Optional  
NIC

# Hybrid HDD + SSD architecture, powered by Intel 8-core CPU, 2.5GbE, and PCIe to provide performance and 25GbE expandability

## Intel 8-core 2.8GHz CPU

Intel Atom® C5125 2.8GHz 8-core processor w/ AES-NI encryption acceleration for powerful performance

## Dual 2.5 GbE RJ45 ports

Sufficient 2.5 GbE network bandwidth provides smooth data transmission experience

## Dual M.2 PCIe SSD slots

Two PCIe Gen3 x2 M.2 2280 slots for optimal configuration of NVMe SSD caching or Qtier™ drives auto tiering

## Hybrid HDD + SSD storage

12 x 3.5"/2.5" SATA HDD + 4 x 2.5" SATA SSD provide a hybrid NAS with higher capacity and performance

## Maximum 128 GB Memory

Pre-installed 8 GB Non-ECC RAM, with 4 x DDR4 UDIMM slots for up to 128 GB total, and optional ECC memory support

## 3 x PCIe Gen3 x4 slots

A variety of expansion options including 10G/25GbE network, QM2 M.2 SSD, Fibre Channel (FC) and other expansion cards

# QTS or switch to QuTS hero operating system for optimal data integrity and reliability

TS-1655 is shipped with the QTS operating system, which has powerful data transmission performance and more efficient memory usage, and enjoys the Qtier automatic tiered storage function. You can also change to the QuTS hero operating system according to your needs

	QuTS hero	QTS
<b>Filesystem</b>	ZFS	Ext4
<b>SSD cache</b>	Read Cache	Read/Write Cache Read Cache Write Cache
<b>Inline Compression</b>	Yes (LZ4 compression, ideal for RAW files and document files)	No
<b>Inline Deduplication</b>	Yes (At least 16 GB RAM required)	No
<b>HBS with QuDedup for Remote Backup</b>	Yes	Yes
<b>Power Failure Protection (Software)</b>	ZIL Copy-on-Write	No
<b>Permission Management</b>	Rich ACL (14 types)	POSIX ACLs (3 types) + certain special permissions
<b>Capacity Expansion</b>	Upgrade RAID capacity Change higher capacity disk drives Attach expansion enclosures/JBODs	Add a disk drive to a RAID group Upgrade RAID capacity Change higher capacity disk drives Attach expansion enclosures/JBODs

