to Own

With an affordable purchase price and a lamp that lasts up to an amazing 10,000 hours, the SP1080 is an unbeatable value. When you're taking a break, instantly dim the screen with the Eco Blanking feature and lower the lamp's power usage down to 30% — this conserves energy and significantly extends the life of the lamp, saving you money.

CONNECTIVITY

VGA HDMI 1.4 USB B RS232C 3.5mm stereo in x 2 3.5mm stereo out

Specifications*
