

OKLAHOMA COUNTY SHERIFF TURNOVER

Statutory Audit

January 4, 2021

Cindy Byrd, CPA
State Auditor & Inspector

**COUNTY OFFICER TURNOVER STATUTORY REPORT
P.D. TAYLOR
OKLAHOMA COUNTY SHERIFF
JANUARY 4, 2021**

This publication, issued by the Oklahoma State Auditor and Inspector's Office as authorized by 19 O.S. § 171, has not been printed, but is available on the agency's website (www.sai.ok.gov) and in the Oklahoma Department of Libraries Publications Clearinghouse Digital Prairie Collection (<http://digitalprairie.ok.gov/cdm/search/collection/audits/>) pursuant to 65 O.S. § 3-114.

Cindy Byrd, CPA | State Auditor & Inspector

2300 N. Lincoln Blvd., Room 123, Oklahoma City, OK 73105 | 405.521.3495 | www.sai.ok.gov

March 2, 2021

BOARD OF COUNTY COMMISSIONERS
OKLAHOMA COUNTY COURTHOUSE
OKLAHOMA CITY, OKLAHOMA 73102

Transmitted herewith is the Oklahoma County Officer Turnover Statutory Report for January 4, 2021. The engagement was conducted in accordance with 19 O.S. § 171.

The goal of the State Auditor and Inspector is to promote accountability and fiscal integrity in state and local government. Maintaining our independence as we provide this service to the taxpayers of Oklahoma is of utmost importance.

We wish to take this opportunity to express our appreciation for the assistance and cooperation extended to our Office during our engagement.

Sincerely,

A handwritten signature in blue ink that reads "Cindy Byrd".

CINDY BYRD, CPA
OKLAHOMA STATE AUDITOR & INSPECTOR

P.D. Taylor
Oklahoma County Sheriff
Oklahoma County Courthouse
Oklahoma City, Oklahoma 73102

For the purpose of complying with 19 O.S. § 171, we have performed the following procedures for January 4, 2021:

- Verify that equipment items on hand agree with inventory records maintained per 19 O.S. § 178.1.
- Verify that the amount of total claims approved for the operation of said Office is not in excess of limitations imposed by 19 O.S. § 347.
- Verify that a monthly report of the Office is on file with the County Clerk per 19 O.S. § 684.
- Verify that the Office is not exceeding the maximum amount of cash authorized for their change needs per 19 O.S. § 682.
- Verify that the Officers' depository account balances reconcile with the County Treasurer's records and that undeposited cash reconciles to receipts.
- Verify that the Sheriff maintains an evidence locker log and that the entrance to the evidence locker is restricted. Document who has access (keys or combination) to the evidence locker.
- Verify that the Sheriff has entered all confiscated license plates into the Oklahoma Temporary Motorist Liability Plan system per 47 O.S. § 7-621 through 47 O.S. § 7-628.
- Verify that the Sheriff maintains a log of all county owned weapons and to whom they are issued.

Information addressed in this report is the representation of the respective county officer.

Our county officer turnover engagement was limited to the statutory procedures described above and was less in scope than an examination or audit performed in accordance with auditing standards generally accepted in the United States of America, the objective of which would be the expression of an opinion. Accordingly, we do not express an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

Based on our procedures performed, we have presented our findings in the accompanying schedule.

This report is intended solely for the information and use of the management of the County and should not be used for any other purpose. This report is also a public document pursuant to the Oklahoma Open Records Act (51 O.S. § 24A.1 et seq.) and shall be open to any person for inspection and copying.

CINDY BYRD, CPA
OKLAHOMA STATE AUDITOR & INSPECTOR

COUNTY OFFICER TURNOVER STATUTORY REPORT
P.D. TAYLOR
OKLAHOMA COUNTY SHERIFF
JANUARY 4, 2021

SCHEDULE OF FINDINGS AND RESPONSES

Finding 2021-001 –Lack of Internal Controls and Noncompliance Over Fixed Assets Inventory

Condition: Upon inquiry of County personnel, observation of fixed assets, and reviewing of inventory records, we noted the following:

- Of the 4,559 items listed on inventory:
 - 998 items totaling \$2,150,089 could not be located. *(See Appendix 1)*
 - 1,091 items totaling \$4,845,141 have not been properly disposed. OSAI was able to determine that items were sold or transferred to another department, however, proper procedures were not followed as outlined in state statute. *(See Appendix 2)*
 - 3 items totaling \$3,758 were reported stolen.
- Software license documentation is not maintained. Outdated software licenses for programs no longer used by the Sheriff's Office were included as current inventory items.
- There is no evidence of annual counts of inventory occurring. Further, the Sheriff's Office did not submit an annual inventory summary report to the County Clerk's Office for fiscal year 2020.