# TS-1655 Hardware & Performance

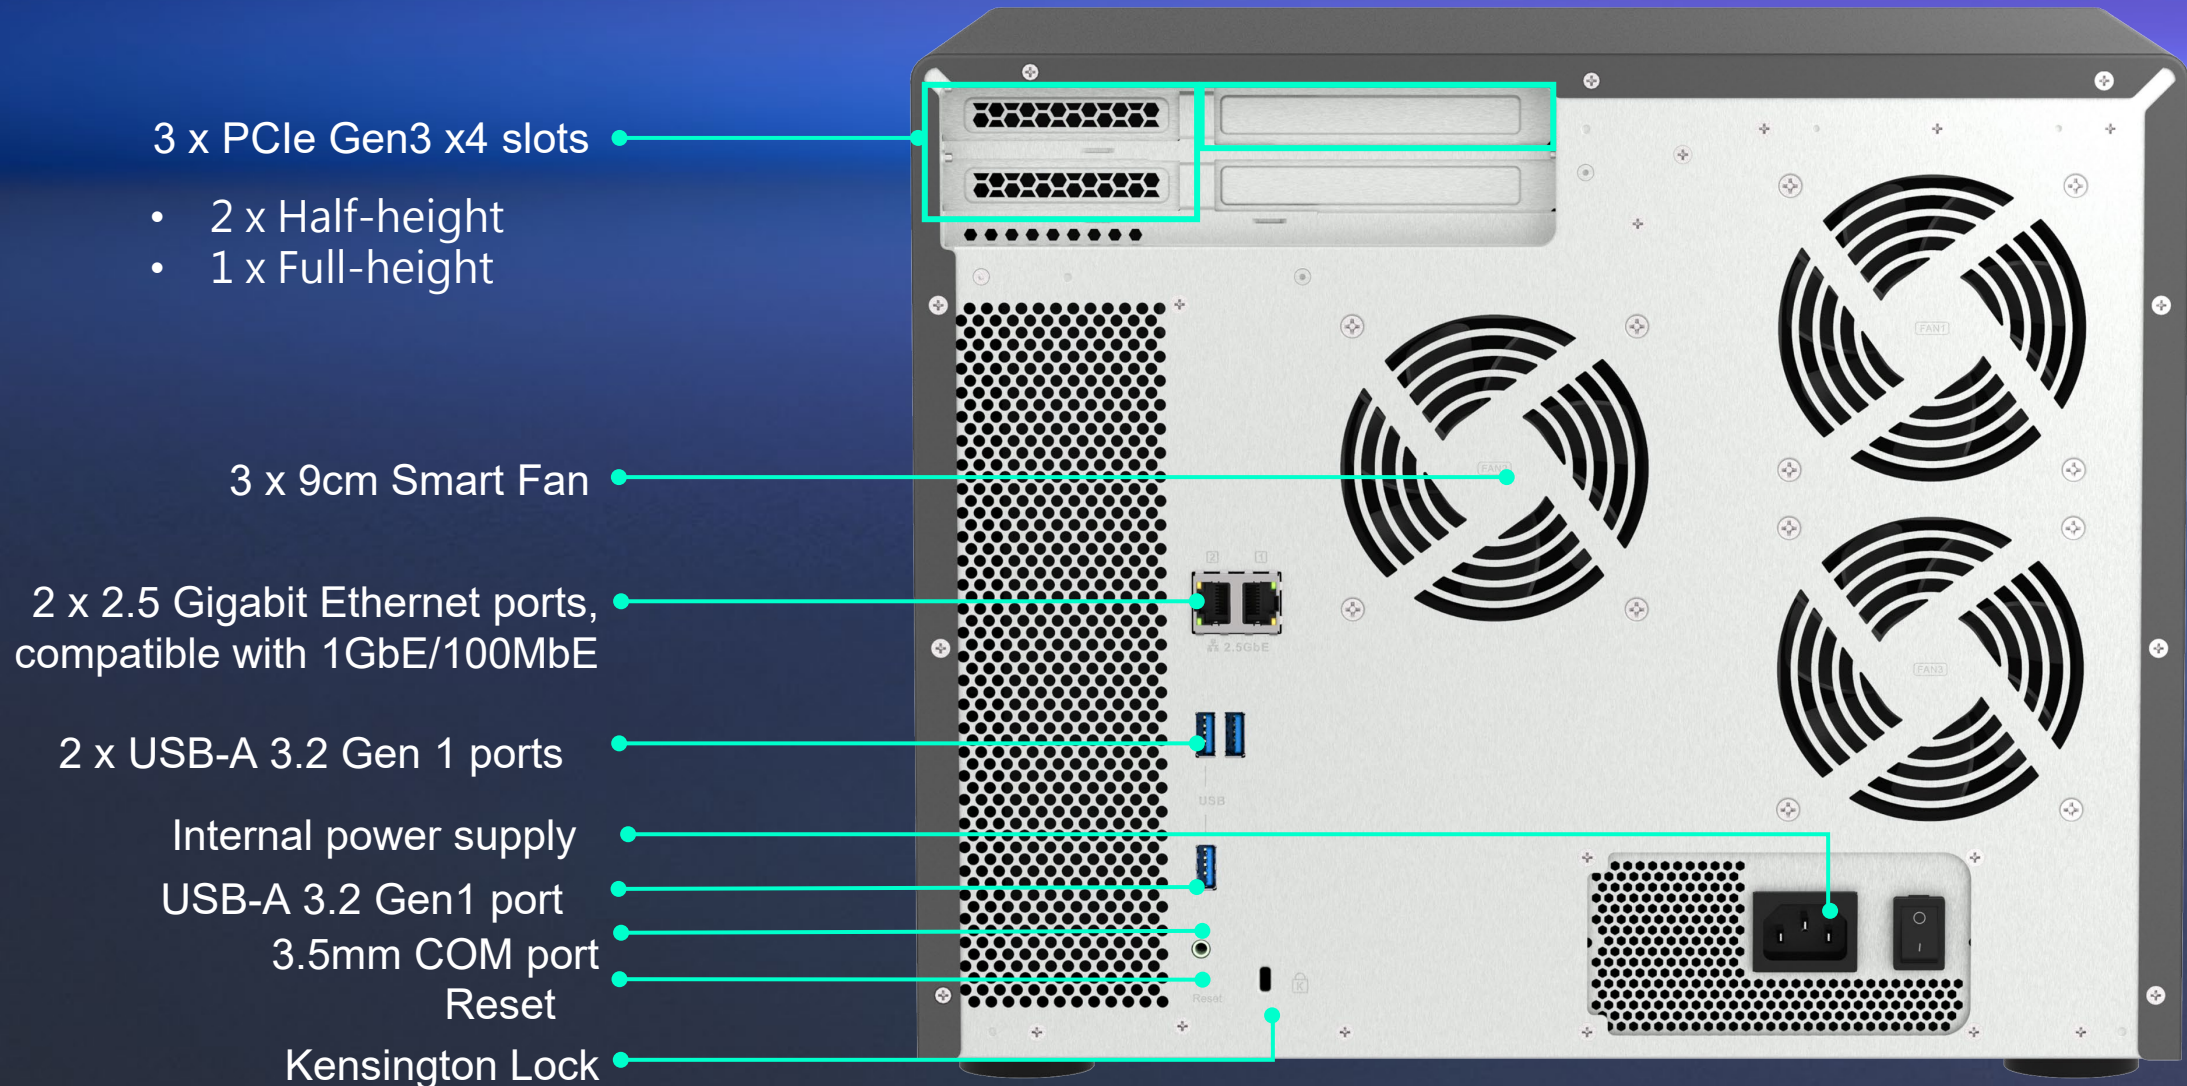

# 8-core TS-1655 front view with 12 x 3.5-inch SATA HDD/SSD + 4 x 2.5-inch SATA SSD bays

Ordering SKU: TS-1655-8G

# TS-1655 rear view with 3 x PCIe slots, 2 x 2.5GbE, and 3 x USB-A ports for great expandability

# High-performing TS-1655 supports up to 128GB RAM with dual M.2 PCIe SSD slots & 3 x PCIe slots

3 x PCIe Gen3 x4 slots

2 x M.2 2280 slots  
( PCIe Gen3 x2 )

2 x internal cool &  
quiet smart fans

4 x UDIMM memory slots, up to  
128GB total and optional ECC  
memory support  
(1 x 8GB non-ECC RAM module is pre-  
installed in the TS-1655-8G ordering  
SKU. ECC and non-ECC RAM modules  
cannot be installed together. Refer to  
the product page for compatible RAM  
modules.)

# Advanced features including an optional graphics card and Intel® QAT & SR-IOV to increase efficiency

## GPU

### Higher-end GPU cards for display/transcoding

Provides an additional graphics card installation. PSU with 1 x 8-pin and 1 x 8-pin (6-pin + 2-pin) graphics card power cables.

Maximum supported card size:

260 x 111.15 x 37.52 mm (10.25 x 4.38 x 1.48 inches)

Compatibility : <https://www.qnap.com/go/compatibility/?model=716&category=25>

## SR-IOV

### SR-IOV Network I/O Virtualization

Install a compatible PCIe 10GbE or 25GbE network card that supports SR-IOV technology, and directly allocate the bandwidth resources of the physical network card to the virtual machine in QNAP Virtualization Station.

## QAT

### Intel® QAT hardware acceleration

Integrates the state-of-the-art Intel® QuickAssist hardware acceleration engine hardware (Intel® QAT), which accelerates data compression / decompression, and can greatly improve the performance of encryption and decryption transmission operations

### Dual Half-height PCIe Gen3 x4 slots

Size: 150 x 68.9 x 18.76 mm (5.90 x 2.71 x 0.74 inches)

### Full-height PCIe Gen3 x4 slot

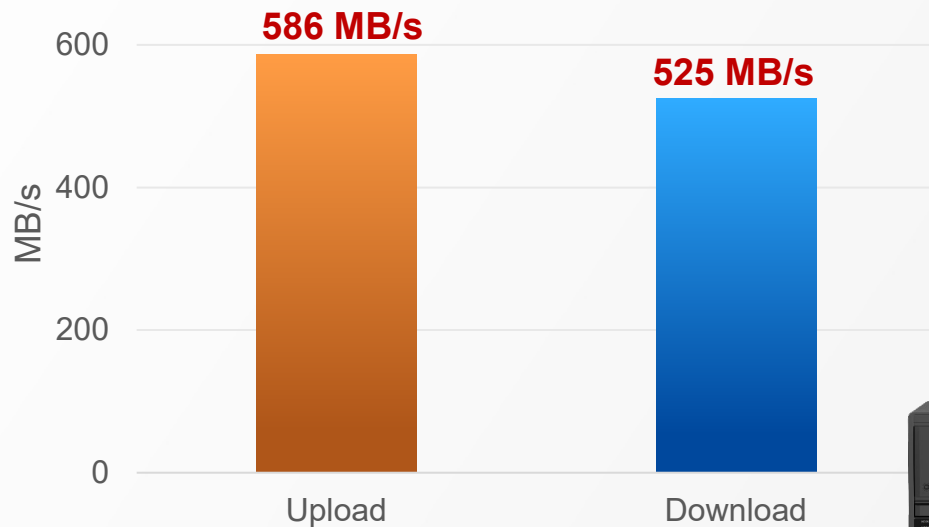

Size: 260 x 111.15 x 37.52 mm (10.25 x 4.38 x 1.48 inches)

# Dual 2.5 GbE ports bring essential performance out of the box. Class-leading 10GbE champion is here.

## 2 x 2.5GbE Windows File Transfer

## 2 x 10GbE SMB Sequential Throughput (1MB)

Test environment:  
NAS: TS-1655 with QXG-10G2TB  
OS : QTS 5.0.0  
Volume type: RAID 5; 16 x Samsung 860 EVO 1TB  
Client PC: Windows Server 2016, Intel i7-6700 3.4GHz, 64GB RAM, QNAP LAN-10G2T-X550 NIC  
IOmeter : RAM\*4, 30-sec ramp up time, 3-min seq. run time, 1 worker, 32-outstanding

Note: An optional QNAP QXG-10G2TB 2-port 10GBASE-T NIC is installed on TS-1655 NAS.