Cause of Condition: Policies and procedures have not been adequately designed and implemented by the County to ensure compliance with state statutes for the accurate reporting and safeguarding of fixed asset inventory items.

Effect of Condition: These conditions resulted in noncompliance with state statutes. Opportunities for loss and misappropriation of County assets may be more likely to occur when the County does not have procedures in place to account for fixed assets.

Recommendation: The Oklahoma State Auditor & Inspector's Office (OSAI) recommends management design and implement internal controls to ensure compliance with Title 19 O.S. § 178.1, Title 19 O. S. § 178.2, and Title 19 O.S. § 421 by maintaining inventory records and properly disposing of inventory. The maintenance of these records would include ensuring a full inventory review is conducted at least annually, and that this review be approved by an individual other than the inventory record keeper with evidence of review retained with initials and dates as verification. The annual inventory summary report would then be submitted to the County Clerk. For digital products, this could include maintaining a binder with all applicable documentation for the software purchases as they coordinate with the appropriate inventory number(s).

Management Response:

Current County Sheriff: The Oklahoma County Sheriff's Office (OCSO) continues efforts in agency-wide use of a digital inventory system and greater participation in the inventory process at the Division level. In addition to these, the OCSO is carrying out an internal review to determine if the number of staff, as well

COUNTY OFFICER TURNOVER STATUTORY REPORT
P.D. TAYLOR
OKLAHOMA COUNTY SHERIFF
JANUARY 4, 2021

as the organization of such, is appropriate for the amount of inventory for which the agency has responsibility. The OCSO has already begun reaching out to other Oklahoma County agencies to ensure better communication and flow of processes as they relate to the disposition of county inventory.

Criteria: The United States Government Accountability Office’s Standards for Internal Control in the Federal Government (2014 version) aided in guiding our assessments and conclusion. Although this publication (GAO Standards) addresses controls in the federal government, this criterion can be treated as best practices and may be applied as a framework for an internal control system for state, local, and quasigovernmental entities.

The GAO Standards – Principle 10 – Design Control Activities – 10.03 states in part:

Physical control over vulnerable assets

Management establishes physical control to secure and safeguard vulnerable assets. Examples include security for and limited access to assets such as cash, securities, inventories, and equipment that might be vulnerable to risk of loss or unauthorized use. Management periodically counts and compares such assets to control records.

The GAO Standards – Section 2 – Objectives of an Entity – OV2.24 states in part:

Safeguarding of Assets

Management designs an internal control system to provide reasonable assurance regarding prevention or prompt detection and correction of unauthorized acquisition, use, or disposition of an entity’s assets.

Title 19 O.S. § 178.1 requires the board of county commissioners in each county of this state to take, or cause to be taken, an inventory of all working tools, apparatus, machinery, and equipment.

Title 19 O. S. § 178.2 requires the inventory records to be filed with the County Clerk.

Title 19 O.S. § 421 requires each board of county commissioners of the several counties in the state shall within thirty (30) days after the disposition of any tools, apparatus, machinery, and equipment belonging to the county or leased or otherwise let to it or any department thereof, the original cost of which is more than Five Hundred Dollars (\$500.00), whether sold, exchanged, junked, leased or let where authorized by statute, shall enter, or cause to be entered, in the minutes of the proceedings of the board the fact of such disposition, including complete description of item, serial number, the date property was acquired, the name and address of the person or firm from whom property was acquired, the cost price at time of acquisition or contract price if acquired under lease-rental agreement, the date of disposition, the name and address of the person or firm to whom property transferred, the price received therefore and the reason for disposition.”