# Max out its performance potential with 25GbE NIC, up to 3,499 MB/s for your future business growth

TS-1655 NAS with Intel Atom® C5125 8-core CPU provides excellent performance when compared with other 12-bay HDD NAS with AMD V1500B CPU!

## 2 x 25GbE SMB Sequential Throughput (1MB)

	Intel Atom C5125	AMD Ryzen Embedded V1500B Quad-core @ 2.20GHz
CPU Mark	8631	5417
(% diff. to max in group)	(0.0%)	(-37.2%)

<https://www.cpubenchmark.net/compare/5091vs4624/Intel-Atom-C5125-vs-AMD-Ryzen-Embedded-V1500B-Quad-core>

Compared with the QNAP TS-1635AX ARM 4-core 1.6 GHz, TS-1655 SMB sequential throughput performance is twice faster!

Save to NAS in real time

Multi-user online editing

# Qsync 5.0 – Cross-device file sync for individuals and teams

Qsync enables efficient file synchronization between a QNAP NAS and linked devices such as computers, laptops, and mobile devices. With Qsync, you can easily access data across all your devices and share it among your team members.

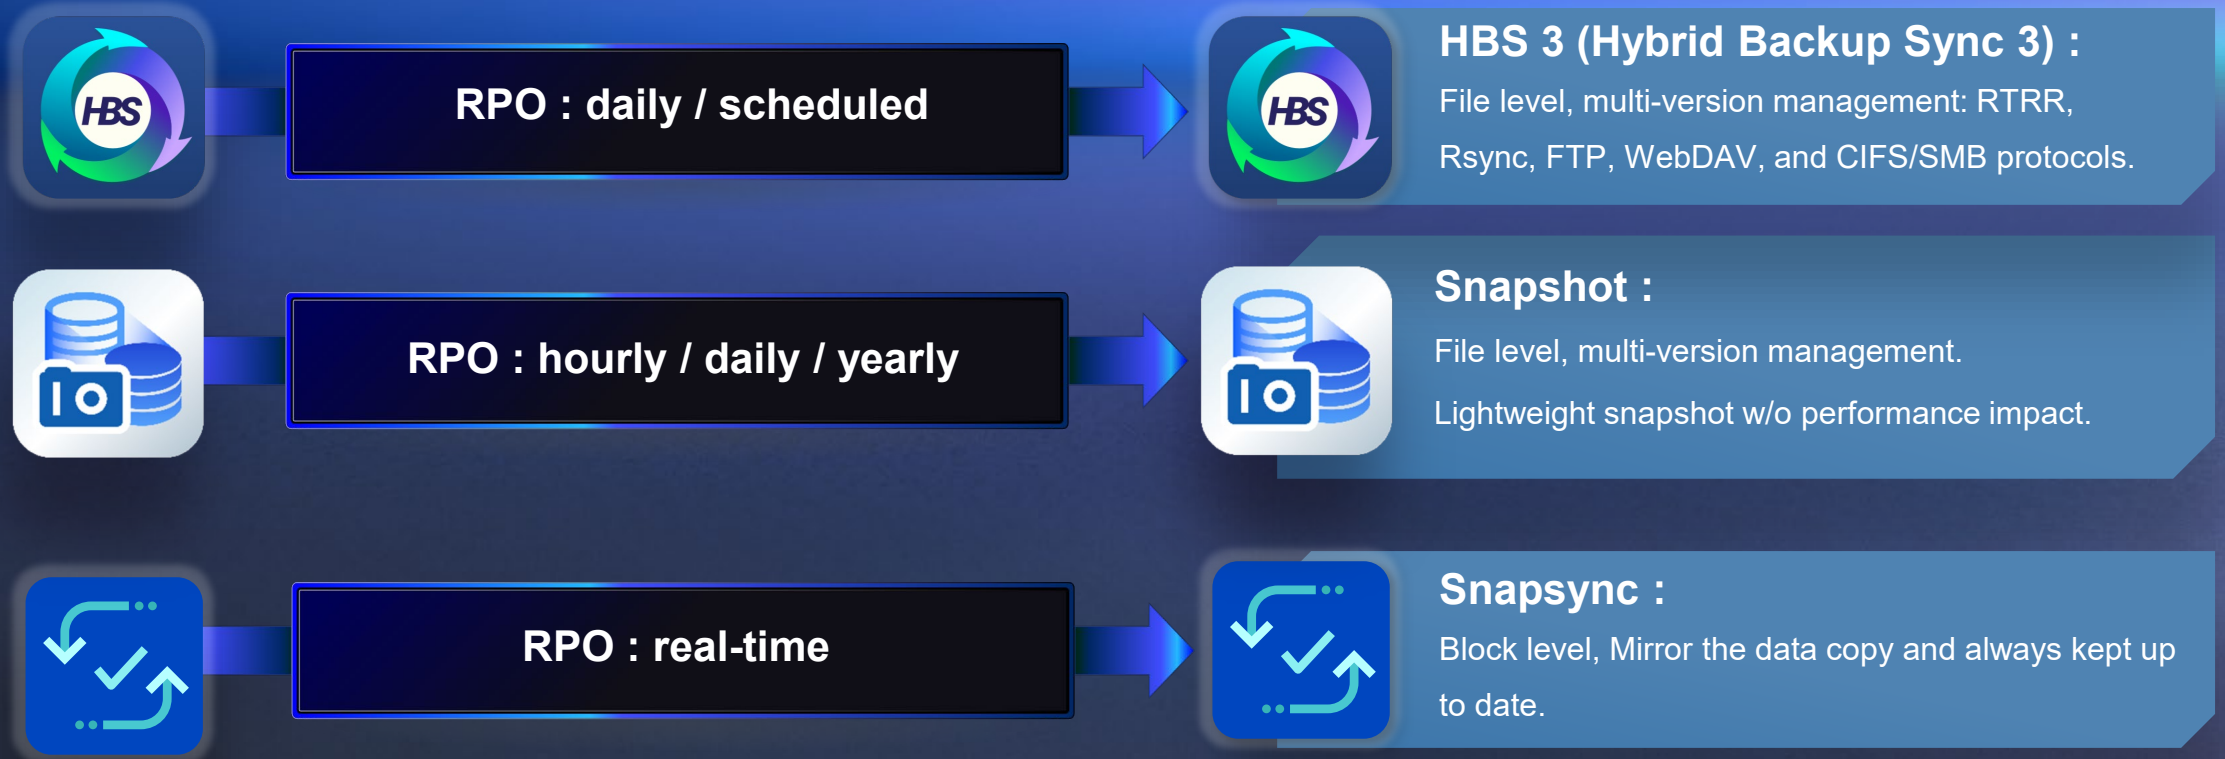

If you own many devices, any file changed on one device will be automatically synchronized with the others.

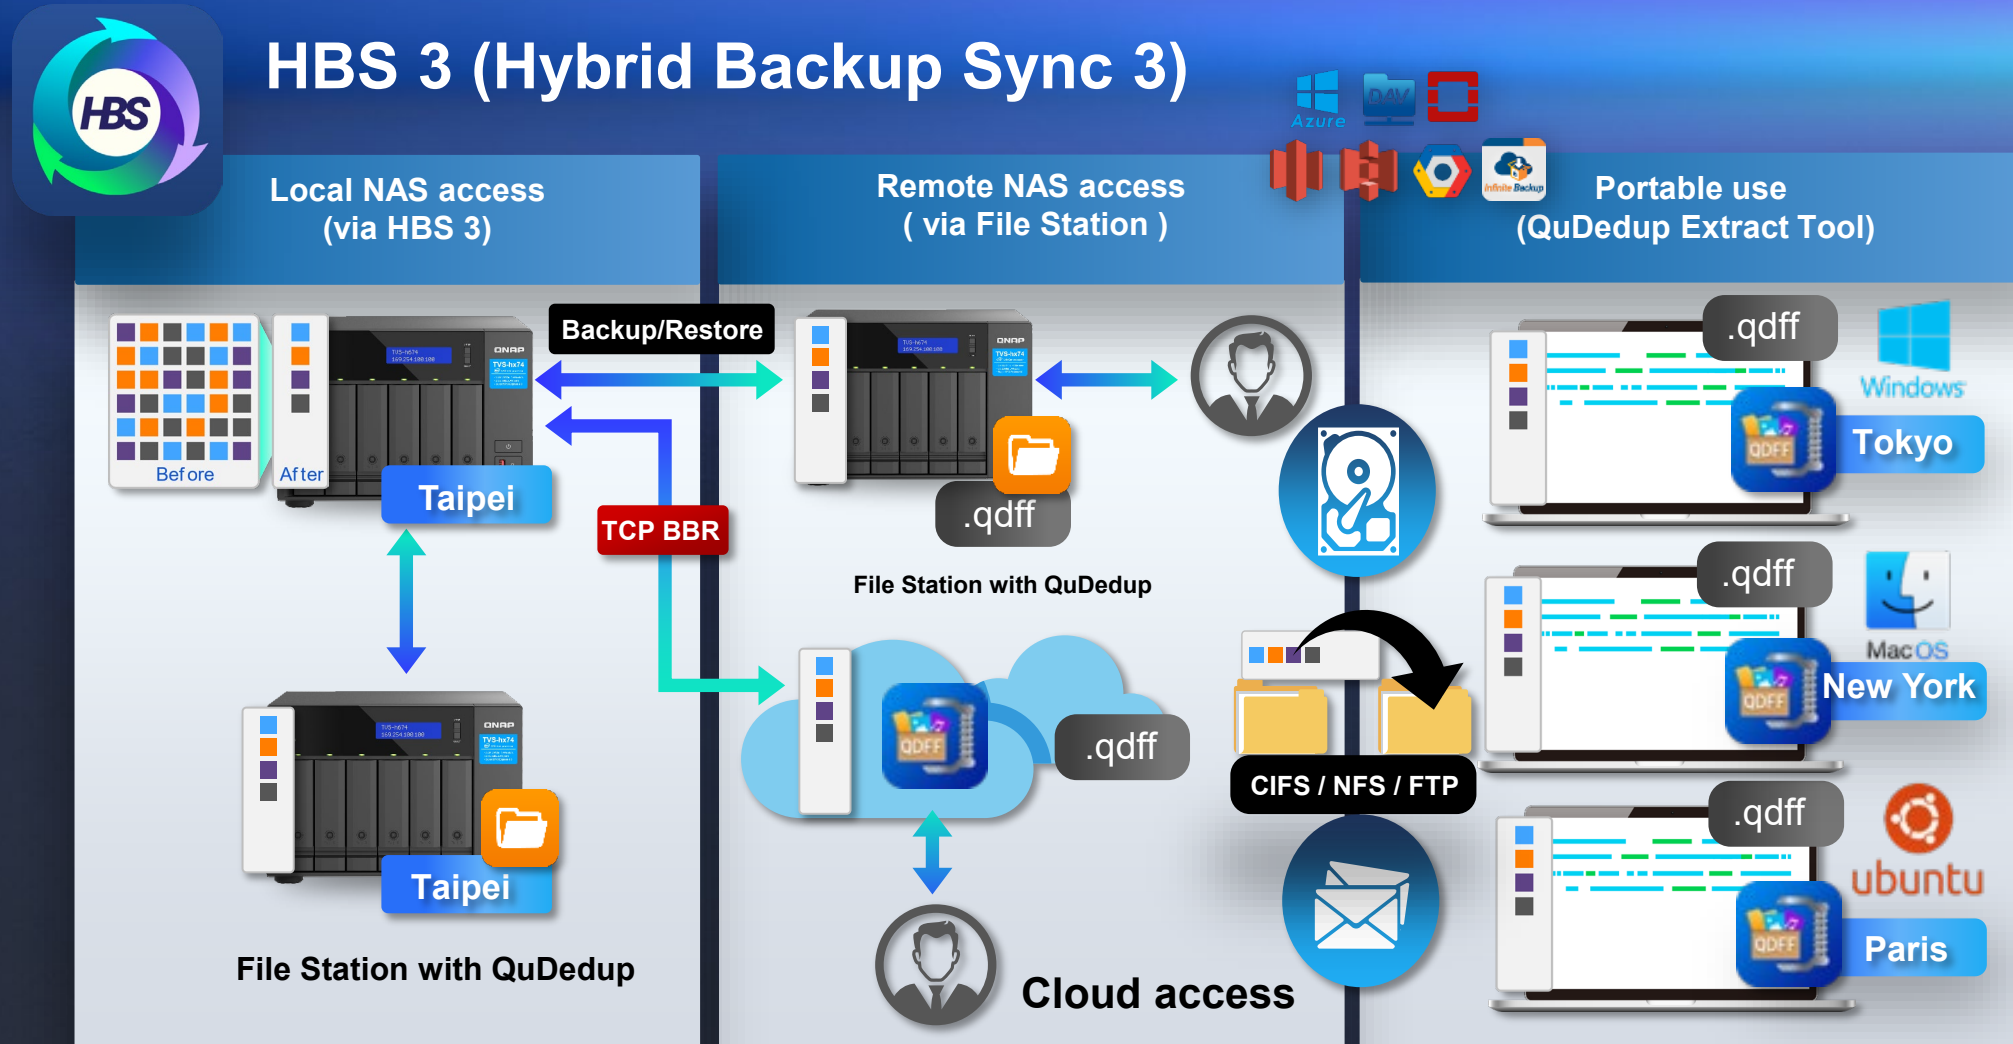

For team works, any file changed will be automatically distributed to your teams' devices, accelerating and streamlining your workflows.