COUNTY OFFICER TURNOVER STATUTORY REPORT
P.D. TAYLOR
OKLAHOMA COUNTY SHERIFF
JANUARY 4, 2021

Finding 2021-002 – Lack of Internal Controls Over the Evidence Rooms

Condition: Upon inquiry and observation of the internal controls over the inventory in the Sheriff's evidence rooms, it was noted that the Sheriff's office does not maintain a log of the individuals who enter the Sheriff's evidence rooms.

Cause of Condition: Policies and procedures have not been designed and implemented to ensure the safe custody of confiscated items stored in the Sheriff's evidence rooms.

Effect of Condition: This condition could result in misuses or loss of County Sheriff's evidence property.

Recommendation: OSAI recommends that the County Sheriff maintain an evidence room log. The evidence room log should contain the signature, date, and time of when each individual enters the evidence rooms.

Management Response:

Current County Sheriff: Maintaining control of evidence is of utmost importance to the Oklahoma County Sheriff's Office. Processes are in place to limit access to two employees who are responsible for moving and tracking items into the evidence cages logged into evidence lockers by deputies. Forms to log any access to the area of the building where the evidence cages are located has been added for further control.

Criteria: "The United States Government Accountability Office's Standards for Internal Control in the Federal Government (2014 version) aided in guiding our assessments and conclusion. Although this publication (GAO Standards) addresses controls in the federal government, this criterion can be treated as best practices and may be applied as a framework for an internal control system for state, local, and quasi-governmental entities."

The GAO Standards – Section 2 – Objectives of an Entity – OV2.24 states in part:

Safeguarding of Assets

Management designs an internal control system to provide reasonable assurance regarding prevention or prompt detection and correction of unauthorized acquisition, use, or disposition of an entity's assets.

In addition, the International Association for Property and Evidence (IAPE) best practices guide Standard 4.3:

Documentation forms states in part, "The Access Log documents the entry of persons, who are not assigned to the property room, into the restricted areas of the property room, when, for what reason, and who accompanied the visitor."

COUNTY OFFICER TURNOVER STATUTORY REPORT
P.D. TAYLOR
OKLAHOMA COUNTY SHERIFF
JANUARY 4, 2021

Finding 2021-003 - Lack of Internal Controls and Noncompliance Over Consumable Inventory

Condition: During our inventory count we were unable to reconcile twenty-three (23) of the five hundred fifteen (515) items to the January 4, 2021 consumable inventory report.

Cause of Condition: Policies and procedures have not been designed and implemented regarding effective internal controls over safeguarding of consumable inventory and to ensure compliance with state statute.

Effect of Condition: This condition resulted in noncompliance with state statute. Opportunities for loss and misappropriation of consumable items may be more likely to occur when the County does not have procedures in place to account for consumable inventory.

Recommendation: OSAI recommends management design and implement internal controls to ensure compliance with 19 O.S. § 1504 by maintaining inventory records and safeguarding consumable inventory.

Management Response:

County Sheriff: The goal of the Oklahoma County Sheriff's Office is 100% reconciliation of consumable inventory. While the OSAI did find variances, and we intend to continue to work toward our goal of 100% reconciliation, we would like to take this opportunity to congratulate our fleet management team on a 1% loss rate. We strive for perfection while recognizing the hard work that has gotten us this close.

Criteria: The United States Government Accountability Office's Standards for Internal Control in the Federal Government (2014 version) aided in guiding our assessments and conclusion. Although this publication (GAO Standards) addresses controls in the federal government, this criterion can be treated as best practices and may be applied as a framework for an internal control system for state, local, and quasigovernmental entities.

The GAO Standards – Section 2 – Objectives of an Entity – OV2.23 states:

Management conducts activities in accordance with applicable laws and regulations. As part of specifying compliance objectives, the entity determines which laws and regulations apply to the entity. Management is expected to set objectives that incorporate these requirements. Some entities may set objectives to a higher level of performance than established by laws and regulations. In setting those objectives, management is able to exercise discretion relative to the performance of the entity.

Title 19 O.S. § 1504 requires the receiving officer to maintain a record of all items received, disbursed, stored, and consumed by the department.