# License-free scheduled & real-time backup solutions to provide complete data backup protection

# Easy to use HBS 3.0 app fulfilling backup 3-2-1 practice with deduplication

# Up to 14 clients direct 2.5GbE LAN connection with optional NICs. Multi-device backup from near & far

# Snapshot fights against ransomware or accidents.

## Protect and restore your data. Easy, and fast!

TS-1655 supports Snapshot, which is like taking a photo - within seconds the complete status of your NAS data is recorded. **Maximum snapshots #s for QTS: 1,024, QuTS hero: 65,536**

Mitigate the growing threat of ransomware

### Step 1

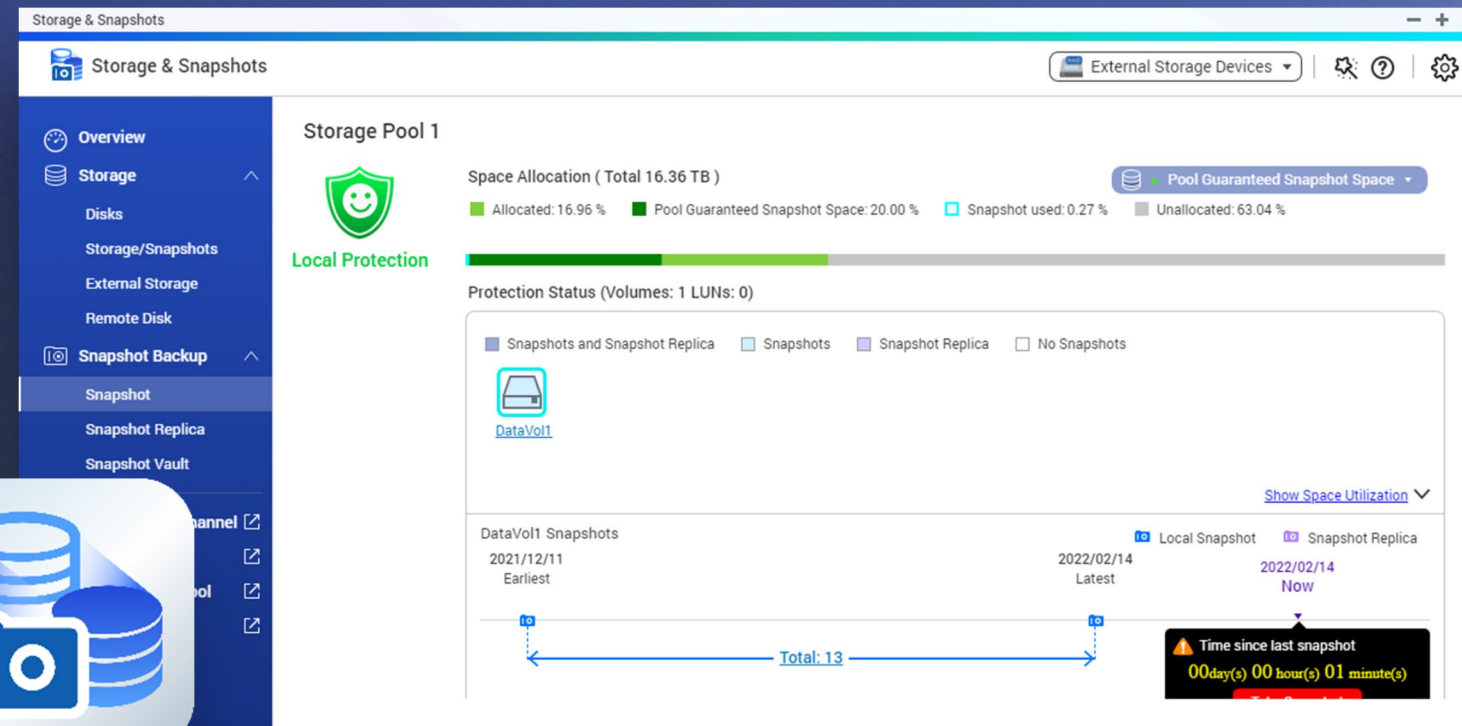

Regularly update, and use Malware Remover

### Step 2

Routinely back up to your NAS, and create multi-version snapshots

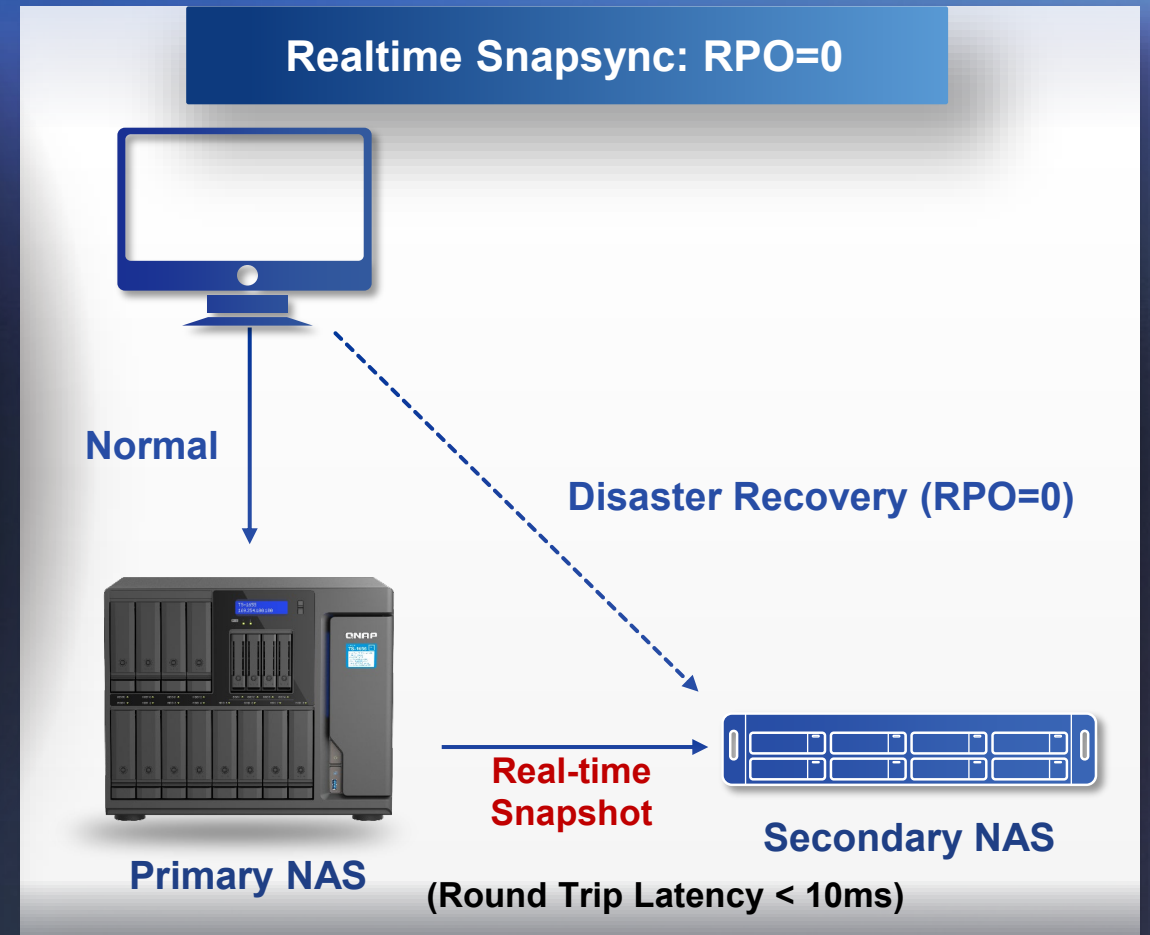

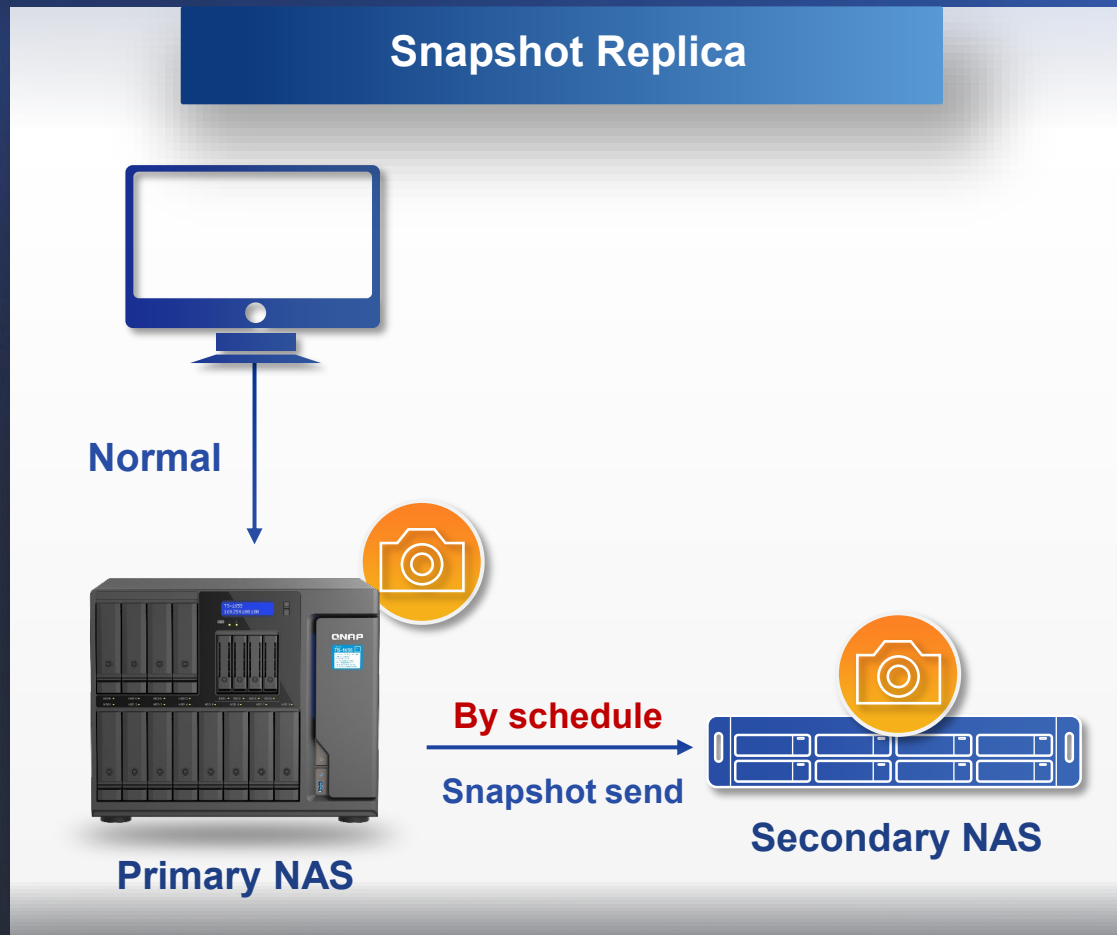

### Step 3

Back up snapshots to another QNAP NAS

# Real-time SnapSync ensures minimal RPO with real-time disaster recovery

Back up data from the local NAS to another QNAP NAS using block-level replication in real time.

# Hyper Data Protector is an all-in-one license-free backup solution for virtual machines

- Supports VMware® and Microsoft Hyper-V
- Unlimited VM backups and license-free
- Active backup solution
- Restore at any time point
- Constant monitoring

# Protect Enterprise SaaS data with Boxafe backup / recovery solution for Google™ Workspace and Microsoft 365®

- Keep important data in your hands
- Move older data out of the cloud to reduce cost

## Google™ Workspace

### Gmail

Backup all your emails and attachments in Gmail

### Google Drive

Backup all your file versions in Google Drive and supports My Drive and Shared Drive

### Contacts

Backup all your contacts in Google Contacts

### Calendar

Backup all your events and attachments in Google Calendar

## Microsoft 365®

### Outlook

Backup all your emails and attachments in Outlook

### Contacts (People)

Backup all your contacts in Outlook People

### Calendar

Backup all your events and attachments in Outlook Calendar

### OneDrive

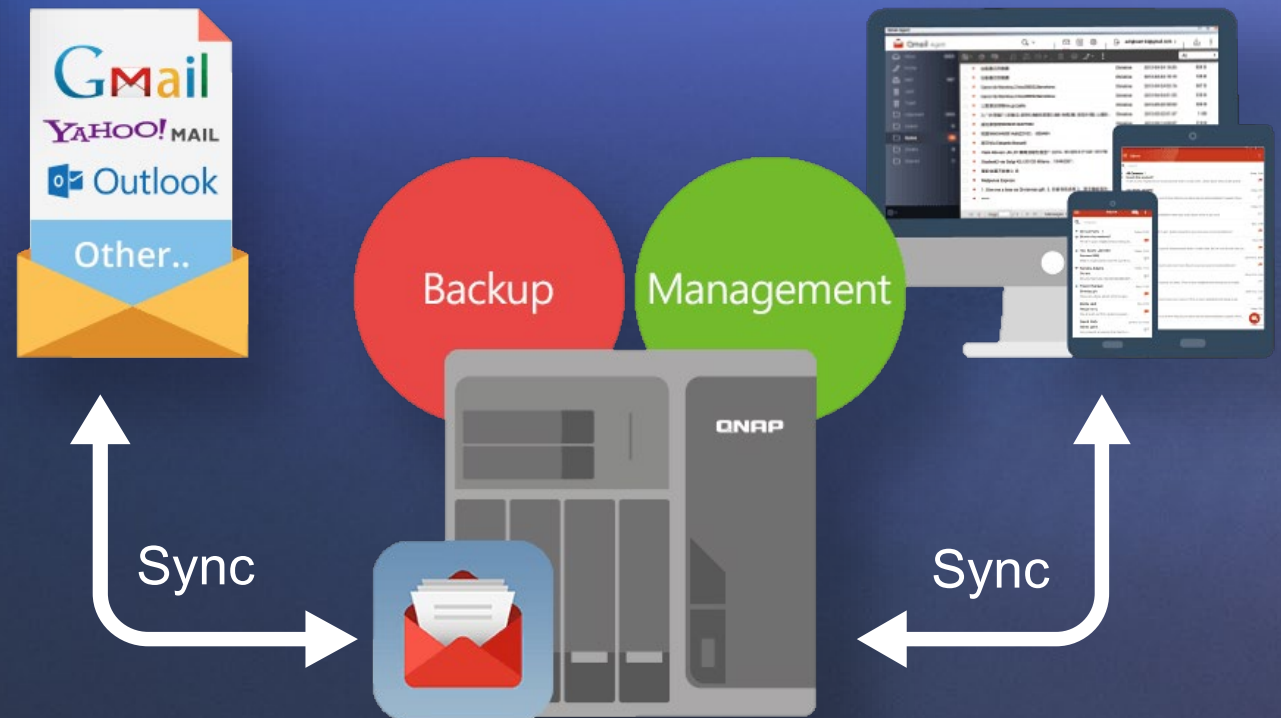

Backup all your files in OneDrive and support SharePoint

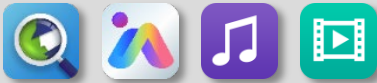

# Easily backup/recover emails and efficiently manage multiple email accounts with QmailAgent

## Best Email Retention Solution

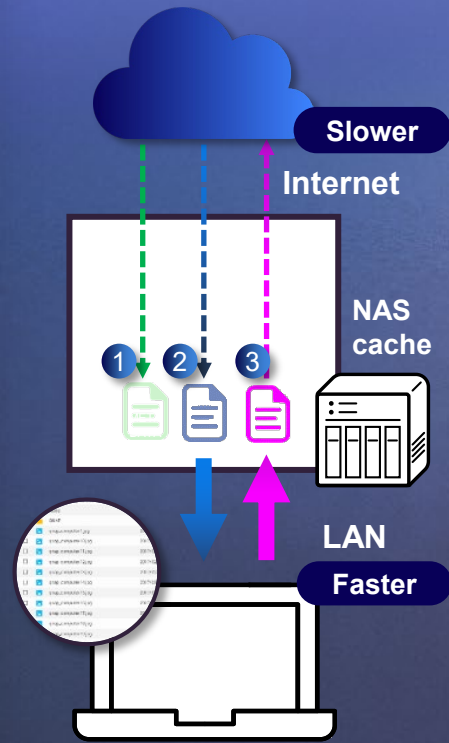

- Collectively manage and back up your personal and business emails.
- Easily auto back up all your emails and attachments.
- Quickly search and gain access to specific messages.
- Back up emails for disaster recovery.
- Encryption service protects backed up private emails.

# Mount cloud storage and file servers with HybridMount for greater storage & faster access

	Network Drive Mount	File Cloud Gateway 
<b>Setup Method</b>	Mount cloud drives	Select "File Cloud Gateway" mode and create a dedicated cache space
<b>Connections</b>	No limit	2 free and perpetual connections. Purchase license for more connections
<b>Access Performance</b>	Depends on network speed	High performance thanks to caching
<b>Access in File Station</b>	Supported	Supported
<b>Access through SMB / NFS / AFP</b>	Not Supported	Supported
<b>Sync with the cloud</b>	Sync only when browsing	Sync constantly for quick access
<b>Integration with QTS Apps</b>	Not supported	Supported 
		

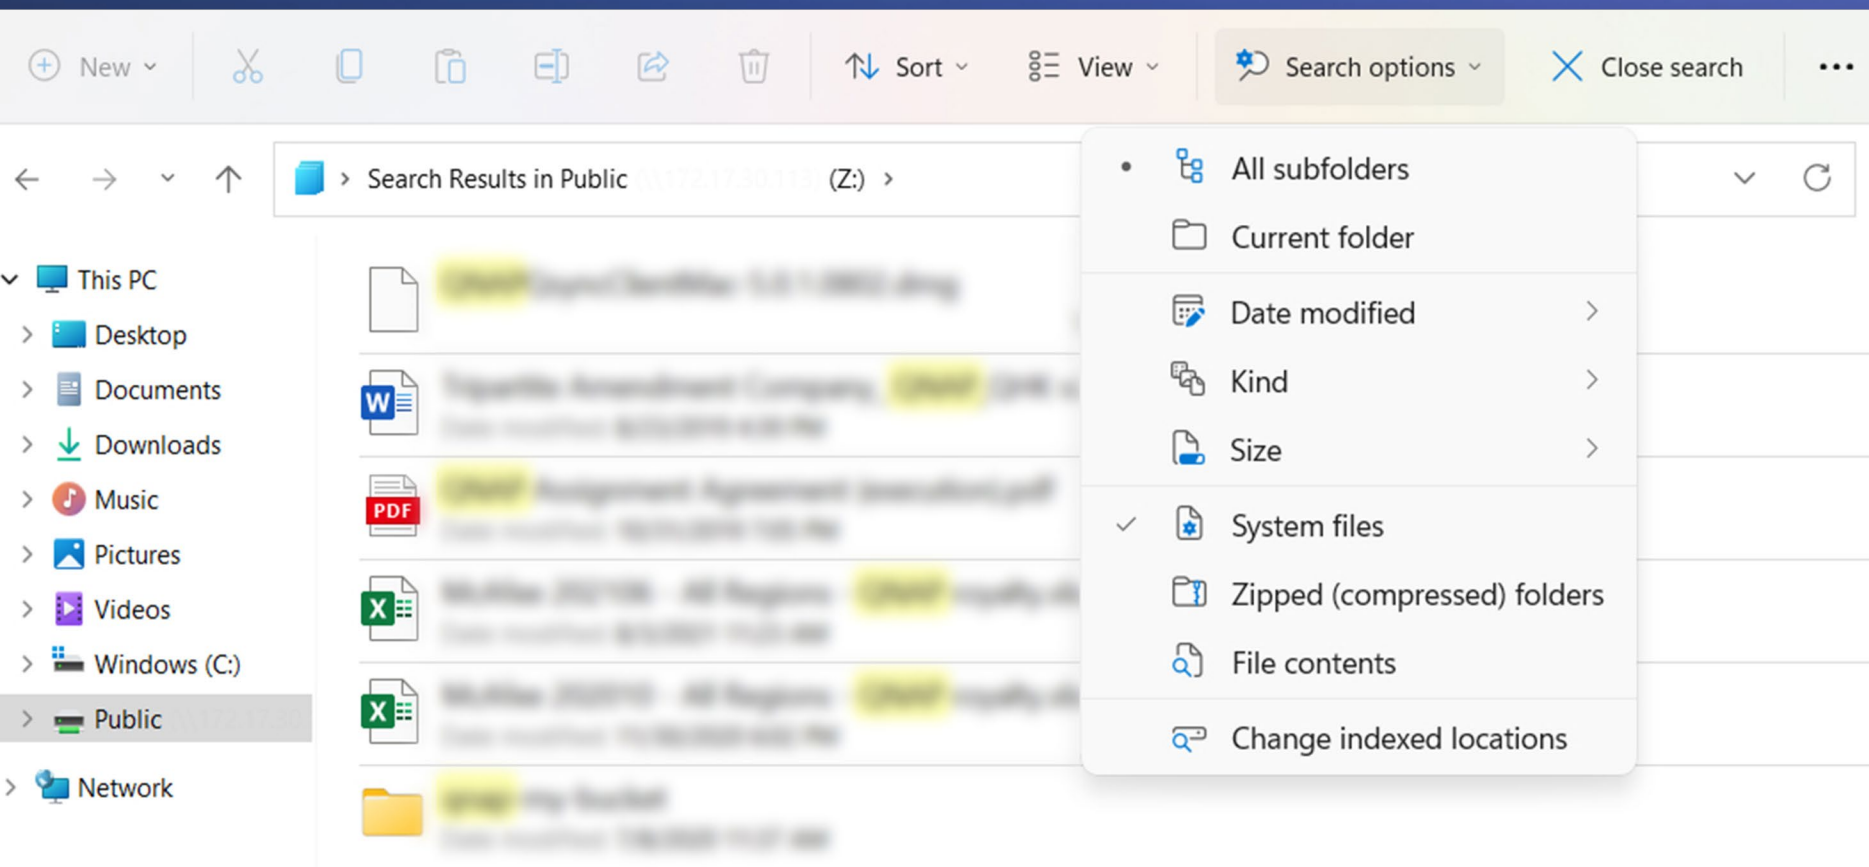

- Online collaboration
- File data analysis

# Convenient file search with Windows® Search Protocol (WSP) support for NAS shared folders

Windows® 10/ Windows Server® 2016 (or later) users can easily search NAS shared folders via Windows® when an SMB drive is mounted to the NAS. Advanced file search by time, file type, or size is supported for greater convenience.

For an optimized full-text search experience, we recommend [Qsirch PC Edition](#) !

The most powerful search engine that integrate with NAS and PC local search

# All-in-one solution for hosting virtual machines and containerized apps

## Virtualization Station

Virtualization Station allows you to create virtual machines (VM) on Turbo NAS, supporting Windows<sup>®</sup> · Linux<sup>®</sup> operating systems.

## Container Station

Experience LXD and Docker<sup>®</sup> lightweight virtualization technologies, download apps from the Docker Hub Registry<sup>®</sup>, import/export containers, and create abundant microservices.

# Build a comprehensive surveillance system with a TS-1655, QVR Pro/Elite, and IP cameras

## QVR Pro

- 6,000+ Compatible cameras
- 8 embedded monitoring channels
- expand up to 100 channels by purchasing QVR Pro licenses\*
- View USB camera images through QUSBCam2

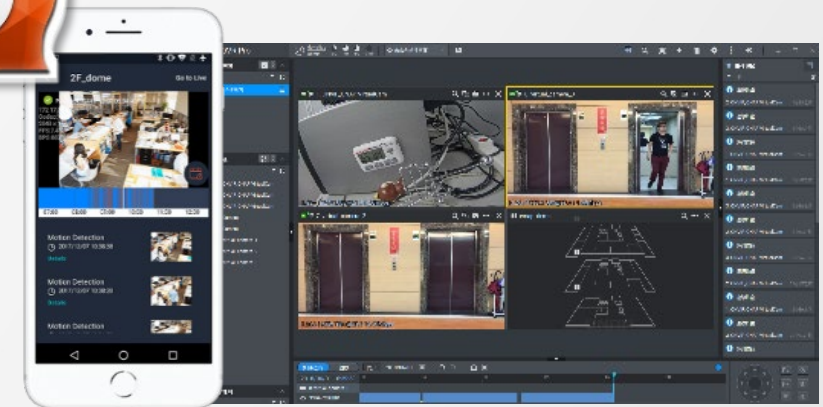

## QVR Elite

The flexible subscription QVR Elite can be expanded to a maximum of 120 channels by purchasing licenses\*

## QVR Pro Client

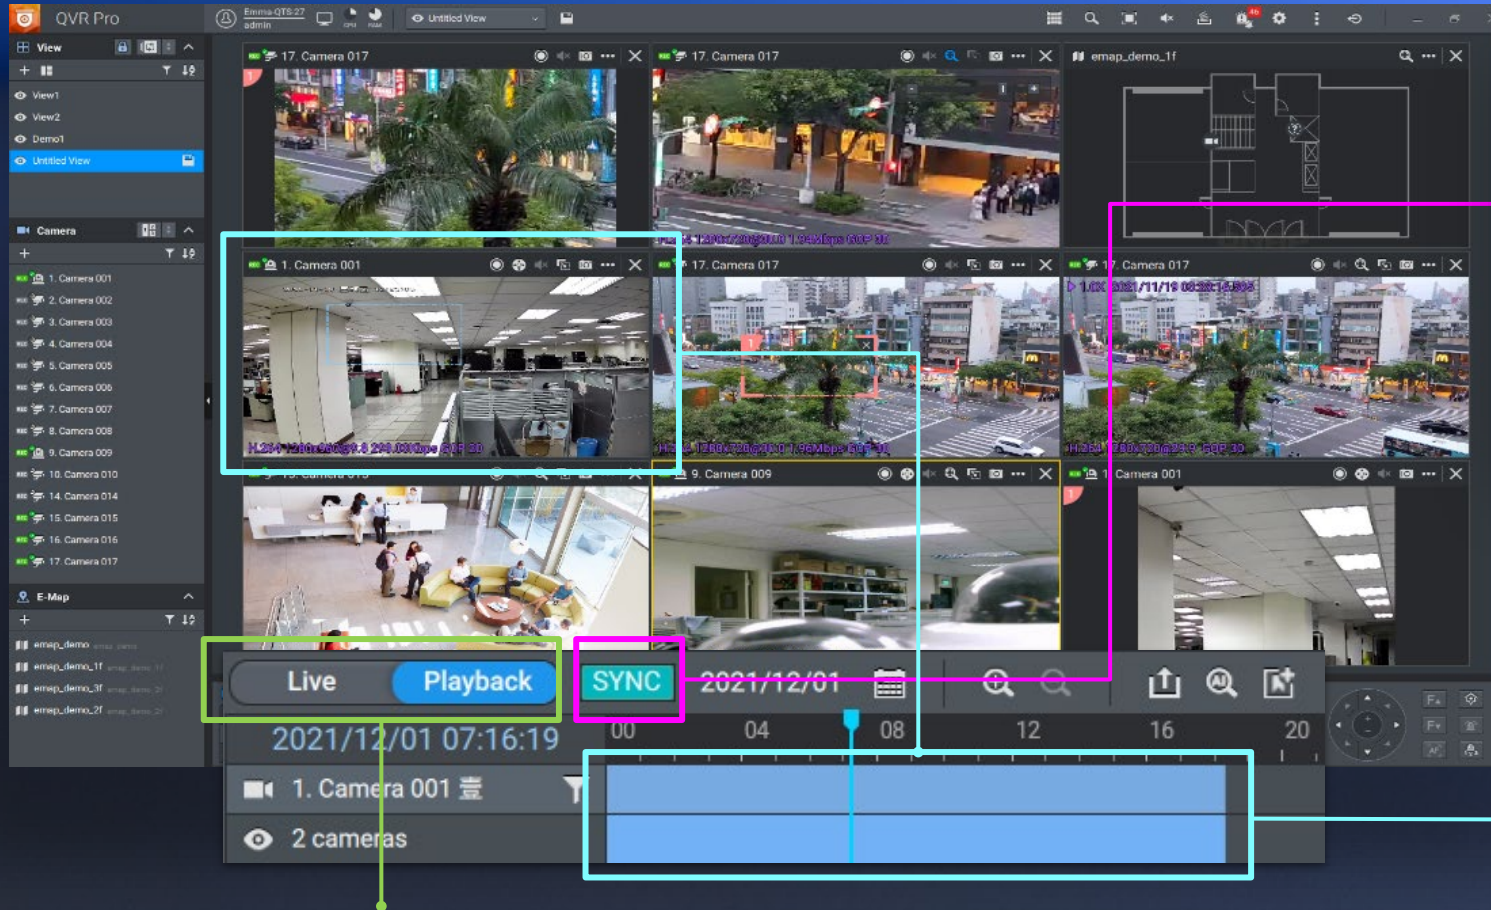

- iOS & Android mobile devices
- Support cross-platform : Windows, Mac, Ubuntu
- Use HDMI output and USB keyboard and mouse to control the NAS through installing Graphic card

\* TS-1655 with 16GB memory.

# Unified interface for live view & playback, anywhere with a PC/Mac QVR Pro Client or mobile device

Monitor the live view of multiple channels and playback on 1 single interface.

1-click to sync playback all video views

1 click to jump to the previous playback time

1 click to switch between Live & Playback
